FOR ORDERS.

The summary of the scientific results of the voyage during 1873-76 of the U.S. "Challenger" consists of two bulky volumes, one of which is put up.

There are in the Secretaries' library 44 vols. of the results themselves. As they are never referred to and, being of about the same size as the volume put up, occupy a considerable amount of space, it is submitted that they may be made over to any Institution where they are likely to be of use.

There is a complete set in the York Central

This volume was sent up from Madras by "Goods Train" with other books for the Sec. Library at 00½
