To THE Honble the Chief Secretary to Government
 Financial Department.

SIR,

With reference to G.O. No. 487 Financial dated 27 June 1895 I hope Government will reconsider my proposal regarding Lyon's Medical Jurisprudence being supplied to certain Medical charges for the following reasons. When I made the proposal the 3rd Edition of Gribble and Achir's Medical Jurisprudence published in 1892 was before me and I considered even the 3rd Edition of it not as good a one for Medical men as Lyon's would be. It is the 3rd Edition which must have been supplied to District Magistrates the High Court and Presidency Magistrates and the Inspector General of Police. The third edition is a great improvement on this. I had also referred the Gribble & Achir's book to the Professor of Medical Jurisprudence in the Medical College and he wrote as follows on the 10th May 1894 "In my opinion the book cannot compare in any way with Lyon's work on the same subject and which I consider one of the best books on Medical Jurisprudence now extant and certainly by

our fully in the above views.

I am so convinced that if Government will
apply these books for the use of Medical officers
and subordinates ^{that} the medico-legal reports re-
quired from them will improve so much in
accuracy that I consider it desirable to ask
Government to reconsider their decision.

C. No. 1645

FOR ORDERS.

Dr. Lyons is a man of well
known ability so that it is
probable that his work
is the better of the two. But,
having been supplied,
it is not undertaken to
supply the other. There must
be some finality in such
matters.

C. No. 1645.

In L.O. D. 27. June/95,
No. 487, Fint., the Govt. declined
to sanction the Surgeon General's
proposal to supply District
Medical & Sanitary officers with
copies of Lyons's Medical Jurisprudence
as a large number of copies of
Gibb's Medical Jurisprudence had
been distributed to District
Magistrates, the High Court, the
Presidency Magistrates and the
Inspector General of Police, and
medical officers could easily
procure the loan of a copy for
reference when required.

The Surgeon General
however comes up again and
asks that this order may be
reconsidered on the ground that
Lyons's work is far superior to
Gibb's and more suitable for
medical men, and that the
medico-legal reports of medical
officers and subordinates will

two copies to each District Medical & Sanitary officer (one for record & use in his office and one for the use of medical subordinates serving under him) and one copy to each Civil Surgeon and each Medical officer in charge of a state hospital ^{at the Presidency town.} He requires 60 copies for distribution. [The price of each copy is Rs 16 at Messrs Thacker Spink & Co, Bombay, but if purchased through Messrs Baker & Co and sent to the Medical stores for distribution the cost ^{the S.G.} stated would be less.]

Even if the book is to be supplied there seems to be no necessity to give 2 copies to each District Medical & San'y. Officer. One should suffice & in that case 39 copies would be required

This is taken from the S.G. letter in No. 727. 6. 95. No. 487, but as Messrs Thacker Spink & Co. Calcutta (the Bombay firm is Thacker & Co) are the publishers
