actuals adopted in their statements agree with those in the annual budget estimates of the department sanctioned by Government and communicated to them by the Board e.g. Board's Proceedings No 755 dated 30 December 1897 (Settlement, Land Records and Agriculture) and No 12 dated 10th January 1898 (for Veterinary department and Meteorological Reports)

3. It is observed that while according to rule 38 of the budget rules, the actuals of the past three years have to be shown against each fluctuating item of charge, figures for only two of the years can be obtained from the "Final ^{issues} copies of the Civil Estimates" available at the time of the preparation of the budget. For instance, in the revised estimate for 1897-98 and — budget estimate for 1898-99 submitted by the Board in October last, actuals had to be given for the three years 1894-95; 95-96 & 96-97; but in the latest "final issue of the Civil Estimates" available at the time viz the Vol for 97-98, actuals had been given for only 95-96 and not for 96-97. The figures for the last of the three past years would as at present have to be obtained from the monthly statements furnished by the Accountant-General.
