PAPERS.			
G O.	No.	Department.	Date.

Letter from the Executive Engineer, Kistna
Northern Division, No. 545, S.E., dated 6 Febry: 1897.

With reference to your Endorsement No 796 G.L., dated 31st December 1898, I have the honour to explain as follows for the increase in the consumption of "Black ink powder papers" in 1896-97 as against that of 1895-96.

2. The total consumption of "Black ink powder papers" in 1895-96 was 257, and that in 1896-97 312.

The excess consumption of the article in 1896-97
was therefore - - - - - 58 papers.

3. The total number of Establishment employed in this Division in 1895-96 was. 703
and that in 1896-97 - - - - - 761
Establishment in 1896-97

and that in 1896-7)
The increase in the Establishment ⁱⁿ 1896-97
is therefore 58
(the numbers being obtained by adding the
items in monthly salary bills and deducting
peons &c.)

4. Consequently the excess consumption in "Black ink powder" can be partly attributed to the increase in the number of Establishments

Establishment. Again the number of works in progress in 1896-97 was greater than 1895-96. The expenditure on works was greater and altogether the work was heavier.

5. The above may, I think, be held to account satisfactorily for the increased expenditure of ink.

Endorsement thereon by the Superintending Engineer II Circle, No 75 W dated 9th February 1899.

Copy forwarded to the Chief Engineer Public Works Department with reference to para 2 of G.O. No 287 W dated 11th November 1898.

Order thereon: - No: 502 W & 17.2.99.

Communicated to the Financial Department in continuation of G.O. No 353 W D 96.204 19.2.99 dated 4th February 1899.
