LOCAL AND MUNICIPAL DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following paper:—

From the Sanitary Commissioner for Madras, No. 2331/S.,

dated 17th October 1898.

I have the honour to request that Government will be pleased to sanction a lump allotment of Rs.1,500 for the purchase of racks and almirahs for the use of my office. The racks hitherto in use, being fixtures fitted up to suit the rooms occupied by this office in the Secretariat buildings, have been left behind for the use of the Departments of the Secretariat now occupying those rooms at the request of the First Assistant, L and M Department. I concurred in the request, as I consider they could not be removed without causing damage to them, and entailing additional expenditure in altering them to suit the new building. I may add that on a former occasion Government sanctioned Rs.2,421 - 1 - 0 for making these racks when my predecessor entered the office in question.

2. I would also request that a water Brahman on Rs.7 per mensem to bring water for the office staff, and two watchmen on Rs.7 each to guard the buildings during nights be sanctioned. Two watchmen are required, as the main building and the two detached Bungalows on either side have to be guarded.

3. On the staff of this office, there is a scavenger (Toty) on Rs.3 to attend to the bath rooms of myself and my Deputy, and to sweep my office. for the wages she gets she cannot attend to the requirements of the other officers working in the building. She will have, besides, to clean the urinals and latrine attached for the use of the office staff which is a new requirement. I would,

therefore,

therefore, suggest that her salary be raised to at least Rs.8, so that she may attend to all the offices. In the Secretariat, the sweeper attached to this office performed the work for Rs.3. When sick she had no difficulty in getting her work attended to by one of the Secretariat sweepers. Under existing arrangement, however, this is not possible. Length of service i.e. about thirty years, would also entitle her to this consideration.

ORDER No.2283 L.Mis., dated 30th November 1898.

The Government is not satisfied of the necessity for the entertainment of a water brahman at the cost of Government, nor for the employment of two night watchmen. As regards the fee office sweeper, the Government considers that the proposed pay of Rs.8 is too high for this class of servants. The entertainment of one watchman on Rs.7 and the increase in the pay of the sweeper from Rs.3 to Rs.6 are accordingly sanctioned and the Sanitary Commissioner is requested to submit the usual proposition statement.

2. Orders will be passed in the Financial Department, on the application for the allotment of Rs.1,500 required for the purchase of racks and almirahs.

C.A.

The following are the replies
to your queries which I have number-
ed I, II, III and IV.

I. Not that used by the Brahmins
but the one for the Eurasian clerks.

II. It is pensionable.

III. I said that of the two women
one can go, she having earned her
pension. If the other is dismissed,
then the question of the employment
of a man vice the two women will
arise at once. But if she is to
remain, the question must be deferred.
When the time arrives I think that
it would be better to employ a man
on Rs.6 in lieu of the two women.

IV. ~~I don't know what further I am
to report. Dr. King says one thing
and the woman another - she alleges
that the "white cloth" was carefully
put away between the folds of her
cloth. There is of course no ques-
tion as to which version is true.~~

V. We have the following establish-
ment for conservancy purposes:-

- (a) 7 Sweepers (women)
- (b) 2 Waterwomen
- (c) 2 Toties (men)
- (d) 1 Gardener

(a) Sweep the whole building
(except the Sanitary Commissioner's
Office for which that officer has
made his own arrangements) daily
between 8 & 10 A.M. and the General

Records at 11 A.M.

(b) Supply water for drinking and washing the rooms of the Secretaries, &c., &c., throughout the building, and during the hot weather they fill the tubs for watering tatties.

(c) Clean the vessels in the closets, and dust the door and windows occasionally the ceiling. In the day (a) and (b) are further employed in carrying library packages and (c) in conveying by the hand-cart heavy packages and boxes to outside offices. The gardener sweeps the grounds.
