Stationery Office,

M a d r a s.

From the Director-General of Stores, India Office, London, to the Superintendent of Stationery, Madras, No. S. 533, dated 24th March 1899 :-

With reference to your letter No. 4051, dated 27th December 1898, I have the honour to inform you that samples of paper for duplicating type-written documents have been obtained from various firms and that all but one are waxed papers the prepared surface of which softened at 122° Fahrenheit and melted at from 132° to 134° Ft. thus rendering them unsuitable for use in the plains of India.

The exception is a paper sold by Messrs Zuccato and Wolff which is prepared by another process and is designed for use with their Trypograph apparatus described in the accompanying pamphlet. This paper has been tested and was found to stand a temperature of 190° Ft.

Messrs Zuccato and Wolff have offered to send out a complete apparatus (cost about £ 5) on the terms mentioned in the accompanying copy of their letter of 25th February 1899, and as it is thought that this apparatus will meet your requirements, this offer has been accepted and the apparatus will shortly be shipped.

I shall be glad to learn in due course what opinion you have formed of the value of the apparatus and whether you propose to retain it or not.

(True copy)

Frank S. Bird

Assistant Superintendent,
for Superintendent.

15 Charterhouse Street,
Holborn Viaduct.
London, February 25th 1899.

To

The Superintendent,
India Store Department,
Belvedere Road, S. E.

Sir,

In further reference to your letter of the 15th instant No. 34/558 we would suggest your sending out to India for test purposes A complete apparatus for duplicating both type-writing and hand-writing. Particulars and specimens of which we enclose herewith. We will supply the said apparatus on approval, that is to say, to be charged for only on condition of it being accepted, otherwise there is to be no charge and the machine could be returned to us at your convenience.

Our representative had the pleasure of illustrating to you this new system a few days since and we would especially call your attention to the fact that the stencil paper is not waxed as with the old typewriting duplicators and therefore the difficulties arising from heat of climate have been overcome. We suggest sending a complete apparatus as it would be of no use sending the stencil paper without the other accessories such as Perforator, Printing ink, Ink Brushes etc.

Awaiting the favour of your instructions in this matter.

We etc.

Zuccato and Wolff.

CURRENT No. 1548

Stationery Office,

Madras, 12 April

1899

No. 2097

From

Herbert Bradley Esquire, I.C.S.,
Ag. SUPERINTENDENT OF STATIONERY,

MADRAS,

To

The Chief Secretary to Government,
Financial Department,
Port Saint George.

SIR,

With reference to G.O.No.451,
dated 27th ultimo, I have the honour to enclose for the infor-
mation of Government a copy of letter No.S 533, dated 24th
March 1899 from the Director General of Stores, India Office,
London, and to state that the results of the experiments with
Messrs Zuccato and Wolff's duplicating apparatus will be com-
municated to Government in due course.

I have the honour to be,

Sir,

Your most obedient servant,

Herbert Bradley

Ag. Superintendent of Stationery.
