Local Funds - Bungalows -

Orders passed respecting the transfer to Local Funds Boards of the Public Works Inspection Bungalows, Tool-Sheds and Rest-houses in the Presidency.

Local Funds—Bungalows.

No. 33. *Read the following Proceedings of the Board of Revenue, dated 18th June* 1874, *No.* 1495 :—

Read again Board's Proceedings, dated 30th and 31st March 1874, Miscellaneous Nos. 2186 and 2225.

Read also the following letters :—

From W. D. HORSLEY, Esq., President of the Local Fund Boards, Cuddapah District, to the Secretary to the Board of Revenue, dated 29th April 1874, No. 282.

I have the honor to reply to the questions asked by the Board in their Proceedings, Miscellaneous No. 2186, dated 30th March 1874 :—

1*stly*.—The Goovalchervoo Bungalow was used by the Department Public Works as an inspection bungalow.

2*ndly*.—It was handed over by that department to the Local Fund Board on no authority.

3*rdly*.—The Circle Board propose to utilize the bungalow for the accommodation of District Officers and travellers, and to charge fees for its occupation. A copy of the Circle Board's Resolution on the subject is enclosed.

2. As I have said in another letter on the subject of bungalows generally, this bungalow will almost entirely be occupied by District Officers when travelling on duty. *Bonâ fide* travellers are rarely, if ever, to be met with in the Madanapalli Circle.

—

Enclosure No. 1.—Extract from Proceedings of Local Fund Board.

—

From the same Officer, dated 5th May 1874, No. 311.

I have the honor to acknowledge the receipt of Board's Proceedings, Miscellaneous No. 2225, dated 31st March 1874.

2. Enclosed is a list of the bungalows which the Local Fund Board, Madanapalli Circle, wish to be placed under their control.

3. Of these bungalows that at Raichoty was the only one in use as a public bungalow when the Local Fund Board was instituted. Those at Gurramkondah and at Kalcudda were closed as public bungalows and transferred as tool-sheds to the Department Public Works by the Government orders quoted in the list. The rest of the bungalows named were purely Department Public Works Inspection Bungalows, or as they are sometimes termed tool-sheds.

4. Seldom or never are any of the bungalows mentioned in the list required by the public. District Officers may be said to be the only persons who ever make use of them. I am still of opinion that public money should not be expended in the up-keep of these bungalows. If I make an exception it will be in favor of the buildings at Raichoty and Gurramkondah, in favor of the former because it was originally erected for the purposes of a public bungalow, and for the latter because it is an old palace and too large to be supported by private funds. Both these bungalows are on the road between Cuddapah and Madanapalli. Strictly

speaking public money should not be spent on them. They accommodate District Officers when travelling on duty and when proceeding from Cuddapah to Madanapalli during the hot weather.

5. I should mention that there are a number of Department Public Works Inspection Bungalows in the Cuddapah Circle. That Board have very properly taken no steps to provide accommodation for District Officers when travelling. An arrangement whereby these bungalows were to be supported by private funds having fallen through, it is now a question what is to be done with them. I fail to see why an exception should be made in favor of the Madanapalli Bungalows. I would have interfered in the matter, but I did not consider that I would be justified in doing so, as I had already submitted the subject for the orders of Government, which orders I hoped would have set the question at rest. I leave it, however, for the Board to say whether the Government having in their Order No. 935, dated 5th July 1873, prohibited the *erection* of bungalows from public money, because the officers for whose benefit they were designed received a sufficiently liberal tentage and travelling allowance, it may not be inferred that the Government would also prohibit the *maintenance* of existing bungalows used almost entirely for the same purpose, and in the maintenance of which the general public is in no way interested.

Submitted for the orders of Government.

2. The Madanapalli Local Fund Board having applied for small allotments to be spent in repairing the Goovalchervoo and Gurramkondah Bungalows, the Board inquired when, and under what authority, they had been given to the Local Fund Board. It appears that in a Resolution, dated the 5th July 1873, the Local Fund

Proceedings of the Madras Government, Financial Department,
5th December 1876. *No.* 2195.

Board decided, after reading a letter from the District Engineer, that they would take charge of seven inspection bungalows. Apparently they thought that the bungalows were attached to the roads and that no application to Government was necessary. In this they were wrong, and the question now is whether Government will authorize the transfer.

Goovalchervoo, Sanepoy, Sambepalli, Kalcudda, Peelair, Gurramkondah and Kadiri.

3. In the letter recorded with G.O., Financial Department, dated 5th July 1873, No. 935, the President of the Cuddapah Local Fund Boards submitted a resolution of the Madanapalli Local Fund Board in favor of repairing the Gurramkondah Bungalow and building three new inspection bungalows. The President represented that it was wrong to spend Local Fund money not only in building but also in repairing bungalows of this sort, because they are meant entirely for the convenience of European District Officers, but made an exception with regard to the Gurramkondah Bungalow, as being larger than usual and used formerly as a public bungalow. The Board in submitting this question to Government dealt only with the question whether cheap inspection bungalows should be built from the Local Fund, and Government decided against it.

4. It remains to decide whether Local Fund Boards shall be authorized, if they please, to keep up existing bungalows of this sort. The President is of the contrary opinion. He urges that the buildings are scarcely ever used except by District Officers, and that the Cuddapah Local Fund Board have refused to take charge of similar bungalows in their circle. He makes exceptions in the cases of the Raichoty public bungalow which was transferred to the Local Fund Board by G.O., Financial Department, 31st August 1872, No. 1153, and need not be further mentioned, and the Gurramkondah Inspection Bungalow which is alluded to above.

5. As in the case submitted to Government in Board's Proceedings, dated 19th March 1874, No. 632, the Board think that inspection bungalows already in existence should be handed over to Local Fund Boards, and that Local Fund Boards should be allowed to keep them in repair if they choose to do so.

No. 34. *Read also the following Proceedings of the Board of Revenue, dated 28th June* 1876, *No.* 5371, (*Miscellaneous*):—

Read the following letter from J. D. B. GRIBBLE, Esq., Acting President of the Local Fund Boards, Cuddapah District, to the Acting Secretary to the Board of Revenue, dated Cuddapah, 3rd June 1876, No. 362:—

With reference to Board's Proceedings, No. 1264, of 16th May 1876, I have the honor to inform the Revenue Board that the bungalow at Goovalchervoo has been omitted by oversight in this office letter No. 173 of 19th March 1876. The bungalow is exactly similar to the other inspection bungalows referred to.

Nilgiris	Wellington bungalow in Cantonment close to reservoir.	Not known.	...	20	...	...	This bungalow was erected when the barracks were built and was generally occupied by an Overseer. It was enlarged and improved by a Mr. Neman, who was continually allowed to occupy it for some time. Its present value would be about Rupees 2,000. It is used chiefly by the District Engineer. It is very desirable that it should remain in the sole possession of the Department Public Works, as it commands the reservoir, and owing to the few houses existing at Wellington there is no other place of abode where an officer could reside in the event of his presence being constantly required at Wellington on completion of No. 4 barracks or other important work. The Military authorities would object to its being made a general district public bungalow. But of course it could be occupied at times on special occasions.
	Kotagherry bungalow near the Kotagherry bazaar.	500	...	30	...	...	Sanctioned in G.O., No. 1390, of 29th April 1869. This bungalow is used by all District Officers of every department when required. Kotagherry possesses very limited accommodation, and the climate does not admit of tents being used. A bungalow for Officers and Overseers of every department is therefore absolutely necessary. It is in the hands of the Department Public Works.
	Iron-shed on Khoonda near Mail Khoonda and Pir Mund.	500	...	10	...	1	This small iron-shed was erected when the trace to the Khoondas was opened. It is situated in a part of the district where there are no houses of any description and where the climate does not admit of tents being pitched. The shed is movable and can be utilized in other parts of the district if so required. It does not afford much accommodation and has been used only by officers of the Department Public Works. The cost of this shed was charged to the Khoonda road.

No. 36. ORDER THEREON, 5th December 1876, No. 2195.

It appears from these papers that it was formerly customary with Officers of the Public Works Department to make and maintain small bungalows out of the allowances for roads and without special sanction. These bungalows are found along many of main lines of road, and are known indifferently as inspection bungalows, tool-sheds, store-sheds, or rest-houses. In their Proceedings, dated 24th January 1874, No. 485, recorded with G.O., dated 23rd May 1874, No. 879, and in those dated 18th June 1874, No. 1495, recorded above, the Board of Revenue have recommended that these sheds should be transferred to Local Fund Boards, and that they should be permitted, if they choose, to maintain them out of Circle Funds. In the Government Order just quoted the Government called for a complete list of the structures in question, with a statement of the original cost of each, and of the annual outlay required for their maintenance. This statement has been supplied by the Public Works Department as above recorded, and the following abstract shows the principal results :—

Districts.	Total Number of Rest-houses, &c.	Original Cost.		Cost of Maintaining during last 3 years.		Approximate Annual Maintenance.		Constructed from Local Funds.	Maintained from Local Funds.
