FINANCIAL DEPARTMENT.

11th May 1881, No. 824.

Municipal—Budgets.

Read the following papers :—

From R. B. NIXON, Esq., Vice-President of the Municipal Commission, Cocanada, to the President of the Municipal Commissions, Godávari District, dated 31st *January* 1881, *No.* 40 [*Current No.* 369].

With reference to G.O., No. 1347, of 25th April 1877, I have the honor to submit the Budget Estimates of the Cocanada Municipality for 1881-82, together with Regular Estimates of receipts and expenditure for the current official year, passed by the Commissioners at a meeting held by them on the 22nd ultimo and 19th instant.

2. The total receipts in the current year's budget are Rs. 37,680, and the total receipts in the regular estimates are Rs. 36,911. The total receipts for 1881-82 are estimated at Rs. 33,930. This shows a decrease of Rs. 3,750 in our estimated receipts for the next year. Comparing the individual items of these three statements, there are four entries that call for remarks, viz., 1st, "Tolls."—These are estimated for the next year at Rs. 7,000 against Rs. 8,011 this year, but the tolls this year were sold at a very high rate, and the Commissioners did not think that they could safely calculate upon more than Rs. 7,000 being received during next year. 2nd, "Endowments, &c., for the Hospital."—These receipts are estimated for the next year at Rs. 1,300. Our regular estimate shows Rs. 2,246 against Rs. 2,600 estimated for the current year. The receipts for the current year were increased by the sale of the Rs. 1,000 bond from the funded capital to meet the extraordinary expenditure incurred for surgical instruments. The receipts from the subscriptions are also reduced, * * * * * having discontinued his monthly subscription of Rs. 40 from the end of August last. 3rd, "License Tax under Act VI of 1880."—These receipts are estimated for the next year at Rs. 5,000 against Rs. 6,000 estimated for the current year, our regular estimate having shown nearly a comparative decrease, which is chiefly to be accounted for by the fact that a refund of Rs. 900 was made this year in consequence of the three highest classes having been taken out as amended by Act VI of 1880. 4th, "Balance."—This is estimated at Rs. 700 for the next year against Rs. 1,830 estimated this year.

Name omitted by me. There is no necessity to publish it.

(Signed) W. S. FOSTER,
President.

3. An increase of Rs. 500 is estimated under Receipts from House Tax in anticipation that this tax may bring in an increased revenue, the Commissioners under G.O., 15th October 1879, No. 1970, having considered it desirable that the House Tax should be revised for the next year, and resolved accordingly. There are slight increases and decreases in some items, which do not call for special explanation.

4. I now pass on to expenditure. We estimate for the next year Rs. 1,200 for "New Works under Grant I," of which Rs. 1,000 is to be given to the construction of a clock-tower in the town, and the balance is allotted for the erection of two latrines in the 9th Division, which are much needed. The matter of the clock-tower has been in view for the last two years. An allotment of Rs. 1,000, made in our budget for 1879-80, was sanctioned by Government in their Order of the 18th February 1879, No. 302, but the appropriation thereof was diverted towards emergent repairs of the roads, as proposed by the Commissioners and approved by Government in their Order of the 25th September 1879, No. 1847. This matter has already been fully

explained in paragraphs 6 and 7 of the President's letter to Government of the 21st January 1879, No. 4, that accompanied the said budget.

5. The expenditure under "Grant II, Education," has been increased by Rs. 170, the Commissioners having resolved to bring the old Cocanada School again under salary grant, and to accept more schools under result grant for the next year.

6. The expenditure under "Grant III, Hospital," has been decreased by Rs. 1,460, no allotment having been made for instruments for which Rs. 1,200 are allotted this year, the dieting charges being less estimated this year by Rs. 200, and a reduction of Rs. 60 per annum having been made in the wages of the midwife newly entertained.

7. The increase of Rs. 100 under "Grant III, Conservancy," is caused by an addition of Rs. 168 to the wages for three extra toties to be employed for latrines and cess-pools purposes for the next year, less Rs. 68 per annum, viz., Rs. 60 in the wages of an Overseer, and Rs. 8 in the contingencies estimated this year.

8. There has been a decrease of Rs. 905 under "Grant IV, Miscellaneous Purposes," viz., Rs. 30 under "Lighting Contingencies," Rs. 100 under "Lunatics," and Rs. 950 under "License Tax" (Act VI of 1880), in all Rs. 1,080, from which Rs. 175 should be struck off as increased allotments, viz., Rs. 150 under "Poor Man's Choultry," and Rs. 25 under "Sundries." The Commissioners having given up their charge of the lunatic from the end of December last they have made no allotment for next year.

9. The decrease of Rs. 950 under "Grant IV, License" (Act VI of 1880), is the amount less estimated this year under circumstances contained in paragraph 2 of this letter.

10. There is no change in the allotments under "Grant V, Supervision and Management," except an addition of an allotment of Rs. 35 for the contribution on account of one-third cost of the establishment in Government Office, Madras, including pension and leave allowances, as per G.O., dated 29th September 1880, No. 1876.

11. The other items call for no particular remarks.

12. With reference to the tenth paragraph of the G.O., dated 25th September 1880, No. 1828, regarding construction of a market in Cocanada, the Commissioners have long been anxious to see this work commenced, but want of funds has prevented their doing anything hitherto. They have now passed a resolution (a copy of which is submitted herewith) on 22nd December 1880, in which they propose to sell the balance of the funded capital held in Government promissory notes, viz., Rs. 1,700, and to apply the proceeds to the erection of a small portion of the market in question as a beginning, as they are of opinion that it would be a profitable investment. The market could pay interest on the amount, so that the receipts from the "Hospital Endowment Fund" would in no wise be diminished, but on the contrary probably increased. I have now to request that you will be good enough to put the proposal of the Commissioners before Government, and request their sanction to same.

10. Read G.O., dated 21st September 1880, No. 1828, expressing their trust that early steps will be taken towards the erection of a market in Cocanada.

Proposed by Rev. A. V. Timpany and seconded by Mr. Holmes,—that Government be asked for permission to sell the balance of the Hospital Endowment Fund, say Rs. 1,700, and apply the same to the erection of a market in Cocanada, the Commissioners being of opinion that it would be a profitable investment. Carried.

No. 6.

Submitted for the orders of Government.

2. There is little to remark on in the estimate of receipts for 1881-82. I regret the decrease in the private subscriptions to the Hospital, but I have no reason to believe that it has arisen from any dissatisfaction whatever with the management of it. I feel sure that if we are able to carry out the revision of the House Tax, the increase anticipated by the Commissioners will result from it.

3. The Commissioners propose to allot again the sum of Rs. 1,000 for the construction of a clock-tower. This sum was formerly allotted, but was withdrawn. This is only a contribution towards the expense, the rest having been contributed by private parties.

4. The Hospital has, I think, during this year been completely supplied with the necessary appliances, and it is expected it will not require any more next year.

5. The traffic is so heavy in the town that we find the roads require so much repair that it is impossible to find funds for new roads, though the completion of one is very much required.

6. The Commissioners feel the necessity of having a market built, but they are unable to do this without borrowing the money. They, therefore, propose to take the invested funds of the Hospital, and pay the interest on it towards the Hospital expenses. Doubtless the receipts from the market would more than cover the interest, but the surplus should entirely be used towards paying back the money to the Hospital account. This, however, has not been provided for in the budget, and an estimate and plan of the building would be necessary before I could ask Government to sanction it. I will supply all this necessary information as soon as I can. I think the proposal a good one, but if Government is not prepared to accept the principal of such use of the Hospital Funds, I should be much obliged if they would let me know before we give ourselves unnecessary work and expense in preparing further information.

7. I beg that Government will sanction the budget.

COCANADA,
5th February 1881.

To the Chief Secretary to Government.

From Surgeon-Major M. C. FURNELL, M.D., F.R.C.S., Sanitary Commissioner for Madras, to the Chief Secretary to Government, dated Madras, 2nd April 1881, *No.* 633 [*Current No.* 874].

I have the honor to report, for the information of Government, that a provision of Rs. 6,000, or 22·1 per cent. of income, has been made by the Cocanada Municipality for Sanitary purposes for the year 1881-82. It may be accepted. Rs. 5,200 of the allotment will be devoted for Conservancy purposes.

2. The Vaccination grant amounts to Rs. 230; of this sum, Rs. 216 will go to cover the salary of a First-class Vaccinator at Rs. 18 a-month, leaving Rs. 14 for contingencies.

ORDER THEREON, 11th May 1881, No. 824.

The estimated receipts and charges of the Cocanada Municipality for 1881-82 are contrasted below with the regular and sanctioned estimates for 1880-81 :—

2. According to the regular estimate the incidence of taxation, excluding Tolls, is Annas 14 and Pies 8 per head. All the items of taxation sanctioned by law are fully utilised. The assets of the Municipality on the 31st March 1880 amounted to Rs. 3,571. There were no unpaid liabilities on that date.

3. The regular estimate is generally correct.

4. Compared with the sanctioned estimate, the fluctuations of the regular estimate are inconsiderable and do not call for remark.

5. Compared with the regular estimate, the receipts for 1881-82 show an increase under House-tax of Rs. 500, which is expected from the proposed revision of the tax. The decrease in the Tolls estimate of Rs. 1,010 is explained by unexpected large receipts in 1880-81 which, in the Commissioners' opinion, will not recur. The falling off under "Endowments" is owing mainly to the appropriation in 1880-81 of Rs. 1,000 from the funded capital of the dispensary.

6. The Public Works charges are moderate and call for no remark. The increase in the Educational provision is satisfactory. The other items are explained.

7. The budget closes with a balance of only Rs. 500 which is hardly sufficient to serve as a reserve. It is desirable to set apart 10 per cent. of the receipts for the purpose, should funds be available.

8. The Government are unable to sanction the proposed appropriation of the Hospital Endowment Funds for building a Market.

9. The accounts should be submitted in future in book-form.

10. Subject to the above remarks the Right Honorable the Governor in Council passes the Cocanada Municipal Budget for 1881-82.

Municipal Office,
Cocanada, 31st January 1881.

From
The Vice President,
Municipal Commission,
Cocanada.

To
The President,
Municipal Commissions,
Godavari District,
Cocanada.

Sir,

With reference to G. O. No 1347, of 25th April 1877, I have the honor to submit the Budget Estimates of the Cocanada Municipality for 1881-82, together with regular Estimates of Receipts and Expenditure for the current official year passed by the Commissioners at a meeting held by them on the 22nd Ultimo, and 19th Instant.

2. The total receipts in the current year's Budget are Rs. 37,680, and the total receipts in the regular Estimates are Rs. 36,911. The total receipts for 1881-82 are estimated at Rs. 33,930. This shows a decrease of Rs. 3750 in our estimated receipts for the next year. Comparing the individual items of these three Statements, there are four entries that call for remarks, Viz: 1st "Tolls". These are estimated for the next year at Rs. 7,000 against Rs. 8,011 this year, but the tolls this year were sold at a very high rate, and the Commissioners did not think that they could safely calculate upon, more than Rs. 7,000, being received during next year. 2nd "Endowments &c for the Hospital". These receipts

is alloted for the erection of two Latrines in the 9th Division, which are much needed. The matter of the Clock-tower has been in view for the last two years. An allotment of Rs. 1,000 made in our Budget for 1879-80 was sanctioned by Government in their Order of the 18th February 1879 No. 302, but the appropriation thereof was diverted towards emergent repairs of the roads as proposed by the Commissioners and approved by Government in their Order of the 25th September 1879 No. 1847. This matter has already been fully explained in Paras. 6 and 7 of the Presidents' letter to Government of the 21st January 1879 No. 4, that accompanied the said Budget.

824

5. The Expenditure, under "Grant II Education" has been increased by Rs 70, the Commissioners having resolved to bring the Old Cocanada School again under Salary Grant, and to accept more schools under result Grant for the next year.

6. The Expenditure, under "Grant III Hospital" has been decreased by Rs. 1,460, no allotment having been made for instruments for which Rs. 1200 are alloted this year, the dieting charges being less estimated this year by Rs. 200, and a reduction of Rs. 60 per annum having been made in the wages of the mid-wife newly entertained.

7. The increase of Rs. 100, under "Grant III Conservancy" is caused by an addition of Rs 168 to the wages for three extra Toties to be employed for Latrines, and Cess-pools purposes for the next year, less Rs. 68 per annum viz. Rs. 60 in the wages of an Overseer and Rs. 8 in the Contingencies estimated this year.

8. There has been a decrease of Rs 905 under "Grant IV Miscellaneous Purposes" viz. Rs. 30 under "Lighting Contingencies", Rs. 100 under "Lunatics" and

receipts are estimated for the next year at Rs 1,300. Our regular Estimate shows Rs 2,246, against Rs. 2,600 estimated for the current year. The receipts for the current year were increased by the sale of the Rs. 1,000 Bond from the Funded Capital to meet the extraordinary expenditure incurred for Surgical Instruments. The receipts from the subscriptions are also reduced. × × × × × having discontinued his monthly subscription of Rs. 40 from the end of August last. 3rd "License Tax under Act VI of 1880". These receipts are estimated for the next year at Rs. 5,000, against Rs. 6,000 estimated for the current year, our regular Estimate having shown nearly a comparative decrease, which is chiefly to be accounted for by the fact that a refund of Rs. 900 was made this year in consequence of the three highest classes having been taken out as amended by Act VI of 1880 - 4th "Balance" This is estimated at Rs. 700 for the next year against Rs. 1,830 estimated this year—

Name omitted by me. There is no necessity to publish it—

W. S. Foster
President

3. An increase of Rs. 500 is estimated under receipts from House Tax in anticipation that this tax may bring in an increased revenue, the Commissioners under G. O. 15th October 1879 No 1970 having considered it desirable that the House Tax should be revised for the next year and resolved accordingly. There are slight increases and decreases in some items, which do not call for special explanation.

4. I now pass on to Expenditure. We estimate for the next year Rs 1,200 for "New Works under Grant I" of which Rs 1,000 is to be given to the construction of a Clock-tower in the Town, and the balance

2 According to the regular estimate the incidence of taxation, excluding tolls, is as 14 & pies 8 per head. All the items of taxation sanctioned by law are fully utilised. The assets of the Municipality on the 31st March 1880 amounted to Rs 3571. There were no unpaid liabilities on that date.

3 The regular estimate is generally correct

4 Compared with the sanctioned estimate the fluctuations of the regular estimate are inconsiderable and do not call for

for remark

5 Compared with the regular estimate the receipts for 1881-82 shew an increase under House tax of Rs 500 which is expected from the proposed revision of the tax. The decrease in the Tolls estimate of Rs 1010 is explained ~~as being due to~~ by unexpected large receipts in 1880-81 which in the Commissioners' opinion will not recur. The falling off under "Endowment" is owing mainly to the appropriation in 1880-81 of Rs 1000 from the funded capital of the dispensary

6. The Public Works charges are moderate & call for no remark

remark. The increase in the Educational provision is satisfactory. The other items are explained.

7 The budget closes with a balance of only Rs 500 which is hardly sufficient to serve as a reserve. It is desirable to set apart ~~nearly~~ 10 per cent of the receipts for the purpose, should funds be available.

8 The proposal to invest the balance of the funded capital in the erection of a market in Cocanada is sanctioned as the want of ~~a market~~ such an institution is represented to be much felt & the necessary funds are not otherwise available. It

The Govt are unable to sanction the proposed approp. of the Hosp. Endow. funds for building a market

The Right Honorable the Governor in Council passes the Cocanada municipal budget for 1881-82.

It should however be understood that in addition to the payment of the interest on the appropriated capital, arrangements should be made for the repayment of the loan× from Municipal funds by annual instalments of Rs 425. ~~each~~. This will admit of the liquidation ~~repayment~~ of the amount in 4 years. The Presidents proposal to restrict the annual ~~amount~~ instalments ~~to be paid annually~~ to the surplus revenue from markets may postpone indefinitely & render uncertain the repayment of the debt. The President will submit plan and estimate for the work. X
