PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from the Inam Commissioner, d/11th Novr. 1895, R.O. No. 801:--

With reference to para 2 of G.O., d/23rd Octr., 1895 No. 606, Rev., I have the honor to state that the particulars regarding the actual contingent expenditure of each of the past 3 years and the average required by rules 38 & 39 were not furnished under the impression that they were not required as the columns specially provided for them in the printed forms previously supplied to this office were dispensed with in the printed forms supplied for the submission of the Budget estimates for 1896-97. A brief explanation has been, however, furnished in the case of the abnormal variation that existed only in the case of expenditure under the head of country articles costing more than Rs. 50.

Care will be taken to furnish the information in future estimates in columns specially added in manuscript. However I beg to suggest the advisability of having those additional columns printed as before in the forms that may be supplied for the submission of future Budget estimates.

Order thereon, 20th November 1895, No. 4692 Dis.

Recorded with the remark that the particulars required can conveniently be furnished opposite the entry concerned and in a tabular form, on the blank page facing the estimates and that it is not necessary to print additional columns for the purpose.

(True Extract.)
