EXPLANATORY REMARKS.

(a) This amount has already been received and credited. It is unlikely that a Boiler Inspector will be appointed before 1st April and therefore no other receipts are entered in the revised estimate.

(b) The aggregate fees that can be recovered are Rs. 2,060, if all the boilers in Madras are licensed (*vide* paragraph 10 of G.O., No. 1615 M., recorded in G.O., No. 2694 W., dated 29th October 1895). Rs. 104 realized this year has been deducted as the boilers will not be inspected until 1896-97 and will not be so again during that year.

(c) Rs. 2,300 is the sum referred to in paragraph 6 of G.O., No. 1615 M., recorded in G.O., No. 2694 W., Public Works, dated 29th October 1895, as the amount of contribution that may be expected from mofussil municipalities towards the Boiler Inspector's salary. To this is added Rs. 150 for one inspection of machinery in Dindigul, which, it is expected, will be put up before the end of 1896-97.

(d) Amount due to Mr. Turner on account of his salary from 1st May to 4th July 1895.

(e) Eleven months' pay is entered. The Boiler Inspector and his staff are not likely to be appointed before 1st April 1896.

(f) Provided on the assumption that the officer to be appointed will be entitled to this concession.

(g) Amount already incurred.

(h) With the exception of one item all the articles sanctioned in G.O., No. 438, Financial, dated 8th June 1895, have been bought and paid for.

(i) These have been already obtained.

(j) The expenditure already incurred is Rs. 17.

EXPLANATORY REMARKS.

(a) This amount has already been received and credited. It is unlikely that a Boiler Inspector will be appointed before 1st April and therefore no other receipts are entered in the revised estimate.
 (b) The aggregate fees that can be recovered are Rs. 2,060, if all the boilers in Madras are licensed (vide paragraph 10 of G.O., No. 1615 M., recorded in G.O., No. 2694 W., dated 29th October 1895). Rs. 104 realized this year has been deducted as the boilers will not be inspected until 1896-97 and will not be so again during that year.
 (c) Rs. 2,300 is the sum referred to in paragraph 6 of G.O., No. 1615 M., recorded in G.O., No. 2694 W., Public Works, dated 29th October 1895, as the amount of contribution that may be expected from mofussil municipalities towards the Boiler Inspector's salary. To this is added Rs. 150 for one inspection of machinery in Dindigul, which, it is expected, will be put up before the end of 1896-97.

(d) Amount due to Mr. Turner on account of his salary from 1st May to 4th July 1895.
 (e) Eleven months' pay is entered. The Boiler Inspector and his staff are not likely to be appointed before 1st April 1896.

(f) Provided on the assumption that the officer to be appointed will be entitled to this concession.

(g) Amount already incurred.

(h) With the exception of one item all the articles sanctioned in G.O., No. 438, Financial, dated 8th June 1895, have been bought and paid for.

(i) These have been already obtained.

(j) The expenditure already incurred is Rs. 17.
