Water-supply.

Sanctioning, with remark, the estimate of Rs. 2,08,200 for the extension of the — of Trichinopoly; stating that Government will be prepared to advance Rs. 50,000 from Provincial funds; and ordering the publication in the Fort St. George and the Trichinopoly District Gazettes of the applications for the above loan and of the loan of Rs. 1,58,000 proposed to be raised in the open market.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—again the following papers:—

G.O., Mis. No. 2736 M., dated 8th December 1897.

ABSTRACT.—Forwarding to the Municipal Council of Trichinopoly plans and estimates in connection with the extension of the Trichinopoly water-supply; and requesting the Municipal Council, with remarks, to report how it proposes to find the required funds for carrying out the works and for meeting the annual expenditure which their execution would involve.

G.O., Mis. No. 1210 M., dated 8th July 1898.

ABSTRACT.—Declining to reconsider its order in G.O., No. 2736 M., dated 8th December 1897, regarding the extension of the Trichinopoly water-supply, and stating, with remark, that the Council should consider the possibility of raising a loan in the open market.

READ—also the following paper:—

From Lieutenant-Colonel W. O'HARA, I.M.S., Chairman, Municipal Council, Trichinopoly, to the Secretary to Government, Local and Municipal Department (through the Deputy Collector of Trichinopoly), dated 29th August 1898, No. 41.

I have the honour to state that during the recent visit of His Excellency the Governor to Trichinopoly town, the Municipal Councillors requested that he would kindly reconsider G.O., No. 1210 M., dated 8th July 1898, and, if possible, grant a loan of Rs. 2,08,000 for the extension of the town water-works to Woriyur, Puttur and a part of the Cantonment. His Excellency in reply graciously promised to look into the matter and to afford whatever aid was possible in carrying out this desirable object.

The expenditure required on the water works at present may be grouped under two heads:—

- (a) Repairs and works complementary to the existing works.
- (b) Extension works.

As regards (a), the principal requirements are the repair of one old infiltration well and the construction of three new infiltration wells. The cost will be approximately Rs. 50,000.

As regards (b), the sum of Rs. 1,58,000 will be required according to the sanctioned estimate. I have the honour to request that if the Government cannot see its way to make any contributory loan to the extension scheme, that at least it will provide the loan (Rs. 50,000) required to repair and complete the existing works on the same favourable terms as formerly, viz., at $4\frac{1}{4}$ per cent. The early orders of Government are requested on this subject, inasmuch as the work of completing the infiltration wells is regarded by Mr. Jones as being of a very urgent nature, and measures have to be devised with reference to the state of the river-bed.

In this connection I am glad to inform the Government that, at the request of Mr. R. H. Shipley, Collector of Trichinopoly, the Governors of the Military Female Orphan Asylum of Madras have offered to lend the Municipal Council one lakh of rupees at 5 per cent. per annum to be repaid in fifty years. If the loan of Rs. 50,000 now asked for is received from the Government on the usual favourable terms, the Municipality will have no great difficulty in meeting the charges depending on these loans by levying a higher rate of water-tax and by revising other taxes.

In conclusion, I have the honour to submit an application for sanction to raise a loan of Rs. 2,08,000, of which Rs. 50,000 will be looked for from Government and the balance will be obtained in the open market; but failing the Government loan, the whole amount will be borrowed on the best terms available in the market. The additional expense accruing from this loan will amount to Rs. 20,850—

	RS.
Interest on Rs. 50,000, at $4\frac{1}{4}$ per cent.	2,125
Interest on Rs. 1,58,000, at 5 per cent.	7,900
Sinking fund for Rs. 50,000, repayable in thirty years	1,665
Sinking fund for Rs. 1,58,000, repayable in fifty years	3,160
Additional maintenance charges	6,000
Total	20,850

These charges will be met by—

	RS.
Levying water-rates on the new sections of Woriyur and Puttur from which a sum of	4,000 is expected.
Increased water-rates in the town generally will yield	10,000
Increase by revision of the house-tax	3,000
Increase by revision of the profession-tax	4,000
Total	21,000

Forwarded and recommended. I addressed the Military Orphanage on the subject of a loan, and I was informed that they would lend the Municipality one lakh at 5 per cent. It is possible that they might be able to lend more. I have informed the Chairman of this.

I have worked out the calculations on which are based the estimate of increased taxation with the Chairman, and I think that the increased income will be available.

One lakh of rupees would cover the cost of the extension of the water-supply to Puttur, &c., but an additional half lakh will be needed for the repair, &c., of the wells.

The other Rs. 58,000 will not be needed just at present, but the Council wants permission to borrow that sum whenever it may be needed.

ORDER—No. 54 M., dated 11th January 1899.

The estimate of Rs. 2,08,200 for the extension of the water-supply of Trichinopoly is sanctioned. The work will be carried out by the Sanitary Engineer as soon as the necessary funds have been provided by the Municipal Council.

2. In the circumstances now stated, the Government will be prepared to advance, as requested by the Municipal Council, a sum of Rs. 50,000 from Provincial funds on condition that it is repaid in twenty years with interest at 4 per cent. per annum. The necessary applications for this loan, which has been provided for in the estimate of Provincial Loans and Advances for the year 1899-1900, and which can therefore be drawn only after 1st April 1899, and for the loan of Rs. 1,58,000 proposed to be raised in the open market will, as amended by Government, be published in the Fort St. George and the Trichinopoly District Gazettes. After the expiry of one month from the date of such publication, if no valid objections have been raised, the applications will be sanctioned.

3. The Collector of Trichinopoly will report the date of publication of the applications in the District Gazette.

G.O., Mis. No. 2736 M., dated 8th December 1897.

ABSTRACT.—Forwarding to the Municipal Council of Trichinopoly plans and estimates in connection with the extension of the Trichinopoly water-supply; and requesting the Municipal Council, with remarks, to report how it proposes to find the required funds for carrying out the works and for meeting the annual expenditure which their execution would involve.

G.O., Mis. No. 1210 M., dated 8th July 1898.

ABSTRACT.—Declining to reconsider its order in G.O., No. 2736 M., dated 8th December 1897, regarding the extension of the Trichinopoly water-supply, and stating, with remark, that the Council should consider the possibility of raising a loan in the open market.

READ—also the following paper:—

From Lieutenant-Colonel W. O'HARA, I.M.S., Chairman, Municipal Council, Trichinopoly, to the Secretary to Government, Local and Municipal Department (through the Deputy Collector of Trichinopoly), dated 29th August 1898, No. 41.

I have the honour to state that during the recent visit of His Excellency the Governor to Trichinopoly town, the Municipal Councillors requested that he would kindly reconsider G.O., No. 1210 M., dated 8th July 1898, and, if possible, grant a loan of Rs. 2,08,000 for the extension of the town water-works to Woriyur, Puttur and a part of the Cantonment. His Excellency in reply graciously promised to look into the matter and to afford whatever aid was possible in carrying out this desirable object.

The expenditure required on the water works at present may be grouped under two heads:—

- (a) Repairs and works complementary to the existing works.
- (b) Extension works.

As regards (a), the principal requirements are the repair of one old infiltration well and the construction of three new infiltration wells. The cost will be approximately Rs. 50,000.

As regards (b), the sum of Rs. 1,58,000 will be required according to the sanctioned estimate. I have the honour to request that if the Government cannot see its way to make any contributory loan to the extension scheme, that at least it will provide the loan (Rs. 50,000) required to repair and complete the existing works on the same favourable terms as formerly, viz., at $4\frac{1}{4}$ per cent. The early orders of Government are requested on this subject, inasmuch as the work of completing the infiltration wells is regarded by Mr. Jones as being of a very urgent nature, and measures have to be devised with reference to the state of the river-bed.

In this connection I am glad to inform the Government that, at the request of Mr. R. H. In conclusion, I have the honour to submit an application for sanction to raise a loan of Rs. 2,08,000, of which Rs. 50,000 will be looked for from Government and the balance will be obtained in the open market; but failing the Government loan, the whole amount will be borrowed on the best terms available in the market. The additional expense accruing from this loan will amount to Rs. 20,850—
