ABSTRACT.—Forwarding to the Meteorological Reporter to the Government of India, for verification and completion, statement of expenditure incurred by the Meteorological Reporter to the Government of Madras; and calling for estimates of probable expenditure in further years.

Read—also the following paper :—

From J. ELIOT, Esq., Meteorological Reporter to the Government of India, to the Chief Secretary to the Government of Madras, dated Calcutta, 26th July 1895, No. 4220.

With reference to paragraph 6 of Madras G.O., No. 428 (Financial), dated 31st May 1895, I have the honour to forward herewith a statement showing (a) the actual expenditure during 1893-94 and 1894-95, (b) the revised estimate for 1895-96, and (c) the budget estimate for 1896-97, on account of the Madras Daily Weather Report. I have also had the budget estimate for 1897-98 and 1898-99 added.

In the revised estimate for 1895-96 Rs. 552 has been shown as the total annual pay of the two clerks of the Calcutta office. This is the actual amount that will be required during the year taking into consideration the increments in their pay to which the clerks are entitled. But in the statement forwarded with the Madras Government Order quoted above, the amount noted is Rs. 660, showing a difference of Rs. 108, which is due to your calculating the amount from the *mean* pay of the clerks.

There is a similar difference in the calculation of the pay of the signaller, which, however, is slight and unimportant.
