SIR,

Referring to para 2 of my letter printed with G.O. no. 230 of 19.3.98 sanctioning an estimate amounting to Rs 9600 under "33 Famine Relief" for training the Course of Parada river below mur kada village, I have the honour to submit herewith an application for a sum of Rs 2560 required to pay liabilities thereon and to request that you will be good enough to obtain an allotment of funds for the same.

2. The Executive Engineer has been asked to explain the difference of Rs 560 between the amount now applied for and the amount already reported as due.
3. The Executive Engineer states that the delay in applying for funds for this work till now was due to the difficulty in settling the rate to be paid to Contractor.

Vol. II, Chapter IV, para. 135 (h).

1. This form should be used by the Executive Engineer in any of the following cases :—

(a).—When he requires a grant, or an addition to an existing grant, is required for carrying on a sanctioned major work.

(b).—When he is unable to utilize the grant at his disposal for any work and wishes to resign it, either wholly or in part.

(c).—When he wishes to utilize the grant for one work upon some other.

2. Either of the columns for "Proposed new grant" or for "Proposed reduction," or both, may be used as required.

3. If it happens that the grant already allowed has been reduced, the entry in the column "Existing grant for the current year" would of course be the amount less such reduction.

4. In the case of Irrigation works, the entries in the column "Departmental and service head" should show distinctly whether the proposed re-appropriation is debitable to Capital or Revenue, and the entries in the column "Works" should be so arranged as to show the project to the Capital or Revenue account of which the charge is debitable, and the class of service to which the charge is debitable, thus :—

PROJECT.

(1).—HEAD WORKS—

(B). Land.

(K). Buildings.

In cases of Productive public works, the fact of their being so should be noted against the entries.

5. It being of the utmost importance that early intimation of possible lapses, or of excesses, in outlay on works should be communicated to the Government, a close watch should be maintained on the progress of all works by executive officers, and this form employed the moment the facts are sufficiently known.

6. Applications for re-appropriations which require the sanction of the Government of India should be submitted by the local Government in duplicate; applications by Executive Engineers should be submitted through the Superintending Engineers of their Circles.
