“Board’s telegram 11th. Please reduce Land Revenue estimates by four lakhs. Revised estimates follow.”

Resolution—dated 16th March 1895, No. 69.

In the first of the papers read above, the Government desires the Board to report, in communication with the Collectors of Gódvári and Kistna, and the Land Revenue Commissioners, the alterations which it would be necessary to make in the estimates of Land Revenue, with reference to the orders passed in G.Os., No. 774, dated 19th February 1895, and No. 870, dated 26th February 1895, cancelling the enhancement of water-rate in the Gódvári and Kistna deltas during the current year, and directing its imposition on the entire area which may be irrigated in the next year. In reply to telegrams sent by the Board, the Collector of Gódvári reports that “the Land Revenue estimates” may be reduced by four lakhs. The reduction evidently relates to the current year. He has not reported what alterations will be necessary in the next year’s estimate, but promises to send revised estimates which have not yet been received. The Collector of Kistna telegraphs that the current year’s estimate may be reduced by 2.75 lakhs, but that no alteration is necessary in the estimate for next year.

2. The revised demand for 1894-95 adopted in Board’s Proceedings, No. 418, dated 3rd October 1894 (L.R.), included a sum of

* Gódvári 4 lakhs. Rs. 7½ lakhs * on account of the enhancement of water-rate under the Gódvári and Kistna deltas, ordered in G.O., No. 562,

dated 2nd August 1894. Of this amount, Rs. 3.80 lakhs in Gódvári and 3.43 lakhs in Kistna—total Rs. 7.23 lakhs—were estimated to be collected within the current year. The Board considers that the estimates for this year may be reduced by Rs. 6.55 lakhs (3.80 for Gódvári and 2.75 for Kistna) as shown below :—

	Gódvári. RS.	Kistna. RS.
Revised estimate of collections as originally framed ..	57.20	58.38
Deduct 95 and 98 per cent, respectively, of the increase due to higher water-rate which was expected to be realized in Gódvári and Kistna	3.80	2.75
Revised estimate of collections as now fixed	53.40	55.63

N.B.—The figures represent thousands of rupees.

3. With reference to the budget estimate for 1895-96, the Collectors of Gódvári and Kistna appear to have overlooked the fact that the estimate was framed with reference to the orders restricting the charge of the increased rate to lands irrigated during the previous five consecutive years. That restriction has now been cancelled, and Government has ordered that the enhanced rate should be imposed on the entire area which may be irrigated. Assuming that the irrigated area in 1895-96 will not fall below that of fasli 1303 (1893-94)—(it is likely to be more)—the additional

charge of water-rate on this area † will be about Rs. 10.26 lakhs, of which 9,88,000 ‡ may be expected to be realized within the year as shown on the margin. It is probable, however, that, as anticipated in paragraph 2 of G.O., dated 26th February 1895, Mis. No. 870, some of the poorer lands may not be able to bear the enhanced water-rate, and may, therefore, have to be exempted from the additional

charge. The area of such land cannot be even approximately stated, but taking it at one-fifth of the first crop area shown above, it would be necessary to reduce the estimate of collections given above by 1.80 lakhs, or to Rs. 8 lakhs. This is about half a lakh more than the amount adopted in the Land Revenue budget estimate for the two districts for 1895-96. The above estimates are based on the assumption that the irrigated area in 1895-96 will be the same as that of the current year, but there is every reason to believe that there will be a large increase in the Kistna district and some increase also in Gódvári. In the former district, a sum of Rs. 1½ lakhs has already been provided on this account in the original estimate submitted by the Land Revenue Department, and it does not seem likely that there will be any further increase. The net increase therefore in the estimate for next year in the two districts may be taken at half a lakh.

“Board’s telegram 11th. Please reduce Land Revenue estimates by four lakhs. Revised estimates follow.”

Resolution—dated 16th March 1895, No. 69.

In the first of the papers read above, the Government desires the Board to report, in communication with the Collectors of Gó dávari and Kistna, and the Land Revenue Commissioners, the alterations which it would be necessary to make in the estimates of Land Revenue, with reference to the orders passed in G.Os., No. 774, dated 19th February 1895, and No. 870, dated 26th February 1895, cancelling the enhancement of water-rate in the Gó dávari and Kistna deltas during the current year, and directing its imposition on the entire area which may be irrigated in the next year. In reply to telegrams sent by the Board, the Collector of Gó dávari reports that “the Land Revenue estimates” may be reduced by four lakhs. The reduction evidently relates to the current year. He has not reported what alterations will be necessary in the next year’s estimate, but promises to send revised estimates which have not yet been received. The Collector of Kistna telegraphs that the current year’s estimate may be reduced by 2.75 lakhs, but that no alteration is necessary in the estimate for next year.

2. The revised demand for 1894-95 adopted in Board’s Proceedings, No. 418, dated 3rd October 1894 (L.R.), included a sum of

dated 2nd August 1894. Of this amount, Rs. 3.80 lakhs in Gó dávari and 3.43 lakhs in Kistna—total Rs. 7.23 lakhs—were estimated to be collected within the current year. The Board considers that the estimates for this year may be reduced by Rs. 6.55 lakhs (3.80 for Gó dávari and 2.75 for Kistna) as shown below :—

It is probable, however, that, as anticipated in paragraph 2 of G.O., dated 26th February 1895, Mis. This is about half a lakh more than the amount adopted in the Land Revenue budget estimate for the two districts for 1895-96. The above estimates are based on the assumption that the irrigated area in 1895-96 will be the same as that of the current year, but there is every reason to believe that there will be a large increase in the Kistna district and some increase also in Gó dávari. In the former district, a sum of Rs. 1½ lakhs has already been provided on this account in the original estimate submitted by the Land Revenue Department, and it does not seem likely that there will be any further increase. The net increase therefore in the estimate for next year in the two districts may be taken at half a lakh.
