Madras, dated December '98.

From
The Secretary,
Muhammadan Literary Society,
Madras.

To
The Hon'ble Mr G. Stokes, I. C. S.
Chief Secretary to Government,
Fort Saint George.

Sir,

Agreeably to the permission accorded in para 2 of Government Order No. 841 Financial, dated 2nd August 1898, I have the honor to submit a list of publications required by the Society.

2. To obviate the necessity for frequent application to Government, the list has been prepared so as to include nearly all the important reports, and the books themselves have been classed, for facility of reference, under the heads of legal, educational, medical and Sanitary, Archaeological, and other Miscellaneous publications. The list is necessarily a long one, but, as the Society is wholly composed of English educated members some of whom are graduates, and as it has undertaken the important but by no means easy task of correctly interpreting the policy of Government to its Muhammadan subjects, it is essential

that

that it should from time to time keep itself informed of the views of Government as expressed in its official publications. In short, the association wishes to follow the example of its worthy progenitor, the Muhammadan Literary Society, Calcutta.

3. A Muhammadan literary ~~society~~ consisting of Government publications is a rarity in this Presidency. The books, if supplied, will not only prove useful to the educated section of the community, but will indirectly open the eyes of their less informed brethren to the benefit of the British rule in India. The Government has already laid the Society under great obligation by furnishing costly and important works, and the latter now earnestly requests that the books shown in the present list also may be ordered to be supplied, especially as most of them are available for sale at the Government Press.

G.O. No 405 Finl / 27-4-98
" " 3139 Rev: / 26-7-98
" " 449 Edl / 22-7-98

4. The necessity for the several kinds of books included in the list is briefly stated below:—

(I). Legal Publications. Copies of the Law Reports, Madras series, (No I), which, in consequence of their extreme costliness, are not at all accessible to the local Muhammadans, will, if supplied, be greatly appreciated by them and also by the members themselves, some of whom are prosecuting their studies for law. Nos 2 & 6 are acts of the Local and Supreme Governments and are necessary for a correct understanding of the rights and privileges of the subject races. The abstract Proceedings of the Legislative Council (No 7) are indispensable, having regard to the amount of Muhammadan interest involved in the legislation undertaken on behalf of the general public. In this connection it is submitted that the Society's request for the supply of the gazette has been negatived in the G.O. quoted in para 1 ante.

(II). The Educational Publications explain themselves.

(III). A study of the Medical publications will enable the community to understand the measures intended for the Sanitary improvement of the country.

(IV). The importance of the Administrative publications can scarcely be exaggerated, embodying, as they do, the results achieved by Government in the administration of the country. Mr. Baden Powell's Manual of the Land Systems of British India

No IV (i) MS

is, it appears, sold to Government Officials only and not to outsiders. The book cannot be of a confidential nature, as it is found in the Connemara Library. If, as the Society understands, the objection to sell the book to the public is on account of the small number of copies available, it may be waived in the case of the Society, as the work is the only standing authority on the land tenures of India. Nos 8 to 10 appear to be Government of India publications. They may be supplied as they give in one view the statistics of different Provinces.

(V) & (VI) - The Archaeological and Miscellaneous Publications will be read with great advantage by the Society.

5- I am also directed to respectfully urge a reconsideration of Government Order No 405 Judl dated 27 April 1898, para: 6, declining to furnish copies of establishment lists to the Society. The general administration report of the Madras Presidency for 1896-97 gives the percentage of Muhammadans employed in the superior service as 16.0, while their number to the total population of bears the ratio of only 6.3 per cent. It, however, appears that out of 6,308 Muhammadans in the public service nearly 5348 or 85 per cent are employed in the Police Department. Without the departmental lists, it will be impossible for the Society to arrive at a definite conclusion on this important subject, as the number might, in all probability include constables, Head constables and Station House Officers without any material advantage to the community itself.

I have the honor to be

Sir,

Your most obedient servant,

Secretary

Under G.O. No. $\frac{405\ \text{Finl}}{27.\ 4.\ 98}$ the Muhammadan Literary Society, Madras, was admitted to the privileges of the Editor's Table and given *gratis* a copy of the Madras Manual of Administration. But the Secy's request that the Socy. might be supplied with Establishment lists published annually by heads of depts was negatived* as these lists are printed for office use only and are not for sale at the Govt Press.

that it is necessary to keep itself informed of the views of Govt as expressed in ~~the~~ its official publications, in order correctly to ~~understand~~ interpret the policy of Govt in regard to its Muhammadan subjects:

ii The books will be of great use to the Educated section of the community:

iii They will indirectly make the less Educated portion realize the benefits of the British rule:

iv A Muhammadan Library consisting of Govt publications is a rarity in this Presidency.

5. In the attached statement the various publications are considered under the various headings Legal. Meanwhile it is observed that in

in para 5 of the current a reconsideration is requested of para 6 of G.O. 405 Fin./27.4.98, — declining to give the Society copies of Establishment Lists. The Secy says "the Genl Administration Report "of the Madras Presidency for "1896-97 gives the percentage of "of Muhammadans employed "in the superior service as "16·0, while their number to the "total population bears the ratio of only "6·3 p.c. It however appears that "out of 6,308 Muhammadans in the "public service, nearly 5,346 or "85 p.c. are employed in the Police "Dept. Without the departmental "lists it will be impossible for "the Secy to arrive at a definite "conclusion on this important "subject, as the number in all "probability include Constables* "Head Constables & Station House "Officers without any material "advantage to the community "itself".

The ~~cost~~ price will be very small and if the Muhammadan Literary Socy. requires the lists to prepare statistics in regard to the employment of Muhammadans it should pay for the lists.
