Local Funds—Budget.

No. 266. Read the following Proceedings of the Board of Revenue, dated 17th January 1876, No. 427 (Miscellaneous):—

Read the following letter from Surgeon-Major H. KING, A.M. and M.B., Acting Sanitary Commissioner for Madras, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Madras, 10th January 1876, No. 15:—

I have the honor to state that the Local Fund Board Estimate for 1876-77 of Chittoor Circle appears to provide Rupees 27,500 for sanitary purposes, which (roughly calculated) is about twenty-seven per cent. of available income. "Improvement of village sites," however, disposes of Rupees 11,570, much of which is expended on roads and streets. Repair of roads and other works not sanitary are so inextricably mixed up in Statement IV.-B with digging of wells and removal of prickly-pear, which may be regarded as sanitary works, that the real sanitary expenditure cannot be ascertained. Two-thirds of the principal source of revenue being necessarily devoted to construction and repairs of roads, I venture to ask the Board to rule that in future years none of the remaining third, little enough for educational, medical, and sanitary purposes, shall be alienated for communications already amply provided for.

2. I am aware that the Board have already reviewed and forwarded this Budget Estimate, but the statements reached this office only to-day.

Submitted to Government in continuation of Board's Proceedings, dated 4th December 1875, No. 3294.

2. It is already the practice to admit only works of village improvement other than road repairs into the lump grant for sanitation. The works referred to are doubtless for sectioning and filling holes in streets so as to admit of surface drainage passing off, and are not road repairs in the strict sense of the term.

No. 267. ORDER THEREON, 27th January 1876, No. 180.

Recorded.

2. The Government presume that the Board of Revenue are careful to see that Statement IV.-B is filled up in such a way as to ensure the due separation of items purely sanitary and items not sanitary.
