(Signed) L. C. MILLER,
Acting Agent to the Governor.

Order—No. 2176, Judicial, dated 25th October 1895.

The annual report on the administration of the Vizagapatam Agency for the year 1894-95 did not reach Government until the 28th of August—six weeks after the due date—and the delay has not been explained. The year appears to have been a particularly uneventful one and it is therefore unnecessary to discuss the report at any length.

2. The touring of the Agency officers during the year under review was, on the whole, satisfactory. Notwithstanding the remark made in paragraph 2 of G.O., No. 2150, dated 4th September 1894, the boundaries of the Agency tracts and of the various divisional charges have not been coloured in the tour map submitted with the report and it is consequently impossible to judge at a glance whether the touring of any particular officer has been complete. The Special Assistant Agent does not appear to have toured in the north-western and south-eastern portions of his charge—an omission which is the more to be regretted as they were not visited in the preceding year. It is particularly desirable that the southern portion of the Malkangiri taluk should be inspected as frequently as practicable in view of the growth of Pathan and Rohilla population in that neighbourhood.

3. The usual statement showing the work coming before the Civil and Criminal Courts during the last five years is subjoined:—

Year.	Criminal.				Civil.			
	Cases.		Appeals.		Cases.		Appeals.	
	Received.	Pending.	Received.	Pending.	Received.	Pending.	Received.	Pending.
1890-91	1,651	30	42	2	532	201	41	6
1891-92	1,797	40	43	2	615	221	23	2
1892-93	1,797	94	32	..	527	231	14	..
1893-94	1,454	27	35	2	443	127	34	9
1894-95	1,606	28	34	2	553	185	31	10

The general increase in criminal and civil work appears to represent rather a return to the normal amount of business, the figures relating to the year 1893–94 having been unusually low. It is noticeable that there has been a further decline in the amount of work coming before the Sub-Magistrate of Jeypore whose file has been continuously falling since the year 1891–92; no explanation of this has been offered by the Agent. The conduct of the police appears upon the whole to have been fairly satisfactory; it is presumed that the Chintapalli police station-house officer who is reported to have brought a false charge against one of the hill traders has been suitably dealt with; the manner in which the police of Lakshmipuram, referred to in paragraph 15 of the Acting Senior Assistant Agent's report, were punished, should be reported. The number of pending cases on the files of the Agency Munsifs at Gunupur and Jeypore was excessive. From paragraph 16 of the Special Assistant Agent's report, it appears that the quality of the former officer's work is very much below the mark. The Agent should consider the desirability of replacing him by a more efficient officer.

4. The statistics relating to the attendance of the Agency hospitals and dispensaries exhibit a continuance of the satisfactory increase noticed in previous reviews, the total number of in-patients increasing from 171 in 1893–94 to 287 in 1894–95 and that of out-patients from 22,650 to 32,985. The increase was common to every hospital and dispensary.

The following table compares the work reported to have been done by the Agency vaccinators during the last five years:—

Year.	Number vaccinated.	Number successfully vaccinated.	Percentage of success.
1890–91	14,053	13,417	95·4
1891–92	13,395	12,869	96·0
1892–93	13,351	12,347	92·5
1893–94	14,151	12,368	87·4
1894–95	13,521	11,788	87·2

A considerable improvement is reported in the Senior Assistant's division where 942 more operations are stated to have been performed than in the preceding year, the reported percentage of successful cases rising slightly and the average cost declining; but in the Special Assistant's division the reported results achieved compare unfavourably with those of the previous year, for only 6,617 individuals are said to have been vaccinated against 8,415 in 1893–94. Mr. Graham should be instructed to devote special attention to this branch of the administration; with constant supervision it should be possible to exact far more work from the vaccinators. The Agent should keep in view the importance of arranging for an adequate supply of good lymph; without this, satisfactory results can hardly be expected.

5. The total number of schools decreased from 106 to 97 and the average daily attendance decreased from 1,792 to 1,749, while the number of aboriginal pupils fell from 306 to 240. The inspections by Educational officers increased in number but the Agency officers only visited 20 schools as against 28 in the previous year, notwithstanding the direction given in paragraph 6 of G.O., No. 2150, dated 4th September 1894, that the Agency officers should be required to pay more attention to the schools within their charges. The Agent's general statement that his Assistants examined all the important schools in their respective divisions cannot be accepted as altogether satisfactory evidence that the instructions of Government on this point have been carried out. The only satisfactory feature of the year's administration as regards education is the fact that 174 more pupils were found qualified for results-grants. The attention of the Director of Public Instruction will be drawn to the fact that the sum disbursed on this account was little more than one-third of that paid during the previous year. This was apparently due to delay in cashing the bills issued—a circumstance which, as the Agent remarks, adds greatly to the difficulty experienced in obtaining good masters for the Agency schools. The Director's

special attention will be drawn to the excessive delay in disbursing the results-grants due to the Jeypore school which is mentioned in paragraph 12 of the report; had proper supervision been exercised, this could hardly have occurred.

6. The expenditure upon Public Works may be regarded as, upon the whole, satisfactory, only Rs. 5,393 remaining unexpended out of a total allotment of Rs. 1,11,863, while from paragraph 14 of the report it appears that only Rs. 2,092 of this really lapsed. The Government, however, notes with grave dissatisfaction the Agent's remarks regarding the work of Mr. French, the late Estate Engineer. It will be considered in the Public Works Department whether further notice should not be taken of that officer's inefficient administration. The chief expenditure upon communications was incurred on the Pottangi-Koraput road, the Itikivalasa-Koraput road and the Párvatipuram-Rayaghada road. The outlay in the first instance related to the Kerandi bridge, which is reported to have been completed. The Itikivalasa-Koraput road has been transferred to the Public Works Department and the progress on the Párvatipuram-Rayaghada road appears to have been satisfactory. No important new buildings appear to have been completed during the year, though progress was made with the Koraput sub-jail and the Deputy Tahsildar's office at Jeypore. The existing roads are reported to have been maintained in good order with the exception of that which connects Kurápum and Gunupur. From the Senior Assistant's remarks regarding the neglect of the Deputy Tahsildar, the Government is disposed to think that the warning addressed to that officer is not a sufficient punishment. The Agent should consider whether his conduct should not receive severer notice, more especially as his work as Agency Munsif also has been unsatisfactory.

7. Paragraphs 24 and 26 will receive consideration in the Revenue Department.

The proposal to settle the Koyyur and Lammasingi-Patevidhi muttas on the ryotwari system is of doubtful expediency and no active steps should be taken towards carrying it out without reference to Government.

With reference to paragraph 5 of G.O., No. 1321, Judicial, dated 13th June 1888, M.R.Ry. D. Parasaramayya Naidu will be permitted to draw the full pay of his appointment in consideration of his good service.

The Senior Assistant Agent's report is unnecessarily diffuse and contains much irrelevant matter; the material portions of it might easily have been put into a much more concise form.
