C. Nos. 2587 & 2938

FOR ORDERS.

The above currents are submitted with reference to the Hon'ble Member's instructions on the notes for orders on C. Nos. 2134 etc.

Mr. Michie Smith ~~now~~ considers that a copy of the Indian Antiquary would be of considerable use in the Observatory. The D.P.I. in para 2 of C. No. 2938, which also deals with other matters which will be separately disposed of, states that more than six copies of the Antiquary cannot be usefully distributed by him. He at present receives nine. If the number of copies is to be cut down to six, one copy obtained for the Govt. Epigraphist and another for the Govt. Astronomer, the total number of copies which this Govt. will require will be ten eleven against the eleven now taken. Perhaps the Director's supply may be retained at its present figure and the two extra copies ordered.

There seems no reason why the D.P.I. has no use for these. Has less copies - larger of nine copies shown down. 12/19/95

These copies will suffice as shown in the note

SIR,

With reference to your Memorandum No. 2063 dated 5th September 1895, Financial, and the reply No. 180 dated 17th September 1895 of the Acting Government Astronomer, I have the honor to state that a copy of the Indian Antiquary would be of considerable use in the Observatory.

The reason is that questions involving Hindu chronology are frequently referred to this Office and that much information is to be obtained on the subject from articles in the Indian Antiquary.

Dear Sir

I shall be obliged by your laying before
His Excellency for such consideration as
he may think fit the copies of the
Indian Antiquary which are sent you
under separate cover. This journal
has for 24 years been conducted by
Prof. Sewall at their personal risk
in the interests of Oriental & especially
Indian studies: for the last 11 years
at my personal risk. It has taken
from the first the leading place
in journals of its class & its contributors
was always number among them
the leading Oriental scholars. It has

always largely concerned itself
with the Indian Presidency.

It will be readily understood that
such journals do not "pay" & are
conducted solely with a view to benefit
the studies with which they are concerned,
& thus I think give their proprietors,
i.e. those responsible for their finances,
some claim on public funds. ~~Some~~
Dr. Kutzsch & probably others will be
able to explain if necessary how
much the Indian Antiquary has done
& is still doing for the elucidation
of the history, customs, & so on of the
Indian Presidency. I now write
in the hope that His Excellency may

be able to interest himself so far
in the Journal as to ascertain if the
Grant for its finances will admit of
some increase & the present subscription.

The risk run in conducting the
Journal is so great that the Government
have failed to obtain the assistance
of another Govt. servant as co-proprietor
& the Govt. is not inclined to help in the
publication of the researches of
scholars in the form of a manner which
will make them useful. On these
grounds & for the reasons above stated
I should ask the Govt. of some pecuniary
assistance in the way of subscription
grants if as the funds of His Excellency's
Govt. may permit some sum

from myself
