PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read again G.O. dated 17"

November 1894, No 4516, on letter from the Meteorological Reporter, Madras, of 20th October 1894, No 1081.

I have the honor to inform you that in sending out the copies of the Madras Daily Weather Report to the various officers even at the Privileged Newspaper rate of a quarter anna per copy, a charge of about Rs 62 is incurred each quarter making an annual cost of about Rs 250, besides Rs 15 for the copies sent to the officers when on the hills with the Government. This expenditure, I much regret to state, was overlooked when the Weather Report scheme was sanctioned. A sum of Rs 347-1-6 has been spent under this head and the allotment of Rs 20 for Press contingency &c is found inadequate to meet this charge.

2. I therefore request the favor of sanction of a further grant of Rs 25 per month for Postage & charges with retrospective effect from the 1st October 1893, and on the amount being sanctioned must ask that it may be transferred to the credit of the Meteorological Reporter to the Government of India, to enable me to draw payments of my contingent Bills for over Rs 275/- at present held under objection by that officer for want of provision of funds.

Order.

V.E.

NOTE FOR THE CHIEF SECRETARY.

Main Pogram's contingencies
In Ch. 300. Since received the A.G. says he is precluded from paying any contingencies of the Meteorological Dept. without the countersignature of the Secy India Met. Reporter.

The depn order has been slightly modified & is submitted for approval.

CB.
5/2/95

AB
5/2/95.

Order,

The Meteorological Reporter is requested to furnish details for the figures quoted in para 1 of her letter read above.

Read also the following letter from the Meteorological Reporter to the Government of Madras, d^y 23^d November 1894, No 1220.

With reference to Proceedings of the Madras Government No 45 M^s d^y 19th November 1894 Revenue Department, I have the honor to furnish the following details of the figures in question.

Purchase of Service stamps for posting Weather Reports to Mofussil officers and Weather Chart correspondence from 1st October 1893 to 31st March 1894. } Rs 156-0-0

Quarterly payment in advance for posting Madras Daily Weather Reports as Privileged Newspapers from 1st April to 30th December 1894. } Rs 191-1-6

Total Rs 347-1-6

Order thereon, d^y 15th January 1895, No 143.

The Meteorological Reporter's request contained in para: 2 of her letter d^y 20th October 1894, No 1081 will be transferred to the Financial Department for sanction and the issue of the necessary orders.

JANUARY.

Meteorological Reporter.

Directing that in future all proposals for expenditure from the local — should be submitted through the Meteorological Reporter to the Government of India, and issuing orders for the excess expenditure, already incurred, being adjusted.

15TH JANUARY 1895, Nos. 18, 18A, REVENUE.

GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following letter from Miss E. ISIS POGSON, F.R. MET. SOC., Meteorological Reporter to the Government of Madras, to the Secretary to Government, Revenue Department, dated 31st August 1894, No. 919 :—

I have the honour to forward herewith a copy of letter No. 3492, dated the 21st August 1894, received from the Meteorological Reporter to the Government of India, Calcutta, for information, and to request the favour of instructions on the points therein referred to. As the Meteorological Reporter to the Government of India desires that all payments in connection with the Madras Daily Weather Report should be obtained from his office, or that the bills should at least be countersigned by him, before presentation at the Madras treasury for payment, I shall be happy to adopt either or whatever is the proper course, but to avoid any friction, delays and difficulties in payment of bills, &c., I would suggest that all orders passed by the Madras Government in connection with the Daily Weather Report may in future be duly communicated to the Meteorological Reporter to the Government of India through the Government of India.

ENCLOSURE.

From the Meteorological Reporter to the Government of India, to the Meteorological Reporter to the Government of Madras, dated Calcutta, the 21st August 1894, No. 3492.

I have the honour, in reply to the second paragraph of your No. 743, dated 7th August 1894, to state that I am unable to give you any information on the point you ask, except that I have no funds placed at my disposal from which to pay the amount of Rs. 430 for bicycles. I may also point out that the Government of India have not been consulted in any way with respect to their purchase and that all payments I make require the sanction of the Government of India in one form or another.

The letter of the Government of Madras sanctioning their purchase, copy of which you forward, states nothing with respect to funds from which the cost is to be met and I can hence only recommend that you have this point settled with the Government of Madras without delay.

What you have to ascertain is whether sanction of the Government of Madras includes the provision of funds, and, if so, you should then ascertain from the Government of Madras and the Accountant-General, Madras, in what manner and against what department you are to draw the amount sanctioned.

READ—also the following letter from T. W. RAWLINS, Esq., Accountant-General to the Government of Madras, to the Secretary to the Government of Madras, Revenue Department, dated Fort St. George, 4th September 1894, No. 2647 :—

With reference to paragraph 2 of G.O., Revenue, No. 2134, dated the 31st May 1894, I have the honour to state, in continuation of my letter No. 1493, dated 31st May 1894, that the Meteorological Reporter to the Government of India informs me, in his letter No. 2612, dated 19th June 1894, that he has paid all the contingent bills of the Madras Meteorological office in connection with the Madras Daily Weather Report up to date. He also observes in his letter No. 2261, dated 25th May 1894 (copy accompanying), that the actual charges on this account in 1893-94 and 1894-95 will exceed the lump contribution of Rs. 4,000 per year which this Government has agreed to pay to the Government of India. There need, however, be no difficulty on this account, since for the first year 1893-94 the actual charges incurred, which have now been ascertained to be Rs. 2,459 and from 1894-95, the fixed grant of Rs. 4,338 sanctioned in Madras Government Financial No. 632, dated 20th August 1894, will be adjusted.

2. As regards his remarks about the sanction of any fresh proposals for expenditure from the Madras Meteorological Reporter and the payment of all contingent bills, I have only to observe that the officer concerned will have to be consulted.

ENCLOSURE.

From the Meteorological Reporter to the Government of India, to the Accountant-General, Madras (through the Comptroller of India Treasuries, Calcutta), dated Calcutta, the 25th May 1894, No. 2261.

I have the honour to acknowledge the receipt of your letter No. 1059 of the 13th April last, forwarded through the Comptroller of India Treasuries.

In reply, I have the honour to observe that your letter under reference gives me information, for the first time, that the contributions for the years 1893-94 and 1894-95 have actually been made. It is apparent that without this knowledge if I had gone on passing and paying the expenditure on account of the Madras Daily Weather Report, I might have incurred the responsibility of paying the amounts from my own budget and as I could not do so, I had been compelled to refuse to pay Miss Pogson's contingent bills on account of the Provincial Madras Daily Weather Report.

I would however point out that it appears to me that there have been irregularities in the past in the procedure of obtaining grants from the Madras Government. That Government in their Order, Mis. No. 457, Revenue, dated 26th May 1893, sanctioned my proposals and the estimated expenditure for the Madras Daily Weather Report. My proposals involved an initial expenditure of Rs. 750 and an annual expenditure of Rs. 4,000, which latter may be distributed as follows:—

	RS.
Allowance to Reporter	1,200
Establishment charges	2,628
Contingencies	172
Total	4,000

That Government in their letter No. 7947-A of the 8th September 1893 simply agreed to my proposal of their making an annual lump contribution to the Government of India, and so long as I was not made aware of the contribution having been actually made, or when and how it was proposed to be made, I could not make my budget responsible for the charges.

Since the date of the above orders of the Government of Madras I have learnt, only after enquiry from the Madras Reporter, that that Government have sanctioned other contingent and establishment charges without not only consulting me, but not even communicating those orders to me, and the Comptroller of India Treasuries has, in a recent communication, asked me if I accepted certain charge, and I had been compelled to reply in the negative.

It therefore appears to me that if I am to control the expenditure on account of the Provincial Madras Daily Weather Report, all applications for sanction for new expenditure and orders on such applications should pass through me. The local Government has since sanctioned the engagement of a signaller for the Madras Meteorological office on Rs. 15-2-25. I am not aware whether the Government of India has approved of this order, and if they have done so, a copy of this order should have been sent to me by the Government of Madras or other authority, with an intimation that a further contribution covering this expenditure for 1893-94 and 1894-95 has been or will be made to the Government of India.

Miss Pogson submitted certain contingent bills to your office without their being passed through my office, a rule which is in force in my department. These bills have been passed by you and I only obtained information of that fact when I refused to pass her other bills and when I asked her for definite information as to what was being done about the Madras grant.

The Government of Madras also have sanctioned certain other initial charges without informing me that such sanction has been applied for by Madras Reporter and sanctioned. So far as I am aware, the following are the amounts actually spent during the year 1893-94 on account of the Madras Daily Weather Report:—

	RS.	A.	P.
Establishment at the Madras Meteorological office (passed by you)	967	10	9
Establishment at the Madras Meteorological office (signaller's pay * passed by you)	60	0	0
Establishment, Calcutta office	240	0	0
Total Establishment	1,267	10	9

* Sanction not received by my office.

Contingencies.

	RS.	A.	P.
Initial expenditure (passed by your office without my counter-signature)	*1,118	11	0
Contingent passed and paid by my office	72	13	6
Total Contingencies	1,191	8	6
Total Rs.	*2,459	3	3

during 1893-94.

* Since raised to this amount with reference to letter from the Meteorological Reporter to the Government of India, No. 3514, dated 22nd August 1894.

It will be seen that the Government of Madras has contributed Rs. 2,000 only for 1893-94. This may be made up as follows so far as I can follow Miss Pogson's proposals made direct to the Madras Government in her No. 1225 of the 15th November 1893:—

	RS.	A.	P.
Allowance to Reporter	500	0	0
Establishment (not including the signaller since sanctioned)	1,318	0	0
Contingencies	182	0	0
Total	2,000	0	0

The sanction of the Secretary of State to the grant of the allowance to the Madras Reporter has been received only lately (25th April 1894) and this allowance will necessarily be or has been drawn during the current year and in addition to the contribution of Rs. 4,000 for the current year, an additional grant to cover the Madras Reporter's outstanding allowance (Rs. 500) and the signaller's salary for 1894-95 (say Rs. 200) will have to be made.

Now that I have been informed that the contribution for 1894-95 has been made, I will pass and pay up to date all outstanding contingent charges which I have hitherto objected to pay. These will come up to about Rs. 250. This amount will also have to be contributed to the Government of India during the current year.

Finally, I have to ask that if I am to control the expenditure on account of the Madras Daily Weather Report, all contingent bills should either be countersigned by me and passed by the Comptroller of India Treasuries and paid by you as is now the rule in this department in the case of travelling charges or paid by my office direct as is now done in the case of Imperial Meteorological contingent expenditures. I should also be the channel of communication between the Madras Reporter and the Government of Madras. In fact nothing should be done without my office being kept fully informed.

ORDER—dated 15th January 1895, No. 18, Revenue.

Miscellaneous.

With the first of the papers read above, the local Meteorological Reporter submits copy of a letter addressed to her by the Meteorological Reporter to the Government of India, in which that officer, while stating that he has no funds placed at his disposal to meet the cost of the bicycles, the purchase of which was sanctioned in G.O., No. 2893, dated 24th July 1894, and that all payments to be made by him require the sanction of the Government of India in one form or other, desires Miss Pogson to ascertain from this Government whether the sanction accorded by it for the bicycles includes the provision of funds, and, if so, in what manner and against what department the amount is to be drawn.

2. With the second paper read above, the Accountant-General forwards copy of another communication from the Meteorological Reporter to the Government of India, in which this officer says that he had to refuse to pay Miss Pogson's contingent bills on account of the Daily Weather Chart, as he had not been informed in time that the Provincial contribution for 1893-94 and 1894-95 had been actually made; that as he has since been informed to this effect, he would pass all outstanding contingent charges which he had hitherto objected to pay; but that as the actual expenditure for 1893-94 has exceeded and that for 1894-95 will exceed the original lump grants of Rs. 2,000 and 4,000, respectively, an additional grant will have to be made to the Government of India. He further points out that there have been irregularities in the past, in that sanctions have been accorded by this Government to certain additional establishments

and contingent and initial charges, without consulting him, and states that if he is to control the expenditure on account of the local Daily Weather Report, all applications for sanction for new expenditure and orders on such applications should pass through him, and all contingent bills submitted by Miss Pogson should either be countersigned by him and passed by the Comptroller of India Treasuries and paid by the Accountant-General, Madras, or paid by the India Meteorological office direct; and also that he should be the channel of communication between the local Reporter and this Government.

3. His Excellency the Governor in Council accepts the above views of the India Meteorological Reporter and accordingly directs that in future all proposals for expenditure from the local Meteorological Reporter should be submitted through the former officer. As regards the payment of contingent bills, Miss Pogson will, in consultation with the India Reporter, choose one of the two alternatives suggested by him.

4. As regards the excess charges over the lump contribution of Rs. 2,000 for the past year and Rs. 4,000 for the current year, sanctioned in G.Os., No. 1139, dated 16th November 1893, Financial, and No. 989, dated 6th October 1893, Financial, the Accountant-General states that "there need be no difficulty on this account since for the first year 1893-94 the actual charges incurred, which have now been ascertained to be Rs. 2,459 and from 1894-95, the fixed grant of Rs. 4,338 sanctioned in Madras Government's Financial No. 632, dated 20th August 1894, will be adjusted."

5. It is observed, however, that for the current year the expenditure will exceed the fixed grant of Rs. 4,338 mentioned above, owing to the payment of Rs. 500 to Miss Pogson on account of her extra allowance of Rs. 100 per mensem and owing to the purchase of two bicycles sanctioned in G.O., dated 24th July 1894, No. 2893, and other charges.

6. Orders will issue in the Financial Department for the necessary additional provision for the current year and for the adjustment of the actual expenditure incurred in 1893-94; and pending the additional provision for the current year, the Meteorological Reporter to the Government of India will be requested to pass the local Reporter's bill for Rs. 430 referred to in his letter to Miss Pogson, No. 3492, dated 21st August 1894.

7. A copy of these Proceedings will be communicated to the Government of India, Revenue and Agricultural Department.

Read the following letter from the Meteorological Reporter to the Government of Madras, d/ 19th. Jan'y 1895, No. 27:--

I beg to invite the attention of Government to my letter No. 919, d/31st. August 1894, and to request the favour of orders at the earliest date possible. The two Bicycles sanctioned in G. O. No. 2893 Mis., d/ 24th. July 1894, were purchased early in September last from Messrs. Spencer & Co. who are of course anxious to receive payment.

As the payment of my Contingent Bills of the Madras Daily Weather Report is refused by the Meteorological Reporter to the Government of India for want of provision of funds, I have been put to great inconvenience in advancing over Rs. 360 from my small pay and cannot continue doing so any longer.

Under these circumstances, I shall be extremely obliged by the Government authorising the immediate payment of the charges of Rs. 429-8-0 for the Bicycles and 360 for contingencies and Postal charges, on Minor Abstract, pending final adjustment.

Order thereon, 29th. January 1895, No. 372 Mis.

Transferred to the Financial Department in continuation of G. O. d/ 15 Jan'y. 1895, No. 143, with advertence to paras 5 & 6 of G.O. d/ 15th. Jan'y. 1895, No. 18 Rev., and with the request that, in view of the urgency of the case, the Accountant General may be authorized to pass his bills in anticipation of ^{their} acceptance by the Meteorological Reporter to the Government of India.

Read again G.O. of 21st Decr. 1894, No. 5040, referring for the remarks of the Accountant General. the following letter from the Meteorological Reporter to the Govt. of Madras, of 22nd Novr. 1894, No. 1216:

I have the honor to inform you that the amount of subscriptions for the Madras Daily Weather Report realized from the two Madras subscribers for the period 1st Octr. 1893 to 30th June 1894, viz. Rs 18/- has been remitted to the Madras Bank in accordance with Article 1 of the Civil account code Vol. I, Part I, and that a further sum of Rs 5/- from a — Mofussil subscriber was similarly paid to the Trichinopoly Treasury to the credit of the Meteorological Department. Kindly state whether the same course should be adopted with reference to the amounts to be realized in future? If so, I shall be obliged by your kindly enlightening me on the following points:—

(1) Whether the Accountant General would be authorized to pay my bills for repairs to Tricycles and Bicycles, Peon's liveries &c, as proposed by me in my letter No. 633 of 8th June 1894 and the cost of printing the blank Weather Report forms as proposed by the Meteorological Reporter to the Government of India in para 16 of his letter No. 11575 of 22nd Febr. 1893 embodied in G.O. No. 457 Rev. of 26th May 1893, or (2) Whether I should include such charges in my Weather Chart Contingent Bill and submit it to the Imperial Meteorological Reporter for payment? In the latter case, the allotment should be proportionally increased for the additional expenditure and the amount transferred to that Officer's Budget.

Read letter from the Meteorological Reporter to the Govt. of Madras, of 19th Decr. 1894, No. 1291, forwarding copy of a letter from the Meteorological Reporter to the Govt. of India, about the supply of liveries to peons, for information and requesting that orders may be passed on the subject.

Read also the following letter from the Accountant General, Madras, d/ 22^d Jan'y. 1895, No. 135:-

With reference to your endorsement, No. 5040 mis. Rev. Dept., d/ the 21st December 1894, referring for my remarks letter from the Meteorological Reporter to the Government of Madras, No. 1216, d/ 22^d Novr. 1894, I have the honor to state that the practice of paying into the Government Treasury the amount of subscription realized on account of the Madras Weather Report is correct. As regards the payment of bills for contingent expenditure, I would suggest a reference to the Meteorological Reporter to the Government of India, as under instructions from the Comptroller of India Treasuries, I am precluded from passing any contingencies of that Department without the countersignature of the above Officer.

Order thereon, 29th Jan'y. 1895, No. 373 mis.

The accountant General's letter read above will be communicated to the Meteorological Reporter with reference to her communication No. 1216 d/ 22^d Novr. 1894, and she will be informed that in regard to her contingent bills she should adopt the course pointed out in the second sentence of para 3 of L.O. d/ 15th Jan'y. 1895, No. 18.

2. She will observe from paras 4 to 6 of the L.O. quoted above that whenever any additional expenditure is sanctioned by this Government in connection with the publication of the Madras Daily Weather Report, the funds required for meeting the charge will be placed at the disposal of the Meteorological Reporter to the Government of India.

3. As regards the supply of liveries to her peons, Miss Poyson is requested to apply for a special grant through the Meteorological Reporter to the Government of India - vide para 3 of L.O. d/ 15th Jan'y. 1895, No. 18.

Current No. 121,236 & 261-

Order: 5 Feb/95 No 113

The Accountant General is authorized to admit all the outstanding charges referred to in the above correspondence and to make immediate payment for them. He is requested to submit a clear and exhaustive statement of the expenditure incurred from 1893-94 and the probable requirements in the current and ensuing years, in the form adopted in the accompanying statement. The statement should also include the receipts on account of the Daily Weather report.

On receipt of this report the Government of India will be advised.
