To

THE CHIEF SECRETARY TO GOVERNMENT,

MARINE DEPARTMENT,

Fort Saint George.

SIR,

I have the honor, by desire of  
the Godavari District Ports Conservancy Board, to request that  
a sum of Rupees (14,000) Fourteen  
thousand may be placed at the  
disposal of the Board to carry  
out under its own supervision  
an extension of the Southern Groyne  
at Cocanada to a distance of  
one thousand feet parallel with  
the new extension of the Northern  
Groyne now being effected. The  
amount has been arrived at

Rs 14,000-0-0

2. The local Port officer thinks that unless this is done the silt that comes down the Godavari during the floods in July and August will be arrested by the northern Groyne and form a deposit which will fill up the channel, to remove which the dredgers now working at Beacanda are not powerful enough. The Superintending Engineer whose opinion I asked states that the proposed extension is likely to check the deposit of silt and that he should be in favor of carrying out the work. He states also that the rates quoted by the Board are those which the Public Works

Works Department would charge for the work.

3. I myself think that all the work that has already been done in connexion with the northern Groyne extension will be so much labor and money thrown away if the Southern Groyne is not extended also, and therefore recommend the proposal for favorable consideration.

4. The Beacanda Landing and Shipping dues Fund had to its credit about Rupees (39,000) thirty nine thousand on 28<sup>th</sup> February last and can well meet the additional expenditure.

For Orders

G.O. No 3260 W of 15<sup>th</sup>  
Dec. 93 (in G.O. 24 Marine 18<sup>th</sup>  
Jan 94) sanctioned an esti-  
-mate of Rs 43,500 for extending  
the northern arm of the Coa-  
-nada Groynes, the work  
to be carried out by the  
Port Conservancy Board.  
The Board now asks for  
Rs 14,000 from the Landing  
and Shipping Dues Fund,  
for the extension of the  
Southern Groyne.

The Board, the Presidency  
Port Officer, and the Public  
Works Dept. are all in  
favour of the extension  
and there is plenty of  
money available.

It is submitted that  
the request may be  
sanctioned

Approved. This extension is a necessity  
after the completion of the northern  
extension - but I doubt the real  
efficacy of the works, until they both  
reach out into deep water.
