Material in financial statement.

3. 49, Capital Expenditure not charged to Revenue. The amount surrendered from the Godavari delta system is from the provision for compensation for land, which is in excess of requirements. The surrender from the Periyar Project is the sum realized from the sale of tools to the Travancore Durbar. The total amount surrendered, viz, Rs. 6,600, may be relinquished to the Government of India.

4. 42, Major Works (Working Expenses). The Superintending Engineer, Sixth Circle, applies for an additional allotment of Rs. 100 or Rs. 123 including Establishment charges, for expenditure on the Srivaikuntam Ancient system under "Maintenance and Repairs". This sum may be met from the amount of Rs. 1,250 not required for the Cauvery delta system, the balance of Rs. 1,107 being appropriated to the Periyar Project to meet in part the sum of Rs. 6,096 still to be provided for that Project. As there are no more funds available an additional allotment of Rs. 200 applied for by the Superintending Engineer, II Circle, for the Kistna Western Division under "Tools and Plant" cannot be provided.

5. 43, Minor Works and Navigation. Provincial and Local:-
The net surrenders under these heads aggregate Rs. 4,118 and Rs. 1,120 respectively as shown in the following statement:-

6. The surrenders proposed from the existing grants under Capital Account are due to land required for extension of the Meenjar branch Channel, Velluon Ancient system, not having yet been made over to this department and to no more payments for compensation for land under the Lower Coleroon Ancient system for the old Coleroon drain bed anticipated during the remaining period of the current year.

7. Under Revenue Account, the want of sufficient number of sanctioned estimates to work out the rents has necessitated the surrenders.

8. Minor Works for which neither Capital nor Revenue Accounts are kept. The surrenders under this head are chiefly due to the progress of works in the Trichinopoly division having been retarded owing to tanks having been full in the working season, and to the grants in the Chingleput and South Arcot divisions not having been utilized on account of the want

* Major Work - Improvements to Puligur Perigakulam tank and Channel
 + do - Raising the flood bank of the Kistna river R. 13 from 44 to 52 1/2 miles

the additional funds applied for for the Munyern Project are required for the completion of the main Channel and its distributaries in time to admit of water being let out for irrigation in July next, and those asked for under Agricultural works, repairs, etc. for sectioning and completion of diversion in the Kistna Eastern division.

The surrenders provided from the existing works under Capital Account are due to land revenue for extension of the main branch Channel, Vellam Ardy system, not having yet been made over to this department and so no more payments for compensation for land under the lower division. Another system for the old division drain has anticipated during the remaining period of the current year.

Under Revenue Account, the want of sufficient number of unallocated estimates to work out the same has necessitated the surrenders.

Minor Works for which neither Capital nor Revenue Accounts are kept. The surrenders under this head are chiefly due to the progress of works in the Kistna division having been retarded owing to lands having been left in the working season, and to the want of the necessary and sufficient staff divisions not having been utilized on account of the
