With a view to secure uniformity in the arrangement of types used in the detailed Civil Estimates of the several provinces, I have the honor to forward herewith 25 copies of a printed "list of types selected for the revised form of the detailed Civil Budget Estimates" for use in connection with the printing of the Madras Civil Estimates for 1895-96 and later years.

Please direct the Press to use the appropriate types prescribed in the list. Any want of attention on this point may delay the final printing of these Estimates. I request, therefore, that you will be good enough to invite particular attention of the press to the necessity of following the arrangement of types indicated in the list.

To

The Accountant General,
Madras.

Sir,

With reference to the instructions given in the Comptroller General's letter dated 11th April 1895, No. 69, regarding the types to be used in the Madras Civil Estimates, I have the honor to state that this Press does not possess a font of Bourgeois types in which the major portions of the Civil Estimates are printed in, but it possesses a large quantity of Long Primer and Brevier types, the Long Primer being a little larger, and the Brevier a little smaller than Bourgeois.

2. When the Civil Estimates were ordered to be printed in their present form, the Chief Secretariat accepted the Brevier types and figures and also the Clarendon and antique types and figures, in substitution for the antique types and figures used by the Comptroller General in the Civil Estimates printed at Calcutta.
