NOVEMBER.

Budget Estimates.

Accepting the — of receipts under Customs Revenue for 1898-99.

GOVERNMENT OF MADRAS.
FINANCIAL DEPARTMENT.

Read—the following paper:—

G.O., No. 956, Revenue, dated 16th November 1897.

Read—the following paper:—

Proceedings of the Board of Revenue (Separate Revenue), No. 413, dated 30th September 1897.

Resolution—No. 413, dated 30th September 1897.

The accompanying budget estimate of Customs revenue for 1898-99, together with the revised estimate for 1897-98, is submitted to Government.

(True Copy and Extract.)

(Signed) N. S. BRODIE,
Acting Secretary.

To the Secretary to Government, Revenue Department,
with budget and a statement of actuals.

Order—No 956, Revenue, dated 16th November 1897.

Separate Revenue No. 99.

The Board estimates the receipts in the ensuing year under "Sea Customs—Exports" at Rs. 8,50,000, on the assumption that the diversion of the trade in rice with Ceylon from Bengal to this Presidency will continue to some extent during that year also. The actuals of the past year having amounted to Rs. 8,05,146 only, the Government considers that it will not be safe to fix the estimate for the ensuing year at a higher figure than eight lakhs. Subject to this modification, the Board's estimates are approved and transferred to the Financial Department.

(True Extract.)

(Signed) G. STOKES,
Secretary to Government.

To the Board of Revenue (Separate Revenue).
" the Financial Department.
" the Accountant-General.

ORDER—No. 990, Financial, dated 30th November 1897.

The estimates are accepted.

(True Extract.)

A. T. ARUNDEL,
Chief Secretary.

To the Revenue Department.
" Board of Revenue (Separate Revenue).

TOTAL		700	1,500	400

EXPLANATORY REMARKS.

(a) The Collectors' estimates for the current and ensuing years amount to Rs. 9,46,000 and Rs. 8,69,000, respectively. These amounts will be reduced to Rs. 9,32,000 and Rs. 8,50,000. The former amount is fixed with reference to the actuals of the first five months of the current year and of the last seven months of the past year; and the latter with reference to the probability that the former condition of affairs, under which Ceylon was supplied with rice from Bengal almost exclusively, cannot at once be resumed and that the diversion of that trade to this Presidency may be expected to continue next year also to some extent.

(b) The estimate, framed by the Collector of Sea Customs, Madras, which is the only district in which this duty is collected, will be retained, as it does not differ much from the total amount of the actuals of the first five months of the current year and of the last seven months of the past year.

(c) The estimate for the current year is fixed with reference to the actuals of the first five months of the current year and of the last seven months of the past year, and the decrease is expected in Madras owing to the substitution of the ground-rent system for the charge of godown rent on iron stored in the iron yards and to the credit of the ground-rent to the Harbour Trust Board. The estimate for the ensuing year is fixed with reference to the average receipts in past years.

(d) The Collectors' estimates for the current and ensuing years are retained as they differ from the average of the actuals of the last three years by only Rs. 823.

(e) The Collectors' estimates for each of the current and ensuing years is Rs. 10,08,310. The estimate is raised to Rs. 10,12,700 with reference to the average of the actuals of the last three years, which nearly corresponds with the actuals of the past year.

(f) The Collectors' estimates, which differ very little from the average of the actuals for the last three years, are retained.

(g) The estimate for the current year will be fixed at Rs. 1,76,000 with reference to the actuals of the first five months of the current year and of the last seven months of the past year. The estimate for the ensuing year may be fixed at Rs. 1,54,000 which nearly agrees with the average of the last three years and with the actuals of the past year.

(h) The Collectors' estimate for each of the current and ensuing years is Rs. 1,08,790. The actuals of the first five months of the current year and those of the last seven months of the past year make up a total of Rs. 1,15,046. The estimate for the current year will be taken at Rs. 1,10,000 and that for the ensuing year at Rs. 1,04,000, which is the average for the last three years.

(i) The Collectors' estimates for each of the current and ensuing years amount to Rs. 6,94,000. The actuals of the first five months of the current year and of the last seven months of the past year make up a total of Rs. 6,73,332. The actuals of 1896-97 were only Rs. 5,81,529 and the previous years' actuals are not of much value owing to the changes in the duty on cotton manufactures up to February 1896. The estimates for the current and ensuing years may be fixed at Rs. 6,50,000 with reference to the duty calculated on the average imports of cotton manufactures previous to the imposition of duty.

(j) Collectors estimate the collections under this head at Rs. 2,06,000 for both the current and ensuing years. The estimate for the current year will be raised to Rs. 2,10,000 with reference to the actuals of the first five months of the current year and the average of the actuals of the last seven months of the last three years.

(k) The Collector of Sea Customs, Madras, makes a large increase in the revised estimate for the current year with reference to the large collections in the past five months of the year and anticipates that the kerosine oil recently imported by Messrs. Arbuthnot and Co. from Sumatra will find favour with the public and lead to further consignments. The latter reason may account for his large estimate for 1898-99 also. As, moreover, the estimates for the whole Presidency fall short of the actuals of 1894-95, and of the total receipts of the first five months of the current year added to those of the last seven months of the past year, they will be retained.

(l) The Collectors' estimates will be reduced by Rs. 8,000 with reference to the average of the actuals of the last three years.

(m) The Collectors' estimates for the current and ensuing years amount to Rs. 2,08,620 and Rs. 1,51,520 respectively. These amounts will be reduced to Rs. 1,75,000 and Rs. 150,000 for reasons similar to those given in explanation (a).

EXPLANATORY REMARKS.

(a) The Collectors' estimates for the current and ensuing years amount to Rs. 9,46,000 and Rs. 8,69,000, respectively. These amounts will be reduced to Rs. 9,32,000 and Rs. 8,50,000. The former amount is fixed with reference to the actuals of the first five months of the current year and of the last seven months of the past year; and the latter with reference to the probability that the former condition of affairs, under which Ceylon was supplied with rice from Bengal almost exclusively, cannot at once be resumed and that the diversion of that trade to this Presidency may be expected to continue next year also to some extent.

(b) The estimate, framed by the Collector of Sea Customs, Madras, which is the only district in which this duty is collected, will be retained, as it does not differ much from the total amount of the actuals of the first five months of the current year and of the last seven months of the past year.

(c) The estimate for the current year is fixed with reference to the actuals of the first five months of the current year and of the last seven months of the past year, and the decrease is expected in Madras owing to the substitution of the ground-rent system for the charge of godown rent on iron stored in the iron yards and to the credit of the ground-rent to the Harbour Trust Board. The estimate for the ensuing year is fixed with reference to the average receipts in past years.

(d) The Collectors' estimates for the current and ensuing years are retained as they differ from the average of the actuals of the last three years by only Rs. 823.

(e) The Collectors' estimates for each of the current and ensuing years is Rs. 10,08,310. The estimate is raised to Rs. 10,12,700 with reference to the average of the actuals of the last three years, which nearly corresponds with the actuals of the past year.

(f) The Collectors' estimates, which differ very little from the average of the actuals for the last three years, are retained.

(g) The Collectors' estimates for the current year will be fixed at Rs. 1,76,000 with reference to the actuals of the first five months of the current year and of the last seven months of the past year. The estimate for the ensuing year may be fixed at Rs. 1,54,000 which nearly agrees with the average of the last three years and with the actuals of the past year.

(h) The Collectors' estimate for each of the current and ensuing years is Rs. 1,08,790. The actuals of the first five months of the current year and those of the last seven months of the past year make up a total of Rs. 1,15,046. The estimate for the current year will be taken at Rs. 1,10,000 and that for the ensuing year at Rs. 1,04,000, which is the average for the last three years.

(i) The Collectors' estimates for each of the current and ensuing years amount to Rs. 6,94,000. The actuals of the first five months of the current year and of the last seven months of the past year make up a total of Rs. 6,73,332. The actuals of 1896-97 were only Rs. 5,81,529 and the previous years' actuals are not of much value owing to the changes in the duty on cotton manufactures up to February 1896. The estimates for the current and ensuing years may be fixed at Rs. 6,50,000 with reference to the duty calculated on the average imports of cotton manufactures previous to the imposition of duty.

(j) Collectors estimate the collections under this head at Rs. 2,06,000 for both the current and ensuing years. The estimate for the current year will be raised to Rs. 2,10,000 with reference to the actuals of the first five months of the current year and the average of the actuals of the last seven months of the last three years.

(k) The Collector of Sea Customs, Madras, makes a large increase in the revised estimate for the current year with reference to the large collections in the past five months of the year and anticipates that the kerosine oil recently imported by Messrs. Arbuthnot and Co. from Sumatra will find favour with the public and lead to further consignments. The latter reason may account for his large estimate for 1898-99 also. As, moreover, the estimates for the whole Presidency fall short of the actuals of 1894-95, and of the total receipts of the first five months of the current year added to those of the last seven months of the past year, they will be retained.

(l) The Collectors' estimates will be reduced by Rs. 8,000 with reference to the average of the actuals of the last three years.

(m) The Collectors' estimates for the current and ensuing years amount to Rs. 2,08,020, and Rs. 1,51,520 respectively. These amounts will be reduced to Rs. 1,75,000 and Rs. 1,50,000 for reasons similar to those given in explanation (a).

Certified that the actuals entered are those shown in the departmental accounts; they have been verified with the statements furnished by the Accountant-General and all discrepancies noticed have been duly pointed out to him.

APPENDIX.

STATEMENT showing the average Customs receipts for the three years from 1894-95 to 1896-97 and the actuals for the first five months of the same three years and of the current year.
