	2. Constructing a road from Vodasinghi to Narayanapuram, Earthwork.	1	500 0 0	500	..	..	..	There is a short cart-track through paddy fields from Kimedi-Kenchilingi road to Narayanapuram which is nearly a mile. Even in dry weather carts cannot easily pass over the track. It is proposed to make it into an earthen road this year. No compensation will be required for the line. The Bissoyi agrees to give it free. There is only one tunnel to be put up.
	3. Constructing a road from Narayanapuram to meet the Jiranghi ghât road. Earthwork.	1	500 0 0	500	..	..	..	This is also a cart-track at present. If this is made into an earthen road, carts can go to Rayagada and up to Jiranghi ghât easily.
	4. Constructing Jiranghi ghât road	..	..	..	500	..	450 0 0	Nothing is proposed to be spent on this road.

Special Assistant Agent's division.	5. Metalling 6 miles of Kalipano road ..	6	485 0 0	2,910	3,000	3,000 0 0	..	The object is to yearly metal 6 miles till completed. The estimated cost of this work is Rs. 3,000, of which Rs. 90 has been provided under Petty establishment.
	6. Constructing a road from Mohona to Poti Govindupur.	8	187 0 0	..	1,496	..	..	This is one of the new alignments proposed in this office letter disposal No. 364-R—A.G. of 1898, dated 3rd October 1898, embodied in G.O., No. 1052, Judicial, dated 5th July 1899.
	7. Constructing a bridge at Kurtinghar across Bodanadi.	1	458 0 0	..	458	..	..	
	8. Pack bullock track from Keradango to Porimolo.	8	22 0 0	176	..	..	..	The estimated cost of this work is Rs. 220, of which Rs. 44 has been provided under "Petty establishment." To meet this expenditure it is proposed to abandon the Ramagiri Bengasayi road 11 miles costing Rs. 220—*vide* item No. 29 under II Repairs —(*b*) Communications, in the sanctioned budgets of 1899–1900, embodied in G.O., No. 920, Financial, dated 21st October 1898. The latter road is no longer of any use as it leads to nowhere and is never used by officers, the Pinpani route being much more serviceable. The road was formerly of use as an alternative route from the plains for the Senior Assistant Agent.
	9. Road from Raikia to Simonbadi	12	183 5 4	2,200	..	..	..	The estimated cost of this work is Rs. 2,400, of which Rs. 200 has been provided under "Petty establishment" elsewhere. This is also one of the unmetalled roads proposed and sanctioned in G.O., No. 1052, Judicial, dated 5th July 1899. It is urgently required to connect Udayagiri with the central and southern portions of the division. At present to get to Darnigabadi, Sulamagiri or Ramagiri taluk a detour has to be made through Balliguda. The new road will save 50 miles and avoid 4 large ghâts. It was formerly a road but abandoned when Special Assistant Agent's head-quarters were at Balliguda. It has now become essential to a proper inspection of the division. It is the line taken by pack bullocks in going from the Kutuja country to the plains *viâ* Parighar, Simonbadi, Deegi and Surada. The only difficulty is a long low stoney ghât which, however, could be made practicable even for carts and thus open up the centre of the Agency to bandy traffic.

Special Assistant Agent's division —*cont.*	10. Pack bullock track from Tumeribund to Belghar.	10	50 0 0	500	..	..	..	The estimated cost of this work is Rs. 600, of which Rs. 100 is charged under "Petty establishment" elsewhere. This is essential if the Kutiya country is to be properly visited. At present after Tumeribund horses have to be left behind owing to the Belghar ghat and a march of 50 miles done on foot. Elephants also suffer seriously. Belghar is the largest police station in the Agency and it is necessary that the officers should be able to reach it rapidly and with reasonable ease. The path will be difficult only for the 4 miles of ghat. The money will be sufficient to make it suitable for horses. This is also the natural line for the traffic from Bissemcuttack (Vizagapatam district) to come in. At present owing to the ghât it is turned through Patna (Central Provinces).

Abstract.

	Budget estimate for 1900–1901.	Budget estimate for 1899–1900.
	Rs.	Rs.
I.—New Works—		
(*a*) Buildings	650	762
(*b*) Communications	7,786	6,454
II.—Repairs—		
(*a*) Buildings	4,624	3,796
(*b*) Communications	11,381	11,196
III.—Tools and Plant	550	457
IV.—Petty Establishment	2,194	2,335
Total ..	27,185	25,000

The actuals for 1898–99 as shown in this budget agree with those shown in the Treasury accounts. The actuals for 1897–98 according to this budget amount to Rs. 23,600 against Rs. 23,608 in the Treasury accounts. The difference of Rs. 8 exists under Repairs—Communications in the Ramagiri Deputy Tahsildar's division. This will be enquired into.

Order—No. 1017, Financial, dated 21st September 1899.

With reference to paragraph 2 of G.O., No. 1052, Judicial, dated 5th July 1899, the Agent budgets for a grant of Rs. 4,185 in addition to the usual grant of Rupees 23,000.

2. The estimates will be accepted subject to revision in January next as to the additional grant referred to in the preceding paragraph.

The construction of sheds for clerks at places where there is no accommodation was proposed last year. This programme was made to save the heavy yearly expenditure on account of carriage of tents for them. A sum of Rs. 355 was sanctioned in the budget of the current year. The expenditure proposed for next year will complete the whole arrangement.

	2. Constructing a road from Vodasinghi to Narayanapuram, Earthwork.	1	500 0 0	500	..	..	..	There is a short cart-track through paddy fields from Kimedi-Kenchilingi road to Narayanapuram which is nearly a mile. Even in dry weather carts cannot easily pass over the track. It is proposed to make it into an earthen road this year. No compensation will be required for the line. The Bissoyi agrees to give it free. There is only one tunnel to be put up.
	3. Constructing a road from Narayanapuram to meet the Jiranghi ghât road. Earthwork.	1	500 0 0	500	..	..	..	This is also a cart-track at present. If this is made into an earthen road, carts can go to Rayagada and up to Jiranghi ghât easily.

	6. Constructing a road from Mohona to Poti Govindupur.	8	187 0 0	..	1,496	..	..	This is one of the new alignments proposed in this office letter disposal No. 364-R—A.G. of 1898, dated 3rd October 1898, embodied in G.O., No. 105½, Judicial, dated 5th July 1899.

	8. Pack bullock track from Keradango to Porimolo.	8	22 0 0	176	..	..	..	The estimated cost of this work is Rs. 220, of which Rs. 44 has been provided under "Petty establishment." To meet this expenditure it is proposed to abandon the Ramagiri Bengasayi road 11 miles costing Rs. 220—*vide* item No. 29 under II Repairs —(*b*) Communications, in the sanctioned budgets of 1899–1900, embodied in G.O., No. 920, Financial, dated 21st October 1898. The latter road is no longer of any use as it leads to nowhere and is never used by officers, the Pinpani route being much more serviceable. The road was formerly of use as an alternative route from the plains for the Senior Assistant Agent.
	9. Road from Raikia to Simonbadi	12	183 5 4	2,200	..	..	..	The estimated cost of this work is Rs. 2,400, of which Rs. 200 has been provided under "Petty establishment" elsewhere. This is also one of the unmetalled roads proposed and sanctioned in G.O., No. 1052, Judicial, dated 5th July 1899. It is urgently required to connect Udayagiri with the central and southern portions of the division. At present to get to Darnigabadi, Subarnagiri or Ramagiri taluk a detour has to be made through Balliguda. The new road will save 50 miles and avoid 4 large ghâts. It was formerly a road but abandoned when Special Assistant Agent's head-quarters were at Balliguda. It has now become essential to a proper inspection of the division. It is the line taken by pack bullocks in going from the Kutuja country to the plains *viâ* Parighar, Simonbadi, Deegi and Surada. The only difficulty is a long low stoney ghât which, however, could be made practicable even for carts and thus open up the centre of the Agency to bandy traffic.

The estimated cost of this work is Rs. 600, of which Rs. 100 is charged under "Petty establishment" elsewhere. This is essential if the Kutiya country is to be properly visited. At present after Tumeribund horses have to be left behind owing to the Belghar ghat and a march of 50 miles done on foot. Elephants also suffer seriously. Belghar is the largest police station in the Agency and it is necessary that the officers should be able to reach it rapidly and with reasonable ease. The path will be difficult only for the 4 miles of ghat. The money will be sufficient to make it suitable for horses. This is also the natural line for the traffic from Bissemcuttack (Vizagapatam district) to come in. At present owing to the ghât it is turned through Patna (Central Provinces).

Special Assistant Agent's division.	5. Construction of sheds for clerks at 14 halting places at Rs. 25 each	..	..	350	..	..	..	The construction of sheds for clerks at places where there is no accommodation was proposed last year. This programme was made to save the heavy yearly expenditure on account of carriage of tents for them. A sum of Rs. 355 was sanctioned in the budget of the current year. The expenditure proposed for next year will complete the whole arrangement.

	2. Constructing a road from Vodasinghi to Narayanapuram, Earthwork.	1	500 0 0	500	..	..	..	There is a short cart-track through paddy fields from Kimedi-Kenchilingi road to Narayanapuram which is nearly a mile. Even in dry weather carts cannot easily pass over the track. It is proposed to make it into an earthen road this year. No compensation will be required for the line. The Bissoyi agrees to give it free. There is only one tunnel to be put up.
	3. Constructing a road from Narayanapuram to meet the Jiranghi ghat road. Earthwork.	1	500 0 0	500	..	..	..	This is also a cart-track at present. If this is made into an earthen road, carts can go to Rayagada and up to Jiranghi ghat easily.
	4. Constructing Jiranghi ghat road	..	..	..	500	..	450 0 0	Nothing is proposed to be spent on this road.

	6. Constructing a road from Mohono to Poti Govindpur.	8	187 0 0	..	1,496	..	..	This is one of the new alignments proposed in this office letter disposal No. 364-R—A.G. of 1898, dated 3rd October 1898, embodied in G.O., No. 1059, Judicial, dated 5th July 1899.

	8. Pack bullock track from Keradango to Porimolo.	8	22 0 0	176	..	..	..	The estimated cost of this work is Rs. 220, of which Rs. 44 has been provided under "Petty establishment." To meet this expenditure it is proposed to abandon the Ramagiri Bengasayi road 11 miles costing Rs. 220—*vide* item No. 29 under II Repairs —(*b*) Communications, in the sanctioned budgets of 1899–1900, embodied in G.O., No. 920, Financial, dated 21st October 1898. The latter road is no longer of any use as it leads to nowhere and is never used by officers, the Pinpani route being much more serviceable. The road was formerly of use as an alternative route from the plains for the Senior Assistant Agent.
	9. Road from Raikia to Simonbadi	12	183 5 4	2,200	..	..	..	The estimated cost of this work is Rs. 2,400, of which Rs. 200 has been provided under "Petty establishment" elsewhere. This is also one of the unmetalled roads proposed and sanctioned in G.O., No. 1052, Judicial, dated 5th July 1899. It is urgently required to connect Udayagiri with the central and southern portions of the division. At present to get to Darnigabadi, Subarnagiri or Ramagiri taluk a detour has to be made through Balliguda. The new road will save 50 miles and avoid 4 large ghâts. It was formerly a road but abandoned when Special Assistant Agent's head-quarters were at Balliguda. It has now become essential to a proper inspection of the division. It is the line taken by pack bullocks in going from the Kutuja country to the plains *viâ* Parighar, Simonbadi, Deegi and Surada. The only difficulty is a long low stoney ghât which, however, could be made practicable even for carts and thus open up the centre of the Agency to bandy traffic.

The estimated cost of this work is Rs. 600, of which Rs. 100 is charged under "Petty establishment" elsewhere. This is essential if the Kutiya country is to be properly visited. At present after Tumeribund horses have to be left behind owing to the Belghar ghat and a march of 50 miles done on foot. Elephants also suffer seriously. Belghar is the largest police station in the Agency and it is necessary that the officers should be able to reach it rapidly and with reasonable ease. The path will be difficult only for the 4 miles of ghat. The money will be sufficient to make it suitable for horses. This is also the natural line for the traffic from Bissemcuttack (Vizagapatam district) to come in. At present owing to the ghat it is turned through Patna (Central Provinces).

This also is a cart track at present. If this is made into an continuous road, cart Cargo to Rayagada and up to Jirangi ghat easily.

Nothing is proposed to be spent on this road.

The object being to yearly metal 6 miles till Completed. The estimated cost of this work is Rs3000 of which Rs90 has been provided under petty Establishment.

This is one of the seven alignments proposed in this office Letter Disposal 3648/29 of 1929 dated 3rd October 1929 embodied in Government order no 1052 Financial dated 5th July 1929.

The estimated Cost of this work is Rs220 of which Rs44 has been provided under "Petty Establishment". To meet this expenditure it is proposed to abandon the Kamagiri Bengasagi road 11 miles Costing Rs220. vide item no 29 of under II Repairs (b) Communications in the Sanctioned budget of 1899-1900 embodied in G.Ono 920 Financial dated 21-10-1898. The latter road is no longer of any use as it leads to nowhere and is never used by officers, the Kupani route being much more serviceable. The road was formerly used as an alternative route from the plains for the Senior Assistant Agent.

The estimated Cost of this work is Rs2400, of which Rs200 has been provided under "Petty Establishments" elsewhere. This is also one of the unmetalled roads proposed and sanctioned in Government order no 1052 Judicial dated 5-7-1899. It is urgently required to Connect Udayagiri with the Central and Southern portions of the division. At present to get to Daringabadi, Subarnagiri or Ramagiri Taluqs a detour has to be made through Balliguda. The new road will save 50 miles and avoid 4 large ghats. It was formerly a road but abandoned when Special assistant Agents headquarters were at Balliguda. It has now become essential to a proper inspection of the division. It is the line taken by pack bullocks in going from the Kutuja Country to the plains via Parighar, Limonbadi, Deegi and Surada. The only difficulty is a long low stony ghat which, however, could be made practicable even for Carts and thus open up the Centre of the agency to handy traffic.

The money will be sufficient to make it suitable for horses. This is also a natural line for the traffic from Bisoria Cuttack (Vizagapatam Orissa) to Comoin. At present owing to the ghat it is turned through Patna (Central Provinces)
