CURRENT NO. 3025

1898

Proceedings of the Board of Revenue

(Separate Revenue),

Dated 1st October 1898.

Mis. No. 3898.

Read letter from J.N. Atkinson Esquire, I.C.S., Superintendent of Stationery, Madras, No. 566, dated 26th August 1898, stating that his office is authorized to supply 2 foot rules and measuring tapes ^{only} to ~~the~~ minor Irrigation Overseers ^{and thus} ~~limits the supply.~~

Resolution:-

In July last the Board sent an indent to the Superintendent of Stationery in accordance with long standing practice for 50 feet measuring tapes and 2 feet folding foot-rules for use by its subordinates. The Superintendent in his letter read above refused to comply on the ground that Appendix U on page 74 of the "Stationery Rules" limits the supply of the above articles to minor Irrigation Overseers.

2. On a representation made to Government that the Salt Department was required to make surveys and run lines of levels

and that drawing and mathematical instruments were necessary for the

1181

purpose, it was ordered in Government Order No. 421, Revenue, dated (vide telephone

15th March 1883, that they should be supplied. The Department now (message put up).

undertakes building of all kinds and 50 feet tapes and footrules

are constantly in requisition. The Board, therefore, begs that orders

may issue to the Superintendent to revise the Rules in question so as

to include the Salt Department as one of those to which the articles

mentioned in the Government Order above referred to and measuring

tapes and footrules shall, in future, be supplied.
