GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following papers :—

From the Inspector-General of Police, dated 1st October 1895, submitting Budget Estimates under 20. Police for 1895–96.

From the same officer, No. 5217, dated 11th October 1895, forwarding a detailed estimate of *Hospital charges* to be included in the budget.

Memorandum No. 2554, dated 25th October 1895.

From M. HAMMICK, Esq., I.C.S., Inspector-General of Police, Madras, to the Chief Secretary to Government, dated 4th November 1895, No. 5477.

With reference to official memorandum No. 2554, Financial Department, dated 25th October 1895, I have the honour to return the proof of the Police Budget duly examined.

2. With reference to par ph 3 of the memorandum, I beg to state that as the actuals (under Superintendence) of the last year exceeded the grant and the same was likely to be the case this year too, I made a provision for leave allowance following a precedent (*vide* page 51 under Jails, budget estimate for 1887–88). The instruction now given has been noted for future guidance.

3. With reference to paragraph 4, I beg to state that the cost of credit notes paid to railway companies is the actual railway fare of policemen travelling on duty. It appears to me therefore that the charge thus forming part of the travelling allowance of the force falls correctly under the head "District Executive Force—Provincial." It should be noted that an increase of 897 men was sanctioned by the orders contained in G.O., No. 1159, Financial Department, dated 18th November 1893. Secondly, a head constable or constable travelling by road is allowed only one anna and four annas respectively a day (except in very special cases when they are allowed mileage for travelling more than twenty miles), whereas if travelling by rail a constable gets railway fare *plus* the daily allowance (Article 1177 of the Civil Service Regulations) and a head constable double railway fare which by departmental orders is restricted to single fare *plus* daily allowance. The extension of railways thus leads to increased travelling allowance. Travelling on escort, detective, &c., duties has, in the interests

of efficient work, necessarily to be done by railway wherever this means of communication is available. I am therefore of opinion that it is not feasible to effect reduction in the amount of travelling allowance. The cost is no doubt repaid by more efficient work.

4. Separate details for clothing, arms, ammunition and accoutrements under District Police are herewith furnished. The cost of English materials—blue woollen, turkey-red cambric, &c., is now appreciably more than what it was four years ago owing to the rate of exchange.* Khaki, which costs about As. 7 a yard in the place of white drill costing As. 4 a yard has been introduced of late years in the districts of Ganjám, Gódávari and Vizagapatam for the reserve and hillmen and in Jeypore, and sundry improvements have been made in the uniform of the men. Under these circumstances the charge on account of clothing, &c., is high. My estimate was based upon the cost of materials actually due in 1896–97.

(a) Cloth of an improved quality obtained since this year.

5. Under "Petty Construction and Repairs" of District Police, the total cost of the proposals of Superintendents for 1896–97 was Rs. 1,85,000. Of these, the most urgent works were chosen for which only provision was proposed by me. Superintendents have been specially urged to see that works that are provided for in a year are carried out within the year.

Order—No. 954, Financial, dated 4th December 1895.

Excluding charges on account of the Railway Police, the Inspector-General originally provided for an expenditure in 1896–97 of 1·93 lakhs in excess of the actuals of 1894–95, as shown below :—

20. Police, exeluding Presidency Police, Cattle Pounds and Steam-boiler inspection charges.	Ordinary Police.	Railway Police.	Total.

Budget, 1896–97	40·41	·57	40·98

* Included under Ordinary Police in the accounts.

2. Increased provisions occurred mainly under the following heads :—

Exchange compensation allowance	·21
Provision for the full scale of salaries of Superintendents and Assistant Superintendents	·36
Creation of eleven additional Inspectorates	·23
Good conduct allowances	·21
Travelling allowances	·05
Conveyance and horse allowances of Inspectors	·05
Arms and accoutrements	·04
Elephant charges	·04
Purchase of tents	·20
Petty construction and repairs	·34
Treasury guards and process-servers	·18
Total ..	1·93

3. *Superintendence.*—The provision of ·05 made by the Inspector-General for leave allowances will be struck out with reference to paragraph 61-A of the instructions in G.O., No. 842, Financial, dated 28th October 1895, and ·03 will be transferred from *District Executive Force* on account of the establishments of the Deputy Inspectors-General.

4. *District Executive Force.*—It will be sufficient if the total allotment under *Salaries* is placed ·39, instead of ·56, higher than the actuals of 1894–95. This will admit of an increased expenditure of ·21 on account of Exchange Compensation Allowance and of ·18 on account of salaries proper. It is observed that the Inspector-General has provided for the full scale of probationers at the higher rate of Rs. 300 per mensem. The whole of this provision is not likely to be utilized and the estimate of probable savings under this head will accordingly be raised from ·19 to ·36.

5. The savings under *Police Force* can safely be raised by ·04, which will still allow for an expenditure of ·28 in excess of that incurred in 1894–95.

6. The actual expenditure on account of *Travelling Allowances* amounted in 1894–95 to 1·95 and the Inspector-General provides 2·00 for 1896–97 on the ground that, owing to the extension of railways, the cost of railway credit notes has risen considerably, viz., from ·57 in 1892–93 to ·82 in 1894–95. He further contends that the extra cost is repaid by more efficient work. The Government is, however, of opinion that effective measures should be adopted to reduce the increasing expenditure, and a detailed examination of the actuals of 1894–95 would probably suggest many expedients for economy in this direction. A deduction of ·04 will be made as probable savings and the Inspector-General will be expected to keep the expenditure within the reduced allotment.

7. From the details furnished under *Clothing*, it appears that a sum of ·64 is spent on supplies obtained from Europe. It is desirable that, in view of the improvements effected in manufacturing industries both in jails and by private firms, a fresh attempt should be made to obtain these supplies locally, as far as possible, and thus to avoid the increasing loss by exchange. The Inspector-General will consult the various supplying departments on the point and report whether any savings can be effected.

8. Under *Petty Construction and Repairs* details have been furnished for a sum of ·46, while a lump provision of ·61 has been made for repairs to station-houses and huts, and a reserve of ·03 has been added to meet urgent and unforeseen demands. A grant of 1·00 should suffice for all requirements.

9. The supply of tents to Police officers will be gradual and a provision of ·15 in the current and of ·17 in the ensuing years should suffice.

10. A deduction of ·01 will be made in the Inspector-General's provision for *Elephant charges* and the allotment for *Contingencies* will be reduced by ·03 with reference to past actuals.

11. The provision for Other Police will be reduced by ·01.

12. Under *Railway Police* the sanctioned estimates of the current year included ·27 on account of existing charges and 1·14 for the Railway Police scheme. In the revised estimate the Inspector-General provides ·26 for the former and ·05 for the *Detective and Travelling Staff* recently organised. For 1896–97 the above charges are estimated at ·28 and ·125, respectively, while the cost of the revised railway police scheme is reduced from 1·14 to ·165 lakh. The whole of the proposed force will be superintended by central agencies established at selected localities and will, Mr. Hammick considers, form a fairly efficient body of railway police for present requirements.

13. The necessity for the Inspector-General purchasing stationery in the country to the extent of Rs. 500, apart from the supplies of the Stationery depôt, is not apparent. The estimate will be reduced to Rs. 25, the actuals in 1894–95 having been only Rs. 15.

14. In several instances the Inspector-General has not furnished any details under *Contingencies*. Arrangements should be made for supplying the figures to the Accountant-General before the consolidated estimates are printed in January.

15. The estimates as accepted are shown in the appendix to these proceedings.

Explanatory Remarks.
(a) Includes Railway Police charges.
(b) The increase in accounts is due to subsidiary leave allowance of Mr. Hammick.
(c) The increase in accounts is due to acting allowances drawn by Mr. Meredith for acting in the fourth grade and to his deputation allowance while on special duty from 9th October to 19th November 1894. In the estimate provision is made for a Fourth-grade Superintendent as Mr. Meredith is of this grade now.

(e) The transmission of telegraph messages in connection with the Cape Comorin and Kollur temple jewels theft cases accounts in a large measure for the increased expenditure.

(*a*) Colonel Whitlock was on privilege leave for three months and Colonel Kilgour for one month. The latter went again on private affairs leave in India from 18th January 1895. The increase in accounts is due to acting arrangements made thereon and to the leave allowance of Colonel Kilgour during his leave from 18th January 1895. The revised estimate provides for similar contingencies.

(*b*) Included under 'District Executive force.'

(*c*) Excluding exchange compensation allowances which are shown *infra*.

Explanatory Remarks.

(a) The Deputy Commissioner is now in the third grade, Rs. 800.

(b) Vacancies existed in the Assistant Superintendent's grade. Hence low accounts, 1894-95.

(c) Includes the Superintendents' exchange compensation allowance.
(d) The exchange compensation allowance has been fixed according to the rate given by the Accountant-General—19 3/13th of salary.

(e) The difference between the 'Accounts' and the 'Estimates' is due to the latter including 12 Probationary Assistant Superintendents and more exchange compensation allowance. Owing to leave vacancies in Assistant Superintendent's appointments and there being only 6 Assistant Superintendents of the last grade (250-300) now, the revised estimate is reduced.
No provision for exchange compensation allowance for Inspectors and European head constables has been made, as none of the non-gazetted officers is, as at present ascertained, eligible for it.

Explanatory Remarks.

With reference to the correspondence recorded in G.O., No. 185, Financial Department, dated 22nd February 1895, the Accountant-General has included the expenditure on account of Railway police under the head of District Executive Force. But with regard to the detective and travelling staff recently sanctioned (G.O., No. 873, Judicial Department, dated 26th April 1895), he has agreed that the staff may be shown under Railway police and the expenditure debited to this head. Now that there is a regular staff of Inspectors in charge of the Railway police under the control of the Deputy Inspector-General, the whole body of men at work at platforms on all railway lines and the detective and travelling staff recently sanctioned should form a separate body distinct from the District Executive Force. The heads shown in the current year's budget under "Railway police" are therefore retained.

The revised scheme for Railway police is still under consideration. But it seems probable that for the present, the existing number of head constables and constables will suffice. The number of men on the Southern Mahratta Railway will be reduced, as watch and ward duties will be given up there. But the reduction on that Railway will be balanced by additional establishments which are absolutely necessary on the South Indian Railway and Madras Railway. It is absolutely necessary also that the staff of Inspectors should be increased by three. The three Inspectors now at work have too much to do. The revised scheme which, it is hoped, will shortly be submitted, will therefore probably involve an increase of three Inspectors, and office establishments for the supervising staff.

It will be proposed to superintend the whole force by one Superintendent at Madras, assisted by an assistant to be stationed at Bezwada or Bellary. This scheme will work out as a more economical scheme than that proposed by Colonel Porteous and give for present purposes a fairly efficient body of Railway police. The additional gross cost of the scheme will be about Rs. 27,147. Under the present conditions under which the Madras Railway does not contribute towards the cost for the police on that line the cost chargeable to Government will be Rs. 16,500.

The increase in the accounts for 1894-95 is due to the following causes:—
Printing a larger number of Police Gazettes of Malayalam, Tamil and Telugu which had been in arrears.
Printing District Allocation statements.
Printing and supplying anthropometry *Roll cards.*
The revised etimate has been fixed at Rs. 7,000 owing to the latter two causes, part of the cost having to be paid during this year.

No 2554 d/25 October 95

A proof of the Police Budget as revised in the Secretariat is forwarded to the Inspector General of Police with the request that it may be examined carefully completed and returned as early as possible.

2. The following reductions have been made in the estimates as originally submitted.

	I. G's. Budget	Reductions made	Proposed grants
Superintendence.....	1·62	·02	1·60
Salaries.....	3·90	·20	3·70
Police force.....	24·57	·18	24·39
Allowances	2·74	·20	2·54
Arms & Accoutrements	2·20	·20	2·00
Elephant charges	·09	·01	·08
Purchase of tents	·20	·03	·17
Petty constructions and repairs...	1·10	·10	1·00
Contingencies.....	·82	·03	·79
Other Police.....	2·70	·01	2·69
Other charges.....	1·04	~~·06~~	1·04
	40·98	·98	40·00

3. No separate provisions can be made for leave or deputation allowances.

4. It seems doubtful whether Provincial revenues should bear the increased charges on account of travelling allowances due to the credit note system ~~as it is now worked in the~~ extension of the case

correction with

case of Imperial railways like Such a the East Coast Railway &c. In any case it appears necessary to adopt measures to reduce the charges to a minimum.

5. Separate details should be given for Clothing, Arms and Accoutrements under District Police. Here again it seems desirable to restrict expenditure to a maximum of 2•00 lakhs.

6. The supply of tents to Police Officers will be gradual and a provision of •15 in the current and of •17 in the ensuing years will probably suffice.

7. It does not appear probable that more than 1•00 will be actually spent under Petty constructions and repairs.

SIR,

Enclosures.
Two

With reference to official memorandum No. 2554. F.D. dated 25th October 1895, I have the honor to return the proof of the Police Budget duly examined.

2. With reference to para 3 of the memo-randum, I beg to state that as the actuals (under Superintendence) of the last year exceeded the grant and the same was likely to be the case this year too I made a pro-vision for Leave allowance following a precedent (vide page 64 under Jails — Budget estimate for 1887-88). The instruction now given has been noted for future guidance.

3. With reference to para 4, I beg to state that the cost of credit notes paid to Railway companies is the actual railway fare

of

of Policemen travelling on duty. It appears to me therefore that the charge thus forming part of the travelling allowance of the Force falls correctly under the head "District Executive Force - Provincial." It should be noted that an increase of 897 men was sanctioned by the orders contained in G.O. No. 1159, F.D., dated 18th November 1893.

Secondly a Head Constable or Constable travelling by road is allowed only one anna and 4 annas respectively a day (except in very special cases when they are allowed mileage for travelling more than 20 miles) whereas if travelling by rail a constable gets railway fare plus the daily allowance (Article 177 of the Civil Service Regulations) and a Head Constable double railway fare which by departmental orders is restricted to single fare plus daily allowance. The extension of railways thus leads to increased travelling allowance. Travelling on escort, detective & duties has, in the interests of efficient work, necessarily to be done by railway wherever this means of communication is available. I am, therefore, of opinion that it is not feasible to effect reduction in the amount of travelling allowance. The cost is no doubt

repaid by more efficient work.

4. Separate details for clothing, arms, ammunition and accoutrements under District Police are herewith furnished. The cost of English materials - Blue woollen, Turkey red cambric &c is now appreciably more than what it was four years ago owing to the rate of exchange. Khaki, which costs about 7 as. a yard in the place of white drill costing 4 as. a yard has been introduced of late years in the districts of Ganjam, Godavari & Vizagapatam for the reserve and hillmen, and in Jeypore, and sundry improvements have been made in the uniform of the men. Under these circumstances the charge on account of clothing &c is high. My estimate was based upon the cost of materials actually due in 1896-97.

5. Under "Petty construction and repairs" of District Police the total cost of the proposals of Superintendents for 1896-97 was Rs 185,000. Of these the most urgent works were chosen for which only provision was proposed by me. Superintendents have been specially urged to see that works that are provided for in a year are carried out within the year.

(b) The increase in accounts is due to subsidiary leave allowance of Mr. Hammick.

(c) The increase in accounts is due to acting allowances drawn by Mr. Meredith for acting in the fourth grade and to his deputation allowance while on special duty from 9th October to 19th November 1894. In the estimate provision is made for a Fourth-grade Superintendent as Mr. Meredith is of this grade now.

(d) The increase in the estimate is due to the revision of the office establishment and the additional clerks sanctioned for anthropometrical work in G.Os., Nos. 653 and 1630, Judicial Department, dated 28th March and 3rd August 1895.

(e) The transmission of telegraph messages in connection with the Cape Comorin and Kollur temple jewels theft cases accounts in a large measure for the increased expenditure.

(f) The decrease in the estimate is due to the cost on account of a translator having been removed to the head "establishment," a permanent appointment having been sanctioned.

(g) Increase owing to the purchase of almirahs for anthropometrical branch.

(*a*) Colonel Whitlock was on privilege leave for three months and Colonel Kilgour for one month. The latter went again on private affairs leave in India from 18th January 1895. The increase in accounts is due to acting arrangements made thereon and to the leave allowance of Colonel Kilgour during his leave from 18th January 1895. The revised estimate provides for similar contingencies.

(*b*) Included under 'District Executive force.

Note In the original budget the Inspector-General lumped the charges of his own office in the Presytown units those of the Dy Inspector-General in the Mofussil. When this was separated it was found that the cost of the D.I.G's Est. was wrongly shown under "Police force" instead of under "Superintendence"

(*c*) Excluding exchange compensation allowances which are shown *infra*.

Explanatory Remarks.

(*a*) The Deputy Commissioner is now in the third grade, Rs. 800.

(*b*) Vacancies existed in the Assistant Superintendent's grade. Hence low accounts, 1894-95.

(*c*) Includes the Superintendents' exchange compensation allowance.
(*d*) The exchange compensation allowance has been fixed according to the rate given by the Accountant-General—19 3/13th of salary.

(*e*) The difference between the 'Accounts' and the 'Estimates' is due to the latter including 12 Probationary Assistant Superintendents and more exchange compensation allowance. Owing to leave vacancies in Assistant Superintendent's appointments and there being only 6 Assistant Superintendents of the last grade (250-300) now, the revised estimate is reduced.
No. provision for exchange compensation allowance for Inspectors and European head constables has been made, as none of the non-gazetted officers is, as at present ascertained, eligible for it.

(d) The decrease, as compared with the last year, is due to lower grade of Medical Subordinates in charge.

(e) Provided in accordance with G.O., No. 56, Financial, dated 21st January 1895, passing orders regarding the grant of local allowance to Hospital Assistants in certain institutions.

(f) Provided in accordance with G.O., No. 865, Public, dated 14th November 1894, passing orders as to the scale of accommodation to be provided for Hospital Assistants and the amount of compensation in lieu of it.

(*h*) The increased actuals are due to the inclusion under this head of the cost of the Southern Mahratta and Bezwada Extension Railway ice by the Accountant-General. This includes Rs. 3,268 shown under 'Railway Police' by the Accountant-General.

Explanatory Remarks.

(*a*) G.O., No. 585, Judicial Department, dated 8th March 1894, sanctioning six constables for duty as escorts to Pay clerks on Southern Mahratta Railway line.

G.Os., Nos. 95 and 195, Financial Department, dated 31st January and 26th February 1895, sanctioning the elimination of 10 constables Pay clerks' guards from Vizagapatam and Gódávari districts, their pay being entirely debitable to the Railway department.

(*d*) Provision made for the men of the cash chest guards of the Engineer of the East Coast Railway portion still under construction.

Explanatory Remarks.

th reference to the correspondence recorded in G.O., No. 185, Financial Department, dated 22nd February 1895, the Accountant-General has
l the expenditure on account of Railway police under the head of District Executive Force. But with regard to the detective and tra-
staff recently sanctioned (G.O., No. 873, Judicial Department, dated 26th April 1895), he has agreed that the staff may be shown under
police and the expenditure debited to this head. Now that there is a regular staff of Inspectors in charge of the Railway police under the
f the Deputy Inspector-General, the whole body of men at work at platforms on all railway lines and the detective and travelling staff
sanctioned should form a separate body distinct from the District Executive Force. The heads shown in the current year's budget under
y police" are therefore retained.
revised scheme for Railway police is still under consideration. But it seems probable that for the present, the existing number of head
es and constables will suffice. The number of men on the Southern Mahratta Railway will be reduced, as watch and ward duties will be
o there. But the reduction on that Railway will be balanced by additional establishments which are absolutely necessary on the South
Railway and Madras Railway. It is absolutely necessary also that the staff of Inspectors should be increased by three. The three Inspectors
work have too much to do. The revised scheme which, it is hoped, will shortly be submitted, will therefore probably involve an increase of
spectors, and office establishments for the supervising staff.
will be proposed to superintend the whole force by one Superintendent at Madras, assisted by an assistant to be stationed at Bezwada or
. This scheme will work out as a more economical scheme than that proposed by Colonel Porteous and give for present purposes a fairly
body of Railway police. The additional gross cost of the scheme will be about Rs. 27,147. Under the present conditions under which
ras Railway does not contribute towards the cost for the police on that line the cost chargeable to Government will be Rs. 16,500.

e increase in the accounts for 1894-95 is due to the following causes :—
Printing a larger number of Police Gazettes of Malayalam, Tamil and Telugu which had been in arrears.
Printing District Allocation statements.
Printing and supplying anthropometry *Roll cards*.
The revised etimate has been fixed at Rs. 7,000 owing to the latter two causes, part of the cost having to be paid during this year.

Note

A clean proof of the Police budget and of the draft order thereon is as directed submitted to the Hon. Member. Mr's remarks have been numbered in blue chalk.

I Para 5 of Order. The savings under Police Force have been raised by .04 instead of by .15. This allows of an expenditure (in 1896-97) of 24.50 against actuals of 24.22 in 1894-95

II & III Para 6 of Order. The savings under allowances have been reduced from .20 to .04 as directed. This paragraph has also been altered.

IV Para 7 of Order. The deduction of .20 under Clothing & Arms has been taken out.

The above three items make an addition of .47 to the estimate for 1896-97. In order to get a round figure of .50 the savings under District Police, Salaries have been reduced from

V The total for Other Police together with the summary is given on page 8 of the estimate. The gross allotment for Treasury Guards is ~~1·75~~ 1·76 against 1·74 in the current year's budget. The provision for good conduct allowance, Rs 1706, does not enter into the actuals of 1894-95 nor into the budget estimate of the current year. It was not thought safe to raise the Dr figure for probable savings, Rs 2344, to a higher amount than Rs 2550. In 1894-95 the No. of head Constables and Constables doing duty as Treasury Guards was only 189 + 1147 respectively against 248 + 1422 in the two following years - i.e. an increase of 334 men in all.

No. 954 FINANCIAL, 4 TH ~~NOVEMBER~~ 1895.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following papers :—

From the Inspector-General of Police, dated 1st October 1895, submitting Budget Estimates under 20. Police for 1895–96.

From the same officer, No. 5217, dated 11th October 1895, forwarding a detailed estimate of *Hospital charges* to be included in the budget.

Memorandum No. 2554, dated 25th October 1895.

From M. HAMMICK, Esq., I.C.S., Inspector-General of Police, Madras, to the Chief Secretary to Government, dated 4th November 1895, No. 5477.

With reference to official memorandum No. 2554, Financial Department, dated 25th October 1895, I have the honour to return the proof of the Police Budget duly examined.

2. With reference to paragraph 3 of the memorandum, I beg to state that as the actuals (under Superintendence) of the last year exceeded the grant and the same was likely to be the case this year too, I made a provision for leave allowance following a precedent (*vide* page 51 under Jails, budget estimate for 1887–88). The instruction now given has been noted for future guidance.

3. With reference to paragraph 4, I beg to state that the cost of credit notes paid to railway companies is the actual railway fare of policemen travelling on duty. It appears to me therefore that the charge thus forming part of the travelling allowance of the force falls correctly under the head "District Executive Force—Provincial." It should be noted that an increase of 897 men was sanctioned by the orders contained in G.O., No. 1159, Financial Department, dated 18th November 1893. Secondly, a head constable or constable travelling by road is allowed only one anna and four annas respectively a day (except in very special cases when they are allowed mileage for travelling more than twenty miles), whereas if travelling by rail a constable gets railway fare *plus* the daily allowance (Article 1177 of the Civil Service Regulations) and a head constable double railway fare which by departmental orders is restricted to single fare *plus* daily allowance. The extension of railways thus leads to increased travelling allowance. Travelling on escort, detective, &c., duties has, in the interests of efficient work, necessarily to be done by railway wherever this means of communication is available. I am therefore of opinion that it is not feasible to effect reduction in the amount of travelling allowance. The cost is no doubt repaid by more efficient work.

4. Separate details for clothing, arms, ammunition and accoutrements under District Police are herewith furnished. The cost of English materials—blue woollen, turkey-red cambric, &c, is now appreciably more than what it was four years ago owing to the rate of exchange.* Khaki, which costs about As. 7 a yard in the place of white drill costing As. 4 a yard has been introduced of late years in the districts of Ganjám, Gódávari and Vizagapatam for the reserve and hillmen and in Jeypore, and sundry improvements have been made in the uniform of the men. Under these circumstances the charge on account of clothing, &c., is high. My estimate was based upon the cost of materials actually due in 1896–97.

(a) Cloth of an improved quality obtained since this year.

5. Under "Petty Construction and Repairs" of District Police, the total cost of the proposals of Superintendents for 1896–97 was Rs. 1,85,000. Of these, the most urgent works were chosen for which only provision was proposed by me. Superintendents have been specially urged to see that works that are provided for in a year are carried out within the year.

ORDER—No. 954, Financial, dated 6 th November 1895.

Excluding charges on account of the Railway Police, the Inspector-General originally provided for an expenditure in 1896–97 of 1·93 lakhs in excess of the actuals of 1894–95, as shown below :—

20. Police, exeluding Presidency Police, Cattle Pounds and Steam-boiler inspection charges.	Ordinary Police.	Railway Police.	Total.
	Rs.	Rs.	Rs.
Actuals, 1894–95	38·48	* ·26	38·74

Revised, 1895–96	39·55	·31	39·86
Budget, 1896–97	40·41	·57	40 98

* Included under Ordinary Police in the accounts.

2. Increased provisions occurred mainly under the following heads :—

Exchange compensation allowance	·21
Provision for the full scale of salaries of Superintendents and Assistant Superintendents	·36
Creation of eleven additional Inspectorates	·23
Good conduct allowances	·21
Travelling allowances	·05
Conveyance and horse allowances of Inspectors	·05
Arms and accoutrements	·04
Elephant charges	·04
Purchase of tents	·20
Petty construction and repairs	·36
Treasury guards and process-servers	·18
Total ..	1·93

3. *Superintendence.*—The provision of ·05 made by the Inspector-General for leave allowances will be struck out with reference to paragraph 61-A of the instructions

in G.O., No. 842, Financial, dated 28th October 1895, and ·03 will be transferred from *District Executive Force* on account of the establishments of the Deputy Inspectors-General.

4. *District Executive Force.*—It will be sufficient if the total allotment under *Salaries* is placed ·39, instead of ·56, higher than the actuals of 1894–95. This will admit of an increased expenditure of ·21 on account of Exchange Compensation Allowance and of ·18 on account of salaries proper. It is observed that the Inspector-General has provided for the full scale of probationers at the higher rate of Rs. 300 per mensem. The whole of this provision is not likely to be utilized and the estimate of probable savings under this head will accordingly be raised from ·19 to ·36.

5. The savings under *Police Force* can safely be raised by ·04, which will still allow for an expenditure of ·28 in excess of that incurred in 1894–95.

6. The actual expenditure on account of *Travelling Allowances* amounted in 1894–95 to 1·95 and the Inspector-General provides 2·00 for 1896–97 on the ground that, owing to the extension of railways, the cost of railway credit notes has risen considerably, viz., from ·57 in 1892–93 to ·82 in 1894–95. He further contends that the extra cost is repaid by more efficient work. The Government is, however, of opinion that effective measures should be adopted to reduce the increasing expenditure, and a detailed examination of the actuals of 1894–95 would probably suggest many expedients for economy in this direction. A deduction of ·04 will be made as probable savings and the Inspector-General will be expected to keep the expenditure within the reduced allotment.

7. From the details furnished under *Clothing*, it appears that a sum of ·64 is spent on supplies obtained from Europe. It is desirable that, in view of the improvements effected in manufacturing industries both in jails and private firms, a fresh attempt should be made to obtain these supplies locally, as far as possible, and thus avoid the increasing loss by exchange. The Inspector-General will consult the various supplying departments on the point and report whether any savings can be effected.

8. Under *Petty Construction and Repairs* details have been furnished for a sum of ·46, while a lump provision of ·61 has been made for repairs to station-houses and huts, and a reserve of ·03 has been added to meet urgent and unforeseen demands. A grant of 1·00 should meet all requirements.

9. The supply of tents to Police officers will be gradual and a provision of ·15 in the current and of ·17 in the ensuing years should suffice.

10. A deduction of ·01 will be made in the Inspector-General's provision for *Elephant charges* and the allotment for *Contingencies* will be reduced by ·03 with reference to past actuals.

11. The provision for Other Police will be reduced by ·01.

12. Under *Railway Police* the sanctioned estimates of the current year included ·27 on account of existing charges and 1·14 for the Railway Police scheme. In the revised estimate the Inspector-General provides ·26 for the former and ·05 for the *Detective and Travelling Staff* recently organised. For 1896–97 the above charges are estimated at ·28 and ·125, respectively, while the cost of the revised railway police scheme is reduced from 1·14 to ·165 lakh. The whole of the proposed force will be superintended by central agencies established at selected localities and will, Mr. Hammick considers, form a fairly efficient body of railway police for present requirements.

13. The necessity for the Inspector-General purchasing stationery in the country to the extent of Rs. 500, apart from the supplies of the Stationery depôt, is not apparent. The estimate will be reduced to Rs. 25, the actuals in 1894–95 having been only Rs. 15.

14. In several instances the Inspector-General has not furnished any details under *Contingencies*. Arrangements should be made for supplying the figures to the Accountant-General before the consolidated estimates are printed in January.

estimates as accepted are shown in the appendix to these proceedings.

15. The ~~following entries will be made in the consolidated budget:~~—

EXPLANATORY REMARKS.

(a) Includes Railway Police charges.

(b) The increase in accounts is due to subsidiary leave allowance of Mr. Hammick.

(c) The increase in accounts is due to acting allowances drawn by Mr. Meredith for acting in the fourth grade and to his deputation allowance while on special duty from 9th October to 19th November 1894. In the estimate provision is made for a Fourth-grade Superintendent as Mr. Meredith is of this grade now.

(d) The increase in the estimate is due to the revision of the office establishment and the additional clerks sanctioned for anthropometrical work in G.Os., Nos. 653 and 1630, Judicial Department, dated 28th March and 3rd August 1895.

(e) The transmission of telegraph messages in connection with the Cape Comorin and Kollur temple jewels theft cases accounts in a large measure for the increased expenditure.

(f) The decrease in the estimate is due to the cost on account of a translator having been removed to the head "establishment," a permanent appointment having been sanctioned.

(g) Increase owing to the purchase of almirahs for anthropometrical branch.

(*a*) Colonel Whitlock was on privilege leave for three months and Colonel Kilgour for one month. The latter went again on private affairs leave in India from 18th January 1895. The increase in accounts is due to acting arrangements made thereon and to the leave allowance of Colonel Kilgour during his leave from 18th January 1895. The revised estimate provides for similar contingencies.

(*b*) Included under 'District Executive force.'

(*c*) Excluding exchange compensation allowances which are shown *infra*.

Explanatory Remarks.

(*a*) The Deputy Commissioner is now in the third grade, Rs. 800.

(*b*) Vacancies existed in the Assistant Superintendent's grade. Hence low accounts, 1894-95.

(*c*) Includes the Superintendents' exchange compensation allowance.
(*d*) The exchange compensation allowance has been fixed according to the rate given by the Accountant-General—19 3/13th of salary.

Owing to leave vacancies in Assistant Superintendent's appointments and there being only 6 Assistant Superintendents of the last grade (250-300) now, the revised estimate is reduced.

Explanatory Remarks.

With reference to the correspondence recorded in G.O., No. 185, Financial Department, dated 22nd February 1895, the Accountant-General has included the expenditure on account of Railway police under the head of District Executive Force. But with regard to the detective and travelling staff recently sanctioned (G.O., No. 873, Judicial Department, dated 26th April 1895), he has agreed that the staff may be shown under Railway police and the expenditure debited to this head. Now that there is a regular staff of Inspectors in charge of the Railway police under the control of the Deputy Inspector-General, the whole body of men at work at platforms on all railway lines and the detective and travelling staff recently sanctioned should form a separate body distinct from the District Executive Force. The heads shown in the current year's budget under "Railway police" are therefore retained.

The revised scheme for Railway police is still under consideration. But it seems probable that for the present, the existing number of head constables and constables will suffice. The number of men on the Southern Mahratta Railway will be reduced, as watch and ward duties will be given up there. But the reduction on that Railway will be balanced by additional establishments which are absolutely necessary on the South Indian Railway and Madras Railway. It is absolutely necessary also that the staff of Inspectors should be increased by three. The three Inspectors now at work have too much to do. The revised scheme which, it is hoped, will shortly be submitted, will therefore probably involve an increase of three Inspectors, and office establishments for the supervising staff.

It will be proposed to superintend the whole force by one Superintendent at Madras, assisted by an assistant to be stationed at Bezwada or Bellary. This scheme will work out as a more economical scheme than that proposed by Colonel Porteous and give for present purposes a fairly efficient body of Railway police. The additional gross cost of the scheme will be about Rs. 27,147. Under the present conditions under which the Madras Railway does not contribute towards the cost for the police on that line the cost chargeable to Government will be Rs. 16,500.

The increase in the accounts for 1894-95 is due to the following causes:—

Printing a larger number of Police Gazettes of Malayalam, Tamil and Telugu which had been in arrears.

Printing District Allocation statements.

Printing and supplying anthropometry *Roll cards*.

The revised etimate has been fixed at Rs. 7,000 owing to the latter two causes, part of the cost having to be paid during this year.

No. , FINANCIAL, TH NOVEMBER 1895.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following papers:—

From the Inspector-General of Police, dated 1st October 1895, submitting Budget Estimates under 20. Police for 1895–96.

From the same officer, No. 5217, dated 11th October 1895, forwarding a detailed estimate of *Hospital charges* to be included in the budget.

Memorandum No. 2554, dated 25th October 1895.

From M. HAMMICK, Esq., I.C.S., Inspector-General of Police, Madras, to the Chief Secretary to Government, dated 4th November 1895, No. 5477.

With reference to official memorandum No. 2554, Financial Department, dated 25th October 1895, I have the honour to return the proof of the Police Budget duly examined.

2. With reference to paragraph 3 of the memorandum, I beg to state that as the actuals (under Superintendence) of the last year exceeded the grant and the same was likely to become the case this year too, I made a provision for leave allowance following a precedent (*vide* page 51 under Jails, budget estimate for 1887–88). The instruction now given has been noted for future guidance.

3. With reference to paragraph 4, I beg to state that the cost of credit notes paid to railway companies is the actual railway fare of policemen travelling on duty. It appears to me therefore that the charge thus forming part of the travelling allowance of the force falls correctly under the head "District Executive Force—Provincial." It should be noted that an increase of 897 men was sanctioned by the orders contained in G.O., No. 1159, Financial Department, dated 18th November 1893. Secondly, a head constable or constable travelling by road is allowed only one anna and four annas respectively a day (except in very special cases when they are allowed mileage for travelling more than twenty miles), whereas if travelling by rail a constable gets railway fare *plus* the daily allowance (Article 1177 of the Civil Service Regulations) and a head constable double railway fare which by departmental orders is restricted to single fare *plus* daily allowance. The extension of railways thus leads to increased travelling allowance. Travelling on escort, detective, &c., duties has, in the interests of efficient work, necessarily to be done by railway wherever this means of communication is available. I am therefore of opinion that it is not feasible to effect reduction in the amount of travelling allowance. The cost is no doubt repaid by more efficient work.

Police

4. Separate details for clothing, arms, ammunition and accoutrements under District Police are herewith furnished. The cost of English materials—blue woollen, turkey-red cambric, &c, is now appreciably more than what it was four years ago owing to the rate of exchange.* Khaki, which costs about As. 7 a yard in the place of white drill costing As. 4 a yard has been introduced of late years in the districts of Ganjám, Gódávari and Vizagapatam for the reserve and hillmen and in Jeypore, and sundry improvements have been made in the uniform of the men. Under these circumstances the charge on account of clothing, &c., is high. My estimate was based upon the cost of materials actually due in 1896–97.

(a) Cloth of an improved quality obtained since this year.

5. Under "Petty Construction and Repairs" of District Police, the total cost of the proposals of Superintendents for 1896–97 was Rs. 1,85,000. Of these, the most urgent works were chosen for which only provision was proposed by me. Superintendents have been specially urged to see that works that are provided for in a year are carried out within the year.

ORDER—No. 954, Financial, dated 4th November 1895.

Excluding charges on account of the Railway Police, the Inspector-General originally provided for an expenditure in 1896–97 of 1·93 lakhs in excess of the actuals of 1894–95, as shown below :—

20. Police, excluding Presidency Police, Cattle Pounds and Steam-boiler inspection charges.	Ordinary Police.	Railway Police.	Total.
	Rs.	Rs.	Rs.
Actuals, 1894–95	38·48	* ·26	38·74

Revised, 1895–96	39·55	·31	39·86
Budget, 1896–97	40·41	·57	40·98

* Included under Ordinary Police in the accounts.

2. Increased provisions occurred mainly under the following heads :—

Exchange compensation allowance	·21
Provision for the full scale of salaries of Superintendents and Assistant Superintendents	·36
Creation of eleven additional Inspectorates	·23
Good conduct allowances	·21
Travelling allowances	·05
Conveyance and horse allowances of Inspectors	·05
Arms and accoutrements	·04
Elephant charges	·04
Purchase of tents	·20
Petty construction and repairs	·36
Treasury guards and process-servers	·18
Total ..	1·93

3. *Superintendence.*—The provision of ·05 made by the Inspector-General for leave allowances will be struck out with reference to paragraph 61-A of the instructions

in G.O., No. 842, Financial, dated 28th October 1895, and ·03 will be transferred from *District Executive Force* on account of the establishments of the Deputy Inspectors-General.

4. *District Executive Force.*—It will be sufficient if the total allotment under *Salaries* is placed ·39, instead of ·56, higher than the actuals of 1894–95. This will admit of an increased expenditure of ·21 on account of Exchange Compensation Allowance and of ·18 on account of salaries proper. It is observed that the Inspector-General has provided for the full scale of probationers at the higher rate of Rs. 300 per mensem. The whole of this provision is not likely to be utilized and the estimate of probable savings under this head will accordingly be raised from ·19 to ·36.

5. The savings under *Police Force* can safely be raised by ·04, which will still allow for an expenditure of ·28 in excess of that incurred in 1894–95.

6. The actual expenditure on account of *Travelling Allowances* amounted in 1894–95 to 1·95 and the Inspector-General provides 2·00 for 1896–97 on the ground that, owing to the extension of railways, the cost of railway credit notes has risen considerably, viz., from ·57 in 1892–93 to ·82 in 1894–95. He further contends that the extra cost is repaid by more efficient work. The Government is, however, of opinion that effective measures should be adopted to reduce the increasing expenditure, and a detailed examination of the actuals of 1894–95 would probably suggest many expedients for economy in this direction. A deduction of ·04 will be made as probable savings and the Inspector-General will be expected to keep the expenditure within the reduced allotment.

7. From the details furnished under *Clothing*, it appears that a sum of ·64 is spent on supplies obtained from Europe. It is desirable that, in view of the improvements effected in manufacturing industries both in jails and private firms, a fresh attempt should be made to obtain these supplies locally, as far as possible, and thus avoid the increasing loss by exchange. The Inspector-General will consult the various supplying departments on the point and report whether any savings can be effected.

8. Under *Petty Construction and Repairs* details have been furnished for a sum of ·46, while a lump provision of ·61 has been made for repairs to station-houses and huts, and a reserve of ·03 has been added to meet urgent and unforeseen demands. A grant of 1·00 should meet all requirements.

9. The supply of tents to Police officers will be gradual and a provision of ·15 in the current and of ·17 in the ensuing years should suffice.

10. A deduction of ·01 will be made in the Inspector-General's provision for *Elephant charges* and the allotment for *Contingencies* will be reduced by ·03 with reference to past actuals.

11. The provision for Other Police will be reduced by ·01.

12. Under *Railway Police* the sanctioned estimates of the current year included ·27 on account of existing charges and 1·14 for the Railway Police scheme. In the revised estimate the Inspector-General provides ·26 for the former and ·05 for the *Detective and Travelling Staff* recently organised. For 1896–97 the above charges are estimated at ·28 and ·125, respectively, while the cost of the revised railway police scheme is reduced from 1·14 to ·165 lakh. The whole of the proposed force will be superintended by central agencies established at selected localities and will, Mr. Hammick considers, form a fairly efficient body of railway police for present requirements.

13. The necessity for the Inspector-General purchasing stationery in the country to the extent of Rs. 500, apart from the supplies of the Stationery depôt, is not apparent. The estimate will be reduced to Rs. 25, the actuals in 1894–95 having been only Rs. 15.

14. In several instances the Inspector-General has not furnished any details under *Contingencies*. Arrangements should be made for supplying the figures to the Accountant-General before the consolidated estimates are printed in January.

15. The following entries will be made in the consolidated budget :—

20-B. Superintendence	1·600

Explanatory Remarks.

(a) Includes Railway Police charges.

(b) The increase in accounts is due to subsidiary leave allowance of Mr. Hammick.

(c) The increase in accounts is due to acting allowances drawn by Mr. Meredith for acting in the fourth grade and to his deputation allowance while on special duty from 9th October to 19th November 1894. In the estimate provision is made for a Fourth-grade Superintendent as Mr. Meredith is of this grade now.

(d) The increase in the estimate is due to the revision of the office establishment and the additional clerks sanctioned for anthropometrical work in G.Os., Nos. 653 and 1630, Judicial Department, dated 28th March and 3rd August 1895.

(e) The transmission of telegraph messages in connection with the Cape Comorin and Kollur temple jewels theft cases accounts in a large measure for the increased expenditure.

(f) The decrease in the estimate is due to the cost on account of a translator having been removed to the head "establishment," a permanent appointment having been sanctioned.

(g) Increase owing to the purchase of almirahs for anthropometrical branch.

(*a*) Colonel Whitlock was on privilege leave for three months and Colonel Kilgour for one month. The latter went again on private affairs leave in India from 18th January 1895. The increase in accounts is due to acting arrangements made thereon and to the leave allowance of Colonel Kilgour during his leave from 18th January 1895. The revised estimate provides for similar contingencies.

(*b*) Included under 'District Executive force.'

(*c*) Excluding exchange compensation allowances which are shown *infra*.

Explanatory Remarks.

(*a*) The Deputy Commissioner is now in the third grade, Rs. 800.

(*b*) Vacancies existed in the Assistant Superintendent's grade. Hence low accounts, 1894-95.

(*c*) Includes the Superintendents' exchange compensation allowance.
(*d*) The exchange compensation allowance has been fixed according to the rate given by the Accountant-General—19 3/13th of salary.

(*e*) The difference between the 'Accounts' and the 'Estimates' is due to the latter including 12 Probationary Assistant Superintendents and more exchange compensation allowance. Owing to leave vacancies in Assistant Superintendent's appointments and there being only 6 Assistant Superintendents of the last grade (250-300) now, the revised estimate is reduced.
No provision for exchange compensation allowance for Inspectors and European head constables has been made, as none of the non-gazetted officers is, as at present ascertained, eligible for it.

(*f*) Five first-class and six second-class Inspectors added *vice* probationers (G.O , No. 979, Judicial Department, dated 30th August 1895).
(*g*) The salaries of 1 third-class and 2 fourth-class Inspectors have been transferred to the establishments of the Deputy Inspector-General under *Superintendence*.
(*h*) { One fourth-class Inspector added for anthropometrical work (G.O., No. 1630, Judicial Department, dated 3rd August 1895).
{ One fourth-class Inspector eliminated, no Prosecuting Inspector being required for Jeypur (Letter No. 4073, dated 4th July 1895).

The increase and decrease under the several items against 'Police Force' have been sanctioned by Government in the orders noted below :—

EXPLANATORY REMARKS.

(*a*) G.O., No. 588, Judicial Department, dated 18th March 1895, sanctioning the establishment of stations at Natakal and Pallipuram temporarily for two years with a strength of 3 Head and 20 constables and charge allowance Rs. 96.

(*b*) G.O., No. 2274, dated 19th September 1894, sanctioning local allowance for Periyár temporary establishment, 1 Head and 4 constables.

(*c*) An increase of 380 men to rural police was sanctioned with effect from 1895-96. The budget for 1896-97 provides for 11 more Inspectors (G.O., No. 979, Judicial Department, dated 30th August 1895).

(*d*) The decrease, as compared with the last year, is due to lower grade of Medical Subordinates in charge.

(*e*) Provided in accordance with G.O., No. 56, Financial, dated 21st January 1895, passing orders regarding the grant of local allowance to Hospital Assistants in certain institutions.

(*f*) Provided in accordance with G.O., No. 865, Public, dated 14th November 1894, passing orders as to the scale of accommodation to be provided for Hospital Assistants and the amount of compensation in lieu of it.

(*g*) Increase is due to the provision of a Hospital Assistant for the Police Hospital, Trichinopoly.

(*h*) The variation in the number of servants and the amount is due to accurate information not having been available in previous years in the individual budgets.

(*i*) Provided with reference to actuals.

(*j*) The establishment was entertained in January 1895. Hence low actuals.

(*l*) Increase in the estimate is due to the provision of conveyance allowance for 11 Inspectors additionally sanctioned (G.O., No. 979, Judicial Department, dated 30th August 1895.)

EXPLANATORY REMARKS.

With reference to the correspondence recorded in G.O., No. 185, Financial Department, dated 22nd February 1895, the Accountant-General has included the expenditure on account of Railway police under the head of District Executive Force. But with regard to the detective and travelling staff recently sanctioned (G.O., No. 573, Judicial Department, dated 26th April 1895), he has agreed that the staff may be shown under Railway police and the expenditure debited to this head. Now that there is a regular staff of Inspectors in charge of the Railway police under the control of the Deputy Inspector-General, the whole body of men at work at platforms on all railway lines and the detective and travelling staff recently sanctioned should form a separate body distinct from the District Executive Force. The heads shown in the current year's budget under "Railway police" are therefore retained.

The revised scheme for Railway police is still under consideration. But it seems probable that for the present, the existing number of head constables and constables will suffice. The number of men on the Southern Mahratta Railway will be reduced, as watch and ward duties will be given up there. But the reduction on that Railway will be balanced by additional establishments which are absolutely necessary on the South Indian Railway and Madras Railway. It is absolutely necessary also that the staff of Inspectors should be increased by three. The three Inspectors now at work have too much to do. The revised scheme which, it is hoped, will shortly be submitted, will therefore probably involve an increase of three Inspectors, and office establishments for the supervising staff.

It will be proposed to superintend the whole force by one Superintendent at Madras, assisted by an assistant to be stationed at Bezwada or Bellary. This scheme will work out as a more economical scheme than that proposed by Colonel Porteous and give for present purposes a fairly efficient body of Railway police. The additional gross cost of the scheme will be about Rs. 27,147. Under the present conditions under which the Madras Railway does not contribute towards the cost for the police on that line the cost chargeable to Government will be Rs. 16,500.

The increase in the accounts for 1894-95 is due to the following causes:—

Printing a larger number of Police Gazettes of Malayalam, Tamil and Telugu which had been in arrears.

Printing District Allocation statements.

Printing and supplying anthropometry *Roll cards*.

The revised etimate has been fixed at Rs. 7,000 owing to the latter two causes, part of the cost having to be paid during this year.
