ORDER—No. 2474 L., dated 31st December 1897.

The administration reports of the several district boards for 1896–97 having been separately reviewed in the proceedings read above, the Government will now deal with them collectively.

2. It is to be regretted that these reports were received, on an average, nine days after the prescribed date against three in the previous year, those from North Arcot and Cuddapah being 50 and 36 days, respectively, behind time. The Presidents of the district boards concerned should spare no efforts to ensure greater punctuality in the submission of future reports. The reports and the accompanying statements, except those from Anantapur, South Arcot, Bellary, Kurnool, Madura, Tinnevely, Trichinopoly and Vizagapatam, were prepared with greater care than in the previous year. Those from Cuddapah and Gódvári contained, as in that year, the largest number of discrepancies, errors and omissions, while those from North Arcot, South Canara, the Nilgiris and Salem were the least inaccurate. The report and statements from Cuddapah have again, for the sixth year in succession, been the worst.

I.—GENERAL.

3. *Administration.*—During the year under review, the Taluk Boards of Parlákimedi and Chicacole, included in the Principal Assistant Collector's division of the Ganjám district, were amalgamated, as also the Taluk Boards of Répalle and Guntár

in the Sub-Collector's division of the Kistna district. Nine new unions were formed in the districts of North Arcot (1), South Arcot (4), Chingleput (1), Kistna (2) and Madura (1), while the existing unions of Tiruvannámalai in the South Arcot district and of Chingleput in the district of Chingleput were converted into municipalities from 1st April 1896 and 1st October 1896, respectively, and the Krosuru union in the Kistna district was abolished. With these exceptions, there was no change in the system of Local Fund administration.

4. *District Boards.*—Appendix I shows the constitution of the 21 district boards at the end of the year and the average attendance of members at their meetings. There were then 33 vacancies on these boards against 53 in the previous year, and owing to this the number of official members on the Anantapur, South Arcot, Bellary, Chingleput, Coimbatore, Gódvári, Kurnool, Malabar and Nellore District Boards exceeded the maximum limit of one-fourth prescribed by the Local Boards Act. The proportion of nominated officials, including *ex-officio* members, to the total strength was 24.4 per cent. against 25.0 per cent. in the previous year, and that of the elected members 46.9 against 46.2 per cent. Under the election rules in force, one-half of the sanctioned number of members for each district board were elected by the taluk boards in all districts, except the Nilgiris, in which there are no taluk boards. On the 31st March 1897, however, there was the full proportion of elected members only in the districts of North Arcot, South Canara, Chingleput, Ganjám, Gódvári, Kistna, Salem, Tanjore and Trichinopoly. The district boards met in all 232 times against 249 in the previous year and no meeting was adjourned for want of a quorum. There was a decrease in the number of meetings held by the Anantapur, North Arcot, South Canara, Chingleput, Coimbatore, Kurnool, Nellore, Salem and Tanjore Boards, and in these districts, except North Arcot, Coimbatore, Kurnool and Tanjore, as well as in Cuddapah, the Nilgiris, Trichinopoly and Vizagapatam the number was less than twelve. The average attendance of members at each meeting was again sixteen (five officials and eleven non-officials), while the average strength of each board was 32 or one more than in the previous year. In Anantapur, South Arcot, Bellary, South Canara, Madura, Malabar, Nellore, Salem, Tanjore and Trichinopoly there was an improvement. The attendance of both classes of members in Anantapur, South Arcot, Bellary, South Canara, Coimbatore, Madura, Salem, Tanjore, Tinnevely and Trichinopoly was fair; but that of the officials in Cuddapah and Kistna was poor, being less than 30 per cent. of their strength.

5. *Taluk Boards.*—There were eighty taluk boards or two less than in the previous year and the constitution and attendance of these boards are shown in Appendix II. At the end of the year, there were 33 vacancies on them against 45 in 1895–96 and in consequence of this, seven of them had less than the minimum number of twelve members prescribed by the Local Boards Act. The taluk boards held altogether 1,047 meetings against 1,088 in the previous year, and 27 others as in that year were adjourned for want of a quorum. The Boards of Hospet and Cuddapah were the only two which failed to meet once a month as required by section 28 of the Act; but no explanation of this irregularity has been given. There was again a decline in the average attendance of the members which was 54.6 per cent. of their total strength against 55.6 per cent. in 1895–96. The attendance of the official members in Nellore and of the non-officials in Anantapur, Bellary, Kistna, Nellore, Salem and Tinnevely was good, being more than 60 per cent. of their strength, while that of the officials in Cuddapah, Kistna, Kurnool and Trichinopoly was irregular. The worst cases of neglect have been noticed in the individual reviews. The working of the taluk boards continued to be, on the whole, satisfactory.

6. *Union Panchayats.*—Appendix III shows the constitution and attendance of the union panchayats, of which there were 367 or six more than in the previous year. Owing to the occurrence of vacancies towards the close of the year, the actual number of members on the panchayats of Purushottapur in Ganjám, Mandapeta in Gódvári, and Nuzvid, Valluru and Dachepalle in Kistna was less than the minimum strength of five prescribed by the Act, and the number of officials exceeded that of the non-officials in the panchayats of Bukkapatnam (Anantapur), Jammalamadugu (Cuddapah),

Penukonda (Gódavari) and Virudupatti (Tinnevely). On the other hand the number of non-official members exceeded that of the officials in the seven panchayats noted in the margin, in which there were no vacancies, and the same would be the case in the panchayats of Purushottapur (Ganjám) and Jagapatinagaram (Gódavari) even if the existing vacancies therein were filled by non-officials. For

Kallakurichi (South Arcot).
Tirupporúr (Chingleput).
Madanapalle (Cuddapah).
Námakkal (Salem).
Krishnagiri (Salem).
Dharmapuri (Salem).
Melaseval (Tinnevely).

removing this preponderance of the official element, the necessary steps have since been taken or ordered to be taken. The panchayats met in all 4,962 times against 4,868 in the previous year, the average, however, being thirteen in both years. Forty of these panchayats, excluding those newly formed during the year, failed to meet once a month as required by section 129 of the Local Boards Act, and the Presidents of the taluk boards concerned have been directed, in the reviews of the individual reports, to adopt the necessary measures for preventing the recurrence of this irregularity.

No information has been furnished regarding the working of the panchayats in Coimbatore, Gódavari and Tinnevely. In the other districts they are reported to have worked, on the whole, satisfactorily, except in Poonamallee (Chingleput), Jaggayyapeta (Kistna) and Tirumangalam (Madura) and in the smaller unions in Kurnool. The Chairmen and members of the union panchayats appear to have generally shown a fair amount of zeal and interest in the discharge of the duties entrusted to them and the usefulness of these institutions is being more appreciated by the people. The ward system of supervision continued to be in force in all the districts, though not in some of the unions, and it is reported to have been a success in all but a few cases. The necessary steps should be taken to make the system a success in the unions in which it has not been so and to extend it to the unions in which it has not yet been adopted.

7. *District, Taluk and Union Funds.*—Appendices IV, V and VI, furnished by the Accountant-General, exhibit in detail the receipts and charges of the several local boards and union panchayats and Appendix VII shows their financial position. The total results of the year are compared with those of the previous year in the following statement:—

	1895-96.				1896-97.			
	District funds.	Taluk funds.	Union funds.	Total.	District funds.	Taluk funds.	Union funds.	Total.
Opening balance ..	Rs. 9,95,608	Rs. 9,34,418	Rs. 1,39,838	Rs. 20,69,864	Rs. 9,86,412	Rs. 8,73,671	Rs. 1,48,880	Rs. 20,08,963

Allotments from union to taluk funds ..	..	+ 4,360	— 4,360	..	..	+ 1,204	— 1,204	..
Total, assets ..	46,66,085	47,58,420	7,28,573	1,01,53,078	49,11,610	46,00,110	7,21,476	1,02,33,196
Total, expenditure ..	36,79,673	38,84,749	5,79,698	81,44,115	39,69,997	39,95,516	5,73,883	85,39,396
Closing balance ..	9,86,412	8,73,671	1,48,880	20,08,963	9,41,613	6,04,594	1,47,593	16,93,800

The year opened with a balance of Rs. 20,08,963 against Rs. 20,69,864 in 1895-96. Excluding debt heads (Rs. 4,24,166) and contributions from one district board to another (Rs. 520), the actual receipts amounted to Rs. 77,99,547 against

Rs. 76,99,693 in the previous year, and the charges, excluding debt heads (Rupees 4,42,221) and contributions from one district board to another (Rs. 520), to Rupees 80,96,655 against Rs. 77,95,027. The year thus closed with a balance of Rs. 16,93,800, of which Rs. 4,59,824 appertained to endowed institutions in charge of the local boards, and Rs. 1,62,186 to the Railway Guarantee Fund in Tanjore, leaving Rupees 10,71,790 or 15 per cent. of the receipts available for general purposes. There was no change in the principles upon which the receipts and charges were distributed among the local boards and union panchayats.

8. *Incidence of Taxation.*—Appendix VIII shows the incidence of Local Fund taxation per head of the population in the several districts according to the census of 1891. The average for the Presidency was As. 2-11 including tolls and As. 2-7 excluding them against As. 3 and As. 2-8, respectively, in 1895-96. The incidence of taxation including tolls was low in Anantapur (As. 1-2), Cuddapah (As. 1-5), Malabar (As. 2-1), North Arcot (As. 2-2), Bellary (As. 2-3), Salem (As. 2-3) and Kurnool (As. 2-5), and was very high in the Nilgiris (As. 11-8) owing to the peculiar circumstances of that district. In the other districts, excepting Kistna (As. 5), Gódavari (As. 4-9) and Tanjore (As. 4-7), it was below As. 4.

II.—RECEIPTS.

9. *Receipts.*—Appendices IV and IX show the receipts of all the local boards and union panchayats under the several heads as compared with the figures for the previous year. The opening balance was Rs. 20,08,963 or Rs. 60,901 less than in 1895-96, the decrease being the net result of a fall of Rs. 2,65,262 in eleven districts and a rise of Rs. 2,04,361 in the remaining ten. The actual receipts of the year, however, rose from Rs. 76,99,693 to Rs. 77,99,547.

10. *Land-cess.*—This tax which forms the principal source of local revenue continued to be levied at two annas per rupee of the assessment in Malabar and the Nilgiris (except South-East Wynaad), at one anna and six pies in South Canara and at one anna in South-East Wynaad and in the remaining districts. A fourth of the receipts under this head in Tanjore was, as usual, reserved for railway operations. According to Appendix X which shows the demand, collection and balance of this tax, the current demand exceeded that of the previous year by Rs. 99,849, the variations being marked in Tanjore (+Rs. 86,000) Gódavari (+Rs. 39,000) and Anantapur (—Rs. 41,000). The increase in Tanjore was due to the introduction of the new settlement rates of land assessment and that in Gódavari to the enhancement of the water-rate and the larger number of applications received for canal water, while the decrease in Anantapur was owing to the suspension of the instalments of revenue. The collections amounted to Rs. 47,37,577 or 89 per cent. of the demand—current and arrears—against Rs. 49,71,193 or 95 per cent. in 1895-96. They were excellent in South Arcot, South Canara and Tanjore, where they amounted to 99 per cent. of the demand, good in Chingleput (98 per cent.), Coimbatore (98), Nellore (98), Kistna (97), Madura (97), Salem (97) and Trichinopoly (96) and bad in Cuddapah (45), Bellary (48) and Anantapur (62), the poor results in the last three cases being due to the unfavourable character of the season.

11. *Tolls.*—Appendix XI shows the statistics of tolls. Seven additional toll-gates were established in Coimbatore (3), Ganjám (1), the Nilgiris (2) and Tinnevely (1), while in the Nilgiris one of the existing gates was abolished. There were thus 283 gates at the end of the year in all districts except Gódavari against 277 in 1895-96. Tolls were levied at the maximum rates at 103 gates and at half-rates at the remaining 180. The arrangements under which tolls on certain roads under the control of the Public Works Department and the municipal councils were collected by the district boards remained unaltered. The total collections under this head amounted to Rs. 8,02,185 against Rs. 7,64,485 in the previous year. Of this sum Rs. 6,78,115 were realised from Local Fund toll-gates and Rs. 1,24,070 were paid as contributions by municipalities on account of tolls levied by them on through traffic against Rs. 6,42,038 and Rs. 1,22,447, respectively, in the previous year. The increase in the former case, which occurred chiefly in Coimbatore, was due to the establishment

of additional toll-gates and competition at the sale of the farms; the increase in the latter case being small, calls for no remarks. The whole of the demand under Local Fund tolls was collected in South Canara, Chingleput, Coimbatore, Cuddapah, Kistna, Madura, the Nilgiris, Salem and Tanjore. In the other districts also the collections were good, except in Ganjám where only 90 per cent. of the demand was realised. The balance in the last case represents the arrears due by a defaulting contractor, for the recovery of which a suit has been filed. As in the previous year, the receipts under this head, excluding the cost of establishments, &c., and the contributions paid to Provincial and Municipal Funds, amounted to 31 per cent. of the expenditure on roads, and the proportion was high in South Canara, being 66 per cent.

12. *House-tax*.—This tax was in force in all the unions except two situated in the districts of North Arcot and Tinnevely. The maximum rates were levied in 227 unions, three-fourths rates in 34, two-thirds rates in 7, half rates in 94 and one-third rates in the remaining 3. The collections amounted to Rs. 3,82,480 or 90 per cent. of the demand against Rs. 3,63,145 or 92 per cent. in 1895-96, the increase in the amount being due to the imposition of the tax in the unions newly constituted during the year and to the raising of the rate in some of the existing unions. The tax was again most productive in Tinnevely, where Rs. 59,220 were realised in 28 unions, and least so in Ganjám, where in 15 unions only Rs. 8,414 were collected. In North Arcot, Kistna, Salem and Trichinopoly the collections were good, being more than 95 per cent. of the demand, and in the other districts they were fair, except in Bellary, where only 73 per cent. of the demand was realised owing to the unfavourable character of the season and slackness of collection in some of the unions. which shows the incidence of this tax and other particulars connected therewith, it appears that notwithstanding the increase in the number of houses since the census of 1891, more than 25 per cent. of the number according to that census remained untaxed in the 26 unions noted in the margin. In some of these cases this was, no doubt, due to the exemptions granted either by Government or by the taluk boards on the ground of poverty. In the other cases the Presidents of the taluk boards concerned should, after careful enquiry, satisfy themselves that no houses which are liable to it have escaped taxation. As directed in paragraph 12 of G.O., No. 2368 L., dated 14th December 1896, information on this point should be invariably furnished in the reports of the local boards. The average incidence per house taxed rose from As. 9-10 to As. 10-5 and ranged from Rs. 3-0-10 in Kodaikámal (Madura) to As. 2-8 in Porumámilla (Cuddapah). There was a further decrease in the number of distress warrants issued for the collection of this tax, which was 18,240 against 18,766 in 1895-96, and the number of cases in which property was sold was only 327 and the amount involved Rs. 202, the corresponding figures for that year being 342 and Rs. 200. Generally, the rate-payers appear to have paid the taxes without difficulty. In many of the districts the taluk boards made large contributions to the union panchayats in excess of the lighting charges which the taluk boards have to meet under section 142 of the Local Boards Act. As it is not fair that the funds raised throughout the district should be spent for the special benefit of the small population living within unions, the taluk boards in the districts of Cuddapah and Salem should consider the advisability of enhancing the rate of the tax in the case of the unions in which it is now levied at less than the maximum rates. In the remaining districts, where the maximum rates are already in force, the assessments should be carefully scrutinised and revised wherever necessary or the expenditure should be curtailed.

13. *Educational*.—The receipts under this head rose from Rs. 2,27,111 to Rupees 2,33,688, the increase appearing chiefly under school-fees and being due to the improvement in the attendance at the boards' schools.

14. *Medical*.—The income under this head rose from Rs. 22,712 to Rs. 46,003. The increase occurred chiefly in Vizagapatam and was due to the contribution of Rs. 20,000 paid by the Hon'ble the Raja of Bobbili towards the maintenance of the hospitals at Bobbili.

15. *Interest*.—The amount invested by the local boards in favour of the endowed institutions in their charge, including the Railway Guarantee Fund in Tanjore, rose from Rs. 11,35,912 to Rs. 12,93,224 and the interest derived from it, from Rs. 40,470 to Rs. 42,459, as shown in Appendix XIV.

16. *Miscellaneous*.—The income from choultries, markets, bungalows and other miscellaneous sources detailed in Appendix IX was Rs. 9,13,938 or Rs. 3,801 less than in the previous year, the principal variations being dealt with below:—

(a) *Choultry Rents*.—The receipts appertaining to choultries rose from Rupees 2,48,679 to Rs. 2,54,572, the increase which occurred chiefly in Madura and Tinnevely being due to the collection of the arrears of the previous year.

(b) *Market Rents*.—The taluk boards maintained 570 markets or eighteen more than in 1895-96 and fees were levied in 504 of them against 491 in that year. The receipts from these institutions also rose from Rs. 1,56,393 to Rs. 1,61,425, the increase which occurred chiefly in Coimbatore, Gódvári and Salem being due to the extension of the fee system to additional markets, the collection of arrears and the competition at the sale of the leases. The expenditure on public works, &c., connected with markets was Rs. 1,89,832 or Rs. 21,196 more than in the previous year. These institutions are reported to have been, on the whole, in good condition and freely resorted to by the public. There was, however, again a large balance of Rs. 2,08,228 in their favour at the end of the year and the taluk boards have been directed in the individual reviews to take immediate steps to spend such accumulations on the improvement of the markets themselves and the construction and repair of roads leading to them.

(c) *Bungalow Fees*.—There were 413 bungalows under the control of the local boards against 404 in 1895-96 and their condition appears to have been, on the whole, good. The receipts from fees, &c., amounted to Rs. 13,011 against Rs. 13,802 in 1895-96.

(d) *Ferry Rents*.—The receipts from this source amounted to Rs. 1,89,901 or Rs. 4,387 less than in the previous year, the decrease which appeared mainly in Bellary and Ganjám being due to the unfavourable character of the season.

(e) *Fishery Rents*.—The income under this head rose from Rs. 1,14,559 to Rs. 1,15,286. Of this sum Rs. 1,07,991 were collected by the Revenue Department and Rs. 7,295 by the Public Works Department.

(f) *Avenues*.—The statistics of avenues in the several districts are given in Appendix XV. Out of 27,182 miles of roads in charge of the local boards, 16,914 were provided with avenues, the corresponding figures for the previous year being 26,504 and 17,036. The decrease which occurred chiefly in Malabar is ascribed to many of the trees on abandoned roads under the Malappuram Taluk Board having been cut down and sold during the year. As the average number of trees at the end of the year for each mile of road planted was only 171 against 170 in 1895-96, there is much scope for the extension of operations in this direction. The number of trees which perished during the year in Bellary, Chingleput, Gódvári and Tanjore exceeded the number planted and in Nellore no trees at all were planted, but 159 perished. The receipts from this source rose from Rs. 93,422 to Rs. 95,031, but the amount spent on their extension and maintenance fell from Rs. 1,02,751 to Rupees 95,271. The condition of the avenues is, however, reported to have been, on the whole, satisfactory.

17. *Contributions from Provincial Funds.*—A sum of Rs. 5,32,343 was received as grants from Provincial funds for the following purposes against Rs. 3,25,461 in the previous year :—

	1895-96.	1896-97.
	RS.	RS.
(1) Public Works	1,62,560	2,08,987
(2) Schools	1,03,391	98,890
(3) Hospitals and dispensaries	5,326	5,086
(4) Choultries	36,007	34,357
(5) General purposes	18,177	64,120
(6) To cover deficits	..	1,20,896
(7) Refunds	..	7
Total ..	3,25,461	5,32,343

The increase under public works was due chiefly to the contribution of Rs. 57,730 paid to the Bellary District Board for the improvement of roads and famine-relief purposes and a grant of Rs. 6,500 received by the Malabar District Board for the maintenance of the Calicut-Vayitri-Gúdálur road. The decrease under grants for schools occurred chiefly in Cuddapah, Gódávári and Malabar. In Cuddapah several schools failed to earn grants, not having qualified themselves for the same under the grant-in-aid Code, and in Gódávári the grants earned by the primary schools were not adjusted within the year. On the other hand the decrease in Malabar was due to a reduction in the number of primary schools under the Tellicherry Taluk Board. The increase under grants for general purposes was due to the payment of a contribution of Rs. 46,120 to the Anantapur District Board as a temporary loan to avoid the deficit with which the year was otherwise expected to close. The Local Fund accounts of Bellary, Cuddapah and Kurnool having closed the year with deficits of Rs. 56,498, Rs. 40,936 and Rs. 23,462, respectively, these amounts were, under article 1373 of the Civil Account Code, adjusted, as usual, by debit to Provincial Funds.

18. *Contributions from Special Funds.*—The sum of Rs. 336 credited under this head represents the proportionate cost of the travelling allowances of the local audit clerks.

19. *Contributions from Municipalities.*—These amounted to Rs. 19,706 against Rs. 10,509 as shown below :—

	1895-96.	1896-97.
	RS.	RS.
Education	1,471	2,038
Medical	4,946	5,554
Public Works	3,602	11,720
Miscellaneous	490	394
Total ..	10,509	19,706

The increase under the third head occurred chiefly in South Arcot, being due to the receipt from the Cuddalore municipal council of a contribution of Rs. 7,000 towards the construction of the Uppanar bridge.

III.—EXPENDITURE.

20. The total expenditure, exclusive of debt heads (Rs. 4,42,221) and contributions from one district board to another (Rs. 520), amounted to Rs. 80,96,655 or Rs. 3,01,628 more than in 1895-96, the increase occurring under all the grants except Grant 2 and under investments. The charges under the several heads, as compared with the figures of the previous year, are shown in appendices V and XVI, and the subjoined abstract shows the expenditure under each grant and the proportion of it to the total outlay :—

Grants.	1895-96.	1896-97.	Percentage.	
			1895-96.	1896-97.
	RS.	RS.

Total, Expenditure ..	77,95,027	80,96,655	100	100

GRANT 1, PUBLIC WORKS.

21. The details of the expenditure on public works and the cost of the engineering establishments, including contingencies, and tools and plant, are shown in appendix XVII. The total outlay on public works amounted to Rs. 36,19,016 against Rs. 35,33,013 in the previous year, the increase appearing chiefly in South Arcot, Malabar and Tanjore and being partly counterbalanced by a large decrease in Gódávári. This sum was 46 per cent. of the receipts and 45 per cent. of the total charges, and it was spent by the several agencies as shown below :—

	1895-96.	1896-97.
	RS.	RS.
By the engineering establishments employed by the local boards.	33,70,256	35,01,153
Do. Revenue department	1,32,075	84,952
Do. Public Works department	30,682	32,911
Total ..	35,33,013	36,19,016

The expenditure on communications was Rs. 31,76,419 or 88 per cent. of the allotment against Rs. 30,66,837 or 89 per cent. in the previous year. Of this sum Rs. 31,44,014 were spent by the local fund engineering establishments and the Revenue department and Rs. 32,405 by the Public Works department. The works undertaken by the Public Works department were the raising of the local fund road on the left bank of the Mogalikuduru channel in Gódávári, improving the road from Lakshmanagudi bridge to Tirunathangudi and forming a village road from Kummattitidal head sluice to Uppúr limits in Tanjore and the maintenance of roads on tank, canal and channel banks in the districts of South Arcot, Ganjam, Gódávári Kistna, Nellore, Tanjore, Tinnevely and Trichinopoly. On the construction and repair of buildings, such as school-houses, hospitals, dispensaries, bungalows, choultries, &c., Rs. 2,22,511 were spent against Rs. 2,06,473 in 1895-96. The outlay on miscellaneous public improvements, such as the planting and maintenance of avenues and the construction and repair of markets, tanks and wells, was Rs. 2,20,086 or Rs. 39,617 less than in the previous year. Of this sum Rs. 18 were spent by the Public Works department for providing an earthenware pipe sluice for the drinking-water tank at Pydiparru and Rs. 488 for the repair of the fresh-water channel at Nizampatam in the Kistna district.

The total outlay on public works executed by the local fund engineering establishments was 86 per cent. of the sanctioned allotment or one per cent. more than in the previous year. The proportion was high in Kistna (99 per cent.), the Nilgiris (97) and Cuddapah (95) and low in Nellore (54) and South Canara (76). The explanations offered for the short outlay in these two cases are given briefly in the last column of Appendix XVII; but these have not been accepted by Government as satisfactory.

22. *Roads.*—Appendix XVIII shows the statistics of roads in the several districts excluding the main road from Kallar to Ootacamund in the Nilgiris, which remained in charge of the Public Works department as in the previous years. The total length of roads maintained by the local boards and union panchayats exceeded the previous year's figure by 248 miles, which was the net result of increases chiefly in Nellore, South Arcot, Coimbatore, Gódávári and Malabar and of decreases in Kurnool and

Kistna. The decreases have not been explained. The largest expenditure on new roads, including those in progress, but not yet completed, was again incurred in Kistna (Rs. 52,903). The districts of Gódvári, Tanjore and Tinnevely follow next with an outlay of Rs. 49,507, Rs. 36,670 and Rs. 16,255, respectively, while in the other districts it was less than Rs. 10,000. The average cost of maintaining each mile of road rose from Rs. 111 to Rs. 116. It was high in Kistna (Rs. 303), Gódvári (Rs. 204) and Chingleput (Rs. 155) and low in Anantapur (Rs. 40), Cuddapah (Rs. 58) and South Canara (Rs. 66). In twelve districts the average was higher than the previous year's figure and in eight others it was less, while in Ganjam there was no change.

Appendix XVIII-A shows the percentage of the expenditure on communications in the several districts to the net revenue from tolls *plus* half the receipts from land-cess. In thirteen districts the prescribed proportion was reached, the percentage being high in the Nilgiris (245.8 per cent.), Anantapur (134), Kurnool (122.6) and South Arcot (120). The first of these districts, however, received a large contribution of Rs. 81,000 from Provincial funds, while in Anantapur the collections under land-cess were considerably less than in the previous year, owing to the suspension of the instalments of revenue. On the other hand the proportion was very low in Vizagapatam (80.6) and Nellore (82.9). The attention of the local boards concerned has been drawn to this in reviewing the individual reports.

The condition of the roads in South Canara, Chingleput and Malabar is reported to have been on the whole good and of those in Coimbatore, Gódvári, Kurnool, the Nilgiris, Trichinopoly and Vizagapatam fair. In North Arcot the roads in the southern portion were in good order, while those in the north were fair, though there was some deterioration owing to deficient rainfall; in Madura the roads in the Madura and Sivaganga taluks and in portions of the Dindigul taluk were in good order, but in the other taluks their condition was unsatisfactory; and in South Arcot and Kistna they were steadily improving. On the other hand in Anantapur, Bellary, Cuddapah, Ganjam, Nellore, and with a few exceptions in Salem and Tanjore the condition of the roads was far from satisfactory, and in Tinnevely it was the subject of just complaint although the roads are reported to have somewhat improved. All the roads in Malabar, except those under the Tellicherry Taluk Board and eight miles of one of the Wynaad roads, were maintained on what is known as the A system of contract.

23. *Establishments, &c.*—As in previous years, the district boards maintained engineering establishments of their own for the execution of public works and their cost was generally met from the district and taluk funds in proportion to the outlay incurred from each. The construction and maintenance of roads on tank, canal and channel banks were, however, entrusted to the Public Works Department. The local fund engineering establishments worked as usual directly under the district boards and their cost amounted to Rs. 5,82,098 or 16 per cent. of the outlay on works executed by them against Rs. 5,71,992 or 17 per cent. in 1895–96, the maximum fixed by Government being 20 per cent. and the contribution payable to the Public Works Department for the execution of local fund works, 23 per cent. In Anantapur, Cuddapah, Bellary and Vizagapatam the maximum limit was exceeded by 10, 7, 6 and 1 per cent., respectively, owing mainly to the short outlay on works. No efforts should be spared in these districts to bring the percentage down to the prescribed limit. It is gratifying to observe that the percentage was low in South Arcot (13), Tinnevely (13), Tanjore (14), Trichinopoly (14) and Chingleput (15). A contribution of Rs. 1,247 was paid to the Public Works Department for the execution of local fund works in Gódvári, Kistna, Nellore, Tanjore and Tinnevely and Rs. 5,665 for the scrutiny of plans and estimates for local fund works of importance at the rate of 2½ per cent. on the amount of the estimates.

The cost of toll and ferry establishments amounted to Rs. 6,750 or Rs. 2,067 more than in the previous year. The increase occurred chiefly in Gódvári and was due to the departmental management of the Narsapur steam ferry throughout the year and to the contingent charges incurred on account of it.

The outlay on tools and plant by the Local Fund Engineering establishment was Rs. 38,044 or 1 per cent. of the expenditure on works, which is the maximum limit prescribed by Government for all districts except the Nilgiris. This limit was

exceeded in the districts of South Arcot, Bellary, South Canara, Cuddapah, Gódvári, Salem, Trichinopoly and Vizagapatam, the excess being large in Vizagapatam, Trichinopoly and South Arcot, namely 1.6 per cent., 1.2 per cent., and 1 per cent., respectively. In Vizagapatam the excess was due to large purchases, the tools in the hands of the Engineer having been found insufficient for the large number of daily labourers employed on metal breaking and other road works undertaken in the latter part of the year to alleviate distress, while in Trichinopoly it was caused by the purchase of additional water carts for watering the avenue trees and by the purchase and repair of levelling instruments and in South Arcot it is explained to be due to the purchase of (1) a large number of tools, the greater portion of the old tools belonging to the department having been sold to the late A system contractors, (2) a hand-pump for the Uppanar bridge and (3) fifty stone-rollers for the roads. The cost of tools and plant required for the works executed by the Public Works Department fell from Rs. 22,557 to Rs. 722.

24. *Contributions.*—The total amount of contributions paid to Provincial and Municipal funds and to private individuals fell from Rs. 1,28,526 to Rs. 83,047. The decrease occurred chiefly in Tanjore, where only Rs. 35,532 against Rs. 63,342 in the previous year were paid to Provincial funds, being a moiety of the expenditure incurred by the Public Works Department on account of the Májavaram-Muttupet Railway in 1895–96, and in Malabar, where no contribution was paid to Government on account of tolls collected on the Calicut-Vayittiri road as it had been made over to the District Board on the 1st April 1896.

GRANT 2.—EDUCATION.

25. The educational operations of local boards were conducted on the same lines as in previous years. The total expenditure on education, exclusive of Rupees 33,947 spent on school buildings and debited to grant 1, was Rs. 11,33,775 or Rs. 34,687 less than in the previous year, the decrease appearing chiefly under training and boards' schools and being partly counterbalanced by an increase under result grants. Appendices XIX to XXI show the receipts and charges of the schools maintained and aided from Local funds, but exclude the receipts from the sale of books and contributions from municipalities and the charges incurred on the purchase of books and other miscellaneous items.

26. *Inspection.*—For supervising their educational operations the district boards employed 199 inspecting schoolmasters or four more than in the previous year. These officers visited 21,813 villages and prepared 21,392 schools for examination, the corresponding figures for the previous year being 23,680 and 20,936, and their work is reported to have been, on the whole, satisfactory. The cost of this establishment amounted to Rs. 99,592 against Rs. 97,823 in the previous year, the increase which occurred chiefly in Gódvári and Nellore being due in the first case to the payment of a fixed allowance to these officers instead of the ordinary travelling allowance, and also to additional expenditure incurred on the purchase of furniture, and in the second to the revision of the scale of salaries of the inspecting schoolmasters and to the payment of certain bills relating to the previous year.

27. *Training Schools.*—Two training schools were maintained by the District Boards of Madura and Tinnevely against five in the previous year, the decrease being due to the abolition of the three preparatory schools for Mappillas in Malabar. The attendance at the normal department of the Technico-Normal institute at Madura again fell from 41 to 36. Including a few students trained in the previous year, 36 appeared for the written examination for teachers' certificates, of whom 28 were successful, while in the practical test only 4 pupils passed out of 24 presented, a result which is attributed to changes in the teaching staff and to the raising of the minimum number of marks required for securing a pass. In the training school at Melaviraraghavapuram 38 students or 5 more than in the previous year were trained, of whom 35 appeared for examination and 23 passed.

28. *Sessional Schools.*—There were 61 schools of this class, in which village schoolmasters were trained for about three months in the year and prepared for the Primary school examination against 83 in the previous year and the number of students

trained in them fell from 1,004 to 821. The decrease which occurred chiefly in South Arcot, Cuddapah and Malabar is greatly to be regretted in view of the large number of unqualified teachers employed in these districts. Excluding three schools in Malabar, the progress of which has not been reported, the working of these institutions continued to be on the whole fair, 532 pupils having passed the Primary school examination out of 704 sent up. Of the 27,016 teachers employed in the districts,

Number holding trained teachers' certificates	RS. 4,055
Number holding untrained teachers' certificates	1,029
Number holding general education certificates	9,220
Total	14,304

only 14,304 were in any way qualified, as shown in the margin, the corresponding figures for the previous year being 26,988 and 13,752. The increase is satisfactory; but as the number of unpassed and untrained teachers is still large, the district boards should take energetic measures to reduce it by opening additional sessional schools where necessary,

and by withholding in whole or in part grants to schools where such masters are employed. Unless this is systematically done, there is but little hope of improvement in the quality of the instruction imparted. As observed in paragraph 28 of G.O., No. 2368 L., dated 14th December 1896, pupils who attend schools where unqualified teachers are employed are placed at a great disadvantage which is likely to affect them prejudicially throughout life.

29. *Technical Schools.*—The industrial school at Bezwada (Kistna) was attended by thirty pupils on the 31st March 1897 or eleven more than in the previous year. Instruction was given in carpentry, blacksmith's and rattan work, drawing and general education. From this institution eight students were sent up for the Primary examination and the same number for the Government Elementary Technical examination in drawing, but only two and one, respectively, passed. It is explained that, owing to the failure of the Superintendent to apply for fresh recognition on the transfer of the school from Masulipatam to Bezwada, standard examinations were not held in the different branches; but it has been recognized during the current year. The industrial department of the Technico-Normal institute at Madura was attended by 142 students or sixteen more than in the previous year and they made fair progress, 33 out of 67 examined in technical subjects having been successful. In the agricultural section of this institution there were on the 31st March 1897 eight students as in the previous year and the results of the annual examination are reported to have been pretty fair. The industrial class attached to the training school at Melaviraghavapuram (Tinnevely) was attended by 38 pupils or ten more than in 1895-96 and the Inspector of Schools has reported favourably on the progress of the class.

30. *Secondary Schools.*—There were 125 boards' secondary schools or four less than in the previous year; but their attendance rose from 11,929 to 11,962. The decrease in the number of schools was the net result of the closure of three schools in Kistna (2) and Vizagapatam (1), the reduction of two schools in Salem and Tanjore to the primary grade, the transfer to the newly-formed municipality of the school at Tiruvannámalai (South Arcot), the opening of a secondary school at Gudur (Nellore) and the raising of the primary school at Nangunéri (Tinnevely) to the secondary grade. Of the total number eight were of the upper secondary and the others of the lower secondary grade. Out of 141 students who appeared for the Matriculation examination 59 were successful, the corresponding figures for the previous year being 108 and 43. The upper secondary schools at Coondapoor, Námakkal and Tiruválúr did well, while those at Chittoor and Harpanahalli fared badly, only five out of twenty-seven sent up from the former and three out of fifteen from the latter being successful. The bad results of the Chittoor school are ascribed to some of the candidates having fallen ill at the time of the examination. The school at Harpanahalli has been doing badly for four years in succession; but there was some improvement as compared with the results of the previous years. From the lower secondary schools and the lower secondary departments of the upper secondary schools 933 students were presented for the Lower Secondary examination, of whom only 311 or 33 per cent. passed, the corresponding figures for the previous year being 805,

522 and 65 per cent. The schools at Penukonda, Kuppamu, Harpanahalli, Hospet, Rayadrug, Coondapoor, Udipi, Proddatur, Russellkonda, Aska, Tekkali, Pithápuram, Gudivada, Tenali, Kollúru, Avanigadda, Sattenapalle, Narasaraopet, Manjeri, Cherpalecheri, Koduvayur, Kottayi, Trichengodu, Hosúr, Dharmapuri, Orattanádu, Kulittalai and Kasimkóta fared badly, less than 25 per cent. of the students sent up having passed the examination, while the results of the Chittoor, Udamalpet, Bhímavaram, Tiruválúr, Pattukkóttai and Párvatipuram schools were good, more than 66 per cent. of the pupils presented for examination having been successful. All the upper secondary schools were maintained on the salary system, and the average net cost of educating each pupil in the upper secondary schools and departments rose from Rs. 6-11-3 to Rs. 7-3-2. The schools in North Arcot, South Canara and Gódvári were worked at a profit of Rs. 284, Rs. 158 and Rs. 449, respectively; but the net cost of educating each pupil in Vizagapatam and Bellary was excessive, being Rs. 44-13-8 and Rs. 20-10-6, respectively, and there was a large increase as compared with the previous year in both these districts. The increase in Bellary is ascribed to a change in the method of debiting the establishment charges, while that in Vizagapatam occurred in the high school at Yellamanchili, which was, however, closed during the year. The net cost of each pupil in the lower secondary schools and departments on the salary system fell from Rs. 4-1-10 to Rs. 1-8-7. It was low in Trichinopoly (As. 13-8), but high in Madura (Rs. 16-3-6), Nellore (Rs. 12-7-5) and Cuddapah (Rs. 10-11-10), while the schools in North Arcot, South Canara, Coimbatore, Kistna, Kurnool, Malabar and Tanjore were worked at a profit of Rs. 484, Rs. 210, Rs. 341, Rs. 806, Rs. 302, Rs. 1,645 and Rs. 2,815, respectively. The net cost of educating each pupil in the lower secondary schools and departments on the salary-result system also fell from Rs. 11-9-3 to Rs. 10-11-11. It was low in Anantapur (Rs. 2-8-9) and North Arcot (Rs. 3-7-0), but high in Ganjám (Rs. 21-3-5), Salem (Rs. 19-6-5) and Gódvári (Rs. 15-1-3), while the local boards in Coimbatore and Madura worked their schools at a profit of Rs. 65 and Rs. 49, respectively. The local boards in the districts in which the net cost was high should adopt prompt measures to reduce it.

31. *Primary Schools.*—The number of primary schools maintained by the local boards fell from 3,020 with 125,600 pupils to 2,786 with 120,358 pupils. The decrease which occurred chiefly in Ganjám, Kurnool and Malabar was due in the first two cases to the abolition of schools with a view to provide large allotments for communications, and in the third to the transfer of many of the boards' schools to the aided list. The net cost of educating each pupil in the upper primary departments of these institutions was either *nil* or very low in South Canara, Malabar and Trichinopoly, while in Bellary and Ganjám it was high, being more than Rs. 10 per pupil. Immediate steps should be taken to reduce the high cost in these districts. On the other hand the net cost of the lower primary schools and departments was not high in any district. The number of pupils who appeared for the standard examinations from the primary schools and the primary departments of secondary schools was 71,894, and of these 53,394 or 74 per cent. passed, the corresponding figures for the previous year being 81,942; 59,198 and 72. Thus the progress of these schools was on the whole satisfactory. The local boards maintained schools for the exclusive benefit of Panchamas and other backward classes in all districts except Anantapur and Kistna, in regard to which no information has been furnished. The number of these schools was large in Gódvári (52), Salem (46) Madura (33), Cuddapah (26), and South Arcot (21), and fair progress was made by those in North Arcot, South Arcot, Chingleput, Coimbatore, Ganjám, Gódvári, Madura, Tanjore, Trichinopoly and Vizagapatam. In the remaining districts the earnest attention of the local boards should be paid to the education of these classes.

32. *Aided Schools.*—It is gratifying to observe that the local boards aided 9,177 schools with 240,146 pupils against 8,497 schools with 216,544 in the previous year, and the expenditure thereon exceeded the allotment by 2 per cent., while in 1895-96 it was only 94 per cent. of the allotment. In Malabar nearly double the amount provided in the budget was spent, owing apparently to the payment of arrears of the previous year and to the transfer of a large number of boards' schools to the aided list. In Gódvári, however, as much as 18 per cent. of the allotment was allowed to lapse owing to the poor results produced by some of the schools and to the late issue of certifying memoranda by the educational officers in the case of the others.

33. *General Educational Results.*—On the 31st March 1897 there were 2,911 boards' schools attended by 132,320 pupils against 3,149 schools with 137,529 pupils in 1895-96. A few of these schools were maintained exclusively for girls, while in many of the others pupils of both sexes were admitted. The proportion of the total net expenditure on education to the total receipts fell from 11.5 to 10.7 per cent. The percentage was high in Cuddapah (18.6), Bellary (18.3) and Anantapur (16.1), but low in Tanjore (5.0), Trichinopoly (8.3) and Chingleput (8.7). The total number of girls in Boards' schools fell from 18,388 to 18,254; but the number of boys under instruction in the schools maintained and aided from local funds rose from 320,805 or 13.3 per cent. of the male population of school-going age to 334,040 or 13.8 per cent. The increase occurred chiefly in Gódvári (2.0 per cent.), the Nilgiris (1.5), Trichinopoly (1.5), Vizagapatam (1.5), Nellore (1.4), South Canara (1.3) and Malabar (1.2). On the other hand there was a decline in Chingleput (1.7 per cent.) and Cuddapah (1.1), which is to be regretted. The proportion continued to be good in the Nilgiris (24.0), Tinnevelly (21.5) and Bellary (18.8), and fair in the remaining districts, except Cuddapah, where it was less than 10 per cent. for the fourth year in succession.

GRANT 3, MEDICAL SERVICES, VACCINATION AND SANITATION.

34. *Hospitals and Dispensaries.*—During the year under review the hospitals at Tiruvannamalai (South Arcot) and Chingleput were transferred to the municipal councils newly formed there; one of the hospitals in Malabar and nine dispensaries in Bellary (2), Cuddapah (2), Kurnool (2), Malabar (2) and Madura (1) were closed in pursuance of the policy laid down in G.O., No. 1686 L., dated 14th September 1895; one hospital in Malabar and another in Cuddapah were converted into dispensaries, while five dispensaries in Gódvári (1), Kistna (3) and Malabar (1) were converted into hospitals and two new dispensaries were opened in Gódvári and Salem. There were thus 134 hospitals and 225 dispensaries maintained by the local boards on the 31st March 1897 against 134 * and 235, * respectively, in the previous year. The statistics of these institutions are shown in Appendix XXIII. In addition to these the taluk boards in Tinnevelly aided ten dispensaries or one more than in the previous year and of these eight were managed by mission and two by private agencies.

The total number of patients treated in the institutions maintained by the local boards rose from 2,486,530 or 7.7 per cent. of the population to 2,601,787 or 8.1 per cent. In thirteen districts there was an advance and in six others a decline, while in the remaining two the attendance was stationary. The rise was highest in the Nilgiris, being 1.6 per cent., while it was more than 1 per cent. in Kistna, Salem, Tinnevelly and Trichinopoly. On the other hand there was a marked fall in Bellary (1.3 per cent.) owing to the abolition of two dispensaries and the temporary closure of some others during the absence of the medical subordinates on cholera duty. The percentage continued to be below six in Cuddapah (5.2) and Malabar (4.9). There was a fall from 1,503 to 1,459 in the number of beds available for in-patients, the decrease appearing chiefly in South Arcot; but no explanation of this has been furnished.

Excluding the cost of midwives and midwifery pupils, the net expenditure on the maintenance of these institutions amounted to Rs. 5,45,949 against Rs. 5,55,419 in the previous year and the average cost of treating each patient was thus As. 3-4 or 3 pies less than in that year. The cost was high in Bellary (As. 6-7), Cuddapah (As. 5-1), South Canara (As. 5), the Nilgiris (As. 4-11), Kistna (As. 4-7) and Gódvári (As. 4-6). The local boards of these districts are requested to take the necessary steps for reducing it. In the remaining districts it ranged from As. 3-11 to As. 2, being lowest in Trichinopoly as in the previous two years.

35. *Medical Schools and Medical Pupils.*—The medical school at Nellore was closed during the year; but the five students who were undergoing training in it in

the third year's course appeared for and passed the hospital assistants' examination. In the Prince of Wales' Medical school at Tanjore, maintained by the district board, 22 students were under training. Four of these appeared for the hospital assistants' examination, and all of them passed. The local boards in Bellary, South Canara, Ganjám, Gódvári and Vizagapatam sent up nineteen students to the Medical College at Madras for training.

36. *Midwives.*—Besides the ten nurses in Cuddapah who attended 656 cases of labour against 12 and 783, respectively, in 1895-96, the local boards in all the districts employed 202 trained midwives or seven more than in that year. The number continued to be large in Nellore (23) and Madura (22), and small in Cuddapah (1), Ganjám (2), Kurnool (3) and Malabar (3), while in the Nilgiris a midwife was employed for the first time during the year. The trained midwives attended altogether 13,518 cases of labour or 593 less than in 1895-96, the average being five cases each per mensem against six in that year. The midwives in Bellary, Ganjám and Malabar attended on an average ten, eight and eight cases each, respectively per mensem, while the work done by those in Coimbatore, Kistna, Salem and Tanjore was poor, the average being four cases each per mensem. Every endeavour should be made by the taluk boards concerned to produce better results in future.

37. *Medical Training of Women.*—Appendix XXIV contains a summary of the information furnished on this subject. The local boards in Bellary, South Canara, Coimbatore, Cuddapah, Gódvári, Kistna, Kurnool, Madura, Nellore, Salem, Tanjore, Tinnevelly, Trichinopoly and Vizagapatam granted scholarships for the training of female students or employed those who had been previously trained at their cost or with the aid of the Countess of Dufferin's Fund. In Malabar provision for the medical education of women has been made in the current year's budget. No steps were taken in this direction in Chingleput, as there was not the same necessity in it as in other districts, owing to its proximity to the female hospitals in Madras. Nothing was done in South Arcot as no candidate could be secured to undergo training, while the boards in Anantapur, North Arcot, Ganjám and the Nilgiris were prevented by want of funds from taking any action in the matter.

38. *Vaccination.*—This subject has already been fully dealt with in G.O., No. 1657 L., dated 30th August 1897, reviewing the report of the Inspector of Vaccination for 1896-97. The vaccination staff employed by the district boards consisted of 50 Deputy Inspectors of vaccination and 695 vaccinators and probationers against 49 and 686, respectively, in the previous year. The total number of operations performed by this agency rose from 1,017,320 to 1,068,430; but the percentage of reported success continued to be 90. The average number of operations performed by each vaccinator also rose from 1,517 to 1,559. It was highest in Vizagapatam (2,584), and Trichinopoly followed next with 2,013 cases, while the average was more than 1,500 cases in South Canara, Chingleput, Coimbatore, Madura, Salem, Tanjore and Tinnevelly. Compared with the previous year there was an increase in eleven districts, which was marked in Vizagapatam, and a decrease in the remaining ten, especially in Trichinopoly and Kurnool. The decline in Trichinopoly is stated to be due to the heavy rains, the prevalence of cholera, the incompleteness of the establishment of vaccinators and the more rigid scrutiny of their work by the inspection staff, while in Kurnool it is ascribed to the inexperience of some of the new hands employed on the reorganization of the department.

The average cost of each successful case was As. 3-5 or one pie less than in 1895-96. It was very high in the Nilgiris (As. 6-1), Anantapur (As. 5-8), Bellary (As. 5-5), Cuddapah (As. 5-1), Gódvári (As. 5), Malabar (As. 5) and Nellore (As. 5) and moderate in the other districts, except Chingleput (As. 2-11), Tinnevelly (As. 2-7), Coimbatore (As. 2-6), Trichinopoly (As. 2-6), Madura (As. 2-5) and Salem (As. 2-1), where it was low. Compared with the previous year there was an increase in ten districts and a decrease in ten others, the reduction being large in Nellore (As. 1-8).

Including the work done by the medical subordinates attached to local fund hospitals and dispensaries, the total number of successful operations was 971,651 or 30.2 per mille of the population against 938,315 or 29.1 per mille in 1895-96. The best results were secured in the Nilgiris (54 per mille) and Vizagapatam (41.8 per mille). The proportion in Bellary, South Canara, Chingleput, Coimbatore, Cuddapah,

* These figures differ from those given in the corresponding paragraph of the General Review for 1895-96, revised figures having been adopted with reference to the information since received from Gódvári.

Kistna, Kurnool, Madura, Salem and Tinnevely, ranging between 30 and 40 per mille, was fair; but in the remaining districts, especially in Malabar (15 per mille), it was bad. The poor results in Malabar are attributed by the District Medical and Sanitary Officer to the difficulty of procuring proper substitutes for vaccinators who fell ill. This explanation, however, has not been accepted by the President of the District Board, who has taken measures to produce better results in future. The total number of successful operations on children under one year of age again rose from 253,172 or 7.9 per mille of the population to 264,134 or 8.2 per mille. As in the previous year, the best work was done in Chingleput (19.7 per mille), Coimbatore (17.0) and Bellary (16.4). The results in Malabar (0.3) and Ganjám (1.7), however, were again very unsatisfactory. The special attention of these district boards has been drawn to this subject in the individual reviews and the Government trusts that there will be an improvement in the current year. In all the districts vaccination was conducted exclusively with animal lymph.

39. *Sanitation*.—Besides Rs. 26,180 spent on sanitary public works and shown under Grant 1, the outlay under this head amounted to Rs. 5,32,977 against Rs. 4,98,029 in 1895-96, as detailed below:—

	1895-96.	1896-97.
	RS.	RS.
Improvement of water-supply	93,703	1,12,036
" of village-sites	39,665	33,246
Conservancy establishments	3,21,429	3,23,712
Arrangements at fairs and festivals	18,885	37,135
Other sanitary outlay	24,347	26,848
Total	4,98,029	5,32,977

No sanitary works of any importance were undertaken in the rural tracts; but many petty works, such as the improvement of village-sites and the construction and repair of tanks, wells, latrines, dustbins, &c., were, as usual, executed by the local boards and union panchayats. Four hundred and twenty-nine new wells were sunk and 1,402 existing sources of water-supply were repaired or otherwise improved, the corresponding figures for 1895-96 being 186 and 1,254; but the number of village-sites improved fell from 381 to 272. The increase in the number of new wells sunk occurred chiefly in Gódvári and Vizagapatam. Of the 44,622 minor towns and villages in the Presidency, 367 unions and 499 other villages were provided with conservancy establishments against 361 and 555, respectively, in the previous year. As these establishments in non-union villages are in many cases not subject to proper supervision, the local boards will do well to divert the expenditure now incurred on them to the improvement of water-supply which needs much attention.

The total expenditure on sanitation was 90 per cent. of the sanctioned allotment against 89 per cent. in the previous year. The proportion was fair in all districts except South Arcot, Coimbatore, Malabar and Nellore, where it was less than 80 per cent. No explanation has been given for the short outlay in Nellore, while the explanation offered in the case of South Arcot and Malabar has been considered by Government to be unsatisfactory. In Coimbatore, however, the decrease which appears mainly under improvement of water-supply was due to the construction of wells, &c., having been postponed on account of the rains or the non-payment of contributions promised by the villagers.

The private scavenging system continued to be in force in the unions of Tadpatri and Hindupur (Anantapur), Ránipéttai, Arkonam, Kálahasti and Arni (North Arcot), Yemmiganuru (Bellary), Uttramerur (Chingleput), Méttupálayam and Dhárápúram (Coimbatore), Russellkonda (Ganjám), Nandyal (Kurnool), Hosúr and Rasipuram (Salem), Melaviraraghavapuram, Kilaviraraghavapuram and Pettai (Tinnevely), and Musiri and Turaiyur (Trichinopoly), and was adopted for the first time in the unions of Tindivanam and Villupuram in South Arcot, Walajabad in Chingleput, Kollegal in Coimbatore, Sattenapalle in Kistna and Sankaranayinárkóyil and Ambásamudram in Tinnevely. It is reported to have worked satisfactorily in all of them, except in the unions in Salem and Trichinopoly, where it was either a failure or a source of loss to the panchayats, and in the unions in South Arcot and Kistna, where no information has been given regarding its success or otherwise.

40. *Contributions*.—The amount contributed to Provincial and Municipal Funds and to private institutions for medical and sanitary purposes was Rs. 1,37,721 or Rs. 9,938 less than in 1895-96, the decrease occurring chiefly under contributions to Provincial and Municipal Funds.

GRANT 4.—PUBLIC AND CHARITABLE INSTITUTIONS.

41. *Choultries*.—The local boards had under their control 559 choultries against 546 in the previous year, and the expenditure on them rose from Rs. 1,99,953 to Rs. 2,32,752, the increase which appears chiefly in Tanjore being due to the larger outlay under contingencies. Of these institutions, 245 had endowments attached to them and in 53 of them 1,441,289 travellers were fed at a cost of Rs. 96,146 against 1,309,259 and Rs. 87,411, respectively, in 1895-96. The remaining choultries were mere rest-houses.

42. *Miscellaneous*.—The expenditure incurred on lighting in all the districts except Malabar and the Nilgiris fell from Rs. 66,558 to Rs. 57,405. It was generally confined to union villages; but in Chingleput, Coimbatore, Gódvári, Salem, Tinnevely and Trichinopoly some main lines of roads, and bridges were also provided with lights. Altogether 8,361 lights were maintained in 273 places against 9,464 and 287, respectively, in 1895-96. It is satisfactory to observe that, except in South Arcot, Trichinopoly and Vizagapatam, there was a decrease both in the number of lights and in the expenditure on them.

GRANT 5.—SUPERVISION AND MANAGEMENT.

43. *Supervision and office management*.—The charges under this head rose from Rs. 4,30,753 to Rs. 4,45,667 and amounted to 5.7 per cent. of the receipts and 5.5 per cent. of the total expenditure against 5.6 and 5.5, respectively, in the previous year. The increase which appears chiefly under "Controlling establishments at the Presidency" was due to the recovery from local funds of the additional cost of the Government Secretariat caused by the appointment of a separate Secretary.

44. *Repayment of loans, &c.*—The district boards of Chingleput and Malabar paid Rs. 16,802 as instalments of the principal and Rs. 1,805 as interest on account of the loans previously received by them from Imperial funds for the construction of the Kortalaiyar bridge and the completion of the Tamracheri and Periya ghât roads, respectively. These boards still owe to Government Rs. 21,890 and Rs. 6,313, respectively, which are expected to be repaid by the year 1898. The District Board of Tinnevely repaid Rs. 3,500, being the eighth instalment of the loan of Rs. 35,000 obtained by it from the Zamindar of Ettiyapuram for the construction of the Srívaikuntam bridge, and Rs. 476, being the interest due on it. A sum of Rs. 960 was paid by the Coimbatore District Board as interest on the debenture loan of Rs. 16,000 raised for the construction of the Pollachi market and Rs. 197 by the Ganjám District Board as interest on the loan of Rs. 5,000 received from Provincial funds for the construction of Railway feeder roads.

The amount to the credit of the Railway Guarantee fund in the Tanjore district at the beginning of the year was Rs. 4,66,000 in Government securities and Rs. 1,15,764 in cash. A sum of Rs. 35,532, being a moiety of the expenditure incurred by the Public Works Department on account of the Májavaram-Muttupet Railway in 1895-96, was paid to Government and Rs. 1,00,000 were invested in Government securities. From the working of this railway during the year ending December 1896, the district board derived a net profit of Rs. 49,680 or 4.05 per cent. of the capital outlay. The balance to the credit of this fund at the end of the year was Rs. 5,66,000 in Government securities and Rs. 1,62,186 in cash. The District Board of Vizagapatam invested in the Vizianagram municipal debentures a sum of Rs. 20,000 which was contributed by the Honourable the Raja of Bobbili for the maintenance of the hospitals at Bobbili.

IV. ENDOWMENTS.

45. Appendix XXVIII shows the number of endowed institutions, such as schools, hospitals and dispensaries, choultries, markets, &c., under the control of the local boards and union panchayats, and appendices XXIX and XXX, their financial

transactions. The receipts of these institutions, excluding Rs. 97,199 contributed or lent from general funds to meet the deficits with which some of them would otherwise have closed the year, amounted to Rs. 5,32,363, and the charges to Rs. 5,69,602 against Rs. 5,20,878 and Rs. 4,82,590, respectively, in 1895-96, the increase in the charges occurring chiefly in Madura where large allotments were made for public works and other purposes, and in Tanjore where the expenditure on contingencies was larger than in the previous year. As the amount to the credit of these institutions at the beginning of the year was Rs. 4,96,563, the balance in their favour at its close was Rs. 4,59,824. In Tanjore and Gódvári the balance was still large. In the first case only a small portion of the allotment was spent on the survey of the villages forming the endowments of the choultries, and as regards the second, the Government has ordered in the individual review that if the amount in favour of the markets cannot be utilized on their improvement or on the construction of market feeder roads, the rate of fees levied in them should be reduced.

V.—GENERAL REMARKS.

46. *Local Fund Accounts.*—There was no change in the existing arrangements for the audit and inspection of these accounts. The accounts of 1895-96 in all districts, except Ganjám, were examined during the year and those of 1896-97 were also partly examined in seventeen districts. From the reports which have been received from the Accountant-General, it appears that the state of the accounts was good in all districts, except Anantapur, Bellary and Nellore. In the first two districts the defects brought to notice at previous inspections were not rectified, and in the third the results were unsatisfactory.

47. *Map.*—The map of the Presidency to be annexed to this review, with reference to the letter of the Government of India, dated 31st August 1886, No. 25—1289, is under preparation in the Survey Office, and will be published separately.

48. *General Administration.*—Detailed remarks on the work done in each district have already been passed by Government in the reviews of the individual reports. Speaking generally, the administration of local affairs during the year under review continued to be on the whole satisfactory, except in Anantapur, South Canara and Nellore, where it was far from efficient.

Midwives at Chitvela and Vempalle. 1896-97 for 31, 34 and 5 months in the year.

APPENDIX XXIV.

A SUMMARY OF THE MEASURES ADOPTED IN FURTHERANCE OF FEMALE MEDICAL EDUCATION IN 1896-97.

Bellary.—A female student was undergoing training for the Apothecary grade in the Madras Medical College at the cost of the district board.

Canara, South.—A female medical pupil for the Apothecary grade was under training in the Madras Medical College at the cost of the district board.

Chingleput.—No steps were taken in regard to the medical training of women, there not being the same necessity for such provision in this district as in other districts, owing to its proximity to Madras.

Coimbatore.—The two female apothecaries trained at the cost of the district board continued to be in charge of the dispensaries for women and children at Pollachi and Karur.

Cuddapah.—A female hospital assistant trained by the Countess of Dufferin's Fund Committee on behalf of the taluk boards continued to be employed in the Madanapalle hospital.

Goddavari.—The dispensary at Cocanada, which is set apart exclusively for women and children, remained in charge of the female apothecary trained under the supervision of the Countess of Dufferin's Fund Committee on behalf of the district board; but no steps have yet been taken for the medical training of women under the supervision of the Dufferin Fund Committee.

Kistna.—A female pupil was under training for the Apothecary grade in the Madras Medical College under the supervision of the Countess of Dufferin's Fund Committee at the cost of the district board.

Kurnool.—A female medical pupil for the Apothecary grade remained under training at the Madras Medical College at the cost of the district board.

Madura.—The training of a female student for the Apothecary grade under the auspices of the Countess of Dufferin's Fund was sanctioned in G.O., Mis. No. 1665 L., dated 16th September 1896. A candidate was selected by the Secretary of the Committee and admitted; but she was unable to continue her training and it was then too late to choose another pupil in her stead.

Malabar.—No steps were taken towards the medical education of women; but a provision of Rs. 200 has been made for the purpose in the budget for the current year.

Nellore.—The provision made in the budget for the medical education of two female students was not utilized; at the suggestion of the Madras Dufferin Fund Committee, provision was made for one female apothecary on Rs. 25 a month in their stead in the current year's budget.

Salem.—The two female apothecaries, Miss Greene and Miss Holmes, trained at the expense of the board, were placed in charge of the dispensaries for women and children at Salem and Tiruppattur.

Tanjore.—A female medical pupil was under training for the Apothecary grade at the Medical College, Madras, at the cost of the district board.

Tinnevely.—Two female pupils for the Apothecary grade were under training in the Medical College, Madras, at the cost of the district board.

Trichinopoly.—One female pupil was under training for the Apothecary grade in the Medical College at Madras, at the cost of the district board, under the supervision of the Countess of Dufferin's Fund Committee.

Vizagapatam.—There were two hospitals and one dispensary intended solely for women and children, and they were in charge of female apothecaries trained under the superintendence of the Countess of Dufferin's Fund Committee on behalf of the district board.

No steps were taken in the districts of Anantapur, North Arcot, Ganjam and the Nilgiris for want of funds, and in South Arcot as no candidate could be secured.

In all the districts a number of trained midwives were employed (*vide* Appendix XXIII).

APPENDIX XXV.

STATEMENT showing the strength, cost and operations of the vaccine establishments for 1896-97.

Districts.	Establishment.			Total cost of vaccination.	Number of vaccine operations performed			Number of successful cases.			Percentage of successful cases to total number.	Number of successful operations per mille of the total population.	Average cost of each successful vaccine.	Number of successful operations on children under one year of age.	Number of successful operations on children under one year per mille of the total population.	Number of months in which vaccination was conducted.	Number of persons vaccinated by this agency.	Number of successful cases.	Percentages of successful cases to number vaccinated.
	Deputy Inspectors.	Vaccinators.	Probationers.		By Local Fund vaccine.	By medical subordinates.	Total.	By Local Fund vaccine.	By medical subordinates.	Total.
