ABSTRACT.—Forwarding copies of the following correspondence.

ENCLOSURES.

From S. JACOB, Esq., Comptroller-General, to the Accountant-General with the Government of Madras, dated Calcutta, 11th April 1895, No. 69.

With a view to secure uniformity in the arrangement of types used in the detailed Civil estimates of the several provinces, I have the honour to forward herewith 25 copies of a printed "list of types selected for the revised form of the detailed Civil budget estimates" for use in connection with the printing of the Madras Civil Estimates for 1895–96 and later years.

Please direct the Press to use the appropriate types prescribed in the list. Any want of attention on this point may delay the final printing of these estimates. I request, therefore, that you will be good enough to invite particular attention of the Press to the necessity of following the arrangement of types indicated in the list.

No. 946.

Copy to the Superintendent, Government Press, Madras, for information and guidance, with twelve copies of the list of types.

(Signed) T. W. RAWLINS,
Accountant-General.

17*th April* 1895.

From R. HILL, Esq., Superintendent, Government Press, to the Accountant-General, dated Madras, 23rd April 1895, No. 321.

With reference to the instructions given in the Comptroller-General's letter, dated 11th April 1895, No. 69, regarding the types to be used in the Madras Civil estimates, I have the honour to state that this Press does not possess a fount of Bourgeois types in which the major portions of the Civil estimates are printed in, but it possesses a large quantity of Long Primer and Brevier types, the Long Primer being a little larger, and the Brevier a little smaller, than Bourgeois.

2. When the Civil estimates were ordered to be printed in their present form, the Chief Secretariat accepted the Brevier types and figures * and also the Clarendon and Antique types and figures †, in substitution for the Antique types and figures used by the Comptroller-General in the Civil estimates printed at Calcutta. Brevier Antique types and figures would have been used, but the fount is a small one, and there was not time to manufacture the types and figures required and get the budget ready by 15th January last.

* See Nos. 5 and 7 in list of types, and No. 7 in list of figures attached.

† See Nos. 3*a*, 3*b* and 11*a* in list of types, and Nos. 1*a* and 3*a* in list of figures.

3. It will be seen from the sample of types used in the Madras Civil estimates that Small Pica figures ‡ are used for the totals of divisions as Sans-seriff figures are not available.

‡ See No. 2 in list of figures.

4. In other respects I am able to carry out the changes desired by the Comptroller-General, as will be seen by a comparison of the list of types and figures with the Calcutta specimen and by the sample page of the estimates altered as desired.

5. If the Comptroller-General is pleased to accept the sample as now submitted, there will be no delay in issuing the Madras Civil estimates, but if the use of Bourgeois types, plain and antique, is insisted upon, then the Madras Civil estimates for 1895–96 must be printed at Calcutta as heretofore.

Order—dated 29th April 1895, No. 350, Financial.

The Superintendent of the Government Press will take steps to procure at an early date a supply of the necessary types so that the final issue of the Civil budget estimate for 1896–97 may be printed in accordance with the wishes of the Comptroller-General.

2. The following telegram will be despatched to the Comptroller-General, Calcutta :—

233. Your letter eleventh instant, No. 69, to Accountant-General, Madras, and letter from Superintendent, Government Press, to latter, 321, 23rd instant. Superintendent, Press, been instructed procure supply necessary type so that final issue estimates for 1896–97 may be printed in accordance with your wishes. Madras Press already corrected estimates 1895–96. Please issue early orders as to striking estimates as this Government is awaiting their final issue to utilize type for forms to be supplied to departments and heads of departments for their estimates for 1896–97.

G.O., dated 6th May 1895, No. 367, Financial.

Read—the following telegram from the Comptroller-General, Calcutta, dated 1st May 1895 :—

"Your telegram 29th ultimo. Objection against type withdrawn for this year. Accountant-General directed to send final proof at once for examination here ; this is absolutely necessary, but I will expedite as much as possible."

Order—dated 6th May 1895, No. 367, Financial.

Communicated to the Accountant-General and the Superintendent, Government Press, in continuation of G.O., dated 29th April 1895, No. 350.

,, Accountant-General.

READ—also letter from the Accountant-General, dated 9th May 1895, No. 1138.

ORDER—dated 22nd June 1895, No. 470, Financial.

The experiment carried out under G.O., dated 29th November 1894, No. 1038, having proved successful, arrangements of a permanent character will be made for printing the Consolidated Civil Budget Estimates of this Presidency for 1895–96 and future years at the Government Press, Madras.

2. On receipt of proofs from the Comptroller and Auditor-General, as finally passed, the Accountant-General will arrange with the Superintendent, Government Press, to strike and distribute, with as little delay as possible, the required number of copies to—

(1) the Government of India, the Comptroller and Auditor-General, and other Local Governments ;
(2) the Departments of the Madras Secretariat ;
(3) the Additional Members of the local Legislative Council ;
(4) all Heads of Departments in this Presidency ;
(5) the Editors' Table ; and
(6) the Political Agents attached to Native States in this Presidency, for information.

3. The Accountant-General will then, in accordance with section 1516 of the Civil Account Code, arrange, in communication with the Superintendent of the Government Press, for the supply of printed forms to heads of departments as early as practicable for the estimates of 1896–97, as indicated in paragraph 4 of G.O., dated 29th November 1894, No. 1038. When issuing the forms, each page of the estimates should be faced by a blank page for explanations. The distribution of forms will be as shown in columns 2, 3 and 5 of the Appendix to these Proceedings.

The various sections of each departmental budget should be identified by the numbers of the detailed accounts, where such are assigned, as shown in column 3 of the Appendix to these Proceedings. These numbers should be brought out prominently in the forms. When more than one detailed account under the same head is issued to an officer, the summary of the detailed accounts which commences the particular head in the Civil Budget Estimate should accompany.

The forms for the undermentioned estimates should provide for the insertion of all the details which are embodied in the Orders of Government reviewing the budgets of the current year but which are not incorporated in the printed Civil Estimates :—

Repairs of Churches and Cemeteries.
Agency Civil Works.
Public Works Department Budgets.

4. Heads of departments will use the forms supplied to them, leaving the printed figures intact and filling in the other columns in manuscript. Estimates should be submitted direct to the department of the Secretariat concerned ; they need not be sent to the Press for submission to Government in print as was done in 1894.

5. The estimates of revenue and receipts should in every case be submitted separately from those of expenditure. In the case of the more important heads of revenue, the estimates should be based, if possible, on the actuals of the first six months of the current year.

6. Heads of departments will be at liberty to forward the estimates under the several detailed accounts separately, if they find this more convenient than submitting them in a consolidated form. There is nothing to prevent the submission of explanatory memoranda, or subsidiary statements, for the purpose of elucidating the budgets. Care should, however, be taken to round the totals under each minor head to even hundreds of rupees; annas and pies should be omitted.

7. The undermentioned budgets should in the first instance be submitted to, and reviewed in, the Revenue Department, which controls the expenditure:—

Imperial Institute.	Printing at private presses (Board of Rev.).
Printing Settlement registers.	Remittance of treasure beyond the district.
,, Trade and Navigation returns.	Fire, flood and epidemic charges.
Collectorate Presses.	Stamping weights and measures.
Destruction of wild animals.	Births and deaths registration.
Pearl fishery.	Rain-gauges.

8. The following officers will in future submit their budgets direct to Government:—

Officers.	*Budget.*
Commissioner of Police ..	Presidency Police.
Sanitary Commissioner	Sanitation and Vaccination.
Sanitary Engineer	Sanitary Engineering Department.
Chemical Examiner	Chemical Examiner.

9. To facilitate the future working of these arrangements, special steps will be taken by the Superintendent of the Government Press to ensure that all budget work is carried on methodically and economically, the same material being, as far as possible, used for the Board of Revenue and heads of departments, the Revenue Department, the Financial Department and the consolidated budget in succession. The system of numbering alluded to in paragraph 3 *supra* will assist in this matter.

10. The dates for the submission of budgets, which have been modified in some cases, are shown in column 6 and should be strictly adhered to in future.

Sir,

With a view to secure uniformity in the arrangement of types used in the detailed civil Estimates of the several provinces, I have the honor to forward herewith 25 copies of a printed "list of types selected for the revised form of the detailed civil Budget Estimates" for use in connection with the printing of the Madras Civil Estimates for 1895-96 and later years.

Please direct the press to use the appropriate types prescribed in the list. Any want of attention on this point may delay the final printing of these estimates. I ~~request~~ request therefore, that you will be good enough to invite particular attention of the press to the necessity of following the arrangement of types indicated in the list.

Sir,

With reference to the instructions given in the Comptroller-General's letter, dated 11th April 1895, No. 69, regarding the types to be used in the Madras Civil Estimates, I have the honor to state that this Press does not possess a fount of Bourgeois types in which the major portions of the Civil Estimates are printed in, but it possesses a large quantity of Long Primer and Brevier types, the Long Primer being a little larger, and the Brevier a little smaller, than Bourgeois.

2. When the Civil Estimates were ordered to be printed in their present form, the Chief Secretariat accepted the Brevier types and †figures and also the clarendon and antique types and †figures, in substitution for the antique types and figures used by the Comptroller-General in the Civil Estimates printed at Calcutta. Brevier antique types and figures would have been used, but the fount is a small one, and there was not time to manufacture the types and figures required and get the Budget ready by 15th January last.

3. It will be seen from the sample of types used in the Madras Civil Estimates that small pica

‡ figures are used for the totals of divisions as sans-serif figures are not available.

4. In other respects I am able to carry out the changes desired by the Comptroller-General as will be seen by a comparison of the list of types and figures with the Calcutta specimen, and by the sample page of the Estimates altered as desired.

5. If the Comptroller-General is pleased to accept the sample as now submitted, there will be no delay in issuing the Madras Civil Estimates, but if the use of Bourgeois types, plain and antique, is insisted upon, then the Madras Civil Estimates for 1895-96 must be printed at Calcutta as heretofore.

FOR ORDERS.

Please see the draft in print

In view of the demand in the Legislative Council for fuller details of the Budget estimates, it is proposed to supply ~~[illegible]~~ of the Leg. Council Members with copies of the final issues of the printed Civil estimates and to place ~~the~~ the Estimates also on the Editors' table. ~~There will then be no complaints that Govt. withholds its con~~ Extra ~~fidence from the public.~~ Some 50 copies ~~[illegible]~~ will not add materially to the cost.

~~[illegible]~~ the 15th September has been the date fixed for the submission of nearly all financial department budgets and the 15th November for all Revenue department budgets; it seems preferable to spread them out somewhat more evenly. Some departments i.e. Salt, Forest, Ecclesiatical require more time for the preparation of the estimates.

The receipts of each department go separately into the consolidated budget,

This order can issue, but I think it wd be better in future to consult me before going to the trouble of preparing general detailed instructions on matters of importance - In the present instance I have under consideration a scheme for bringing the expenditure of the Educl dept under more effective control, & treating that Dept in the same way as we treat the P.W.D., that is, by fixing a sum, first, beyond which the D.P.I. may not go, & then letting him fill in details afterwards. At present, whenever money runs short the P.W.D. is cut down, & the P.W.D. only, all other depts getting (practically) what they ask for - But I think all the purely spending Depts should be treated in much the same way, so far as their expenditure is not on fixed objects the cost of which cannot be altered from year to year. The Educl is the most conspicuous instance of a spending dept besides the P.W.D. & I thought of proposing that we should not entertain the detailed Educl Estimate expenditure until we had pretty well made up the Budget & could fix a lump sum which should not be exceeded. However, if it proves possible to work out this scheme, this G.O. can be altered as regards that dept.

WL

and it is desirable to have at least 6 months' actuals to work upon, when estimating them and to fix later dates for the budgets of receipts, in the case of the more important Heads. It is expected that the splitting up of the budgets into small portions will expedite work and ensure a closer scrutiny over the figures.

+ 6 months actuals are generally available by November.

The following changes have therefore been made in the Appendix to the draft order :-

I don't know why you struck out the Medical College, budget as one of the submitted separately by the Dir of Pub. Instn. The report of the College goes into the general education report also & S.S. would also think he should have nothing to do with it. The P.W. has not yet come.

17*th April* 1895.

From R. HILL, Esq., Superintendent, Government Press, to the Accountant-General, dated Madras, 23rd April 1895, No. 321.

With reference to the instructions given in the Comptroller-General's letter, dated 11th April 1895, No. 69, regarding the types to be used in the Madras Civil estimates, I have the honour to state that this Press does not possess a fount of

Bourgeois types in which the major portions of the Civil estimates are printed in, but it possesses a large quantity of Long Primer and Brevier types, the Long Primer being a little larger, and the Brevier a little smaller, than Bourgeois.

2. When the Civil estimates were ordered to be printed in their present form, the Chief Secretariat accepted the Brevier types and figures * and also the Clarendon and Antique types and figures †, in substitution for the Antique types and figures used by the Comptroller-General in the Civil estimates printed at Calcutta. Brevier Antique types and figures would have been used, but the fount is a small one, and there was not time to manufacture the types and figures required and get the budget ready by 15th January last.

* See Nos. 5 and 7 in list of types, and No. 7 in list of figures attached.

† See Nos. 3*a*, 3*b* and 11*a* in list of types, and Nos. 1*a* and 3*a* in list of figures.

3. It will be seen from the sample of types used in the Madras Civil estimates that Small Pica figures ‡ are used for the totals of divisions as Sans-seriff figures are not available.

‡ See No. 2 in list of figures.

4. In other respects I am able to carry out the changes desired by the Comptroller-General, as will be seen by a comparison of the list of types and figures with the Calcutta specimen and by the sample page of the estimates altered as desired.

5. If the Comptroller-General is pleased to accept the sample as now submitted, there will be no delay in issuing the Madras Civil estimates, but if the use of Bourgeois types, plain and antique, is insisted upon, then the Madras Civil estimates for 1895–96 must be printed at Calcutta as heretofore.

Order—dated 29th April 1895, No. 350, Financial.

The Superintendent of the Government Press will take steps to procure at an early date a supply of the necessary types so that the final issue of the Civil budget estimate for 1896–97 may be printed in accordance with the wishes of the Comptroller-General.

2. The following telegram will be despatched to the Comptroller-General, Calcutta :—

233. Your letter eleventh instant, No. 69, to Accountant-General, Madras, and letter from Superintendent, Government Press, to latter, 321, 23rd instant. Superintendent, Press, been instructed procure supply necessary type so that final issue estimates for 1896–97 may be printed in accordance with your wishes. Madras Press already corrected estimates 1895–96. Please issue early orders as to striking estimates as this Government is awaiting their final issue to utilize type for forms to be supplied to departments and heads of departments for their estimates for 1896–97.

ORDER—dated ~~22 May~~ 22 June 1895, No. ~~474~~ Financial.

The experiment carried out under G.O., dated 29th November 1894, No. 1038, having proved successful, arrangements of a permanent character will be made for printing the Consolidated Civil Budget Estimates of this Presidency for 1895–96 and future years at the Government Press, Madras.

2. On receipt of proofs from the Comptroller and Auditor-General, as finally passed, the Accountant-General will arrange with the Superintendent, Government Press, to strike and distribute, with as little delay as possible, the required number of copies to—

(1) the Government of India, the Comptroller and Auditor-General, and other Local Governments;
(2) the Departments of the Madras Secretariat;
(3) the Additional Members of the local Legislative Council;
(4) all Heads of Departments in this Presidency;
(5) the Editors' Table; and
(6) the Political Agents attached to Native States in this Presidency, for information.

3. The Accountant-General will then, in accordance with section 1516 of the Civil Account Code, arrange, in communication with the Superintendent of the Government Press, for the supply of printed forms to heads of departments as early as practicable for the estimates of 1896–97, as indicated in paragraph 4 of G.O., dated 29th November 1894, No. 1038. When issuing the forms, each page of the estimates should be faced by a blank page for explanations. The distribution of forms will be as shown in columns 2, 3 and 5 of the Appendix to these Proceedings. The forms for the undermentioned estimates should provide for the insertion of all the details which are embodied in the Orders of Government reviewing the budgets of the current year but which are not incorporated in the printed Civil Estimates:—

Repairs of Churches and Cemeteries.	Public Works Department Budgets.
Agency Civil Works.	

The various sections of each departmental budget should be identified by the number of the Detailed Accounts, where such are assigned, as shown in column 3 of the Appendix to these Proceedings. These numbers should be brought out prominently in the forms ~~supplied to departments and officers~~. When more than one detailed account under the same head is issued ~~to a head of a department~~, the summary of the Detailed Accounts which commences the particular head in the Civil Budget Estimate should accompany.

an officer

4. Heads of departments will use the forms supplied to them, leaving the printed figures intact and filling in the other columns in manuscript. Estimates should be submitted direct to the department of the Secretariat concerned; they need not be sent to the Press for submission to Government in print as was done in 1894.

5. The estimates of revenue and receipts should in every case be submitted separately from those of expenditure. In the case of the more important heads of revenue, the estimates should be based, if possible, on the actuals of the first six months of the current year.

6. Heads of departments will be at liberty to forward the estimates under the several Detailed Accounts separately, if they find this more convenient than submitting them in a consolidated form. There is nothing to prevent the submission of ~~any number of~~ explanatory memoranda, or subsidiary statements, for the purpose of elucidating the budgets; ~~these may be in any form that may be considered suitable~~. Care should, however, be taken to round the totals under each minor head to even hundreds of rupees; annas and pies should ~~never~~ be ~~used~~.

omitted

7. The undermentioned budgets should in the first instance be submitted to, and reviewed in, the Revenue Department, which controls the expenditure :—

Imperial Institute.	Printing at private presses (Board of Rev.).
Printing Settlement registers.	Remittance of treasure beyond the district.
" Trade and Navigation returns.	Fire, flood and epidemic charges.
Collectorate Presses.	Stamping weights and measures.
Destruction of wild animals.	Births and deaths registration.
Pearl fishery.	Rain-gauges.

8. The following officers will in future submit their budgets direct to Government :—

Officers.	*Budget.*
Commissioner of Police	Presidency Police.
Sanitary Commissioner	Sanitation and Vaccination,
Sanitary Engineer	Sanitary Engineering Department.
~~Director of Public Instruction .. ..~~	~~Medical School and College.~~
Chemical Examiner	Chemical Examiner.

Note These at present merely swell budgets which are otherwise heavy - The Officers named in each case are those who control the expenditure C.S.

9. To facilitate the future working of these arrangements, special steps will be taken by the Superintendent of the Government Press to ensure that all budget work is carried on methodically and economically, the same material being, as far as possible, used for the Board of Revenue ~~or other~~ heads of departments, the Revenue Department, ~~and~~ the Financial Department in succession. The system of numbering alluded to in paragraph 3 *supra* will assist in this matter.

ABSTRACT.—Forwarding copies of the following correspondence.

ENCLOSURES.

From S. JACOB, Esq., Comptroller-General, to the Accountant-General with the Government of Madras, dated Calcutta, 11th April 1895, No. 69.

With a view to secure uniformity in the arrangement of types used in the detailed Civil estimates of the several provinces, I have the honour to forward herewith 25 copies of a printed "list of types selected for the revised form of the detailed Civil budget estimates" for use in connection with the printing of the Madras Civil Estimates for 1895–96 and later years.

Please direct the Press to use the appropriate types prescribed in the list. Any want of attention on this point may delay the final printing of these estimates. I request, therefore, that you will be good enough to invite particular attention of the Press to the necessity of following the arrangement of types indicated in the list.

No. 946.

Copy to the Superintendent, Government Press, Madras, for information and guidance, with twelve copies of the list of types.

(Signed) T. W. RAWLINS,
Accountant-General.

17*th April* 1895

From R. HILL, Esq., Superintendent, Government Press, to the Accountant-General, dated Madras, 23rd April 1895, No. 321.

With reference to the instructions given in the Comptroller-General's letter, dated 11th April 1895, No. 69, regarding the types to be used in the Madras Civil estimates, I have the honour to state that this Press does not possess a fount of Bourgeois types in which the major portions of the Civil estimates are printed in, but it possesses a large quantity of Long Primer and Brevier types, the Long Primer being a little larger, and the Brevier a little smaller, than Bourgeois.

2. When the Civil estimates were ordered to be printed in their present form, the Chief Secretariat accepted the Brevier types and figures * and also the Clarendon and Antique types and figures †, in substitution for the Antique types and figures used by the Comptroller-General in the Civil estimates printed at Calcutta. Brevier Antique types and figures would have been used, but the fount is a small one, and there was not time to manufacture the types and figures required and get the budget ready by 15th January last.

* See Nos. 5 and 7 in list of types, and No. 7 in list of figures attached.

† See Nos. 3*a*, 3*b* and 11*a* in list of types, and Nos. 1*a* and 3*a* in list of figures.

3. It will be seen from the sample of types used in the Madras Civil estimates that Small Pica figures ‡ are used for the totals of divisions as Sans-seriff figures are not available.

‡ See No. 2 in list of figures.

4. In other respects I am able to carry out the changes desired by the Comptroller-General, as will be seen by a comparison of the list of types and figures with the Calcutta specimen and by the sample page of the estimates altered as desired.

5. If the Comptroller-General is pleased to accept the sample as now submitted, there will be no delay in issuing the Madras Civil estimates, but if the use of Bourgeois types, plain and antique, is insisted upon, then the Madras Civil estimates for 1895–96 must be printed at Calcutta as heretofore.

Order—dated 29th April 1895, No. 350, Financial.

The Superintendent of the Government Press will take steps to procure at an early date a supply of the necessary types so that the final issue of the Civil budget estimate for 1896–97 may be printed in accordance with the wishes of the Comptroller-General.

2. The following telegram will be despatched to the Comptroller-General, Calcutta :—

233. Your letter eleventh instant, No. 69, to Accountant-General, Madras, and letter from Superintendent, Government Press, to latter, 321, 23rd instant. Superintendent, Press, been instructed procure supply necessary type so that final issue estimates for 1896–97 may be printed in accordance with your wishes. Madras Press already corrected estimates 1895–96. Please issue early orders as to striking estimates as this Government is awaiting their final issue to utilize type for forms to be supplied to departments and heads of departments for their estimates for 1896–97.

ORDER—dated 22nd June 1895, No. 470, Financial.

The experiment carried out under G.O., dated 29th November 1894, No. 1038, having proved successful, arrangements of a permanent character will be made for printing the Consolidated Civil Budget Estimates of this Presidency for 1895–96 and future years at the Government Press, Madras.

2. On receipt of proofs from the Comptroller and Auditor-General, as finally passed, the Accountant-General will arrange with the Superintendent, Government Press, to strike and distribute, with as little delay as possible, the required number of copies to—

(1) the Government of India, the Comptroller and Auditor-General, and other Local Governments;
(2) the Departments of the Madras Secretariat;
(3) the Additional Members of the local Legislative Council;
(4) all Heads of Departments in this Presidency;
(5) the Editors' Table; and
(6) the Political Agents attached to Native States in this Presidency, for information.

3. The Accountant-General will then, in accordance with section 1516 of the Civil Account Code, arrange, in communication with the Superintendent of the Government Press, for the supply of printed forms to heads of departments as early as practicable for the estimates of 1896–97, as indicated in paragraph 4 of G.O., dated 29th November 1894, No. 1038. When issuing the forms, each page of the estimates should be faced by a blank page for explanations. The distribution of forms will be as shown in columns 2, 3 and 5 of the Appendix to these Proceedings.

The various sections of each departmental budget should be identified by the numbers of the detailed accounts, where such are assigned, as shown in column 3 of the Appendix to these Proceedings. These numbers should be brought out prominently in the forms. When more than one detailed account under the same head is issued to an officer, the summary of the detailed accounts which commences the particular head in the Civil Budget Estimate should accompany.

The forms for the undermentioned estimates should provide for the insertion of all the details which are embodied in the Orders of Government reviewing the budgets of the current year but which are not incorporated in the printed Civil Estimates :—

Repairs of Churches and Cemeteries. } Public Works Department Budgets.
Agency Civil Works. }

4. Heads of departments will use the forms supplied to them, leaving the printed figures intact and filling in the other columns in manuscript. Estimates should be submitted direct to the department of the Secretariat concerned; they need not be sent to the Press for submission to Government in print as was done in 1894.

5. The estimates of revenue and receipts should in every case be submitted separately from those of expenditure. In the case of the more important heads of revenue, the estimates should be based, if possible, on the actuals of the first six months of the current year.

6. Heads of departments will be at liberty to forward the estimates under the several detailed accounts separately, if they find this more convenient than submitting them in a consolidated form. There is nothing to prevent the submission of explanatory memoranda, or subsidiary statements, for the purpose of elucidating the budgets. Care should, however, be taken to round the totals under each minor head to even hundreds of rupees; annas and pies should be omitted.

7. The undermentioned budgets should in the first instance be submitted to, and reviewed in, the Revenue Department, which controls the expenditure:—

Imperial Institute.
Printing Settlement registers.
" Trade and Navigation returns.
Collectorate Presses.
Destruction of wild animals.
Pearl fishery.
Printing at private presses (Board of Rev.).
Remittance of treasure beyond the district.
Fire, flood and epidemic charges.
Stamping weights and measures.
Births and deaths registration.
Rain-gauges.

8. The following officers will in future submit their budgets direct to Government:—

Officers.	*Budget.*
Commissioner of Police	Presidency Police.
Sanitary Commissioner	Sanitation and Vaccination,
Sanitary Engineer	Sanitary Engineering Department.
Chemical Examiner	Chemical Examiner.

9. To facilitate the future working of these arrangements, special steps will be taken by the Superintendent of the Government Press to ensure that all budget work is carried on methodically and economically, the same material being, as far as possible, used for the Board of Revenue and heads of departments, the Revenue Department, the Financial Department and the consolidated budget in succession. The system of numbering alluded to in paragraph 3 *supra* will assist in this matter.

10. The dates for the submission of budgets, which have been modified in some cases, are shown in column 6 and should be strictly adhered to in future.
