Note

The Inspector General
fixes the estimate ^{of receipts for 1897} under B. Law & Justice - Jails ~~for~~ at 4.25 against 4.81 the estimate for the current year. The decrease occurs under Jail Manufactures, the estimate having been fixed with reference to the fall in the ^{known} actuals for the current year due to serious outbreaks of cholera in three Central jails. The actuals under this head for the first five months came to 1.15. The average of the first five months actuals for ~~actuals of~~ the past three ^{amounts to} years ~~x~~ 1.30. Deducting the difference .15, the amount of the fall in Central Jails ^{total} from the average of the actuals for the past three years, viz. 4.24, the estimate under Jail Manufactures may be fixed at 4.09 or 4.10 in round numbers raising the total
