OFFICE OF SANITARY COMMISSIONER,

Fort St. George, 11 December 1896.

From

SURGEON LIEUT.-COL. W. G. KING, M.B., C.M., D.P.H.,

SANITARY COMMISSIONER FOR MADRAS,

To

THE *Chief Secretary to Government,*

Financial Department.

Enclosure.

SIR,

With reference to the Budget Estimate of the Vaccination Department submitted with this office letter No. 2266/S dated 4th Decr 1896, I have the honour to ask permission to forward a supplemental proposition for two reserve Deputy Inspectors. This proposal was made by my predecessor and Government dealt with this in the Review of the Vaccination Administration Report of 1892-93. There being no reserve of Deputy Inspectors, it is frequently necessary to make local arrangements for filling up appointments temporarily. This cannot be otherwise than inimical to progress, as the untrained man cannot be expected to grasp the details

G.O No 1585 L, dated 19th July 1893.

details

details of work of his predecessor with the facility that might be expected of a Deputy Inspector possessed of experience

2. In para 12 of my Administration Report for 1895, I also invited the attention of Government to the fact there was reason to believe that falsification of Registration in Municipalities was not uncommon. I showed that, whilst it would be possible for my Deputy and myself to follow up a clue once obtained, ~~work~~ mere inspection with the object of ascertaining where falsification had occurred would take up more time than could be given to this special branch. When not attached for temporary employment, it seems to me that by my Deputy and myself taking them to Municipalities on tour, it would be possible at intervals to make inspection of Registration sufficiently searching to prevent repetition of attempts at falsification. The men would be strangers to the Municipal staff

× Page 17 of the Report.

staff, and might be trusted to make preliminary search.

3. I believe in this manner the full value of these two appointments would be obtained by securing better efficiency, both in the Vaccination Department and in Registration.

4. Taking into consideration the nature of their work and, ~~they~~ that will be called upon at any time to travel anywhere within the Madras Presidency, I consider that their pay should be that of a 1st class Deputy Inspector of Vaccination, ie, Rs 70 each per mensem.

I have the honour to be,
Sir,
Your most obed! Servant,

W S Haye

Surgeon Lt Col,
Sanitary Commissioner.

Current No. 3450 L of 1896.

From the Financial Department.

FOR ORDERS.

The Sanitary Commissioner requests the permission of Government to forward a supplemental proposition for the entertainment of two first class Reserve Deputy Inspectors of Vaccination on Rs.70 each per mensem. In para.27 of his report for 1892-93, the Inspector of vaccination wrote as follows:-

"There being no reserve it sometimes happens that when a deputy inspector takes short leave a vaccinator of the same district is put in charge of his office, but no proper supervision is exercised over the other vaccinators and the work falls off. The salary available for the acting man is so small that it does not pay to send a vaccinator, competent to act, from any great distance. For this reason it would be well to have a reserve of two second class deputy inspectors who would draw pay from Provincial

"Provincial Funds when not employed by District Boards. These reserve men would ordinarily remain in Madras for thorough training in animal vaccination; they would at any time relieve other deputies who had to come to the Madras depôt to learn the work." On this the Government observed that this suggestion was not one proper to be made in an administration report and should form the subject of a separate communication from the Sanitary Commissioner vide para.8 of G.O.No.1585 L dated 19th July 1893. Dr. King now says that as there are no reserve Deputy Inspectors, it is frequently necessary to make local arrangements for filling up appointments temporarily, a step which cannot be otherwise than inimical to progress as the untrained man cannot be expected to grasp the details of work of his predecessor with the facility that might be expected of one possessing experience. He adds that in para.12 of the Sanitation Report for 1895 he drew the attention of Government to the desirability of appointing Reserve Deputy Inspectors of Vaccination or unattached medical subordinates for the purpose of investigation in cases where suspicious circumstances are discovered and that when the Deputy Inspectors are not posted for temporary employment, they may be taken by him and by his Deputy to municipalities in view to make inspection of registration sufficiently searching to prevent repetition of attempts at falsification. As the men would be strangers to the municipal staff they might be trusted to make preliminary search. The minimum pay of a first class Deputy Inspector of vaccination is Rs.60 and that of a second class Deputy Inspector ~~of vaccination is~~ Rs.40. It appears however to be inadvisable at present to sanction any increase of establishment which can be postponed vide the Resolution of the Government of India printed in G.O.No. 2386 L dated 16th December 1896.
