GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

Read—the following paper :—

From E. D. MACLAGAN, Esq., C.S., Under Secretary to the Government of India, Revenue and Agricultural Department (Archæology), to the Chief Secretary to the Government of Madras, dated Simla, the 5th July 1893, Circular No. 40—59.

I am directed to acknowledge the receipt of your reply* to my endorsement, No. 2190, dated 9th August 1892, and to communicate the following instructions of the Government of India as to the numbering of the volumes of the new series of Archæological Reports.

2. The Government of India desire that volumes of a fairly uniform size published by the Archæological Surveys of Western, Southern and Northern India should form a single series. Unfortunately, the different Surveyors have hitherto issued their publications independently of each other, so that some confusion has resulted, and in prescribing a single system of numbering the Government of India have been compelled to ignore, in some instances, the numbering already adopted. It is now desired that the publications mentioned in the list accompanying this letter may be taken to represent the new Imperial series, and volumes issued subsequent to this date should be numbered accordingly. It is left to the Archæological Surveyors to make, under the orders of the Provincial Governments concerned, what arrangements they think best for any subordinate or provincial numbering of the same volumes.

3. In publishing future volumes of the series, care should be taken to maintain the royal quarto size prescribed in this Department's letter, No. 1384—27, dated 11th July 1891. Specimens are enclosed of the title-page, the paper covers and the back-title which should be adopted by the publishing office, and each volume should be prefaced by a list in the form appended showing the publications in the series which have been issued up to date.

4. The titles of volumes already published need not be altered even when the old title is not in accord with the instructions now issued. In the case of any book not mentioned in the accompanying list, which may in future be about to be published, report should be made to the Government of India before publication, giving particulars of its contents, &c., in order to allow of a number being prescribed.
