GOVERNMENT OF MADRAS.
FINANCIAL DEPARTMENT.

27th April 1881, No. 739.

Municipal—Works.

Read the following paper :—

From F. A. NICHOLSON, Esq., Vice-President, Erode Municipality, to the President of the Erode Municipality, Coimbatore, dated Erode, 28th March 1881, No. 307 [Current No. 895].

In forwarding herewith a list of proposed works with a copy of the Resolution of the Erode Commissioners, I have the honor to request that, if necessary, they may be sent for sanction by Government at the earliest possible date. These works are not entered in the budget either for the current or the coming year (1881-82), but are to be paid for out of the proceeds of the sale of Municipal land granted to the Commissioners by G.O., No. 951, of 1st May 1879 :—

No. 1.—The Commissioners have spent up to date Rs. 2,717 on the Municipal School-house, which is a permanent and substantial building; but since its opening the numbers have run up to 118, which is more than the school will accommodate without the use of the verandahs, and now the lowest class of the Government Middle School, numbering about 50 boys, is to be turned over to us. It is, therefore, necessary to adapt the verandahs of the school-house. This can be done at a small expense according to the estimate; this, when completed, will enable us to accommodate 200 boys. The expenditure on the building will thus total Rs. 3,197.

No. 2 is for the school compound wall, a very necessary addition.

No. 3 is for the erection of twenty-one day bazaars for the vegetable and other petty traders of the bazaar. At present these people have no accommodation in the very limited town bazaar, and consequently crowd up the roads to the great obstruction of traffic and to their own frequent annoyance, as the Police have to interfere and thus the traders possibly get taken before a Magistrate. These twenty-one shops will give many of these people good accommodation, and at a rent from the shops of even quarter rupee per month will return a good interest (nearly 10 per cent.) on the outlay. It is, however, the convenience both of the traders, buyers, and of traffic generally that is sought by building these shops rather than income.

No. 4 comprises several estimates, aggregating Rs. 2,435, for market sheds; of this amount Rs. 500 are sanctioned by the budget for 1881-82, leaving Rs. 1,935 to be now sanctioned. These sheds are all substantially built and tiled, and will give a sheltered area of about 7,500 square feet comprised in one central shed of 100 feet × 25 feet, which will probably serve for cotton and grain sellers, and 750 feet of tiled shed of 7 feet depth, allowing 125 separate bazaars of 6 feet wide each. These long sheds are so contrived as to form at the same time a wall to the compound for 750 feet, a great necessity to a leased market. These improvements will, with the now growing trees, make a very comfortable market, while the large central shed, which may hereafter be supplemented by another similar one, will give accommodation for future exhibitions of country produce.

Under these circumstances I have the honor to request the earliest possible sanction for these very needful works, so that they may be carried out during the hot season. I should add that the works 1 to 3 were set in hand, as it was not remembered that Government sanction would possibly be required for non-budgeted works of some importance.

CURRENT No. 895

J. A. C. Nicholson Esquire,
Vice President, Erode Municipality.

W. Wilson Esquire,
President Erode Municipality,
Coimbatore.

Sir,

In forwarding herewith a list of proposed works with a copy of the resolution of the Erode Commissioners, I have the honor to request that if necessary they may be sent for sanction by Govt. at the earliest possible date. These works are not entered in the Budget either for the current or the coming year (1881-82), but are to be paid for out of the proceeds of the sale of Municipal Land granted to the Commissioners by G.O. No. 951 of 1st May 1879.

No. 1. The Commissioners have spent up to date Rs 2,717 on the Municipal School house which is a permanent and substantial building, but since its opening the numbers have run up to

118 which is more than the School will accommodate without the use of the verandahs and now the lowest class of the Govt. Middle School numbering about 50 boys is to be turned over to us. It is therefore necessary to adapt the verandahs of the School house. This can be done at a small expense according to the estimate: this when completed will enable us to accommodate 200 boys. The expenditure on the building will thus total Rs 3,197.

No 2 is for the School Compound wall a very necessary addition.

No 3 is for the erection of 21 day bazaars for the vegetable and other petty traders of the bazaar. at present these people have no accommodation in the very limited town bazaar and consequently crowd up the roads to the great obstruction of traffic and to their own frequent annoyance as the Police have to interfere and thus the traders possibly get taken before

739 28
a Magistrate. These 21 Shops will give many of these people good accommodation and at a rent from the shops of ^{even} $\frac{1}{4}$ rupee per month will return a good interest (nearly 10 per cent) on the outlay. It is, however, the convenience both of the traders, buyers, and of traffic generally that is sought by building these shops, rather than income.

No 4. Comprises several estimates aggregating Rs 2,435 for market sheds: of this amount Rs 500 are sanctioned by the Budget for 1881-82 leaving Rs 1,935 to be now sanctioned. These sheds are all substantially built and tiled and will give a sheltered area of about 7,500 Sq. Ft. comprised in one central shed of 100 ft. x 25 ft. which will probably serve for cotton and grain sellers, and 750 ft. of tiled shed of 7' depth, allowing 125 separate bazaars of 6 ft. wide each. These long sheds are so contrived as to form at the same time a wall to the Compound for 750 ft. a great necessity

to a leased market. These improvements with
the now growing trees make a very comfortable
market while the large central shed which
may hereafter be supplemented by another
similar one, will give accommodation for
future exhibitions of country produce.

Under these circumstances I have the
honour to request the earliest possible sanction
for these very needful works so that they
may be carried out during the hot season.

I should add that the works 1 to 3 were
set in hand, as it was not remembered that
Government sanction would possibly be
required for non-budgeted works of some importance.

Yours &c.

Edw. A. Nicholson,

Vice President.

1. Read estimate submitted by Nuisance
Inspector for constructing an Extra Verandah
to the Municipal School.

Resolved that the plan and estimate
be adopted and the work set in hand forthwith.
Resolved further that the pial be extended for
a width of 3 ft. and that an additional sum
of Rs 60 be sanctioned for this purpose.

Commissioner Mrdy. Kalliyanaashndra=
maiya is requested kindly to undertake
the supervision of the whole work. -

2. Read estimate from Do - for
constructing a Compound wall around the

Municipal School house.

Sanctioned -

3. Read estimate from - Do - for constructing a daily market at the South side of the Municipal School Compound. -

3 shops will be omitted at regular intervals, viz^t the 6th, 12th and 18th in place of which a wall will be erected similar in height &c. to the School Compound walls. Rs 675 is therefore sanctioned in place of Rs 750.

Proceedings of the Municipal Commissioners,
Erode, dated 28th March 1881. -

" N. Venkataramanaiya - Do -

1. Read estimate from Sanitary Inspector for constructing a market shed 360 ft. in length by 7 1/2 ft. in breadth, west side of the market.

wall along the line of the Cauvery road.

Read another estimate from - Do - for the same 100 ft. by 25 ft. - $739 \frac{9}{8}$

Read another estimate with plan submitted by the Municipal Overseer for the same.

Resolved that 700 ft. in length of sheds according to the Overseer's plan be built at Rs 105 per 50 ft., the additional cost over estimate providing for a wall on the outer side of the shed to serve as the outer wall of the market compound. These sheds to be built in two lengths of 350 ft., one on the west and one on the east side of the compound. -

Resolved further that a large market shed of 100' x 25' according to the Sanitary Inspector's 2nd plan be built at a cost of Rs 860. -

Resolved also that another length of 50 ft. according to the Overseer's plan be built for the meat and fish sellers on the northern side. -

Resolved that these estimates and
plans be submitted with this resolution
for the sanction of Government to enable
the work to be carried out during the
hot weather.
