21

Historical Review of the Actuals of three years ending with 1880-81.

Heads of Account	1878-79	1879-80	1880-81	Remarks
	Rs.	Rs.	Rs.	
I. Land Revenue				
Imperial	4949473	4936319	4579122	The receipts of the first two years were swollen by the Collection during that period of large arrears of Rents which had accrued during the Famine. In 1880-81, there was a very small Collection on that account.
Local	165006	127563	941935	The bulk of the Collections appertaining to the first two years were included under "Provincial Rates" from which there is no means of separating them.
II. Tributes and Contributions from Native States.				
Imperial	344630	344630	344630	This is a fixed receipt.

No Copy

PASSED OF

25/3/

Heads of Account	1878-79	1879-80	1880-81	Remarks
III. Forest.				
Imperial	383694	365750	501839	The improved receipts are due to increased Sales of timber and other Forest produce, the result mainly of a larger demand on the part of the Public Works and Railway Departments and for the Harbour Works.
Local	223094	260418	235294	The receipts under this head in 1879-80 were unusually large owing to the Sale of a large number of trees blown down in Bellary by a Storm and to the Collection of large arrears in Salem.
IV Excise on Spirits and Drugs				
Imperial	5879762	6195320	6278877	The first year does not include any receipts on Account of Opium, the opium Act (Act I of 1878) having been extended to this Presidency only in the following year. The receipts on this Account amounted to a little over Rs 5 lakhs in 1880-81, or nearly double those of the previous year. The Revenue of the past year under Excise Ordinary is considerably below that realised in either of the two previous years.
V. Assessed Taxes.				
Imperial	799547	807621	508507	The decrease in the past year is due to the Madras License Tax Act III of 1878 having undergone two amendments whereby the minimum taxable income was raised from Rs 200 to Rs 500 & the highest rate of tax reduced from Rs 800 to Rs 500.
VI Provincial Rates				
Local	6118993	6917407	5530904	The entries under this head comprise the receipts from Land Cess under the Local Funds Act and under the Village Service Cess Act, as also receipts from the Irrigation Cess and from the Bhavanichellam Road Cess. A sum of about 8 lakhs which, up to the end of the past year, was classified under Provincial rates is now classified as Land Revenue and Miscellaneous - The receipts

2/2513

Items in Account	1878-79	1879-80	1880-81	Remarks
				1879-80 was fairly normal in amount.
X Claims				
Imprest	330,381	334,697	326,907	All receipts under this head were strictly imprest. All amounts paid in were duly refunded.
XI Expenditure				
Imprest	390,376	390,164	419,526	Imprest receipts from Revenue: Collection must be debited, and must Royalty, Plus & the amount of any Royalty adjustments which have previously been credited.
VII Customs				
Imprest	20,60,320	19,24,163	14,88,963	All imprest in the last two years is chiefly due to the receipt of the Extra Customs Import Duty. All imprest is limited in 1880-81 as Customs with the increase in rates and to Foreign Countries.
VIII Debt				
Imprest	14,89,145	15,93,384	16,43,386	All the Government in Assam in 1877 of the Government Calling into Debt Court & Jorat in 1878-79 Debt Government in 1880-81 Assam Court Calcutta &c: Through the Treasure Constantly &c: -cated that of the Treasure there. The Collection Income were chiefly Customs with the Income Collected in the following Years 1878-80 Calcutta Imprest Rupees Collected in the Treasury of the Civil Assignments

3/513

Heads of Account	1878-79	1879-80	1880-81	Remarks
XII Mint				
Imperial	270	6,709	134	In 1879-80, the proceeds from the sale of worn-out and incurrent Copper Coin destroyed were taken as a credit on the receipt side, while in former years, they were deducted from the nominal value of the coins charged per Contra. In 1880-81, this credit has been removed from this head to "Account Current with India"
XV Minor Departments				
Imperial	23,118	37,823	37,333	The last two years' figures contain large adjustments on account of supplies of Cinchona bark to the Medical Store Departments.
Provincial	59,541	74,088	72,724	The increase in the last two years is chiefly due to the introduction of Middle School Examinations in connection with the Uncovenanted Civil Service Examination Agency.
XVI Law and Justice				
Imperial	414,801	363,167	440,144	In the last year a large amount of Government Securities belonging to unclaimed estates was carried to the credit of Government. The receipts of the past two years have been largely reduced by the transfer to the head of "Salt" of the fines levied by Courts for breaches of the Salt Laws.
Provincial	327,023	259,427	302,083	The demand by the Police Dept. for Jail manufactures continued high until the end of 1878-79, on account of the additional Police force enlisted during the famine. The last column includes Rs 66,749 the transactions of the Convict Labor Fund removed in that year from the class of "fettered" to that of "unfettered" funds.
Local	78,780	74,418	"	Vide last remarks.

2513/4

Heads of Account	1878-79	1879-80	1880-81	Remarks
XVII Police.				
Provincial	358629	382627	434999	The last two columns include Rs 60,104 and Rs 14,560 respectively, on Account of Contributions from Municipalities towards the cost of the Police Force employed in towns. In the first year, on the other hand, there was a refund of Rs 22,034 into the treasury on account of advances previously charged off.
Local	22088	22436	23315	These variations are not of importance
XVIII Marine				
Imperial	4646	3917	1049	The falling off occurred chiefly in the Sale of old Stores and in registration fees & other Miscellaneous receipts.
Provincial	12331	17629	16361	In the first year, there was a large decrease in the traffic in the Pamban Channel consequent on the famine.
XIX Education				
Provincial	155599	154471	178967	Increased Sale proceeds of Manufactures in the School of Industrial Arts with reference to the larger Outlay charged per Contra, account for the excess in 1880-81 under this head.
Local	30704	37830	74969	The last column includes the transactions of the Book Depot Fund which were formerly Outside the Government Accounts, the balances at the credit of that Fund thus brought on the books of 1880-81 were Rs 32778
XX Medical				
Provincial	52351	103983	102610	The increase in the last two columns is chiefly due to the recovery from the Madras Municipality in arrears on account of previous years, of Contributions towards the upkeep of hospitals and dispensaries to the amount of Rs 57889 in 1879-80 and Rs 32826 in 1880-81

2513/5

6

Heads of Account	1878-79	1879-80	1880-81	Remarks
Local	26,177	21,440	14,554	There was a small excess in 1878-79 due to the recovery of charges incurred in previous years on account of diet of Famine patients in dispensaries maintained from Local Funds.
XXI Stationery and Printing				
Imperial	6,205	10,699	20,390	The gradual improvement is due to Local Fund Boards and other institutions which were formerly supplied with Stationery free of charge, being now required to pay for the same.
Provincial	27,020	31,504	45,582	The last mentioned institutions being required to pay alike for Printing as for Stationery; the increased rate of subscription of the Fort Saint George Gazette, and the increased rate of charge for private advertisements inserted in it, account for the increase under this head.
XXII Interest				
Imperial	7,13,370	10,81,992	9,04,435	The entries under this head comprise receipts of Interest on Loans to Municipalities, Native States, and Zemindaries, and on arrears of Peshcush. The decrease in last year is due mainly to largely reduced receipts from the Ramnad Zemindari.
Provincial	2946	2,701	2,522	These variations are not of importance
Local		34,354	38,169	The receipts of the first year were included under XXIV Miscellaneous but the exact amount is not known.
XXIII Receipts in aid of Superannuations Retired and Compassionate Allowances.				
Imperial	25,44,982	18,49,579	4,58,866	The first column includes Rs 20,31,866 & the second Rs 13,00,755 on account of transfers to this head from the deposit accounts of the abolished Military and Medical Funds which accounts closed in the latter year by exhaustion of the balances. The remainder of the variations is due to a gradual

2573

Heads of Account-	1878-79	1879-80	1880-81	Remarks
				falling off in the subscriptions connected with those funds.
XXIV Miscellaneous.				
Imperial—	79.170	66.419	94.729	The decrease in the second column below the first occurred chiefly in the item of Premium on Money Orders, the management of which was transferred to the Postal Depte during 1879-80. Rs 13.000 of the increase in 1880-81 were on the receipts from unclaimed deposits & the remainder in the recoveries from the Mysore State of the six per cent charge now levied on the value of the stores sent from the Sudra Office for the Mysore State Railway.
Provincial—	22.198	37.468	70.899	The last column includes an improper credit of Rs 45.000 to this head instead to the Public Works Department in adjustment of a payment by that Department to the Rajah of Kalastri for certain losses sustained by him. This will be reversed in the accounts of 1881-82. The other variations occur in several small items and are not of importance.
Local—	7.68.935	5.57.266	6.86.537	In the first year, some receipts appertaining to other heads were included under this head. The excess in the last year is due to the realization of the proceeds of Government Securities to the Value of Rs One lakh belonging to the Village Service Fund of the Salem district on account of deficiency in its current assets.
XXVI Irrigation and Navigation				
Provincial—	55.663	74.070	122.371	These variations relate to the Buckingham Canal for the traffic on which revised rules were introduced in 1879-80. The receipts show a steady improvement.
XXVII Other Public Works				
Provincial—	204.116	187.869	202.863	These variations are not important. The receipts consist of sale proceeds of lands and houses belonging to Government and of tools and plant and of other items of a variable nature.

V/25.13

Heads of Account.	1878-79	1879-80	1880-81	Remarks.
Local	390,594	505,060	537,349	The receipts which consist principally of tolls on roads and ferries have improved, partly from the general prosperity of the country and partly from the extension of the Canal and Ferry Act to the ferries in South Canara, Malabar, Cuddapah and Kistna districts.
XXX Gain by Exchange.				
Imperial	104,386	248,276	289,791	The increase in the last two years is due chiefly to the transfer from the Military to the Civil Accounts of the gain by Exchange on the Military Department transactions with the Secretary of State for India. In 1880-81 a further increase arose in the view of recovery from the Maisur State of the cost of Stores sent out by the India Office for the Maisur State Railway.
Expenditure				
2. Interest on Service Funds and other Accounts.				
Imperial	576,684	576,225	596,177	Although there is no large variation between the figures entered in the first two columns, there was an actual increased payment in the second year of Rs 31,756 to the Civil Fund on its increasing assets; this payment was, however, fully counterbalanced by savings from the transfer of certain Treasury notes to the books of the Government of India. The increase in 1880-81 is chiefly due to the further augmentation of the Capital of the Civil Fund.
Local	13,850	14,424	13,890	These variations are not of importance. 8/2513

Heads of Account	1878-79	1879-80	1880-81	Remarks
3. Refunds.				
Imperial	336,214	247,718	383,272	In the first year there was a refund of Rs 90000 to the Rajah of Pithapuram on account of Water Tax overpaid by him, and in 1880-81 also there were three large items of refunds aggregating Rs 114,379. Considering the variable nature of the charge under this head, the other differences do not call for remark.
Provincial	15,184	8,515	6,027	Rs 10781 were refunded to the Madras Municipality in 1878-79 on account of excess recoveries towards the cost of hospitals and dispensaries.
Local	33,150	7,600	5,465	In this case, Rs 23,768 were refunded in 1878-79 in the North Arcot District being the portion of the grant for famine purposes from the Mansion House Fund, which remained unexpended.
4. Land Revenue.				
Imperial	4461585	4493,278	4168,734	Large reductions made in the Survey and Settlement Departments account for the decrease in the past year. The expenditure in 1878-79 was below the normal rate, owing to the unusually large number of Officers on leave to Europe.
Provincial	17,463	29,046	42,185	The increase in the last two columns is mainly due to the transfer to Provincial Services from Imperial of the charges for Office accommodation of the Survey and Settlement Departments. The larger increase in 1880-81 is owing to the incorrect inclusion under Petty Construction and Repairs which are debited to this head of certain charges properly falling under the Category of "Other Public Works in charge of Civil Officers" Grant 34.
Local	23,61,966	25,31,110	29,17,010	The increase in the last two years consists partly of the arrears of pay of the village establishments which were

2513

Heads of Account	1878-79	1879-80	1880-81	Remarks
				were unadjusted during the famine, owing to insufficiency of assets of the Village Service Fund arising from the suspension of Collection of the land cess. The increase in 1880-81 is further due to the introduction of a revised scale of Village establishment in Kellore and Chingleput.
5. Forest				
Imperial	341804	381207	351984	The variations occurred almost entirely in Conservancy and working of forests, expenditure on which is more or less dependent on the demand for timber and other produce from time to time.
Provincial	"	21	20	
Local	153943	166660	166781	This increase occurs chiefly in the outlay for the improvement and extension of Jungles and topes.
6. Excise on Spirits & Drugs.				
Imperial	207446	214009	198720	The charge under this head is, for the most part, on account of the purchase of Country liquor for sale in the town of Madras and varies with the stock on hand from time to time. The decrease in 1880-81 is due also to the more favorable rate of purchase of Colombo Arrack than formerly.
Provincial	"	329	89	In the first year, the charge was included under 30 Miscellaneous.
7. Assessed Taxes.				
Imperial	30292	48780	9809	In the first year, the charge was only for a part of the year. In the last, the decrease is due to the abolition of the establishment employed for the collection of Licensed tax owing to the exemption from taxation of incomes below

2573/10

Heads of Account	1878-79	1879-80	1880-81	Remarks
				Rs 500 and to the transfer from the Madras Municipality to the Madras Collectorate of the work of Collection in the Presidency Town.
8. Provincial Rates.				
Local	32,391	31,494	33,106	These variations call for no remark.
9. Customs				
Imperial	226,075	234,087	217,016	The excess in the second year is chiefly due to the absence of the permanent Collector of Customs at Madras on privilege leave and to his temporary employment on other duty and the consequent disbursement of allowances to an Officiating Officer, while in the following year a saving was caused by his proceeding on leave to Europe.
Provincial	4,271	8,702	4,952	The increase in 1879-80 was in the charge for Rents, Rates and Taxes.
10 Salt.				
Imperial	13,23,758	934,055	14,01,407	Owing to the exceedingly unfavorable character of the season in the Northern Coast-Districts, the quantity manufactured and stored there and in Chingleput during 1879-80 fell below that of the preceding year by over three million maunds, the expenses of manufacture being largely reduced in consequence.
Provincial	1,436	8,960	4,942	In the first year, a portion of the charge on account of Rents Rates and Taxes was included under 30 Miscellaneous. The exact amount is not ascertainable. In the second year, there was a larger expenditure on account of European Stores

2513/11

12

Heads of Account	1878-79	1879-80	1880-81	Remarks
				than in the third, while in the first there was no charge on this account.
12. Stamps				
Imperial	145937	143583	142644	The decrease in the last two columns is partly due to the abolition of the Establishment maintained in the Accountant General's Office for the impression of Stamps, and partly to the employment of a larger number of exc. Offices vendors in the place of private vendors, the latter of whom are allowed Commission on the Sales.
Provincial	"	827	381	In the first year, the charge was included under 30 Miscellaneous.
13. Registration				
Provincial	346358	365131	395199	The gradual increase under this head is owing to the establishment from time to time of additional Sub Regis-
				try Offices, and to the larger charge for Commission with reference to the increased receipts credited per Con-
				-tra.
14 Mint				
Imperial	14844	14364	6860	The decrease in the last year is due to the removal to the accounts of the Government of India of the value of uncurrent Copper Coin withdrawn from Circulation, including the cost of Cutting before sale.
15 Post Office				
Provincial	105905	106702	108156	This needs no notice.
17. Administration				
Imperial	125089	126708	124956	A portion of the allowances to the Bank of Madras which should have been drawn in the first year was not claimed till the second. The whole of the last year and a part of the second exclude charges on account of the Money Order Depart-
				-ment transferred to the Postal Branch.

2513/12

13

Heads of Account	1878-79	1879-80	1880-81	Remarks
Provincial	4,080	2,080	1,185	The decrease in the last two columns is due to the transfer to Local Funds under Act IV of 1871 of the cost of the Local Fund establishment employed in the Government Secretariat Offices.
Local	40,118	49,570	83,543	The excesses in the last two years are due to the appointment of an Officer for the Inspection of Local Fund Accounts and to an increase of Establishments of the Central and District Account and Audit Offices. These new appointments were consequent on the transfer of the executive of the Local Public Works from the Public Works Department to Special Engineering Departments subordinate to the different Local Fund Boards and the transfer of the audit of this Work's expenditure from the Examiner's Office to the Accountant Genl's Office. The increased expenditure under administration is more than Compensated by decrease in the cost of Supervision and Audit of Works expenditure under the new Scheme.
18. Minor Departments				
Imperial	159,035	172,772	232,665	The increase in the second Columns over the first occurred chiefly in the charges for emigration, Cinchona Cultivation and on gold researches in the Wynaad and the Vulgiris. In the last Column, there was an increase of Rs 51157 in Census Charges, an increase of Rs 15,210 on account of Cinchona and a new charge of Rs 7546 on account of the establishments employed for the registration of Sea-borne trade and of land trade.
Provincial	145,435	147,086	165,860	There was a real increase of Rs 19861 in 1879-80 Over 1878-79 owing to the introduction of Middle School examinations in connection with the Uncovenanted Civil Service Examinations. A sum of Rs 18210 however, a portion of the expenditure of 1879-80 is included in the accounts of the following year in which on the other hand, there was a reduction in the charge for Model Farms, Roads, Rates & taxes, & Sundry other items.

a/85/3

Heads of account		1878-79	1879-80	1880-81	Remarks
19. Law and Justice					
	Imperial	3675,703	3648007	3680247	The charges under this head fell in 1879-80 by Rs 23500 in the item of "Law Charges" but they rose in the following year chiefly in consequence of smaller savings from the absence of Commanded Officers on leave to Europe.
	Provincial	1263,729	1382718	1155,955	The expenditure in the first year was really Rs 702,502 in excess of the amount shown, this excess having been removed to a distinct major head "Famine Relief." The expenditure was largely reduced in both 1879-80 and 1880-81, but is still above the normal rate previous to the famine.
20. Police					
	Imperial	197,454	245,245	239,010	The first column does not include the cost of clothing and Accoutrements of the Sub-Police Guards whose pay also was charged to this head in 1878-79
	Provincial	386,150	392,815	394,367	The charges of the first year were really Rs 7,90,296 in excess of the amount shown, this excess having been removed to a distinct major head "Famine Relief." The variations are not of importance.
	Local	11,939	19,841	22,699	The successive increases are due to the additional requirements on account of the repairs of Police huts.
21. Marine					
	Imperial	80,720	79,141	67,631	The excess in the first two years is due to the local purchase of a large supply of Coal owing to delay in the receipt of the Ordinary Consignments from England.
	Provincial	7,109	27,832	26,196	The second Column includes a large expenditure on account of dredging operations in the Pamban Channel, as also the adjustment of a sum of Rs 8594 on Account of instruments received from the Secretary of State

16

Heads of Account	1878-79	1879-80	1880-81	Remarks.
Provincial—	7.10.450	6.32.589	6.18.729	The successive decreases are chiefly due to reduced expenditure in Hospitals and Dispensaries, owing to the large decrease in the number seeking relief as the country recovers from the famine, and to the more favorable prices of the food consumed in the dispensaries.-
Local—	4.15.439	4.37.988	4.16.713	The Excess in the second year is due to a larger grant-in-aid to Municipalities on account of dispensaries and to extension of vaccination. There was an increase on these accounts in the succeeding year also, but it was covered by savings in the cost of diet of patients as in the case of provincial hospitals.-
25. Stationery and Printing				
Imperial—	1.50.760	1.36.811	1.45.513	The variation occurred chiefly in the local purchase of Stationery which was larger in the first and last years on account of delay in the receipt of supplies from the Secretary of State.-
Provincial—	3.07.590	6.90.871	6.31.526	The last two columns include adjustments on account of issues of Stationery to public departments, to the amount of Rs. 4.16.174 and .387.610 respectively (in consideration of a special assignment for the purpose from the Imperial Revenues). Excluding these sums, the result is a successive decrease which may be ascribed to economical management and smaller purchases of materials and Stock.-
26. Political Agencies				
Imperial—	98.262	98.980	1.12.693	The increase in the last year is in the expenses connected with the demarcation of boundaries between British Territory and Native States.-
Provincial—	"	"	12	

2573/16

Heads of Account	1878-79	1879-80	1880-81	Remarks
27. Allowances & Assignments under Treaties & Engagements.-				
Imperial—	22,23,253	19,76,676	25,16,402	In the first year, Rs. 17,000 was paid in arrears to the Senior widow of the Rajah of Tanjore, & Rs. 18,970 to the Travancore State as Compensation for wastage on salt imported thither, which grant has been since discontinued.- The year 1879-80 includes a special grant of Rs. 30,000 to a Tanjore Stipendiary, but a decrease of expenditure to the extent of Rs. 2,20,803 took place under the item "Compensation for Resumed lands," owing to the fact that where the resumed land was a religious Endowment Compensation is now paid by deduction from the Revenue before it reaches the Treasury, and not by direct payments as formerly from the Treasury.- A further decrease in Expenditure under this item occurs in 1880-81 to the amount of Rs. 87,014, but an excess of Expenditure occurred in that year under Compensations owing to the transfer to this Government of the Salt Compensation payment of Rs. 39,000 to the French Government at Pondicherry, which previously constituted a charge against the Government of Bengal.-
29. Superannuation Retired & Compassionate Allowances.-				
Imperial—	14,68,558	16,05,063	17,83,051	The increase is almost entirely due to the great reductions which were effected during 1879-80 in the Establishments of the Survey Settlement and Public Works Departments.-
Local—		753	1,258	In the first year, the charge was included under 30 Miscellaneous.-
30 Miscellaneous.				
Imperial—	1,21,273	62,413	86,428	The decrease in the last two years is chiefly in the charges for the remittance of treasure, & is due to the remittances from the districts to the Central Treasury and from this Presidency to the other Provinces having been more largely effected by means of drafts & transfers than by actual movement of specie.-

2,513/17

7

18

Heads of Account	1878-79	1879-80	1880-81	Remarks.
Provincial	227,586	359,533	201,365	The second column includes an adjustment of Rs. 116,749 on account of liabilities in connection with the last famine which remained unadjusted in the books of 1878/9. The further decrease in 1880/81 is due to the entry under the respective heads of account of the charge for rents rates and taxes of which particulars were not available previously.
Local	528,651	488,599	651,978	Excluding from the last column a contribution of Rs. 30,440 from the Canal and Ferry Fund to Local Funds under Act IV of 1871, which transaction did not occur in the previous years, the remainder of the variations is in the charge for the feeding of poor in alms houses & for the sanitation & conservancy at fairs and festivals.
32. Irrigation and Navigation.				
Imperial	"	"	11,166	This is a new item of charge in the Madras accounts consisting of the loss by exchange on the Revenue transactions of the Madras Irrigation & Canal Company.
Provincial	14,516	216,701	306,979	The increase in the last two columns is due to the extension of the Buckingham Canal and the consequent employment of a larger establishment for the collection of the tolls on traffic and for the up-keep of the Canal.
34. Other Public Works				
Provincial	257,089	1163,918	1587,730	The first column includes an expenditure of Rs. 818,930 on account of works executed from famine funds. In the second year, expenditure was largely suspended on account of the Afghan war.

Heads of Account	1878-79	1879-80	1880-81	Remarks
Local	26,14,467	26,31,272	32,40,026	The increased Expenditure in 1880-81 is due to the improved Financial Condition of Local Funds under Act IV of 1871.-
38 Loss by Exchange on transactions with London.				
Imperial	2,18,669	3,70,505	7,11,379	The last two columns include the loss by Exchange on the Military transactions with the Secretary of State for India which was formerly borne in the accounts of the Military Department.- The rest of the variations is in the drawings by the Secretary of State which were as follows:-
				1878/9 Rs. 12,99,224 at an average of 1-8 1/16
				1879/80 — " 17,53,730 at — 1-7 5/8
				1880/81 — " — 36,70,000 at — 1-7 13/16

31 Famine Relief
