GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

1st March 1881, No. 358.

Municipal—Budgets.

Read the following papers :—

No. 3. *From E. F. WEBSTER, Esq., President of the Municipal Commission, Tanjore, to the Chief Secretary to Government, dated Tanjore, 22nd December 1880, No. 365.*

I have the honor to submit the Budget Estimate of the Tanjore Municipality for 1881-82, together with the prescribed statements.

2. The several variations in the receipts and expenditure are fully explained by the Vice-President.

3. It will be observed that the estimated receipts from License-tax are put down at Rs. 4,000 in Statement I, but a sum of Rs. 3,720 is shown under Grant IV as the amount payable to Government, deducting a sum of Rs. 280 on account of remuneration due to the Commissioners. It is therefore clear that the remuneration has been calculated at 7 per cent.; but as, under G.O., No. 456, dated 13th April 1880, communicated in Board's Proceedings, No. 601, dated 30th April 1880, the same had been fixed at 5 per cent., the amount payable to Government should be increased to Rs. 3,800.

ENCLOSURE No. 1.

From T. GOPALKRISHNAH PILLAY, Vice-President of the Municipal Commission, Tanjore, to the President of the Municipal Commission, Tanjore, dated Tanjore, 16th December 1880, No. 507.

I have the honor to submit the Budget Estimate of receipts and charges of the Tanjore Municipality for the year 1881-82, together with the Statement VI-A, regular estimate of the preceding year, prepared in accordance with the instructions of Government conveyed in their Order, No. 1347, dated 25th April 1877.

2. A list of the present constitution of the Municipal Board accompanies.

3. The budget was passed by the Commissioners at a Meeting held on the 15th instant. An extract from the Resolutions passed by them is herewith submitted.

4. The gross receipts of the year are estimated at Rs. 64,500, which with the estimated balance of Rs. 2,750 at the beginning of the year, according to the regular estimate, will amount to Rs. 67,250.

5. *Rents of Houses, Gardens, and Markets, &c.*—The estimated receipts under this head amount to Rs. 7,000, or Rs. 1,000 less than the current year's figure. This decrease is mainly attributable to the Commissioners having stored up water in the greater portion of the fort ditches which have hitherto been fetching a revenue in the shape of grass rent, &c., of not less than Rs. 2,000, but during the ensuing year a sum of Rs. 1,000 alone is expected under this item.

6. *Miscellaneous.*—In this item credit is taken to a sum of Rs. 8,000 on account of subscriptions promised by the Ranis of the Tanjore Palace towards the construction of a clock tower in the heart of the town.

7. The receipts on account of Rates and Taxes and of the other items nearly correspond with those of the current year and require no special remarks, as almost all the figures are adopted from the actuals as shown in the regular estimate.

8. *Charges.*—The gross expenditure under Grant I is Rs. 20,000, and appears chiefly under the two main heads "New Works" and "Repairs," estimated to cost Rs. 14,000 and Rs. 5,500, respectively.

9. *New Works—(a) Communications.*—Several of the minor streets and lanes in the town having been very considerably damaged by the recent floods, the Commissioners propose to raise, level, and section some of them, and have for this purpose provided a sum of Rs. 1,000 in the budget.

10. *(b) Buildings.*— Although all the temporary sheds in the market have been now converted into permanent buildings, the Commissioners consider it necessary to provide more accommodation as the demands for stalls are daily increasing. A sum of Rs. 1,500 is therefore provided for an additional building in the market. A sum of Rs. 500 is allotted for the erection of more latrines in the town as recommended by the Police Superintendent.

11. The Commissioners have for a long time been contemplating to construct a clock tower in the town, and have for this purpose purchased a clock so long ago as 1872 at a cost of Rs. 1,745-8-0, but they were prevented from financial considerations to give effect to their wishes up to this time. As the Ranis of the Tanjore Palace have now signified their willingness to contribute a sum of Rs. 12,000 and have already paid Rs. 1,000 for the purpose, provision has been made for this work. It will be constructed according to the design already furnished by Mr. Chisholm, the Government Architect.

12. *Water-supply.*—The southern portion of the fort ditch having been converted into a tank under the orders of Government conveyed in their Order, dated 3rd December 1880, No 2249, the Commissioners propose to provide this portion with flights of steps for the convenience of the people, and have allotted Rs. 1,500 for the purpose.

13. The road leading to the People's Park across the ditch at the western gate has been totally washed away by the late floods. It is found necessary to provide a sum of Rs. 1,000 for constructing a bridge at this point.

14. *(a) Repairs.*—Almost all the Municipal roads and tunnels have been very seriously damaged by the recent unusual rains. Hence a large provision of Rs. 5,000, or Rs. 2,000, in excess of the current year's budget grant, has been made; a sum of Rs. 1,000 was incurred during the current year in excess of the budget grant out of the general savings in repairing a few of the roads.

15. *(b) Buildings.*—A sum of Rs. 500 is budgeted for the purpose of repairing some of the privies and dust-bins that require immediate attention.

16. The usual grant of Rs. 500 is provided for Establishment charges.

17. *Grant III—Conservancy.*—The Commissioners have since found it necessary to revert to the system of employing tank watchers, as the Police, who were requested to do this work, have represented their inability to do so on account of the limited force employed for town duty. Eight tank watchmen, at Rs. 4 each per mensem, were appointed as sanctioned by the Commissioners at their Meeting held on the 1st September 1880, and a provision of Rs. 384 is therefore made in the budget. An extract from the Resolutions of the Commissioners is submitted for the approval and sanction of Government.

18. *Grant IV.*—As it is found very difficult to have all the 200 lights properly lighted exactly at 6 P.M. with the present number of masalchies (lighters), it is proposed to increase their number from nine to ten. Hence the increased provision under Establishment charges.

19. *Watering Roads.*—This is a new item in the current year's budget. In order to keep the Municipal roads in a perfectly sound state the Commissioners desire to employ twelve water-carts, at one for each division, for watering the roads. Hence a provision of Rs. 1,000 is made for establishment and contingent charges.

20. *Avenues.*—As a large number of avenue trees have fallen down during the late storm, an increased provision of Rs. 1,000 is made for raising nurseries, digging pits, and for planting trees.

21. *Police.*—The usual grant of Rs. 6,860 is made on account of contribution for the maintenance of the Town Police in accordance with G.O., No. 429, dated 27th February 1880.

22. A sum of Rs. 34 is provided on account of rewards for the destruction of venomous snakes to meet the wishes of Government contained in G.O., No. 1154, dated 13th September 1880.

23. *Grant V.*—The sum of Rs. 2,852 shown under Establishment includes the establishment charges both in the Municipal and Government Offices, as well as the cost of publishing the Municipal Proceedings, &c., in the District Gazette, as it is presumed that the current year's allotment of Rs. 200 for this purpose under "Miscellaneous" will not adequately defray the total cost, and as no advice has up to this date been received regarding the actual amount to be contributed.

24. The additional cost on account of Sanitary Establishment, sanctioned in G.O., No. 1537, dated 21st October 1879, will be incurred out of this allotment, and the exact amount, when known, will be debited to Grant III.

25. With reference to G.O., No. 2303, dated 21st December 1878, no sum has been reserved in the budget on account of Water Project, as the Commissioners have been able to store water in the ditches by the aid of the two channels* excavated in 1879-80. This has relieved the town from any immediate necessity for an expensive water-supply scheme. All that is now required is to provide flights of steps and bathing ghâts in the ditches and to devise means to use the water for flushing the drains, &c., of the town. Provision for all these will be made in the next year's budget.

26. As all the other items of charges are based upon the regular estimates, no special remarks are necessary. The gross expenditure of the Municipality under the different grants for the year 1881-82 amounts to Rs. 64,740, thus leaving a closing balance of Rs. 2,510.

No. 4. *From Surgeon-Major M. C. FURNELL, M.D., F.R.C.S., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Madras, 26th January* 1881, *No.* 71.

I have the honor to report, for the information of Government, that a sum of Rs. 19,484 has been set aside by the Tanjore Municipality for sanitary purposes for the year 1881-82, which bears a proportion of 28·9 per cent. to income. The allotment, though less than that for the current year, appears to be ample and may be accepted.

2. The vaccination grant is the same as that for the current year, viz., Rs. 320, and is sufficient.

No. 5. ORDER THEREON, 1st MARCH 1881, No. 358.

The estimated receipts and charges of the Tanjore Municipality for 1881-82 are compared below with the sanctioned budget and regular estimate for the current year:—

RECEIPTS.

	Budget, 1880-81.	Regular Estimate, 1880-81	Proposed Estimate, 1881-82.

Refunds	..	40	..
Balances	4,170	3,000	2,830
Total ..	64,800	71,050	67,500

2. It is observed that the incidence of taxation, excluding Tolls, according to the regular estimate, is seven annas and six pies per head. The taxation still open to the Municipality under the law and as yet unutilized is the Tax on Arts, &c., and one-fourth rate of Tolls under Schedule D. The assets of the Municipality on the 31st March 1880, including Rs. 32,946, the value of premises, was Rs. 53,028. The unpaid liability on the same date was nil.

3. The regular estimate on the receipt side appears to have been correctly prepared, but on the expenditure side no provision is made for Sanitary Inspection expressly ordered in paragraph 7 of G.O., No. 846, dated 26th April 1880; an amount equal to that provided for the Medical College will therefore be inserted. The amount of contribution entered on account of the Government Office establishment, viz., Rs. 500, has been calculated erroneously; the provision of Rs. 50 for the purpose would be ample. The effect of these alterations will be to enhance the balance anticipated at the end of the year to Rs. 3,000; and the latter figure will be carried forward to the budget for 1881-82.

4. The increase in the regular estimate receipts, as compared with the sanctioned budget, was mainly owing to the actual balance at the end of 1879-80 having far exceeded the estimate, and to the receipt of contributions from the Receiver of Tanjore for the formation of roads and from the Ranis of the Tanjore Palace towards the clock tower. The large increase over the sanctioned budget in the expenditure on Public Works has been satisfactorily explained, also the slight variations under the other grants.

358/3

5. The opening balance, as determined in paragraph 3, will be taken on to the budget for 1881-82, which will raise the expected receipts during 1881-82 to Rs. 67,500. The entries on the receipt side of the budget appear to be correct; but it may be doubted whether, having regard to the recent amendment of the Act, the income from the License-tax will be so large as anticipated.

6. The receipts estimated for 1881-82 nearly correspond with those for the current year, excepting "Miscellaneous," under which credit is taken for Rs. 8,000 as a contribution promised by the Ranis of the Tanjore Palace towards the construction of the clock tower. This is approved.

7. The entries on the expenditure side of the budget need revision in some instances. The allotment of Rs. 1,000 for constructing a bridge across the fort ditch should appear under "Communications," not under "Water-supply;" similarly that for Rs. 200 for repairing ash-tubs should be transferred from "Buildings" to "Sanitary and Miscellaneous." Provision should be made for the additional Sanitary Establishment at Rs. 300. With reference to paragraph 3 of the President's letter, the amount of License-tax payable to Government will be increased to Rs. 3,800. The allotment under Grant V will be reduced from Rs. 4,220 to Rs. 3,770, the contribution for the Government Office establishment being only Rs. 50.

8. The estimated expenditure for 1881-82, as compared with the regular estimate figures, does not exhibit much variation, except under Grant I. The provision under "Sanitary and Miscellaneous—New Works" is below the amount shown under the regular estimate; but this is accounted for by nothing being reserved in the budget on account of the Water Project, the Commissioners having been able to store water in the ditches by the aid of the two channels excavated in 1879-80. The provision for the clock tower, and the increased allotments required for maintenance of roads, are passed. The appointment of eight tank watchmen, referred to in paragraph 17 of the Vice-President's letter, the provision for watering roads which is a new item, and the other changes proposed, are approved.

9. The alterations referred to in paragraph 7 will leave a closing balance of Rs. 2,830 which is not sufficient, but will on this occasion be passed. The budget should in future be so framed as to provide for a working balance or reserve in hand of not less than 10 per cent. of the receipts.

10. Paragraph 24 of the Vice-President's letter is not clear. It will be explained from what allotment the cost of the additional Sanitary Establishment referred to is proposed to be incurred.

11. Subject to the above remarks the Right Honorable the Governor in Council passes the Tanjore Municipal Budget for 1881-82.

6. Read President's footnote No 186 dated 27th Ultimo, on a letter from the Superintendent of Police, No 319 dated 16th Idem, on the subject of erecting more latrines and employing Municipal paid servants for watching Tanks.

The Commissioners consider that it is part of the duty of the Police to prevent the Commission of nuisances, and they will be glad to know the number of men that Major Rolland will be able to spare for this purpose.

Resolved also that a dozen temporary latrines be constructed on the trench principle and trenches

-dug in those already existing.

Resolved also that 8 watchmen on Rs 4 per mensem be employed to watch the Tanks.

From

C. F. Webster Esquire,
President,
Municipal Commission,
Tanjore.

To.

The Honourable R. Davidson
C.S.I,
Chief Secretary to
Government, Madras.

Sir,

I have the honour to submit the Budget Estimate of the Tanjore Municipality for 1881-82 together with the prescribed statements.

2. The several variations in the Receipts and Expenditure are fully explained by the Vice President.

3. It will be observed that the

the estimated receipts from License Tax are put down at ₨ 4,000 in Statement I. but a sum of ₨ 3720 is shown under Grant IV as the amount payable to Government deducting a sum of ₨ 280 on account of remuneration due to the commissioners. It is, therefore, clear that the remuneration has been calculated at 7 per cent; but as under Government order No 456 dated 13' April 1880 communicated in Board's Proceedings No 601 dated 30' April 1880, the same had been fixed at 5 percent, the amount payable to Government should be increased to ₨ 3,800.

I have the honour to be
Sir,
Your most obedient servant.

3

No. 507.

35B/32

From

The Vice President
Municipal Commission
Tanjore

To,

The President
Municipal Commission
Tanjore

Sir,

I have the honor to submit the Budget Estimate of Receipts and Charges of the Tanjore Municipality for the year 1881-82 together with the Statement VI A, Regular Estimate of the preceeding year, prepared in accordance with the instructions of Government conveyed in their Order No. 1347, dated 25th April 1877.

2. A list of the present constitution of the Municipal Board accompanies.

3. The Budget was passed by the Commissioners at a Meeting held on the

15th Instant. An extract from the resolutions passed by them is herewith submitted.

4. The gross receipts of the year are estimated at Rs 64,500 which with the estimated balance of Rs 2,750 at the beginning of the year according to the Regular Estimate, will amount to Rs 66,250. 6750

5. Rents of houses, gardens and Markets &c. — The estimated receipts under this head amount to Rs 7000, or Rs 1,000 less than the current years figure. This decrease is mainly attributable to the Commissioners having stored up water in the greater portion of the Fort ditches which have hitherto been fetching a revenue, in the shape of grass rent &c. of not less than 2,000 Rs, but during the ensuing year, a sum of Rs 1000 alone is expected under this item.

6. Miscellaneous: — In this item, credit is taken to a sum of Rs 8,000 on account of subscriptions promised by the Ranies of the Tanjore Palace towards the construction of a Clock Tower in the

furnished by Mr Chisholm, the Government Architecht.

12. Water Supply. — The Southern portion of the Fort Ditch having been converted into a tank under the orders of Govt conveyed in their Order dated 3rd December 1880 No 2249, the Commissioners propose to provide this portion with a flight of steps for the convenience of the people and have allotted Rs 1,500 for the purpose.

13. The road leading to the Peoples' Park across the ditch at the Western gate has been totally washed away by the late floods. It is found necessary to provide a sum of Rs 1,000 for constructing a bridge at this point.

14. (a). Repairs. — Almost all the Municipal roads and tunnels have been very seriously damaged by the recent unusual rains. Hence a large provision of Rs 5,000 or Rs 2,000 in excess

of the current year's Budget grant has been made; a sum of Rs 1000 was incurred during the current year in excess of the Budget grant out of the general savings in repairing a few of the roads.

15. (b) Buildings.— A sum of Rs 500 is budgetted for the purpose of repairing some of the privies and dust-bins that require immediate attention.

16. The usual grant of Rs 500 is provided for establishment charges.

17. Grant III. Conservancy.— The Commissioners have since found it necessary to revert to the system of employing tank watchers, as the Police who were requested to do this work have represented their inability to do so on account of the limited force employed for Town duty. 8 tank watchmen at Rs 4 each per mensem were appointed as sanctioned by the Com-

heart of the Town.

7. The receipts on account of Rates and Taxes and of the other items nearly correspond with those of the current year and require no special remarks as almost all the figures are adopted from the actuals as shown in the Regular Estimate.

8. Charges.— The gross expenditure under Grant I is Rs 20,000 and appears chiefly under the two main heads, "New Works" and "Repairs," estimated to cost Rs 14000 and Rs 5,500 respectively.

9. New Works. (a) Communication:— Several of the minor streets and lanes in the Town having been very considerably damaged by the recent floods, the Commissioners propose to raise, level and section some of them and have, for this purpose, provided a sum of Rs 1,000 in the Budget.

10. (b) Buildings.— Although all the temporary sheds in the Market have

been now converted into permanent buildings the Commissioners consider it necessary to provide more accommodation as the demands for stalls are daily increasing. A sum of Rs 1500 is therefore provided for an additional building in the Market. A sum of Rs 500 is allotted for the erection of more latrines in the Town as recommended by the Police Superintendent.

11. The Commissioners have for a long time been contemplating to construct a clock tower in the Town and have for this purpose purchased a clock so long ago as 1872 at a cost of Rs 1745-8-4, but they were prevented from financial concideration to give effect to their wishes up to this time. As the Ranies of the Tanjore Palace have now signified their willingness to contribute a sum of Rs 12000 and have already paid Rs 1000 for the purpose, provision has been made for this work. It will be constructed according to the design already

missioners at their Meeting held on the 1st September 1880, and a provision of Rs 384 is therefore made in the Budget. An extract from the resolutions of the Commissioners is submitted for the approval and sanction of Government.

18. Grant IV.— As it is found very difficult to have all the 200 lights properly lighted exactly at 6 P.M. with the present number of Masalchies (lighters) it is proposed to increase their number from 9 to 10. Hence the increased provision under establishment charges.

19. Watering roads—. This is a new item in the current year's Budget. In order to keep the Municipal roads in a perfectly sound state the Commissioners desire to employ 12 water carts at one for each Division for watering the roads. Hence a provision of Rs 1000 is made for establishment and contingent Charges.

20. Avenues. As a large number of avenue trees have fallen down during the late storm, an increased provision of Rs 1000 is made for raising nurseries, digging pits, and for planting trees.

21. Police. The usual grant of Rs 6,860 is made on account of contribution for the maintenance of the Town Police in accordance with G. O. No 429 dated 27th February 1880.

22. A sum of Rs 34 is provided on account of rewards for the destruction of venomous snakes to meet the wishes of Govt contained in G. O. No 1154 dated 13th September 1880.

23. Grant V. The sum of Rs 2852 shewn under Establishment includes the establishment charges both in the Municipal and Government Offices as well as the cost of publishing the Municipal Proceedings &c in the District Gazette

as it is presumed that the current year allotment of Rs 200 for this purpose under "Miscellaneous" will not adequately defray the total cost and as no advice has up to this date been received regarding the actual amount to be contributed.

$35^{8}/\cancel{40}/35$

24. The additional cost on account of Sanitary establishment sanctioned in G. O. No 1537 dated 21st October 1879, will be incurred out of this allotment and the exact amount, when known, will be debited to Grant III.

25. With reference to G. O. No 2303 dated 21st December 1878, no sum has been reserved in the Budget on account of Water Project, as the Commissioners have been able to store water in the Ditches by the aid of the two channels* excavated in 1879 & 80. This has relieved the town from any immediate necessity for an expensive Water Supply scheme. All that is now required is to provide flights

* G. O. No 2249 dated 3rd December 1880.

of steps and bathing ghats in the Ditches and to devise means to use the water for flushing the drains &c of the Town. Provision for all these will be made in the next year's Budget.

26. As all the other items of Charges are based upon the Regular estimates, no special remarks are necessary. The gross expenditure of the Municipality under the different grants for the year 1881-82 amounts to Rs 64,740, thus leaving a closing balance of Rs 2,510.

Office of Sanitary Commissioner
Madras January 26th 1881.

358/310

From
The Sanitary Commissioner, Madras.

To
The Chief Secretary to Government.
Public Department, Fort Saint George.

Sir

I have the honor to report for the information of Government that a sum of Rs 19484 has been set aside by the Tanjore Municipality for sanitary purposes for the year 1881/82, which bears a proportion of 28.9 per cent to income. The allotment though less than that for the current year appears to be ample and may be accepted.

2 The Vaccination grant is the same as that for the current year Viz Rs 320 and is sufficient

I have the honor to be
Sir
Your most Obedient Servant

2. It is observed that the incidence of taxation, excluding tolls, according to the regular Estimate is seven annas and six pies per head. The taxation still open to the Municipality under the law and as yet unutilized is the Tax on Arts &c and one-fourth rate of Tolls under Schedule D. The assets of the Municipality on the 31st March 80, including Rs 32,946 the value of premises, was Rs 53,028. The unpaid liability on the same date was nil.

3. The regular Estimate

on

on the receipt side, appears to have been correctly prepared but on the expenditure side no provision is made for sanitary inspection expressly ordered in para 7 of G.O. No. 846 dated 26th April /80: an amount equal to that provided for the Medical College will therefore be inserted. The amount of contribution entered on account of the Govt. office establishment, viz Rs 500 has been calculated erroneously; the provision of Rs 50 for the purpose would be ample. The effect of these alterations will be to enhance the balance anticipated at the end of

of the year to Rs 3,000; and the latter figure will be carried forward to the budget for 1881-82.

4. The increase in the regular estimate receipts as compared with the sanctioned budget was mainly owing to the actual balance at the end of 1879-80 having far exceeded the estimate, and to the receipt of contribution from the Receiver of Tanjore for the formation of roads & from the Rani of the Tanjore Palace towards the Clock Tower.

The large increase over the sanctioned budget in the expenditure on Public

Buildings for Sanitary & Miscellaneous - Provision should be made for the additional Sanitary establishment at Rs 300. With reference to para 3 of the President's letter, the amount of License tax payable to Govt. will be increased to Rs 3,800. The allott. under Grant V will be reduced from Rs 4,220 to Rs 3,770, the contribution for the Govt. office establishment being only Rs 50.

8. The estimated expenditure for 1881-82 as compared with the regular estimate figures does not exhibit much

variation

variation, except under Grant I. The provision under Sanitary & Mis. - New Works is below the amount shewn under the Regular estimate; but this is accounted for by nothing being reserved in the budget on account of the Water project, the Commissioners having been able to store water in the Ditches by the aid of the two channels excavated in 1879-80. The provision for the Clock tower, and the increased allotments required for maintenance of roads, are passed. The appointment of 8 tank watchmen referred to in

para

para 17 of the Vice-President's letter, the provision for watering roads which is a new item, and the other changes proposed are approved. /

9. The alterations referred to in para 7 will leave a closing balance of Rs. 2830 which is not sufficient but will on this occasion be paſsed. The budget should in future be so framed as to provide for a working balance or reserve in hand of not less than 10 per cent of the receipts.

10. Paragraph 24 of the Vice President's letter is not clear. It will

will be explained from what allotment the cost of the additional sanitary establishment referred to is proposed to be incurred.

11. Subject to the above remarks the Right Honorable the Govr. in Council paſses the Tanjore Municipal budget for 1881-82.
