OCTOBER.

Budget Estimate.—Submitting to Government the — of charges under "33 Famine Relief A to F" for the year 1899-1900, with a revised estimate for 1898-99.

(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

RESOLUTION—No. 404, dated 28th October 1898.

With reference to G.O., No. 4024-R., dated 8th October 1898, the Board begs to submit a budget estimate of charges under "33. Famine Relief, A to F" for the year 1899-1900, together with a revised estimate for 1898-99. The estimate for 1898-99 is for the gross expenditure anticipated, excluding recoveries, and provided that the remainder of the current season is normal. A separate statement for charges under 33-G. is also submitted.

2. No data are available to enable the Board to forecast, even approximately, the expenditure that may have to be incurred on famine relief during 1899-1900. If the season be normal, no special expenditure will be necessary. But, to meet any small charges that may arise, a lump provision of Rs. 50,000 has been made. This will cover "flood charges" shown under 32-G. in the appendices to G.O., No. 580, Financial, dated 5th July 1898, but debitable to 33-E. under note 167 on page 688, Vol. II, of the Civil Account Code.

FOR ORDERS.

The only explanation for the large variations shown above is that the revised estimate is fixed on the assumption that the remainder of the year will be normal. This estimate apparently includes provision for book adjustments referred to in G.O. 390 of 15-7-98.

Compared with the estimates as given in the monthly statement for October the revised estimates do not call for remark except those under 33 E and 33 G, which are as under:

* how apparently?

As the Board had said nothing about the book adjustments, it was presumed that the estimate for 1898-99 would include provision for the book adjustments also. The word "Presumably" should have been used for the word "apparently".

What is this for?

It is for the relief of distress arising from flood. It was included in the Budget of "Scientific & Other Minor Depts & Miscellaneous" - vide page 18 of G.O. 1099 of 21-12-97. It is now transferred to the Finance Budget. In the last Budget, 10,000 was provided for the current year.

33 E 10,100 102

33 G 15,000 15

The large variation under 33 E is due to the fact that the Revised estimate for the current year includes the provision for "Flood charges" which the Board's monthly estimate does not.

The variation under 33 G is apparently due to the fact that the estimate given in the monthly statement for October does not include the full amount expended during the year. vide para 2 of B.P. 393 of 12-10-98.

Budget estimate for 1899

- 1500 -

For want of data, the Board has not been able to forecast even approximately the expenditure that may have to be incurred during 1899-1900. If the season

be

The Normal, the Board
 Anticipates no Special
 expenditure during the
 year, but to meet any
 small charges that may
 arise, the Board provides
 a lump amount of
 Rs 50,000 including
 'flood charges' which
 for the current year are
 put down at 10,100.

for next year, is there
 any use in putting
 down a lump sum of
 Rs 50,000? It is in
 the main, more with
 almost certain for
 the year. We know now
 that this N.E. monsoon
 has been favourable.
 If both the S.W. + N.E.
 monsoons fail next
 year a great deal
 more than $\frac{1}{2}$ a lakh
 will probably be spent.
 The fact that there is
 no budget provision
 will make collection
 apply for funds in time
 if they are needed.

Perhaps a provision
 of 5000 Rs for flood charges
 would suffice

15.11.98

As to A. "Flood charges" the
 recent heavy rains will probably
 necessitate expenditure under
 this head. Today's Season Report
 mentions e.g. great damage

damage in Tanjore & other
districts which may need
relief. The Board have better
means of ~~of~~ estimating the
probable exp^{ure} than we

as to B provision
for Famine, strictly nothing
need be estimated as we
have no more reason for
anticipating distress next
year than any other year
which ^{harvest} requires no such pro-
vision. But it is perhaps
wise to budget something
in order that if famine
do occur, there may be some
allotment to commence with.
