The foregoing letters are replies to Board's Proceedings, dated 2nd December No. 3213, referring for report Proceedings of Government, dated 24th October No. 1909, Financial Department, relating to the pay and allowances of medical subordinates in the employ of Local Fund Boards.

2. In the Proceedings of Government the following points are referred for consideration—

- (a) whether, upon the promotion of a medical subordinate employed by a Local Fund Board, his employers should be required to retain his services;
(b) what special allowances, in addition to the pay of their rank, should be drawn by medical subordinates paid from Local Funds;

- (c) the limit of salary which Local Fund Boards should offer to pensioners;
- (d) the claim upon Local Funds for contribution towards pension of medical subordinates employed by Local Boards;
- (e) the amount of salary to be offered by Local Fund Boards to private practitioners;

and the Government inquire further whether any medical subordinates or pensioners are drawing pay or allowances higher than they would be entitled to if in Government employ.

3. The Board observe that the policy of the Government, as enunciated in G.O., 16th May 1878, No. 863, to allow considerable freedom of action to Local Fund Boards in the regulation of the pay and allowances of their servants, has been virtually overruled by the Government of India in their letter embodied in G.O., 26th September 1878, No. 1719, with the result that all employes of Local Fund Boards must now be regarded as servants of Government, and, as such, subject to all rules which apply to Government servants.

4. The replies of the Local Fund Boards to the several questions referred to them are generally meagre and incomplete. The subject has not received the attention which it deserved, and the answers are for the most part crude and unsatisfactory. The chief exceptions are those from Masulipatam, Chingleput, Tanjore, Sermadevi, Coimbatore, Salem, and Hosur. The inquiry whether any medical subordinates or pensioners employed by the Local Fund Boards are drawing higher emoluments than they would be entitled to if in Government service has by many Boards not been answered at all; those who have replied have answered in the negative, and in the absence of information to the contrary the Board infer that such is not the case anywhere.

5. With regard to (a), there would seem to be no objection on the part of the Local Fund Boards generally to retain the services of medical subordinates who may receive promotion while in their employ, provided funds are available. The Board think this is reasonable, and that where the Local Fund Boards are unable, owing to want of funds, to meet increasing charges on account of promotion, they should be at liberty to dispense with the services of medical subordinates, the cost of whose emoluments they are unable to afford. Most Boards would probably be anxious, if possible, to retain the services of men of experience rather than fall back upon men of a lower grade.

6. As regards (b), there would seem to be a general wish on the part of Local Fund Boards that extra allowances to all medical subordinates, whether paid wholly or in part from Local Funds or wholly by Government, should be equalized. The proposal of the Saidápet Board, that no extra fees should be payable to the medical subordinate in charge either of a Government or Local Fund Dispensary for services rendered either to the Local Fund Board or to Government, as the case may be, but that any such fees should be paid to the credit of the Fund from which such medical subordinate is paid, appears to the Board an equitable way of getting rid of the present anomalous state of things, referred to in paragraph 7 of the Accountant-General's letter.* But the Board would

* In G.O., 24th October 1878, No. 1909. be disposed to go further and advise that all such petty services should be mutually rendered by the servants of Government and of the Local Fund Boards without any extra charge to either party.

7. The next point (c) has been lately settled by orders from the Government of India. But the Board would specially invite the attention of Government to the remarks of Mr. Webster, the President of

G.O., 10th August 1880, No. 5062, Military Department. the Tanjore Municipal Commissions, in his letter to the Chief Secretary, dated 16th June 1879, No. 118. The limit now imposed upon payment to pensioners serving in the Local Fund Boards will prove, the Board venture to think, by no means an unmixed benefit to those bodies. Circumstances must exist at certain times and in certain localities when something more must be offered to pensioners, as an inducement to accept

employment, than the salary which would be drawn if in the continuous employ of Government. The Board fully concur with Mr. Webster that in such a matter "hard-and-fast rules, however well they may look on paper, are sometimes found to work badly in practice."

8. There is a general agreement on the part of the Local Fund Boards in regard to (d) that they are fairly chargeable with their proportionate share of pensionary charges, and indeed on this point there is scarcely room for difference of opinion.

9. As to the amount of salary to be offered to private practitioners (e), the Board altogether agree with the late Surgeon-General in considering that the proposal to place general restrictions upon the emoluments to be given to them is quite impracticable. In one circle (Tellicherry) a duly qualified Surgeon is employed by the Local Fund Board, and, could the Local Fund Boards afford it, the Board would be pleased to see this example followed in other circles also.

ORDER THEREON, 11th March 1881, No. 421.

The Revenue Board reply to G.O., dated 24th October 1878, No. 1909, on the subject of certain points connected with the pay and allowances of medical subordinates in the employ of Local Fund Boards.

2. The Presidents of Municipalities were applied to on the same reference. Some have reported in the same letter in which they treated the Local Fund question, addressing the Board of Revenue; others have sent replies to this office. A précis of the latter is attached to this order (Appendix A).

3. The opinion of the present Surgeon-General is requested on the points raised.

APPENDIX A.

Précis of Reports from Presidents of Municipalities on the subject of the Pay and Allowances of Medical Subordinates employed by Local Boards.

Bellary District, Adoni.—The Commissioners are of opinion that medical subordinates who are paid partly by Local bodies and partly by Government should be entitled to receive fees for extra work done by them; and that Local Fund Boards should contribute towards their pension.

Anantapur.—The Commissioners are of opinion that the Local Boards should contribute towards the pension of medical subordinates in their employ; and that as regards those officers who are paid by Local Funds or Municipalities with contributions from Government, the fact of such contribution should not deprive them of receiving fees for *post mortem* examinations.

Chingleput, Conjeevaram.—The Commissioners think that medical subordinates paid partly by Government and partly by Local or Municipal Boards should be remunerated in the same manner as those wholly paid by the State or by Local or Municipal Boards for making *post mortem* examinations, &c.; but that the Municipal Funds cannot afford to contribute towards the pension of these officers, nor can the Municipality bind itself to retain a medical subordinate in its service on his promotion to a higher grade involving higher pay.

Coimbatore.—The Commissioners are of opinion that pensioned Hospital Assistants in the employ of Local bodies should be restricted to the pay of their rank when pensioned, the difference between their pension and the pay of their rank being paid by the Local Fund Board; that no restriction should be placed on the pay of private practitioners; that the Municipal Boards should be allowed the option of retaining or not the services of a medical subordinate on promotion; that no extra fee should be allowed to any but purely private practitioners; and that the Municipality should make a pensionary contribution at the rate of 75 per cent.

Ganjam, Berhampore.—The Commissioners are of opinion that a portion of the pension of medical subordinates might be borne by Local bodies in cases where their services are solely rendered to those bodies.

Godavari.—Cocanada and Ellore are not concerned in the disposal of the questions raised.

Rajahmundry.—The Commissioners are of opinion that the pay of a pensioned practitioner should not exceed the difference between his pension and the pay of the grade from which he retired; that no restriction on the pay of a private practitioner is practicable; that Government cannot fairly be required to remove a medical subordinate on promotion; that extra remuneration allowed to the subordinates should go to the employer; and that Municipalities can be made liable to pay a contribution not exceeding 20 per cent. of the actual pay of the medical subordinate for pension.

Kistna, Masulipatam.—The Commissioners give it as their opinion that pensioned Hospital Assistants should receive the effective pay of their rank in addition to their pension; that purely private practitioners should be restricted to the pay of a Third-class Hospital Assistant; that all medical subordinates of whatever class should be allowed fees for conducting *post mortem* examinations; that the Municipality should pay the increased salary of the medical subordinate on promotion; and that Local bodies should contribute towards the pension of Civil Hospital Assistants.

Guntur.—The Commissioners admit their liability to contribute towards the pension of the medical subordinates; but, in their case, are unable to do so on account of the straitened state of the finances.

Kurnool.—The Commissioners are of opinion that medical subordinates in Municipal employ should not be paid extra fees for any work done for Government, the Government on their part waiving all claims on the Municipality for contribution towards pensions of their medical subordinates.

Madura.—The Municipality thinks that it can be called upon to contribute for pension only in case the medical subordinates are paid partly by Municipal funds and partly by Government, according to the actual service done to the Municipality.

Dindigul.—The Commissioners wish to be guided by the opinion of the majority of the Municipalities on the subject.

North Arcot, Ve.—The Commissioners are of opinion that the pay and promotion of medical subordinates serving under Local bodies should not be different from the pay and promotion of those serving in the Military Department; and that there can be no objection to demanding a contribution from Local bodies towards the Pension Fund of Civil Subordinates.

Wárajápet has made no report.

Salem.—The Commissioners decline to accept responsibility for paying pensions to medical subordinates in their employ unless some definite arrangement is arrived at for the calculation of the value to Government of work now done by them.

South Arcot, Chidambaram.—The Commissioners give no definite opinion on the points raised. They are, however, of opinion that medical subordinates, irrespective of the fund from which they

are paid, are not entitled to any extra allowance. The Municipality are unable to pay contribution for pension.

Cuddalore.—The Commissioners fully recognize the justice of the principle that they should bear the additional expense involved in the promotion of the Hospital Assistants employed in their dispensaries; the promotion, however, not to take effect until a service of five years at least has been rendered. In case of the pensioned men the Commissioners approve the proposal that their effective pay should be restricted to the pay of their rank less their pension; they are of opinion that the pay of private practitioners should not be restricted to that of a third class, and finally that all subordinates alike should be paid the same fees.

South Canara.—Mangalore Board approve of the Surgeon-General's recommendations, and are prepared to contribute proportionately towards the pension of medical subordinates.

Vizagapatam.—President's letter is discursive; at the end of it it is said that contribution on the regular scale on account of pension ought to be levied from private practitioners at their option; from medical subordinates on the regular establishment compulsorily; and from pensioners not at all.

Tinnevely, Palamcottah.—The Commissioners state that no remuneration should be given to those medical subordinates paid partly by Government and partly by Local bodies; the other two classes may be paid fees for extra work done by them. The Local bodies are liable to contribute for pension only in case of those subordinates who are wholly paid from Local Funds. A pensioned subordinate must not be allowed pension a second time.

Tinnevely.—The Commissioners are of opinion that contribution should be paid from Municipal Funds under Section 46 of the Civil Pension Code on behalf of medical subordinates lent to Local bodies.

Tuticorin has not reported.

Tanjore.—The Commissioners are of opinion that the pay of a pensioned medical subordinate in the employ of a Municipality ought not to exceed that of his effective rank.

Negapatam.—The Commissioners are prepared to pay the increased salary due to a medical subordinate who obtains promotion; but they agree with the Kumbakonam Municipality in considering it unfair that they should be called on to pay any part of the pension to which a medical subordinate may become entitled.

Kumbakonam.—The Commissioners are not prepared to contribute anything towards the pension of medical services.

Madhavaram.—The Commissioners consider that the suggestion that pensioned Hospital Assistants temporarily re-employed should be restricted to the pay and allowances they would have drawn on the Government Establishment may freely be adopted. They do not deem it fair to impose any restriction on the pay and allowances of purely private practitioners. As regards liability for payment of increased allowances on promotion of medical subordinates, the Commissioners suggest that, as a rule, pensioned Hospital Assistants be appointed to the dispensaries in the various Municipalities whose annual income is less than Rs. 20,000. The Commissioners see no objection to make a monthly contribution towards the pension of their medical subordinates.

Mr. Webster expresses his personal opinion on the several proposals, which is summarized below.

On the question whether the salary of pensioned Hospital Assistants shall be restricted to that of an effective subordinate, Mr. Webster submits that it would be good policy to have some elasticity in the rule, so as to meet objections that may be taken to serving in an unpopular, unhealthy or very remote tract of country. If matters are left as they are (as Mr. Webster hopes they may be), it will rest, he says, with the Government to grant or withhold an addition to the effective pay of the medical subordinate after considering the reasons for such increase which may be sanctioned by the Local bodies, and thus an effective check on a tendency to extravagance will be maintained.

As to the second point, that purely private practitioners employed by Local Fund Boards and Municipalities should be restricted to the pay and allowances of the lowest grade Hospital Assistant, Mr. Webster inclines to this suggestion of the Accountant-General's, as he believes there will be no difficulty in securing private practitioners at that rate for some years at all events, and until the people in the Mofussil are more ready to pay fees to private practitioners than they are at present.

Mr. Webster thinks that Local Funds will scarcely bear the increased burden involved in the liability for increased salaries on promotion of medical subordinates.

Finally he considers the proposition, broadly stated, that Government should claim a monthly contribution to meet the cost of pensioning medical subordinates, just and reasonable; and if this be demanded, he adverts to the corresponding obligation on the part of Government to provide "all our hospitals and dispensaries with medical subordinates."

Sir

I have the honour to state that the Local Fund Board of this District, with reference to the subject of G. O. No. 1909 dated 24th October 78 desire me to state as follows.

2. Definition of the position of Medical Subordinates is no doubt very desirable, but the L. F. Board cannot overlook the fact that the Medical Officers needed by them are not to be had. They would, if they could have a Medical Officer and perhaps an assistant as well in each of these fourteen Taluqs.

on the subject of the
pay and allowance of
Medical Subordinates
in the Taluqs of the
District of Vizagapatam
and the Taluqs of the
District of Srisailem
and the Taluqs of the
District of Srisailem

We must take the best men we can get and many of the Hospital Assistants now serving the L. F. Board give satisfaction in the discharge of their duties. We have 8 Taluk

Dispensaries working, but of these one is direct

ed by a man who has not passed any test, but was certified fit for independent medical

charge by the Medical Board in 1854, five are

men who have passed for 3^d class Hospital Assistant grade, but are paid the pay of 2nd class Hospital Assistant, one is an assistant

apothecary and one is a Pensioned Assistant Apothecary.

3. The pensions of the Medical Officers who are hereafter to be educated and supplied for service under the L. F. Board will be, the L. F. Board presume, regulated like their pay by their qualifications and standing.

The L. F. Board think that the stated contribution for pension should be paid to

Government from the pay of these officers.

4. The medical care of the Police in each Taluk, excepting Parvatipur, is now imposed or about to be imposed on the medical officer in charge of the Taluk Dispensary where there is one. $\frac{421}{13}$

The effect of this change will be to deprive these officers of the fees for post mortem examinations, for certificates relating to wounds, and for attending floggings.

The Police have much abused the power of referring cases for medical examination and the dressers have been adding to their pay by granting certificates as to effect of the petty assaults. The consideration of this fact and of the great loss of time caused by individual Police men leaving their stations for the head quarters of their division for medical treatment led me to recommend that the Police of each Taluk should be treated at the Taluk Dispensary.

5. Parvatipur will remain an exception, for the Hill Jail which is to be kept there, will require an apothecary who will have charge of the Police and other

Government establishments.

6. As President of the Municipalities of the District, I beg to report that — existing arrangements are satisfactory and that they view with satisfaction the action — contemplated by Government in the — direction of extending medical education. The Municipalities are unlike the Taluk Dispensaries already supplied with qualified medical officers, but the extension of special education will render the supply certain.

7 Contribution on the regular scale on account of pension ought to be levied from private practitioners at their option, from medical subordinates on the regular — establishment compulsorily, from pensioners, not at all.

Should be restricted to the pay of their rank when in Government Service, the Board consider such rank would be a fair basis of valuation of the man's qualifications but do not think any deduction should be made on account of pension which it is presumed has been earned by previous service to the State and this principle seems to be recognized by Government when employing Military pensioners in the jail and other departments of the State.

The Board cannot agree with the Surgeon General's suggestions that they should be obliged to retain the services of Subordinates on promotion in many cases they could not possibly afford the higher pay and would recommend that it be left optional with the Board as at present.

The suggestion of the Surgeon General in para 7 of his letter that a monthly contribution should be made towards the cost of pension by the local bodies to whom Medical Subordinates are lent by Government seems a reasonable one and the Board cannot offer any objection to it.

Sir,

With reference to the Proceedings of the
Board of Revenue, dated the 2nd December 1878,
No. 3213, on G. O., dated the 24th October last, No.
1909, I have the honor to report that no medical
pensioners are in the employ of this Board,
nor are any of the Medical Subordinates lent by
Government and attached to the Civil Dispensaries
under the Local Fund Board, in receipt
of salaries higher than they would be entitled
to, if in the service of Government.

2. Regarding the Surgeon General's proposal
that provision should be made by the Local
Fund Board for Medical Subordinates attaining
promotion in their service, they regret that
the funds at their disposal do not admit of

the

the entertainment of medical Subordinates
higher than the grade of 1st class Hospital
Assistant.

3. With reference to the question of grant-
ing pensions to medical Subordinates, this
Local Fund Board are prepared to extend
to them the concession regarding pensionary
allowance granted to other servants of the
Local Fund Board.

4. A copy of the resolution passed by
this Board on the subject is enclosed.

I have the honor to be
Sir,
your most obedient servant.

1878, on the subject of the pay and
allowances of Medical Subordinates,
and calling for report on the proposals
made by the Accountant General
and the Surgeon General S. M. Deptt.

The Commissioners think that the
Municipalities and Local Fund Boards
should give a monthly contribution
in the same proportion in which
the salary is paid to meet the cost
of pension after the organization of the
new Civil Department is carried out.

With regard to the inequality
pointed out by the Accountant General
in case of officers in class (2) that is,
those paid by Local Funds or
Municipalities with contributions from
Government, the Commissioners are
of opinion that the accidental cir-
cumstance of the Government paying
a contribution towards the Medical
Officers salary apparently for the
per.

performance of some specific duty for
Government, should not deprive him
of the fees which he would otherwise
have received for post mortem
examination &c.

1) That medical Subordinates paid partly by Government and partly by Local Fund or Municipal Boards should be remunerated in the same manner as those wholly paid by the State or by Local or Municipal Boards for making post-mortem examinations and furnishing certificates in Magisterial cases, and for attendance at the sentence of flogging.

(2) Municipal bodies already contribute largely to Hospitals, and their funds are not in a position to

provide for pension to Medical Subordinates. This is a grant which will increase in time and will become a heavy burden on Municipal Funds which are already overtaxed.

(3) That the ~~Asst~~ Surgeon of the Compooram Dispensary draws the same pay that he would were he in Government employ, and that the Civil Hospital Assistant draws less pay than Military Hospital Assistants: viz Rs 20 against 25.

(4) The Commissioners further agree with the Surgeon General in his views in para 4 of his letter embodied in the G.O. under reference.

(5) That the Commissioners cannot bind themselves to put in a medical subordinate on his obtaining promotion to a higher grade involving higher salary.

III Read Boards Proceedings No 3213 dated
 2nd December 1878 referring to all Presidents of Local
 Friend Boards G. B. No 1907 dated 24 October 1878
 for report on the subject of pay and allowances of
 Medical Subordinates paid for in whole or in part
 by Local bodies.

As regards the first point the Local
 Friend Board consider that pensioners should
 not be paid a higher salary for museum, in-
 cluding their pensions, than that in receipt
 of which they were at the time that they
 quitted the service of Government.

2. The Board are of opinion that the
 salary of a purely private practitioner employed
 by Local Friend Boards should not be restricted
 to that of a 3rd Class Hospital Assistant
 but that each case should be disposed of
 on its merits and in reference to the principle

July 1879

In a letter from the

President of the G. B.

Friend Board No 19

dated 11 April 1879.

alluded to by the Surgeon General. Such cases the Board think are not likely to be of frequent occurrence.

3. The Board think that they should not be saddled with the payment of increments of salary consequent upon promotion by lapse of time, of Medical Subordinates employed by them. The Dispensaries under their control are, as a general rule, not of the description to call for their being placed in charge of. Medical Officers of the higher grade nor would Local Fund Boards in course of time be able to bear the strain which would be put upon them by the retention in small Dispensaries of a number of Officers of this class.

4. The Local Fund Board are of opinion in respect to the cases put in para 6 of the Surgeon General's letter that the following is the only means by which to set matters upon an equal footing viz that no medical subordinate entirely paid by either Government or Local Fund Boards shall be permitted to receive for himself any fee on account of services rendered by him for the body by which he is not paid but that the fees which are claimable under the rules

42/66
should be paid to his employers. Thus if a Government subordinate medical officer is called upon to take charge of a Local Fund Dispensary the Rs 15 claimable should be paid to Government and if a medical subordinate in the employ of Local Fund Boards makes a Post Mortem Examination for the Police, the fee payable should be handed over to the Local Fund Board.

5. This would put the classes A, B & C on an equality. H.S. 16/6

6. The difficulty as regards the various cases cited appears to have been caused by two different principles having been taken into consideration when passing the orders from which they have arisen.

7. The Board consider that, as regards the question of pensions it is equitable that where Medical Subordinates have served the whole of their time for pension in the employment of Local Fund Boards, their pensions should be borne entirely from Local Funds but that where the service has been partly under Government and partly under Local Funds the pension shall be chargeable to

to Local and Provincial Funds in proportion
to the periods of service under either employer
and to the portion of pay drawn from each,
the same rule holding good in the case of
an Officer who has been during his service
employed under more than one Local Fund
Board.

dated 2nd December 1878, I have the honor to transmit
copies of the views, expressed by the Local Fund Boards
of this District on the subject of P.O. No. 1909, dated
24th October last.

2. It is unnecessary for me to notice here in detail
the several points raised by the Accountant and
Surgeon-Generals, as they have been sufficiently
dealt with by the Local Boards in the enclosed
Resolutions.

3. In reference to para 2 of the Board's Proceedings
under reply, I beg to state that there are two medical
commissioners, one in each of the two circles of this District,
but

but that their pay and allowances do not exceed those of the Hospital Assistants in the service of Government. There are also two medical subordinates, whose services have been lent to the local bodies; but both of them are not in receipt of higher salaries than they would be entitled to, if in Government employ.

Extract from the Proceedings of the Local Fund Board, Madachalam Circle, dated 31st March 1879

3 Read foot-note No 6 of the 14th letter from the President referring for report Proceedings of the Boards of Revenue dated 2nd December 1878 No 2215 regarding pay and allowances of Medical Subordinates serving in Hospitals and Dispensaries many of which are paid either in whole or in part by Local Bodies.

The Local Fund Board Concur with the Accountant General, and Surgeon General in considering that the pay and pensions of retired medical Subordinates when retaken in service must not be more than the pay they were receiving before retirement, and that the pay to be given to medical private practitioners should not be restricted so as to be not more than the pay of the third class or lowest grade.

Grade Hospital Assistants.

As regards the question of Compulsory retention or otherwise of pro-
- noted Subordinates, the Local Fund
Boards are of opinion that this must be
left to their option.

As regards the matter of extra-
allowances for extra-ordinary work, such
work in the sense of work entitling to
allowance should be reduced to a mini-
- mum. Except travelling charges there
seems no good reason for the existence of
any.

Regarding the question of liability
for pensionary allowances, the Local
Fund Board by a majority are of
opinion that as the Department is
at present officered, it is fair that
the Local Bodies should bear pensionary
Charges proportionate to service under
them; but are not prepared to bind them-

or those trained at their cost, and
before consenting to adopt such pro-

Government Servants; because the conditions of Local Fund Service and Government Service are different and the Board would in many cases be willing to employ a man long after Government had considered him entitled to a pension. The Board further considers they may be able too, to supply themselves with Special Local Fund Subordinates not in the employ of G.P.

In cases where salaries are paid partly by Local Fund Board and partly by Government the Board are for the present willing to contribute a portion of the pension calculated.

(a) on the length of time actually passed on Local Fund Service,

(b) on the proportion of the salary paid by the Local Fund Board.

provided that in any case the Board are not to contribute more than half the amount so calculated under the above 2 heads.

Thus, say a man is paid $\frac{3}{4}$ by the Board and $\frac{1}{4}$ by G.P. and that of his service towards pension (30 years) 2 years are passed in Local Fund employ. The Board willing to contribute $\frac{1}{3}$ or $\frac{1}{5}$ of his pension but as the Board only pay $\frac{3}{4}$ of his salary they will only pay $\frac{3}{4} \times \frac{1}{3}$ or $\frac{1}{4}$ of his pension. As he is really a G.P. and not a L.F. servant they will only pay one half of the amount thus calculated or $\frac{1}{2} \times \frac{3}{4} \times \frac{1}{3}$ or $\frac{1}{8}$ (Force left out)

Sir,
With reference to para 1 of the
Board's Proceedings dated 2nd December
1878 No 3213, I have the honor to enclose
copies of Local Fund Board's Proceedings
of the Madura and Dindigul Circles Nos 17
and 27 respectively expressing their views
in regard to the questions therein raised
about the pay and allowances of Medical
Subordinates employed by the Local
Fund Boards and the payment of contri-
bution from them towards Medical
Subordinates in their employ.

2. The Dindigul Circle Board
are against placing any restrictions
in the rate of pay to be paid by them
to the Medical Subordinates, while the
Madura Board are silent on the point.
In regard to the contribution towards
pension

pension, the Madura Board would contribute under certain restrictions described by them and the Dindigul Board express no opinion about it.

3. As to the pay of Pensioned Hospital Assistants, it should not exceed what they would get when on the effective list. The rules regarding the payment of pensionary contributions towards Officers sent to Court of Wards and Native States should govern the case of Medical Officers employed by the Local Fund Boards.

4. Referring to para 2 of the Board's Proceedings quoted above, they state that there are no medical officers in the District lent by Government in receipt of higher salaries than they would be entitled to if in Government employ. A pensioned 1st class Hospital Assistant has been appointed to Kodikanel on a consolidated salary of Rs 50 per mensem in addition to his pension.

the Commissioners fully recognize the justice of the principle that they should bear the additional expense involved in the promotion of the Hospital Assistants employed in their Dispensaries and they are prepared to bear such expense provided a service of at least 5 years has been rendered in their Dispensaries before promotion had been attained and that the service has been meritorious and useful. With this view the Commissioners beg to suggest that in all such cases, they be consulted and their opinion obtained whether the Hospital Assistant deserves the promotion to which he might have become entitled by length of service. The Hospital Assistants at present employed in the Dispensaries of the Municipalities are both of the 1st class. In respect to Pensioned Hospital Assistants, who may be taken into the

2

the Municipal service, ^{421/28} the Commissioners approve the proposed rule that their effective pay should be restricted to the pay of their rank less their pension, provided the pension is borne wholly by Government. As regards private practitioners, the proposal that their pay ^{should be} restricted to that of a 3rd Class Hospital Assistant is very unfair. They should be allowed to rise in the service of Local bodies under the same rules and regulations as those which apply to men in the service of Government.

The case of Medical Subordinates paid partly by Government and partly by Local bodies referred to in para 6 of the Surgeon General's letter is really a hard one. The Commissioners consider that they should be paid the same fees as those paid to classes A & B. and that the

the charges thus incurred should
be divided equally between Govern-
ment & Local bodies in the same
way as their salaries are now paid.

Read letter from the President
12th March, 1880, observing that the
Commissioners have not considered the
question of granting batta to members
of the Vaccine Department, as required
in G.O. No. 133, 27th January 1879, and
requesting that the subject may be
again laid before the Commissioners
& their opinion communicated to him.

6. The Commissioners observe that
the Deputy Inspector of Vaccination has
his head quarters in the Municipality
& cannot therefore claim batta for
travelling within its limits. If the
head quarters are beyond the limits,
he must be paid batta for visits to
the Municipality at a moderate rate which
the Commissioners would fix at 4 annas a day.

Sir,

I have the honor to enclose copies of the Proceedings of the Municipal Commissioners of this District on the various points raised by the Accountant General and Surgeon General. I. M. D. in their letter embodied in G. O. 24th October 1878. No. 1909 Financial Department.

2. The Commissioners for the town of Sanford content themselves with recording their opinion, that the pay of a pensioned medical subordinate in the employ of a Municipality ought not to exceed that of his effective rank, and on this point the Mayavaram Commissioners agree with them.

3. The

3. The Negapatam Commissioners are prepared to pay the increased salary due to a Medical Subordinate who obtains promotion; but they agree with the Combaroom Municipality in considering it unfair that they should be called on to pay any part of the pension to which a Medical Subordinate may become entitled.

4. The Proceedings of the Mammargudy Commissioners do not grapple with the question raised.

5. The following appears to me to be the principal points for consideration.

(1) Whether the salary of pensioned Hospital Assistants shall be restricted to that of an effective subordinate.

6. On this point the Accountant General (para 3) merely states that in the opinion of the Board of Revenue the salary should be so restricted. But the Surgeon General gives the following reasons for holding the same opinion.

"The suggestion of the Accountant General, however, is deserving of adoption, in as much as it tends to get rid of a
strong

421/91
"strong inducement to Medical Subordinates to leave the effective service for the pension list, at the earliest possible date. It is obvious that were the remuneration of the pensioned higher than that of the effective subordinate every effort would be made to secure what, under such an arrangement, would prove the more profitable service of the Gov." (para 4).

7. Surely the Surgeon General overstates the case. Under the existing system there is no certainty, but very far from it, that every medical subordinate who is put on the pension list, will obtain employment either under a Local Fund Board or a Municipality, and even if they all were certain of such employ, it does not follow, that they would receive a higher rate of pay than was given them while on the effective list, for there never has been more claimed on the part of Local Bodies than an option to give extra pay if there were special reason for doing so. To hold then that the public service will suffer by men leaving it at the earliest possible

possible date for such shadowy prospects as these, is, I submit, to allow the imagination undue play when endeavouring to arrive at a wise conclusion on a question of fact.

8. Word and fact rules, however well they may look on paper, are sometimes found to work badly in practice and I submit that it would be good policy to leave some elasticity in the rules as to meet objections that may be taken to serving in an unpopular, unhealthy, or very remote tract of country, such for instance as parts of the Pathercottai & Patragundi Taluqs of this District.

9. If matters are left as they are, (as I hope they may be), it will rest with the Government to grant or withhold an addition to the effective pay of the Medical Subordinate after considering the reasons for such increase which may be submitted by the Local Bodies, and thus an effective check on a tendency to extravagance

will be maintained. 1892
10. (2) The second point to be considered is, the suggestion made by the Accountant General (para 3)

"that purely private practitioners so employed should be restricted to the pay and allowances of the 'lowest Grade Hospital Assistant'."

11. The Surgeon General says the proposal is impracticable since "medical qualifications have like other qualifications a money value and if purchased must be so at their market rate". I submit that the true point, simplifying, is, to what extent are the Government prepared to allow the Local and Municipal Funds to be applied for such a purpose; and I would suggest that the Accountant General's proposal be adopted as I believe we shall have no difficulty in securing private practitioners at that rate for some years at all events and until the people in the mofussil are more ready to pay fees to private practitioners than they are at present.

12. (3) The third point seems to be, whether
Local Bodies should be relieved
of the Services of Medical Subordinates
when promoted, and have Substi-
tutes holding lower rank appointed.
The Surgeon General's objections to this
proposal are as follow - "This suggestion
appears to me to be hardly a fair
one, in as much as, if adopted, Local
Fund Boards would escape the in-
cidence of a fair charge by transmitting
their liabilities to Provincial funds.
If the rule be a sound one which
debts each department with its fair
share of liability, then must Local
Fund Boards be prepared to accept
the additional expense involved in the
promotion of agents on the ground that
it was in their service that promotion
had been attained". The converse policy
"would burden Provincial Funds
with expensive agents and saddle
them with charges which properly
belong to Local Bodies". I have
italicized the words above, as they
contain the only reason which the

Surgeon

12/93
Surgeon General has advanced in sup-
port of his strongly expressed opinion
and I regret that after giving my best
attention to the passage, I am obliged
to confess that I have not the slightest
idea what meaning the Surgeon General
intended to convey to the reader.

13. I would submit that our funds
will scarcely bear the increased burden
proposed, and if the change is brought
into force I should think the Local Bodies
would endeavour to supply the places
of promoted Subordinates by private
practitioners, or pensioned Hospital
Assistants, and thus as far as possible
rid themselves of the increased burden.

14. (4) The next point that occurs to me is,
whether Government should not claim
a monthly contribution to meet the cost
of pensioning medical subordinates.

15. The proposition stated broadly
is, I think, only just and reasonable,
as it cannot be right that Local Bodies
should be allowed the Services of
Medical Subordinates during the days
of their efficiency, and that the whole
Cost

cost of providing them with pensions
should fall on Government. But I
think it should be borne in mind
that if on the one hand Local Bodies
are bound to contribute towards
pension, on the other hand there is a
corresponding obligation on the Govern-
ment to provide all our hospitals
and dispensaries with medical sub-
ordinates, and this they have never yet
been in a position to do.

In acknowledging receipt of Memo No. 447 of the 12th Instant asking my opinion with reference to C. O. No. 1909 dated 24th October 1898 (Herewith returned) I have the honor to state that I concur with the remarks of the Surgeon General and Mr. Bixby; the Medical Subordinates whether pensioned by Government or otherwise should, when employed by the Fund Boards, or Municipalities, in any position be granted pay at the same rates as if still in Government Service. It would be a bad precedent to give them higher emoluments as they would do their best to leave Government Service for these several appointments which I think they should not have it in their power to do.

2. The Native Surgeon draws the pay and allowance of his rank as follows: -

As a 1st Class Native Surgeon his pay proper Rs 200 per mensem and his Dispensary allowance Rs 50 making in all Rs 250. He draws his pay from three Sources viz three-fourths from the Municipality and the Local Fund Board and a fourth as a Contribution by Government from Imperial Funds. of the uncounted Civil Service.

3 The Hospital Assistant is a member of the branch of the New Civil Subordinate Medical Service belonging to the 32^d class and draws his pay Rs 20 per mensem from Municipal and Local Funds & he is also entitled to Pension.

4. This Subordinate was recently posted to this Dispensary in 11th July 1878 but from want of a medical officer for the Dispensary at Putrapundi, he was transferred to that Institution in September last. This institution (the Mannargudy Dispensary) stands in need of an Hospital Assistant and one will be appointed as soon as one becomes available for duty. The Service of an Hospital Assistant is absolutely necessary for an Institution of this kind.

reminders of the 19th Instant No. 243, I have

1. The Commissioners consider that the Eng-
agement of the Accountant-General that Resident
Hospital Assistants temporarily super-employed,
should be restricted to the pay and allowances
they would have drawn on the Government
Establishment may freely be adopted for the
reasons set forth by the Surgeon-General in
Para 4 of his letter No. 192.

3. The Commissioners do not consider it
fair to impose any restriction on the pay and
allowances of purely private practitioners as
set forth by the Surgeon-General.

one

the Surgeon-General the Commissioners
beg to suggest that as a paid Pensioned

annual income is less than Rs 20,000.

5. There is neither a Medical Subordinate

that expressed in para 5 as to the impropriety
of the local bodies being relieved of the extra

But they however regret to differ from the

4. The Rajahmundry Municipal Commission has considered the questions proposed in the G. O. fully and has arrived at the following opinion.

1. That the pay allowed to a perjured practitioner by a Municipality should not exceed the difference between his pension and the pay of the grade from which he retired.

2. That no restriction on the pay of a private practitioner is practicable.

3. That Government cannot fairly be required to remove a Medical Subordinate on promotion. Now that Civil Hospital Assistants are provided, the pay will never exceed Rs 50 per mensem.

4. That the present plan is a bad one, but that the Commissioners are not prepared to suggest any improvement. The principle should be that the extra pay should reach the employer, who would allow such remuneration as might be considered advisable to the employee.

5. That Municipalities may fairly be called upon to pay a contribution towards pension not exceeding 20 per cent of the actual pay of the subordinate employed.

The grant of pension should be continued

work in the Local Fund Department. A
Subordinate will be paid from Local Funds
as long as he works in the Department.
Therefore the payment of pension has nothing

With reference to the Proceedings of your Board noted in the margin, I have the honor, by order, to state that at the time of writing this office letter, No. 1,891, dated the 16th April last, the Resolution of the Government of India was overlooked, agreeably to paragraph 3 of which Civil Hospital Assistants are "liable for military duty with regiments serving in the province to which they belong in the event of necessity arising for withdrawing the Military Hospital Assistants from such regiments."

2. With a surplus, however, of about 250 Military Hospital Assistants over and above the fixed establishment, whose absorption by normal decrement is calculated to extend over about twenty years, the contingency contemplated by the Government Order is so remote that practically the present generation of Civil Hospital Assistants will scarcely be liable to be called upon to render military duty.

many of which are paid either
in whole or in part by Local Bodies.
I have the honor to state as under.
I agree generally with the suggestions
made by the Accountant General
and Surgeon General.

1. That Hospital Assistants
should be restricted (in addition
to their pension) to the pay and
allowance they would have drawn
on the Government Establishment
for equivalent reasons it would be a bad
precedent to give them higher in-
crements as they would do their
best to leave Government service
for these several appointments
which I think they should not
have it in their power to do.

With regard to the pay of purely
private practitioners I would
amend the suggestions made
by the two above mentioned of-
ficers. I would not restrict
them to the lowest grade pay
neither would I give them what
the Surgeon General calls it as
their market value. I would sug-
gest their commencing in the pay
of 30 (plus Hospital Assistants
with an additional increment
with each year of service.

I agree with the Surgeon
General that the Local Bodies
should not be relieved of medi-
cal subordinate on promotion
for his reasons stated.

With regard to paras 5, 6 & 7
it seems to fall hard on medical
subordinates in classes A & B. but
in class A. when drawing an extra
allowance of a sum not exceeding
\$15 per month as sanctioned in
G.O. 1208 of 8th July 1876 for extra work
performed by them for Local Bodies
that ought to be considered a sufficient
equivalent for any work they may
be called upon to do with the
exception of travelling allowance
which should I think be granted
them at the present rates when
they have to leave their headquarters
on any special duty.

With regard to the payment
of pension of these medical subor-
dinates I think it would be

421/114
fair that the Local Bodies
should pay a certain monthly
allowance according to the length of time
they may have been employed
in their service either by monthly
contribution or in a lump sum

Sir,

I have the honor to enclose
copies of the Proceedings of the Municipal Commissioners of this district on
the various points raised by the Accountant
General and Surgeon General I. M. D.
in their letters embodied in G. O. 24th October
1878 & 1909. Financial Department.

2.

The Commissioners for the Town
of Bangalore content themselves with record-
ing their opinion, that the pay of a per-
sioned medical subordinate in the
employ of a Municipality ought not to
exceed that of his effective rank, and
on this point the Mysore & Bangalore Commis-
sioners agree with them.

3.

The Bangalore Commissioners are
prepared to pay the increased salary
due to a medical subordinate who

obtain promotion, but they agree with the Combaconum Municipality in considering it unfair that they should be called on to pay any part of the pension to which a medical subordinate may become entitled.

4. The Proceedings of the Manayandi Commissioners do not grapple with the questions raised.

5. The following appear to me to be the principal points for consideration.

(1) Whether the salary of Pensioned Hospital Assistants, shall be restricted to that of an effective subordinate.

6. On this point the Accountant General (para 3) merely states that in the opinion of the Board of Revenue the salary should be so restricted. But the Surgeon General gives the following reasons for holding the same:

"opinion. The suggestion of the Accountant General, however, is deserving of adoption in as much as it tends to get rid of a strong inducement to medical subordinates to leave the effective service for the pension list at the earliest ^{possible} date. It is obvious that were the remuneration of the pensioned higher than that of the effective subordinate every effort would be made to secure what, under such an arrangement would prove the ^{more} profitable service of the two" (para 4).

7. Surely the Surgeon General overstates the case. Under the existing system there is no certainty, but very far from it, that every medical subordinate who is put on the pensioned list will obtain employment either under a Local Fund Board or a Municipality; and even if they all were certain of such employment it does not

follow that they would receive a
higher rate of pay than was given them
while on the efficient list, for there never
has been more claimed on the part of
Local Bodies than an option to
give & to pay if there were special
reason for doing so. To hold them that
the public service will suffer by more
leaving it at the earliest possible date
for such shadowy prospects as these,
is, I submit, to allow the imagination
under play when endeavouring to
arrive at a wise conclusion on a
question of fact.

8. Hard and fast rules,
however, well they may look on paper,
are sometimes found to work badly
in practice, and I submit that it
would be good policy to leave some
elasticity in the rule so as to meet ob-
jections that may be taken to serving
in an unpopular, unhealthy, or very

remote tract of country, such for instance
as parts of the Patteesdah and Subapandi
Talugs of this district. 22/17

9. If matters are left as they
are, (and as I hope they may be) it
will rest with the Government ~~to~~ ^{to} grant or withhold an addition to the
effective pay of the Medical Subordi-
nate after considering the reasons
for such increase, which may be sub-
mitted by the Local Bodies and
thus an effective check on ~~the~~ ^{an} extravagance will be maintained.

10. 121 The second point to be consi-
dered is the suggestion made by the
Accountant General (para 3) that
"purely private practitioners do
"employed should be restricted
"to the pay and allowances of the
"lowest Grade Hospital Assistant."

11 The Surgeon General

says the proposal is impracticable since
"Medical Qualifications have like other Qualifications a money value and if
"purchased must be so at their market
"rate. I submit that the true point simply
is, to what extent are the Government
prepared to allow Local and Municipal Funds to be applied for such a
purpose; and I would suggest that
the Accountant General's proposal
be adopted as I believe we shall have
no difficulty in securing private
practitioners at that rate for
some years at all events, and until
the people in the mofussil are more
ready to pay fees for private practitioners than they are at present.

12 The third point seems to be
whether Local Bodies should be
relieved of the services of medical
subordinaries when promoted,

and have substitutes holding ^{421/15} lower
rank appointed. The Surgeon General's
objections to this proposal are as follow
"His suggestion appears to me to be hardly
"a fair one in as much as, if adopted
"Local Fund Boards would escape
"the incidence of a fair charge by trans-
"mitting their liabilities to Provincial
"Funds. If the rule be a sound one
"which debits each department with
"its fair share of liability, then
"must Local Fund Boards be
"prepared to accept the additional
"Expense involved in the promotion
"of Agents on the ground that it was
"in their service that promotion
"had been attained". The converse
"policy would burden Provincial
"Funds with expensive agents and
"saddle them with charges which
"properly belong to Local Bodies"

I have utilized the words alone
as they contain the only reason
which the Surgeon General has
advanced in support of his strongly
expressed opinion, and I regret that
after giving my best attention to the
paper I am obliged to confess
that I have not the slightest idea
what meaning the Surgeon General
intended to convey to the reader.

13. I would submit that
our funds will scarcely bear the
increased burden proposed and
if the change is brought into force
I should think the Local Bodies
would endeavour to supply the
places of promoted Subordinates
by private practitioners, or pensioned
Hospital Assistants, and thus as far

as possible rid themselves of the
increased burden. $\frac{42}{119}$

14. The next point that occurs
to me is whether Government should
not claim a monthly contribution
to meet the cost of pensioning
Medical Subordinates.

15. The proposition states
broadly is, I think only just and
reasonable as it cannot be right
that Local Bodies should be
allowed the services of Medical
Subordinates during the days of their
efficiency, and that the whole cost
of providing them with pensions
should fall on Government. But
I think it should be borne in mind
that if on the one hand Local Bodies

are bound to contribute towards
pension, on the other hand there is
a corresponding obligation on the
Government to provide all our
Hospitals and Dispensaries with
Medical Subordinates, and this
they have never yet been in a position
to do.

After considerable discussion the Board agreed Seriatim to the following 5 Resolutions, which the President was requested to embody in the draft of a letter to be submitted to the Board of Revenue.

I The Board are agreed that the anomaly of Subordinates paid from Imperial Funds and Local Funds drawing different allowances for certain duties should cease, and that all should receive the same remuneration for the same services.

II That when a Subordinate retires and is employed as pensioner by Local Fund Board he shall not draw more than what he drew while he remained on Government Service.

III The Board consider that there are not sufficient data for fixing any scale of minimum allowances to

to Private Medical Practitioners, as proposed by the Accountant General, but prefer that each case be dealt with on its merits. $\frac{12}{27}$

IV As regards the question of pay on promotion the Board are prepared to meet all increments that may accrue to Civil Hospital Assistants whilst in their service. but as regards the class of Civil Apothecaries whose pay rises to Rs 75/- after only 3 years, and eventually to Rs 200, the Board are not in a position financially, to accept the same liability.

V. The Board are of opinion that they are not in a position to undertake an unknown charge by the institution of a general Pension list, but consider that they are fairly liable for a fixed annual contribution

Contribution based on the number
of Subordinates employed in the
District.

Madras.

Sir,

With reference to Proceedings of
the Board of Revenue No: 3213 dated 2nd
December 1878 forwarding to all Presidents
for report certain papers relating to the
pay and allowances of Medical &
Subordinates paid for in whole or in part
by Local Bodies, I have the honor to state
that all the papers connected with the
subject were circulated among the members
of the Local Boards so far back as 25th
January.

January last, for an expression of their individual opinion. But with the exception of 5 Members who say "they agree with Dr. Smith" none of the Members of the Board (with the exception of the President, Vice President, and the Zillah Surgeon, who have gone thoroughly into the matter) have expressed any opinion on the subject.

However the points noted seriatim below were fully discussed at a Special Meeting of the Local Funds Board, Salum Circle held on the 1st Instant.

1st. Whether any extra remuneration is to be given to Medical Subordinates without any distinction as to the source from which they draw their pay?

2nd-. What is to be the pay to be allowed to Pensioned Medical Subordinates

Subordinates!

3rd-. What ^{pay} is to be allowed to Private Medical practitioners in the employ of Local Bodies?

4th-. The Question of Local bodies bearing the cost consequent on the promotion of the Medical Subordinates in their employ.

5th-. The Question of Local Funds Boards and Municipal bodies incurring pensionary charges to be given to Medical Subordinates.

2 In reference to the 1st question the Circle Board considered that the present rules are anomalous and that the distinction between Medical Subordinates paid entirely by Local Bodies and those paid wholly or partly by

by Government should be done away with.

3 As regards the 2nd question the Board agree in the main with the views of the Surgeon-General and suggest that a Resigned Medical man, if employed by the Local Bodies should be allowed to draw the same pay which he would draw had he remained on the effective list. This of course is inclusive of his pension.

4 The Board are not in a position to express their views regarding the 3rd question viz- the pay of private practitioners, only one having been entertained as yet * Mr. Oliver for within the circle, but are of opinion that as General Dispensary a matter of principle each case should be dealt with on its merits - as was done in the case of Mr. Oliver.

On

5 On the 4th Question the pay on promotion of Medical Subordinates in the employment of Local Boards, the Board are prepared to meet the increments to Civil Hospital Assistants, but do not consider they are in a position to accept the same liability as regards Civil Apothecaries.

6 The last is the Pension Question. The Board admit its liability to contribute a portion of the Medical Subordinates pension, but are not in a position to undertake an unknown charge by the institution of a general Pension list.

7 Copy of the Circle Board's Resolution on the above 5 questions are enclosed for

Palities in this District, the Vice President
of the Tinnevely Municipal Commission
has no remarks to offer on the general question
raised. The Palamcottah Municipal Commission
are of opinion that:-

- (1) Medical subordinates wholly employed
and paid by Government should be remunerated
by Local bodies for the extra duties they
may perform for them at such rates as

Local bodies may fix with reference to their means and the nature of the work.

(2) Medical Subordinates wholly employed by Local bodies and paid by them should be remunerated by Government for any extra duties they may perform for them at the rates now prevailing.

(3) Medical Subordinates partly paid by Government and partly by Local bodies must perform the duties exacted by both without extra remuneration.

2 Medical Subordinates of the first of the above three classes being purely Government servants, there would be no question as to who should bear the cost of pension. As for the second class, Local bodies should bear the whole cost of pension in respect only of those Medical Subordinates who have not been already pensioned by Government and who took up the service of Local bodies from the very commencement, but if such subordinates

before completing their pensionable ^{421/53} period of service under Government, enter the service of Local bodies their pension should be defrayed by both the Government and the Local bodies, in proportion to the period of service under each and vice versa; and as regards the 3rd class, both the Government and the Local bodies should bear the cost of pension in proportion to the nature and extent of the work exacted by them. They are also of opinion that pensioned Medical Subordinates re-employed by Local bodies must not be allowed a second pension. The Municipal Commissioners of Tinnelly have expressed their opinion on one point only, and that is, that a contribution should be paid from Municipal funds under Section 46 of the Civil Pension Code on behalf of Medical Subordinates sent to Local bodies.

3 As under Government Order No 308 dated 30th

7 February 1877 Medical officers, or rather medical practitioners, in the employment of Municipal bodies do not appear to be entitled to pension unless they be what are called Medical Subordinates from the Government Medical Staff, the opinion of the Palamcottah Municipal Commissioners regarding the pension of officers of this class, contained in para 2 above, seems to me to hold good even though a contribution of one-fourth be paid by Government towards the salaries of the Medical officers or Medical practitioners under Government Order No 1748 dated 28th September 1876 as modified by Government Order No 2231 dated 7th December 1876.

4 None of the Commissioners have

entered upon the important ⁴²¹/₁₃₄ point as to additional expenditure in consequence of promotions of Medical officers in the employ of Local bodies which, I think, should be borne by the Local bodies.

The accountant General's proposition to restrict the pay of private practitioners to that of the lowest grade Hospital Assistant is impracticable. The Board is divided in opinion as to its right to be relieved of Classes (b) & (c) when promoted. Undoubtedly the Vice President would claim the right. Mr P. R. With regard to the future division of the subordinate medical service in Local Funds it seems most unavoidably contributed either the total contribution towards pension or a proportionate part according as they obtain the sole or part services of the Medical practitioners & would be entitled to a refund in the event of pension not being eventually paid.

II Read Prot. notes of Acting President to L.C.
24th October 1878, No 1908 Financial in relation to
pay and allowances of Medical Subordinates paid
for in whole or in part by local bodies.

The Commissioners are of opinion that
the grade of the Medical Subordinates to be
employed by Municipalities in their Dispensaries,
and their consequent pay, must be left, in a great
degree, to the individual Municipality, with refer-
ence to the requirements of the Dispensary & the
income of the Municipality. As to the pension of
such Medical Subordinates in the service of
local bodies the Commissioners do not feel prepared
to give a decided opinion, but feel disposed to move
with the majority of Municipalities in the matter.

of pay and allowances of Medical subordinates
paid by local bodies.

In the case of Medical subordinates
paid wholly by the Municipality, the Commissioners
are not prepared to contribute towards their
pensions. Paying as they do, the whole of the
salaries, they consider that they should also
have authority to refuse any contribution
towards their pensions so long as the men
are called Government servants; because
the conditions of Municipal service and Govern-
ment service are different and the Commission-
ers would in many cases be willing to employ a
man long after Government had considered him
entitled to a pension. The Commissioners further
consider they may be able soon to supply them-
selves with special Municipal subordinates
not in the employ of Government.

In cases where salaries are paid partly

by the Municipality and partly by Government
the Commissioners are for the present willing
to contribute a proportion of the pension Cal-
-culated (a) on the length of time actually passed
on Municipal service, (b) on the proportion
of the salary paid by the Municipality, provided
that in any case the Board are not to contri-
-bute more than half the amount so calculated
under the above two heads.

Thus, say a man is paid $\frac{3}{4}$
by the Municipality and $\frac{1}{4}$ by Government
and that of his service towards pension (30 years)
two years are passed in Municipal employ,
the Commissioners are willing to contribute
 $\frac{2}{30}$ or $\frac{1}{15}$ of his pension, but as the Commissioners
only pay $\frac{3}{4}$ of his salary they will only pay
 $\frac{3}{4} \cdot \frac{1}{15}$ of his pension. As he is really a Govern-
ment and not a Municipal servant they will
only pay one half of the amount thus calcu-
-lated or $\frac{1}{2} \cdot \frac{3}{4} \cdot \frac{1}{15}$ or $\frac{1}{40}$.

with G. O. No. 1909 of 24th October 1878. Referring
for report the question of pay and allowances
of Medical subordinates serving in Hospitals
and Dispensaries many of whom are paid
either in whole or in part by Local Bodies.

The Board are of opinion that it is
but fair that Local Bodies should contribute
to the pension of Hospital Assistants employed
by them, in the same way as they contribute
to the pension of other employees of theirs, who
are not appointed by them; e.g. Deputy Inspectors
of Vaccination. They think ^{also} that it is reasonable
that pensioned Hospital Assistants when employ-
ed by a Local Body should not receive in
addition to their pensions remuneration greater
than the pay ^{they} drew before being pensioned.

With regard to private practitioners employed by Local Boards it seems impossible to make the restriction as to remunerations which is suggested by the Accountant General. If the private practitioner thinks the pay of a third class Hospital Assistant is an adequate remuneration he would probably be content with that. If he ^{rates} ~~values~~ himself at a higher value he would not serve the Local Board on those terms. The Board further agree with the Surgeon General in thinking that it is not fair that Local Boards should be relieved of medical subordinates on promotion, and have a man of lower rank appointed in stead. They think also that the Local Fund Board would not gain by such an arrangement, for the effect of it would be that they could be served only by men of small experience.

With regard to fees paid for extra work such as post-mortem examination, examination of wounds and the like, the Board think that it would be fair that men who are paid partly by them should be treated in the same way as those who are paid wholly by them, for there seems no sufficient

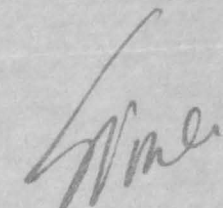

reason for the distinction which is at present drawn between the ^{two} classes.

The commissioners are of opinion that medical subordinates who are paid partly by Local bodies and partly by Government should be entitled to receive fees for extra work done by them; and that Local Fund Boards should contribute towards their pension.

as regards those officers
who are paid by Local
Funds or Municipalities
with contributions from Go-
vernment, the fact of
such contribution should
not deprive them of re-
ceiving fees for post mortem

(Shinglepat, Conjevaram.)
The Commissioners think
that Medical Subordinates

The Commissioners are of opinion that a portion of the pension of Medical Subordinates might be borne by Local bodies in cases where their services are solely rendered to those bodies.

Godavary. — Cocoanada and Ellore are not concerned in the disposal of the grants raised.

Rajahmundry. — The Commissioners are of opinion that the pay of a pensioned practitioner should not exceed the difference between his pension and the pay of the grade from

that no restriction on the
pay of a private practitioner
is practicable; that
Government cannot fairly
be required to remove
a medical subordinate

that municipalities can

The commissioners give it
as their opinion that pen-

that purely private practition-
ers should be restricted

that local bodies should

Guntur. — The Com-
missioners admit their
liability

liability to contribute towards the pension of the Medical Subordinates; but, in their case, are unable to do so on account of the straitened state of the finances.

Kurnool. — The commissioners are of opinion that Medical Subordinates in Municipal employ should not be paid extra fees for any work done for Government; the Government on their part waiving all claims on the Municipality for contribution towards pensions of their Medical Subordinates.

Madura. — The Municipality

pality thinks that it can be called upon to contribute for pension only in case the Medical Subordinates are paid partly by Municipal funds and partly by Government according to the actual service done to the Municipality.

Andigul. — The commissioners wish to be guided by the opinion of the majority of the Municipalities on the subject.

North Arcot, Vellore. — The commissioners are of opinion that the pay and promotion of Medical subordinates serving under local bodies

bodies should not be
different from the pay
and promotion of those
serving in the military
department; and that
there can be no objection
to demanding a contribu-
tion from local bodies to-

South Arcot, (Chelambaram).
The Commissioners give
no definite opinion on
the points raised. They
are however of opinion
that Medical Subordinates,

Municipalities are unable
to pay contribution for

missioners are prepared

to

to pay the increased salary due to a Medical Subordinate who obtains promotion; but they agree with the Combaconam Municipality in considering it unfair that they should be called on to pay any part of the pension to which a Medical subordinate may become entitled.

Combaconam. — The Commissioners are not prepared to contribute any thing towards the pension of Medical services

Mayaveram. — The Commissioners

Commissioners consider that the suggestion that pensioned Hospital Assistants temporarily re-employed should be restricted to the pay and allowances they would have drawn on the Government establishment may freely be adopted. They do not deem it fair to impose any restriction on the pay and allowances of purely private practitioners. As regards liability for payment of increased allowances on promotion of Medical Subordinates, the Commissioners suggest that as a rule Pensioned Hospital Assistants be appointed to

to the dispensaries in
the various municipalities
whose annual income is
less than Rs. 20,000. The
Commissioners see no
objection to make a month-
ly contribution towards
the pension of their medical
Subordinates.

Mr. Webster express-
es his personal opinion
on the several propos-
als, which is summa-
rized below. —

On the question whether
the salary of pensioned
Hospital Assistants shall
be restricted to that of
an effective subordinate,
Mr. Webster submits that
it would be good policy
to have some elasticity
in

in the rule, ^{421/1000} so as to
meet objections that
may be taken to serving
in an unpopular, un-
healthy or very remote
tract of country. If
matters are left as they
are, (as Mr. Webster hopes
they may be) it will
rest, he says, with the
Government to grant
or withhold an addition
to the effective pay of
the Medical Subordinate
after considering the
reasons for such increase
which may be sanctioned
by the Local bodies, and
thus an effective check
on a tendency to extra-
vagance will be main-
tained.

As.

As to the second point, that purely private practitioners employed by Local Fund Boards and Municipalities should be restricted to the pay and allowances of the lowest grade Hospital Assistant, Mr. Webster inclines to this suggestion of the Accountant General as he believes there will be no difficulty in securing private practitioners at that rate for some years at all events and until the people in the Mofussil are more ready to pay fees to private practitioners than they are at

at present. ^{22/168}

Mr. Webster thinks that Local Funds will scarcely bear the increased burden involved in the liability for increased salaries on promotion of Medical subordinates.

Finally he considers the proposition, broadly stated, that Government should claim a monthly contribution to meet the cost of pensioning Medical Subordinates, just and reasonable; and if this be demanded he adverts to the corresponding obligation on the part of Government to provide "all our Hospitals and

"and dispensaries with
"Medical Subordinates."
