Approving the suggestion made by the Accountant-General regarding the mode of adjusting the provincial share of the pay of the medical subordinates in charge of the hospitals and dispensaries maintained by the Local Boards and Municipal Councils and communicating to all Municipal Councils G.O., No. 454 L., dated 11th March 1898, with the request that the procedure therein approved regarding the provision to be made in Local Fund budgets for the pay and allowances of the medical subordinates may be adopted in the preparation of Municipal budgets also.

WITH ORDER

No. 1486 L., 25TH JULY 1899.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—again the following papers:—

G.O., No. 454 L., dated 11th March 1898.

ABSTRACT.—Directing all District Boards to provide in their budgets from the year 1899-1900 for the full pay and allowances of all the medical subordinates, and to take credit, on the receipt side, for the estimated share of their pay and allowances payable from Provincial funds.

G.O., No. 794 L., dated 13th April 1899.

ABSTRACT.—Declining, with remark, to approve the proposal of the Accountant-General to substitute, for the existing system, an annual contribution to each Board on account of medical officers in charge of Local Fund and Municipal hospitals and dispensaries.

READ—also the following paper:—

From W. H. DAWSON, Esq., I.C.S., Officiating Accountant-General, to the Secretary to Government, Local and Municipal Department, dated Fort St. George, 8th June 1899, No. L.F.D.—206.

With reference to G.O., No. 794 L., dated the 13th April 1899, in which it is stated that the proposal to adjust the provincial share of the pay of medical officers in charge of Local fund hospitals and dispensaries by means of a fixed contribution does not commend itself to Government being open to the objection that the reason for such payments is likely to be lost sight of in the course of time, I have the honour to submit the following alternative proposals.

2. (i) In passing Local fund budgets, Government now sanction the inclusion on the receipt side of specified amounts as contributions on account of hospitals and dispensaries, representing the one-eighth share of salary of the medical officers. The payment of these amounts might be finally sanctioned as contributions. In this case the Local fund would get credit for the contribution early in the year.

(ii) In the District Board's revised estimate submitted to Government with the budget estimate for the following year, the amount to be shown under contribution on account of hospitals and dispensaries will, if plan No. (i) is not adopted, be one-eighth of the revised estimate of charges on account of medical subordinates in charge of hospitals in respect of which contribution is payable. The payment of the amount thus entered in the revised estimate under "contribution" might be finally sanctioned as a contribution to the Local funds when passing the budget estimate for the following year. In this case the Local funds would get credit late in the year.

(iii) If neither of the above plans are adopted, the contribution could be fixed by taking one-eighth of the actual charges as shown in the Local fund accounts for the year on account of the medical subordinates in charge of the Local fund hospitals in respect of which a contribution is payable; but as the accounts cannot be made up till after the close of the year, the Local funds would not get credit for the contribution till after the close of the year.

(iv) The contributions could be made monthly, but this would involve a great deal of labour, that would be avoided by the adoption of the other plans.

No. 1486 L., 25TH JULY 1899.

3. The plan that seems most suitable is No. (ii), and I would recommend its adoption. If Government desire further refinement, the contribution calculated on this system could be increased or diminished by the difference between the contributions of the previous year and one-eighth of the actual charges of the previous year as shown in the Local Fund accounts.

4. Under plans (i), (ii) and (iii), including the modification suggested in paragraph 3, the calculation of the amount of contribution is based on the compiled accounts of the Local funds, whereas under plan (iv) the calculation being made every month the monthly bill on which the contribution would be claimed would be susceptible of verification by comparison with the original pay bills on which the medical subordinates had drawn their pay from Local funds.

In my opinion no such verification is necessary and the labour involved in it would be so much labour thrown away. There seems to me to be no objection to taking the Local fund accounts as the basis of the calculation and I therefore deprecate the adoption of the laborious method of monthly contributions.

5. I take this opportunity of pointing out that although G.O., No. 454 L., dated 11th March 1898, relates only to Local funds under Act V of 1884, it is desirable that the same arrangement should hold in the case of Municipalities receiving contributions from Government in the form of one-eighth pay of medical officers, and the remarks made in the present letter apply equally to such cases.

ORDER—No. 1486 L., dated 25th July 1899.

The suggestion made by the Accountant-General in paragraph 2 (ii) of the letter read above is approved, subject to the modification proposed in paragraph 3.

2. G.O., No. 454 L., dated 11th March 1898, will now be communicated to all Municipal Councils with the request that the procedure therein approved, as regards Local Fund budgets, may be adopted in the preparation of Municipal budgets also.
