## GOVERNMENT OF MADRAS.

## FINANCIAL DEPARTMENT.

READ—again the following papers:—

G.O., No. 852, Financial, dated 12th October 1897.

ABSTRACT.—Passing orders on the subject of the supply of stationery to officers of the Educational Department.

G.O., No. 940, Financial, dated 16th November 1897.

ABSTRACT.—Adding the names of the Superintendents of Hill Schools in the Ganjam, Vizagapatam and Godavari Agencies to the list of officers in paragraph 1 of G.O., No. 852, Financial, dated 12th October 1897, on the subject of the supply of stationery to officers of the Educational Department.

READ—also the following papers:—

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Educational Department, dated Madras, 12th February 1898, No. 1402.

In G.O., No. 852, Financial, dated 12th October last, all officers of this department have been directed to obtain articles of stationery by indent on the Superintendent of Stationery. In the case of the Board of Examiners for Teachers' Certificates, this arrangement is likely to cause serious inconvenience. So far as the office of the Secretary only is concerned, the new system may continue in force. But in regard to the articles required for the teachers' certificate examinations and also the entrance examinations of the College of Engineering, which are held in various centres throughout the presidency, including Madras, the practice hitherto has been to permit the superintendents to purchase the necessary articles locally and, in the case of the former examinations, to draw the money due on bills submitted by them after the close of the examination and countersigned by me. In the case of the latter examinations, the Principal, College of Engineering, used to draw the money on his office contingent bill and forward it to the superintendents concerned. This procedure seems to me not only more convenient, but also less expensive, than if the Secretary or the Principal were to obtain articles from the Stationery office and transmit them to the superintendents concerned. Moreover, there will be the additional difficulty of ascertaining with any near approach to accuracy the exact quantity of each article required for each centre, as this depends wholly upon the number of candidates appearing at each centre. This is the procedure obtaining in the office of the Commissioner for Government Examinations in regard to the examinations under his control, and I have the honour to request that the same may be extended also to the teachers' certificate examinations and the entrance examinations of the College of Engineering.
