GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper :—

From A. CRUICKSHANK, Esq., President of the District Board, Anantapur, to the Chief Secretary to Government, dated Anantapur, 7th July 1885, No. 11.

I have the honor to submit the report on the administration of the Local funds of the Anantapur circle during the past official year 1884-85, with the prescribed statements.

2. The Board which consisted of forty members, seventeen of whom were officials and twenty-three non-officials, met eleven times in the year against thirteen last year, no meeting having been held in the month of April 1884. The average attendance of members on each occasion was 14·5. Of these, 3·6 were officials and 10·9 non-officials. The largest number present at any one meeting was 20, and the smallest number 4. A statement showing the constitution of the board as it stood at the end of the year is enclosed.

3. *Comparative Statement.*—The following statement shows the receipts and the charges of the year under report compared with the estimates and the actuals of 1883-84 :—

4. *General taxation.*—The population of this circle according to the Census of 1881 was 594,982. The incidence of taxation, taking the land-cess alone, was one anna five pies per head of population against two annas four pies in the previous year.

5. The year opened with a balance of Rs. 13,004 under the Road fund, Rs. 1,299 under the General fund and Rs. 3,430 under the Endowment fund. The receipts of the year amounted to Rs. 72,583. Adding the opening balance of the year, viz., Rs. 17,733 to this, the available assets were Rs. 90,317. The expenditure amounted to Rs. 1,05,878-2-10, so that there was a deficit of Rs. 15,561-2-1 at the close of the year, which is mainly due to the amounts realized under "Land-cess," "Tolls" and "Fish rents" having been considerably less than those estimated.

6. *Land-cess.*—The revenue obtained under this head (Rs. 53,718) fell short of the estimate (Rs. 85,000) by Rs. 31,282, which is entirely due to the unfavorable character of the season, and to the suspension of collection of kist in the month of December 1884, in accordance with the instructions conveyed in the proceedings of the Board of Revenue, dated 14th October 1884, No. 3560.

7. *Ferry Rents.*—The receipts under this item amounted to Rs. 15-2-8 or Rs. 85 less than the estimate, and Rs. 26 less than the actuals of the previous year. This decrease is due to the scanty rains and the rivers being in consequence of this not passable for a very short time.

8. *Tolls.*—The amount realized from the lease of the three toll-gates at Gooty, Penukonda and Kalyándrúg was Rs. 4,116 which includes Rs. 746-8-0, the amount deposited in March 1884 by the contractors for the lease of the year under report and credited in the accounts of the year 1883-84 (*vide* paragraph 9 of the last year's report). The receipts of this year exceeded those of the previous year by Rs. 2,200, but the

lease was for five months only last year, whereas it was for twelve this year. The amount estimated to be realized was Rs. 7,500, but experience shows that the receipts under this head were over-estimated. Besides the Local fund tolls the Anantapur municipality contributed one-fourth of their toll collections, viz., Rs. 925-7-5. The toll collections were thus Rs. 4,295-7-5.

9. *Fish Rents.*—The receipts from fish rents amounted to Rs. 585-3-7 against an estimate of Rs. 900. The decrease is due to most of the tanks having received no water during the year.

10. *Provincial Grant.*—A sum of Rs. 711 against an estimate of Rs. 620 was paid from Provincial funds as grant-in-aid to the Local Fund Middle schools at Tadpatri and Penukonda, and the Normal school at Anantapur. The increase of Rs. 91 over the estimate is due to salary grants to the masters in the Middle school at Penukonda and the Normal school having been sanctioned subsequent to the submission of the budget.

11. *School Fees.*—The fees collected in the Local Fund schools amounted to Rs. 669-12-0 against an estimate of Rs. 490 and Rs. 549 realized in 1883-84. The increase is due to the adoption of the new scale of fees sanctioned in G.O., dated 10th July 1884, No. 384.

12. *Bungalow Fees.*—The receipts under this head amounted to Rs. 759-5-9 against an estimate of Rs. 400 and Rs. 556, the actuals of the preceding year. The increase is chiefly due to the collection of fixed monthly rents from Messrs. T. E. Thomas and J. H. Brougham who occupied the bungalows at Anantapur and Gooty during the year, and from the Local Fund Engineer for whom the District Board have built a house.

13. *Sale of other property.*—The amount of Rs. 515-8-8 realized under this head is the sale proceeds of the sweepings of the streets, markets and cart-stands in the circle.

Contributions.—The sum of Rs. 2,431 is composed of two items of Rs. 1,033-2-9 and Rs. 1,397-13-7. The former is the contribution paid towards private scavengering and sanitation, and is about half the amount contributed last year as many of those who paid last year now decline to pay, and the latter that paid on account of dispensaries, as particularized in the margin.

14. The other items of receipt do not call for any remarks.

15. *Expenditure.*—The expenditure of the year amounted to Rs. 1,05,878-2-10 against an estimate of Rs. 1,01,400 or Rs. 4,478 in excess of the budget allotment as detailed below :—

17. *New Works—Civil Buildings.*—The amount of Rs. 447 shown under New Works—Civil Buildings, is the expenditure incurred in the construction of a store-room for the Munro dispensary at Gooty. No provision was made for it in the budget because when it was submitted the Munro dispensary and chuttram had not been transferred to the Local Fund board. An allotment was therefore sanctioned from General fund reserve by the Board of Revenue in their proceedings, dated 5th June 1884, No. 2609.

18. *Repairs—Communications.*—The outlay on repairs amounted to Rs. 44,540-14-9, or 99 per cent. of the allotment, viz., Rs. 45,000.

19. The allotments ranged from Rs. 10 to Rs. 150 per mile for the maintenance of roads. In consequence of the maintenance grants being so small, no repairs of any consequence, such as remetalling worn-out portions of roads, could be carried out. Nothing but petty repairs, such as filling up holes and ruts, improving the approaches to streams and keeping the side channels clear, could be done. The total length of roads in the circle, to which attention was paid during the year under report, is 847 miles, of which 828 miles were maintained in the manner described at an average cost of Rs. 51 per mile. Some of the roads are in fair order, but many of them which I have gone over cannot be said to be in good order. The difference between the above length, 847, and that given in the last year's report, 911, arises from 72½ miles of road having been abandoned and 8 miles of a new road included this year.

20. *Civil Buildings.*—The sum of Rs. 383 shown as expenditure under this head is the cost of repairs done to the following works during the year under report :—

	RS.
1. Repairing the gate pillars of the school-house at Penukonda	14
2. Do. the Local Fund chuttram at Gúttúr	55
3. Do. the floor of the dispensary at Penukonda	58
4. Do. the travellers' bungalow at Anantapur	43
5. Land taken up for the compound of the travellers' bungalow at Garladinne	60
6. Repairing the chuttram at Chennacothapully	67
7. Do. the large travellers' bungalow at Gooty	12
8. Do. the detached shed in the compound of the small travellers' bungalow at Gooty	74
Total ...	383

21. *Engineering Establishment.*—The cost of the Engineering establishment exclusive of the contingencies amounted to Rs. 9,876-7-11 or 21·07 per cent. of the total outlay on works.

22. *Tools and Plant.*—Out of the budget allotment, Rs. 600, Rs. 49 only were spent in the purchase of tools.

23. *Miscellaneous Public Improvements.*—The maintenance of the existing avenues was the only item on which the amount entered under this head was spent. The following statement shows the present condition of the avenue trees in the circle. The figures given this year differ from those given last, and it is said that those now given

are correct, as the Overseers who prepared the account this year were strictly ordered to see that the numbers entered in the statements submitted by them were correct :—

25. The inspecting staff consisted of one Inspecting Schoolmaster for the Hindupur taluk and three Deputy Inspectors of Schools, two of whom were entirely paid from Provincial funds, and the Local Fund Board contributed Rs. 1,500 to those funds on account of the other.

26. The annexed statement exhibits the work done by the Inspecting Schoolmaster during the year :—

The Inspecting Schoolmaster joined his appointment on the 8th July 1884 and visited all the schools of the taluk. The cost of inspection amounted to Rs. 268-10-0 against an estimate of Rs. 350.

27. *Training School.*—The Vernacular Normal school at Anantapur was maintained from Local funds during the year at a cost of Rs. 1,589. On the 31st March 1884 there were 14 students who continued till the end of the calendar year 1884, when 7 passed the Special Upper Primary examination against 5 in the previous year and the rest left the school. In January 1885, 15 new students and one of the preceding year were admitted, so that on the last day of the official year under report the number was 16 against 14 on the corresponding date of the previous year. Of

these 16 students 11 were teachers and the others relatives of teachers. The total expenditure includes the sum of Rs. 795 paid as stipends to students at the rate of Rs. 5 each per mensem. The average daily attendance during the year being 14 against 9 in the previous year, the average cost of training each student came to Rs. 99-5-0 against Rs. 143 in the preceding year. In the practising branch of the Normal school the attendance on the 31st March 1885 was 65 against 73 in the preceding year, showing a decrease of 8 pupils, which is due to some boys having gone to work for their livelihood.

28. *Local Fund Schools.*—There were two middle schools and two Hindustani schools on the combined system at Penukonda and Tadpatri.

29. *Penukonda Middle School.*—This school had on its rolls 64 pupils on the 31st March 1885 against 39 on the same date of the previous year, showing an increase of 25 pupils. The results of the examination of the school were satisfactory. Out of 16 pupils that went up for the Upper Primary examination 13 passed, and out of 10 pupils that went up for the Lower Primary examination 9 passed, against 9 and 12, respectively, in the year 1883-84.

30. *Combined System School, Penukonda.*—This school had an attendance of 40 pupils against 33 in the preceding year, showing an increase of 7 pupils.

31. *Hindustani Combined System School, Tadpatri.*—This school was started at Tadpatri in October 1884 under G.O., No. 566, dated 8th September 1884. The Deputy Inspector who inspected the school in March 1885 reports that the school had an attendance of 38 pupils, and was making satisfactory progress

32. *Tadpatri Middle School.*—The strength of this school was 44 against 63 in the preceding year, showing a decrease of 19 pupils, which is due to the exceptional state of the season and to the adoption of the new scale of fees. In the Upper and Lower Primary examination held in December last the school showed good results, 9 out of 11 passing in the former, and 11 out of 16 in the latter, against 5 and 14, respectively, in the year 1883-84. The following statement exhibits in one view the attendance at each of the schools mentioned above, the cost incurred by the Local Fund board for their maintenance and the cost of educating each pupil during the year under report :—

33. *Results Grants.*—The number of schools registered for examination under the results system during the year was 277, of which 223 were examined. The number of pupils presented for examination was 3,303, of whom 1,954 passed earning a grant of Rs. 6,261-5-8 against an estimate of Rs. 3,300. The actuals for 1883-84 were Rs. 4,718-4-9. A statement showing the different kinds of schools is submitted in the form prescribed in the proceedings of the Board of Revenue, No. 2637, dated 6th September 1883.

34. *Grant III.*—Seven dispensaries were maintained by the Circle Board as noted in the margin. Those at Penukonda and Tadpatri were in charge of first-class Hospital Assistants, and those at Dharmavaram, Kalyándrúg and Hindupur were in charge of third-class Hospital Assistants. The Munro dispensary at Gooty and that at Uravakonda were in

charge of a second-grade Apothecary and a second-class Hospital Assistant respectively. There is accommodation for in-patients in five of those dispensaries, viz., Hindupur, Gooty, Tadpatri, Penukonda, and Kalyándrúg. The total cost of the dispensaries was Rs. 9,339 against an estimate of Rs. 8,300. The actuals for 1883-84 were Rs. 4,874. The number of patients treated during the year was 23,779 against 16,454 in the previous year, this showing an increase of 7,325 which is due to the opening of the two new dispensaries at Hindupur and Dharmavaram in the year under report and to a better appreciation of the European method of treatment on the part of the natives.

35. The subjoined statement shows the number of in and out patients as compared with that of the preceding year :—

A copy of the Zillah Surgeon's report regarding the working of the dispensaries during the year is herewith forwarded.

37. *Vaccination.*—The total expenditure on vaccination was Rs. 4,376-6-10 against an estimate of Rs. 4,240. The actuals of 1883-84 were Rs. 4,716. The total number vaccinated during the year was 13,543 against 14,470 in the preceding year ; 12,714 of them were successful ; and the average cost of each successful case was As. 5 and Ps. 6 as in the preceding year. The decrease of 927 cases is said to be due to the absence on sick and privilege leave of the vaccinators noted in the margin, and to men not properly qualified for the work having had to be employed during their absence. Shortly after joining the district, I found that the number of those being vaccinated during the year under report was less than that of those vaccinated in the corresponding months of last year, whereupon I ordered every vaccinator who failed to vaccinate the number required according to his class to be paid proportionately for the work done by him. This has had a good effect, and I think at the end of the current year there will be found considerable improvement.

Subramania Pillay, four months' sick leave.
T. Armugam Pillay, four months' leave without pay.
P. Condiah, one month's privilege leave.
Sabapathy, do. do.
P. Narrainsawmy, 20 days' privilege leave.
Rasool Saib, 10 days' do.

38. *Sanitation.*—The expenditure incurred under this head amounted to Rs. 6,293 out of an allotment of Rs. 7,100, as detailed below :—

44. *Grant IV.*—The expenditure incurred under Grant IV amounted to Rs. 4,914-5-4 against Rs. 4,300. The actuals of 1883-84 were Rs. 4,594. The increase over the estimate is due to the debit of Rs. 199-1-1 which had to be paid in the year under report for printing work done for the late Gooty and Penukonda circles in 1881-82, and to a larger sum having had to be paid to the members of the Board on account of travelling allowance than was anticipated.

45. The demand, collection and balance statement for the year 1884-85 is herewith submitted.

46. *Public Health.*—Public health was not altogether satisfactory during the latter half of the year. Cholera made its appearance in three taluks of the district, viz., Dharmavaram, Gooty and Tadpatri in an epidemic form and caused 474 deaths. There were also 511 deaths from small-pox during the year. Steps were at once taken to prevent the spread of these diseases. The number of births registered during the year was 22,970 against 21,489 in the previous year or 38·6 per mille. The number of deaths was 12·520 against 10,665 in the preceding year or 21·05 per mille.

Administration report of the Local Fund dispensaries in the Anantapur district for the year 1884-85.

The general health of the public has been satisfactory during the year.

2. Cholera made its appearance in Tadpatri, Dharmavaram and Gooty in October, November 1884 and January 1885 in an epidemic form, and from a few other parts of the district reports have been received of the prevalence of cholera. These three taluks have suffered far more than any other part of the district. In Tadpatri 190 cases with 88 deaths, Dharmavaram 198 cases with 86 deaths, and Gooty 138 cases with 65 deaths are recorded. All precautionary measures were adopted to prevent the spread of the disease.

3. Small-pox was prevalent in Hindupur and Kalyándrúg during the year under report. Immediate steps were taken to prevent its spread by sending vaccinators to the infected localities to conduct vaccine operations. At the latter station 147 cases were reported, out of which 10 proved fatal, but in the former neither attacks nor deaths are shown.

4. The principal diseases prevalent were fevers, ulcers, itch, ophthalmia, rheumatic and syphilitic affections, diarrhœa, dysentery, worms and various injuries.

5. The sanitary condition of the district has improved during the past year.

6. The water is obtained from tanks, wells, and the Pennér river; several wells and tanks are set apart for drinking purposes. Measures are adopted, as far as possible, to prevent pollution of drinking water. Owing to the almost total failure of rainfall in some of the taluks during the year, the water-supply is now scanty.

7. There are seven dispensaries, two of which, viz., at Hindupur and Dharmavaram, were opened in the year under report. Of these seven dispensaries only five provide for in-patients, viz., at Hindupur, Gooty, Tadpatri, Penukonda and Kalyándrúg.

8. There were 263 in and 23,516 out patients treated against 247 in and 18,667 out patients in the previous year, showing an increase among in and out patients by 16 and 4,849, ation of European treatment by the natives.

9. The number of deaths was 131. The large number of deaths was chiefly due to cholera and other complaints of a serious nature. A comparative statement of persons treated at each dispensary with the number of deaths is given below :—

14. The cost of medical stores and instruments for the whole year for all the Local Fund dispensaries was Rs. 1,028-15-0 as against Rs. 916-2-9 in the previous year, showing an increase in expenditure of Rs. 112-12-3. The contingent and miscellaneous charges amounted to Rupees 635-6-7 as against Rs. 524-0-5 in the previous year, which shows an increase in expenditure of Rs. 111-6-2. The salaries of medical subordinates was Rs. 5,397-6-9 as against Rs. 4,835-3-11 in the previous year, which shows an increase in expenditure of Rs. 562-2-10. The salaries of clerks and servants was Rs. 1,959-15-6 as against Rs. 1,657-10-1 in the previous year, which shows an increase in expenditure of Rs. 302-5-5.

15. The total cost of diet for the year under report was Rs. 522-7-0 as against Rs. 491-11-0 in the previous year, which shows an increase in expenditure of Rs. 30-12-0.

16. The increased expenditure for the above items is chiefly due to opening of new dispensaries, viz., at Dharmavaram and Hindupur.

Balance	— 15,647	8,048	17,648
Grand total	90,231	1,14,920	1,17,829

2. *Opening Balance.*—The year opened with a balance of Rs. 17,648 against Rs. 7,250 anticipated in the budget, the excess being due to the short expenditure on public works in 1883-84, when the season for road work was unfavorable in consequence of the failure of the monsoons.

3. *Receipts.*—The actual receipts amounted to Rs. 72,583 against an estimate of Rs. 1,07,670 and Rs. 1,05,402, the actuals of the preceding year, the decrease being mainly due to the falling off in the collections under Land-cess and Tolls. The cess on land yielded Rs. 53,718 against an estimate of Rs. 85,000 and Rs. 88,463 realized in 1883-84, the decrease being ascribed to the unfavorable character of the season and the suspension of the collection of kist in December 1884, in accordance with the instructions of Government. The coll[illegible] under this head were only 52 per cent. of the demand against 79 per cent. in [illegible]. The income from tolls amounted to Rs. 4,295 against an estimate of Rs. 8,[illegible] 3,537 realized in the preceding year. The decrease in the former case w[illegible]e receipts having been over-estimated in the budget, the increase in the [illegible]eing due to the fact that the tolls were leased out for only five months in t[illegible] year instead of twelve months as in the year under report. The sum of R[illegible]own under this head is made up of Rs. 3,370 derived from the lease of the [illegible]ocal Fund toll-gates at Gooty, Penukonda and Kallyandrug, and of Rs. 925, [illegible] one-fourth share of the toll collections contributed by the Anantapur Municipality. The contributions by private individuals during the year amounted to Rs. 2,433 against Rs. 4,172 in the previous year, the

contributions were given chiefly in support of dispensaries and to meet the expenses of village sanitation. The sum of Rs. 7,594 shown under "Receipts from endowments, &c.," is made up of the market rents amounting to Rs. 5,544 against Rs. 2,535 in the preceding year, and of Rs. 2,050 contributed by Government for the maintenance of the Munro Chattram at Gooty. The increase in the receipts from markets was due to the extension of the fee-system to six markets; the Munro Chattram was transferred to the Local Fund Board only in the beginning of the year under report, and there were therefore no receipts on this account in 1883-84. The other items of receipt call for no remarks.

4. *Expenditure.*—The total expenditure amounted to Rs. 1,05,878 against an estimate of Rs. 1,06,872 and Rs. 99,380 incurred in 1883-84. It is observed that the outlay exceeded the assets by Rs. 15,647 owing to the falling off in the collections under Land-cess and Tolls. In paragraph 15 of the report it is stated that the total expenditure exceeded the allotment by Rs. 4,478, but this statement is incorrect as the President has omitted to include the subsequent allotments in the column headed "Estimate of 1884-85" in statement I-B.

5. *Public Works.*—No expenditure was incurred on New Works—Communications, though Rs. 914 were allotted subsequent to the issue of the budget. The outlay on repairs was Rs. 44,541 against an allotment of Rs. 45,000. Out of 911 miles of road in the district in the previous year, 72 miles were abandoned and 8 miles of new road were added in the year under report. The total length of roads to be maintained was thus 847 miles, of which only 828 miles were provided with maintenance grants. These maintenance grants spread over such a length of road are so small that almost nothing can be done with them. It is a matter for consideration whether it would not be better to confine the grants in one year to a small length of road and thus make the repairs more satisfactory, leaving the rest of the roads to be repaired in the next year. Probably Rs. 300 spent on a mile of road once in two years is better than Rs. 150 spent every year. The general condition of the roads was not satisfactory. The sum of Rs. 1,500 was spent on the maintenance of avenues against an estimate of Rs. 2,900. The total number of trees in the avenues at the end of the year is stated to be 22,854. The Local Fund Engineering establishment including contingencies cost Rs. 10,474 or 22 per cent. of the outlay on works, the limit fixed by Government being 20 per cent. Rs. 2,500 were paid to Provincial funds in part liquidation of the famine debt of Rs. 5,895.

6. *Endowments.*—The endowed institutions in charge of the District Board are the Munro's dispensary and chattram at Gooty and the markets. There was a balance of Rs. 1,952 in favor of the dispensary and chattram at the beginning of the year, which, added to the receipts amounting to Rs. 2,050 contributed by Government, made the assets Rs. 4,002. The charges being Rs. 4,452 the excess of Rs. 450 was met by an appropriation from the General fund. The receipts from markets, including a balance of Rs. 1,478, amounted to Rs. 7,022, and the charges to Rs. 4,501, leaving a balance of Rs. 2,521 at the close of the year.

7. *Education.*—The total expenditure on education was Rs. 11,895 against an estimate of Rs. 9,296. The Inspecting staff consisted of three Deputy Inspectors and one Inspecting Schoolmaster; the work turned out by the latter contrasts favorably with that of the previous year, 54 villages having been visited and 51 schools prepared for examination against 42 and 33 re[illegible]ly in 1883-84. The Normal school at Anantapur sent up 14 pupils for th[illegible] Upper Primary examination, 7 of whom passed against 5 in the previous [illegible]e were 16 pupils on the rolls on the 31st March 1885. The total cost [illegible]l being Rs. 1,589 against Rs. 1,293 in 1883-84, the cost of training eac[illegible]lent was Rs. 113-8-0 against Rs. 258-9-0. The practising branch of the s[illegible]ttended by 65 pupils against 73 in the preceding year, but no information [illegible]egarding the progress of this class. There were 2 middle-class schools at Pen[illegible]nd Tadpatri, which were attended by 64 and 44 pupils against 39 and 63 respe[illegible]y in the previous year, and the progress made by both these schools was satis[illegible]ory. There were also two Hindustani combined system schools of the lower class at these places, the one at Tadpatri having been opened in October 1884 under the sanction accorded in G.O., dated 8th September 1884, No. 566. These schools were attended by 40 and 38 pupils respectively. The Deputy Inspector's report on the school at Tadpatri is favorable, but it contains no information regarding the progress of the school at Penukonda. Out of 277 result grant schools registered for examination 223 schools with 3,302 pupils were examined. Of these, 1,954 pupils passed and earned a grant of Rs. 6,262 against an estimate of Rs. 3,438. The cause of this large difference should have been explained.

8. *Hospitals and Dispensaries.*—There were 7 dispensaries, including the 2 newly opened at Dharmavaram and Hindupur and the Munro dispensary at Gooty transferred to the Local Fund Board during the year under report, and 5 of these were provided with accommodation for in-patients. The total cost of these institutions was Rs. 9,230 against an estimate of Rs. 8,795, and the total number of persons treated was 263 in and 23,516 out patients against 195 and 16,529 respectively in the previous year. The 3 midwives attached to the dispensaries at Gooty, Penukonda and Tadpatri attended 113 cases compared with 41 in the preceding year.

9. *Vaccination.*—The vaccine staff consisting of 2 Deputy Inspectors, 5 first and 7 second-class vaccinators and 3 probationers performed 13,543 operations against 14,470 in the preceding year, the number of successful cases in the year under report being 12,714 compared with 13,684, the number in the previous year. The decrease is stated to be due to the absence of some of the vaccinators on leave, and to men not properly qualified having been employed in their stead. The results were very unsatisfactory, but it is noted that the President has reason to think that the results of the current year will show an improvement. The total cost of the vaccine operations amounted to Rs. 4,377 against Rs. 4,717 in the previous year, but the cost of each successful case was the same in the two years, viz., Annas 5-6.

10. *Sanitation.*—The expenditure under this head was Rs. 6,318, as shown below, compared with an allotment of Rs. 6,850 :—

	Rs.
Improvement of water-supply	49
Conservancy establishment	5,804
Sanitary arrangements at fairs and festivals	196
Other sanitary outlay including cholera charges	269
Total ..	6,318

The outlay on sanitation was 18·6 per cent. of the General Fund assets against the minimum of 12·5 per cent. fixed by Government. The public health was not satisfactory as cholera appeared in three of the taluks and caused 474 deaths, while 511 persons died from small-pox which was prevalent in two taluks.

11. *Choultries, &c.*—Including the Munro chuttram at Gooty, there were 14 chuttrams in charge of the Local Fund Board; the cost of their establishment, contingencies and repairs amounted to Rs. 1,490. There were 16 bungalows maintained by the Board in which 140 travellers halted. The receipts amounted to Rs. 759 against an estimate of Rs. 400, while the charges, including Rs. 118 spent on repairs, were Rs. 417. The increase in the receipts, notwithstanding the decrease in the number of travellers, was due chiefly to the collec[illegible]of fixed monthly rents from Messrs. T. E. Thomas and J. H. Brougham and the I[illegible]nd Engineer, who occupied the bungalows at Gooty and Anantapur.

12. *General Taxation.*—The incid[illegible]tion per head of the population, including and excluding tolls, was Ann[illegible]nnas 1-5 against Annas 2-6 and Annas 2-5 respectively in the preceding[illegible] decrease in the incidence is due to the falling off in the collections under I[illegible].

13. *Local Fund Board.*—The Distr[illegible]rd, which consisted of 40 members—17 officials and 23 non-officials—met eleve[illegible]mes in the year, and the average attendance

at each meeting was 3·6 among officials and 10·9 among non-officials. Considering the financial difficulties under which the Board labors, a very fair amount of useful work was done during the year.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

Read—the following paper:—

From A. CRUICKSHANK, Esq., President of the District Board, Anantapur, to the Chief Secretary to Government, dated Anantapur, th July 1885, No. 41.

I have the honor to submit the report on the administration of the Local funds of the Anantapur circle during the past official year 1884-85, with the prescribed statements.

2. The board which consisted of forty members, seventeen of whom were officials and twenty-three non-officials, met eleven times in the year against thirteen last year, no meeting having been held in the month of April 1884. The average attendance of members on each occasion was 14·5. Of these, 3·6 were officials and 10·9 non-officials. The largest number present at any one meeting was 20, and the smallest number 4. A statement showing the constitution of the board as it stood at the end of the year is enclosed.

3. *Comparative Statement.*—The following statement shows the receipts and the charges of the year under report compared with the estimates and the actuals of 1883-84:—

4. *General taxation.*—The population of this circle according to the Census of 1881 was 594,982. The incidence of taxation, taking the land-cess alone, was one anna five pies per head of population against two annas four pies in the previous year.

5. The year opened with a balance of Rs. 13,004 under the Road fund, Rs. 1,299 under the General fund and Rs. 3,430 under the Endowment fund. The receipts of the year amounted to Rs. 72,583. Adding the opening balance of the year, viz., Rs. 17,733 to this, the available assets were Rs. 90,317. The expenditure amounted to Rs. 1,05,878-2-10, so that there was a deficit of Rs. 15,561-2-1 at the close of the year, which is mainly due to the amounts realized under "Land-cess," "Tolls" and "Fish rents" having been considerably less than those estimated.

6. *Land-cess.*—The revenue obtained under this head (Rs. 53,718) fell short of the estimate (Rs. 85,000) by Rs. 31,282, which is entirely due to the unfavorable character of the season, and to the suspension of collection of kist in the month of December 1884, in accordance with the instructions conveyed in the proceedings of the Board of Revenue, dated 14th October 1884, No. 3560.

7. *Ferry Rents.*—The receipts under this item amounted to Rs. 15-2-8 or Rs. 85 less than the estimate, and Rs. 26 less than the actuals of the previous year. This decrease is due to the scanty rains and the rivers being in consequence of this not passable for a very short time.

8. *Tolls.*—The amount realized from the lease of the three toll-gates at Gooty, Penukonda and Kalyándrúg was Rs. 4,116 which includes Rs. 740-8-0, the amount deposited in March 1884 by the contractors for the lease of the year under report and credited in the accounts of the year 1883-84 (*vide* paragraph 9 of the last year's report). The receipts of this year exceeded those of the previous year by Rs. 2,200, but the

The toll collections were the number of patien[illegible] year, thus s[illegible]

9. *Fish Rents.*—The [illegible] dispensar[illegible] rents amounted to Rs. [illegible]5-3-7 against an estimate of Rs. 900. The [illegible] appreciable [illegible] the cost of the tanks [illegible] receive[illegible] water during the year.

10. *Provincial Grant.*—A sum of Rs. 711 against an estimate of Rs. 620 was paid from Provincial funds as grant-in-aid to the Local Fund Middle schools at Tadpatri and Penukonda and the Normal school at Anantapur. The increase of Rs. 91 over the estimate is due to salary grants to the masters in the Middle school at Penukonda and the Normal school having been sanctioned subsequent to the submission of the budget.

11. *School Fees.*—The fees collected in the Local Fund schools amounted to Rs. 669-12-0 against an estimate of Rs. 490 and Rs. 549 realized in 1883-84. The increase is due to the adoption of the new scale of fees sanctioned in G.O., dated 10th July 1884, No. 384.

12. *Bungalow Fees.*—The receipts under this head amounted to Rs. 759-5-9 against an estimate of Rs. 400 and Rs. 556, the actuals of the preceding year. The increase is chiefly due to the collection of fixed monthly rents from Messrs. T. E. Thomas and J. H. Brougham who occupied the bungalows at Anantapur and Gooty during the year, and from the Local Fund Engineer for whom the district board have built a house.

13. *Sale of other property.*—The amount of Rs. 515-8-8 realized under this head is the sale proceeds of the sweepings of the streets, markets and cart-stands in the circle.

Contributions.—The sum of Rs. 2,431 is composed of two items of Rs. 1,033-2-9 and Rs. 1,397-13-7. The former is the contribution paid towards private scavengering and sanitation, and is about half the amount contributed last year as many of those who paid last year now decline to pay, and the latter that paid on account of dispensaries, as particularized in the margin.

14. The other items of receipt do not call for any remarks.

15. *Expenditure.*—The expenditure of the year amounted to Rs. 1,05,878-2-10 against an estimate of Rs. 1,01,400 or Rs. 4,478 in excess of the budget allotment as detailed below:—

17. *New Works—Civil Buildings.*—The amount of Rs. 447 shown under New Works—Civil Buildings, is the expenditure incurred in the construction of a store-room for the Munro dispensary at Gooty. No provision was made for it in the budget because when it was submitted the Munro dispensary and chuttram had not been transferred to the Local Fund board. An allotment was therefore sanctioned from General fund reserve by the Board of Revenue in their proceedings, dated 5th June 1884, No. 2609.

18. *Repairs—Communications.*—The outlay on repairs amounted to Rs. 44,540-14-9, or 99 per cent. of the allotment, viz., Rs. 45,000.

19. The allotments ranged from Rs. 10 to Rs. 150 per mile for the maintenance of roads. In consequence of the maintenance grants being so small, no repairs of any consequence, such as remetalling worn-out portions of roads, could be carried out. Nothing but petty repairs, such as filling up holes and ruts, improving the approaches to streams and keeping the side channels clear, could be done. The total length of roads in the circle, to which attention was paid during the year under report, is 847 miles, of which 828 miles were maintained in the manner described at an average cost of Rs. 51 per mile. Some of the roads are in fair order, but many of them which I have gone over cannot be said to be in good order. The difference between the above length, 847, and that given in the last year's report, 911, arises from $72\frac{1}{2}$ miles of road having been abandoned and 8 miles of a new road included this year.

20. *Civil Buildings.*—The sum of Rs. 383 shown as expenditure under this head is the cost of repairs done to the following works during the year under report:—

		RS.
1.	Repairing the gate pillars of the school-house at Penukonda	14
2.	Do. the Local Fund chuttram at Gúttúr	55
3.	Do. the floor of the dispensary at Penukonda	58
4.	Do. the travellers' bungalow at Anantapur	43
5.	Land taken up for the compound of the travellers' bungalow at Garladinne	60
6.	Repairing the chuttram at Chen[illegible]cothapully	67
7.	Do. the large travellers' bungalow at Gooty	12
8.	Do. the detached shed in the compound of the small travellers' bungalow at Gooty	74
	Total ...	383

21. *Engineering Establishment.*—The cost of the Engineering establishment exclusive of the contingencies amounted to Rs. 9,876-7-11 or 21·07 per cent. of the total outlay on works.

22. *Tools and Plant.*—Out of the budget allotment, Rs. 600, Rs. 49 only were spent in the purchase of tools.

23. *Miscellaneous Public Improvements.*—The maintenance of the existing avenues was the only item on which the amount entered under this head was spent. The following statement shows the present condition of the avenue trees in the circle. The figures given this year differ from those given last, and it is said that those now given

lease [illegible] of a second-grade [illegible] in the [illegible] and a se[illegible] year were [illegible] strictly ordered amount [illegible]. The inspecting schoolmaster joined his appointment on the 8th July 1884 and visited all the schools of the taluk. The cost of inspection amounted to Rs. 268-10-0 against an estimate of Rs. 350.

27. *Training School.*—The Vernacular Normal school at Anantapur was maintained from Local funds during the year at a cost of Rs. 1,589. On the 31st March 1884 there were 14 students who continued till the end of the calendar year 1884, when 7 passed the Special Upper Primary examination against 5 in the previous year and the rest left the school. In January 1885, 15 new students and one of the preceding year were admitted, so that on the last day of the official year under report the number was 16 against 14 on the corresponding date of the previous year. 28. *Local Fund Schools.*—There were two [illegible] schools on the combined system at Penukonda and Tadpatri.

29. *Penukonda Middle School.*—This school had on its rolls [illegible] March 1885 against 39 on the same date of the previous year [illegible] 25 pupils. The results of the examination of the school were [illegible] 16 pupils that went up for the Upper Primary examination 13 [illegible] shown under [illegible] pupils that went up for the Lower Primary examination 9 passed, [illegible] 12, respectively, in the year 1883-84.

30. *Combined System School, Penukonda.*—This school had an attendance of 40 pupils against 33 in the preceding year, showing an increase of 7 pupils.

31. *Hindustani Combined System School, Tadpatri.*—This school was started at Tadpatri in October 1884 under G.O., No. 566, dated 8th September 1884. The deputy inspector who inspected the school in March 1885 reports that the school had an attendance of 38 pupils, and was making satisfactory progress

32. *Tadpatri Middle School.*—The strength of this school was 44 against 63 in the preceding year, showing a decrease of 19 pupils, which is due to the exceptional state of the season and to the adoption of the new scale of fees. In the Upper and Lower Primary examination held in December last the school showed good results, 9 out of 11 passing in the former, and 11 out of 16 in the latter, against 5 and 14, respectively, in the year 1883-84. The following statement exhibits in one view the attendance at each of the schools mentioned above, the cost incurred by the Local Fund board for their maintenance and the cost of educating each pupil during the year under report :—

33. *Results Grants.*—The number of schools registered for examination under the results system during the year was 277, of which 223 were examined. The number of pupils presented for examination was 3,303 of whom 1,954 passed earning a grant of Rs. 6,261-5-8 against an estimate of Rs. 3,300. The actuals for 1883-84 were Rs. 4,718-4-9. A statement showing the different kinds of schools is submitted in the form prescribed in the proceedings of the Board of Revenue, No. 2637, dated 6th September 1883.

34. *Grant III.*—Seven dispensaries were maintained by the circle board as noted in the margin. Those at Penukonda and Tadpatri were in charge of first-class hospital assistants, and those at Dharmavaram, Kalyándrúg and Hindupur were in charge of third-class hospital assistants. The Munro dispensary at Gooty and that at Uravakonda were in

tively [illegible] of those dispensaries, viz.,
Gooty, Tadpatri, Penukonda, [illegible] Kalyándrúg. The total cost of the
dispensaries was Rs. 9,[illegible]29 against [illegible] Rs 8,300. The actuals for 1883-84
were Rs. 4,874. The [illegible] during the year was 23,779 against
16,454 in the previous [illegible] showing an increase of 7,325 which is due to the
opening of the two [illegible] at Hindupur and Dharmavaram in the year
under report and to a [illegible] tion of the European method of treatment on the
part of the natives.

35. The subjoined statement shows the number of in and out patients as compared with that of the preceding year :—

A copy of the Zillah Surgeon's report regarding the working of the dispensaries during the year is herewith forwarded.

37. *Vaccination.*—The total expenditure on vaccination was Rs. 4,376-6-10 against an estimate of Rs. 4,240. The actuals of 1883-84 were Rs. 4,716. The total number vaccinated during the year was 13,543 against 14,470 in the preceding year; 12,714 of them were successful; and the average cost of each successful case was Rs. 5 and Ps. 6 as in the preceding year. The decrease of 927 cases is said to be due to the absence on sick and privilege leave of the vaccinators noted in the margin, and to men not properly qualified for the work having had to be employed during their absence. Shortly after joining the district, I found that the number of those being vaccinated during the year under report was less than that of those vaccinated in the corresponding months of last year, whereupon I ordered every vaccinator who failed to vaccinate the number required according to his class to be paid proportionately for the work done by him. This has had a good effect, and I think at the end of the current year there will be found considerable improvement.

Subramania Pillay, four months' sick leave.
T. Armugam Pillay, four months' leave without pay.
P. Coodiah, one month's privilege leave.
Sabapathy, do. do.
P. Narainsawmy, 20 days' privilege leave.
Rasool Saib, 10 days' do.

Grant IV.—The expenditure incurred under Grant IV amounted to Rs. 4,914-5-4 against Rs. 4,300. The actuals of 1883-84 were Rs. 4,594. The increase over the estimate is due to the debit of Rs. 199-1-1 which had to be paid in the year under report for printing work done for the late Gooty and Penukonda circles in 1881-82, and to a larger sum having had to be paid to the members of the board on account of travelling allowance than was anticipated.

The demand, collection and balance statement for the year 1884-85 is herewith submitted.

Public Health.—Public health was not altogether satisfactory during the latter half of the year. Cholera made its appearance in three taluks of the district, viz., Dharmavaram, Gooty and Tadpatri in an epidemic form and caused 474 deaths. There were also 511 deaths from small-pox during the year. Steps were at once taken to prevent the spread of these diseases. The number of births registered during the year was 22,970 against 21,489 in the previous year or 38·6 per mille. The number of deaths was 12·520 against 10,665 in the preceding year or 21·05 per mille.

Administration report of the Local Fund dispensaries in the Anantapur district for the year 1884-85.

The general health of the public has been satisfactory during the year.

2. Cholera made its appearance in Tadpatri, Dharmavaram and Gooty in October November 1884 and January 1885 in an epidemic form, and from a few other parts of the district reports have been received of the prevalence of cholera. These three taluks have suffered far more than any other part of the district. In Tadpatri 190 cases with 88 deaths, Dharmavaram 198 cases with 86 deaths, and Gooty 138 cases with 65 deaths are recorded precautionary measures were adopted to prevent the spread of the disease.

...evalent in Hindupur and Kalyándrúg during the year under report. Immed... were taken to prevent its spread by sending vaccinators to the infected localities to conduct ...ne operations. At the latter station 147 cases were reported, out of which 10 proved fatal, but in the former neither attacks nor deaths are shown.

4. The principal diseases prevalent were fevers, ulcers, itch, ophthalmia, rheumatic and syphilitic affections, diarrhœa, dysentery; worms and various injuries.

5. The sanitary condition of the district has improved during the past year.

6. Drinking water is obtained from tanks, wells and the Pennér river; several wells and tanks are set apart for drinking purposes. Measures are adopted, as far as possible, to prevent pollution of drinking water. Owing to the almost total failure of rainfall in some of the taluks during the year, the water-supply is now scanty.

7. There are seven dispensaries, two of which, viz., at Hindupur and Dharmavaram, were opened in the year under report. Of these seven dispensaries only five provide for in-patients, viz., at Hindupur, Gooty, Tadpatri, Penukonda and Kalyándrúg.

8. There were 263 in and 23,516 out patients treated against 247 in and 18,667 out patients in the previous year, showing an increase among in and out patients by 16 and 4,849, respectively, which was due to the opening of the two new dispensaries and to a better appreciation of European treatment by the natives.

9. The number of deaths was 131. The large number of deaths was chiefly due to cholera and other complaints of a serious nature. A comparative statement of persons treated at each dispensary with the number of deaths is given below:—

Dispensary.	In-patients.					Out-patients.				
	Number in 1883-84.	Number in 1884-85.	Discharged.	Died.	Cured.	Number in 1883-84.	Number in 1884-85.	Discharged.	Died.	Cured.

14. The cost of medical stores and instruments for the whole year for all the Local Fund dispensaries was Rs. 1,028-15-0 as against Rs. 916-2-9 in the previous year, showing an increase in expenditure of Rs. 112-12-3. The contingent and miscellaneous charges amounted to Rupees 635-6-7 as against Rs. 524-0-5 in the previous year, which shows an increase in expenditure of Rs. 111-6-2. The salaries of medical subordinates was Rs. 5,397-6-9 as against Rs. 4,835-3-11 in the previous year, which shows an increase in expenditure of Rs. 562-2-10. The salaries of clerks and servants was Rs. 1,959-15-6 as against Rs. 1,657-10-1 in the previous year, which shows an increase in expenditure of Rs. 302-5-5.

15. The total cost of diet for the year under report was Rs. 522-7-0 as against Rs. 491-11-0 in the previous year, which shows an increase in expenditure of Rs. 30-12-0.

16. The increased expenditure for the above items is chiefly due to opening of new dispensaries, viz., at Dharmavaram and Hindupur.

Anantapur Dated 7th October 1885

To

The Clerk to Govt:
President District Board
Anantapur.

The Chief Secretary to Government
Madras.

Sir,

I have the honor to submit the report on the administration of the Local Funds of the Anantapur Circle during the past official year 1884-85 with the prescribed Statements.

2. The Board which consisted of forty members, 17 of whom were officials and 23 non officials, met eleven times in the year against thirteen last year; no meeting having been held in the month of April 1884. The average attendance of members on each occasion was 14·5. Of these 3·6 were officials and 10·9 non officials. The largest number present at any one meeting was 20 and the smallest number 9. A Statement shewing the Constitution of the Board as it stood at the end of the year is enclosed.

3. Comparative Statement. The following statement shews the receipts and the charges of

prepared in accordance with the
the requirements of 1883-84.

4. General Taxation. The population of this Circle according to the Census of 1881, was 594982. The incidence of taxation — taking the Land Cess alone was one anna five pies per head of population against 2 annas 4 pies in the previous year.

5. The year opened with a balance of Rupees 13004 under the Road Fund, Rs. 1299 under the General Fund and Rs. 3130 under the Endowment Fund. The receipts of the year amounted to Rs. 72,583. Adding the opening balance of the year viz. Rs. 17733 to this the available assets were Rs. 90317. The expenditure amounted to Rs. 105878-2-10 so that there was a deficit of Rs. 15561-2-1 at the close of the year which is mainly due to the amounts realized under "Land Cess" "Tolls" and "Fish Rents" having been considerably less than those estimated.

6. Land Cess. The revenue obtained under the

this head (Rs: 52,710) fell short of the Estimate (Rs: 85,000) by Rs: 31282 which is entirely due to the unfavorable character of the season and to the suspension of Collections first in the months of December 1883 in accordance with the instructions conveyed in the Proceedings of the Board of Revenue dated 16th October 1884, No. 3560.

7. Ferry Rents. The receipts under this item amounted to Rs: 15.2.8 or Rs: 85 -- less than the Estimate and Rs: 26 less than the actuals of the previous year. This decrease is due to the scanty rains and the rivers being in consequence of this not passable for a very short time.

8. Tolls. The amount realized from the lease of the three toll gates at Goorty Piruthonda and Kallyandroog was Rupees 4116 which includes Rs: 746.8.0 the amount deposited in March 1884 by the Contractors for the lease of the year under report and Credited in the accounts of the year 1883:84 Vide para 9 of the last years report. The receipts of this year exceeded those of the previous year by Rs: 2200 but the lease was for five months only last year whereas it was for a twelve this year. The amount Estimated to be realized was Rs: 7500 but experience shows that the receipts under this head were over Estimated

Besides

besides the Local Fund Tolls the Anantapur Municipality Contributed one fourth of their toll Collections viz Rs: 785.1.6 The toll Collections were thus Rs: 4296.5.5.

9. Sch. Rents. The receipts from schools amounted to Rs: 505.37 against an Estimate of Rs: 900. The decrease is due to most of the tanks having received no water during the year.

10. Provincial Grant. A sum of Rs: 711 against an Estimate of Rs: 620 was paid from Provincial funds as grant in-aid to the Local Fund Middle Schools at Tadpatri, and Piruthonda and the Normal School at Anantapur. The increase of Rs: 91 over the Estimate is due to salary grants to the masters in the Middle School at Piruthonda and the Normal School having been sanctioned subsequent to the Submission of the Budget.

11. School Fees. The fees collected in the Local Fund Schools amounted to Rupees 669. 12: 0 against an estimate of Rs: 490 and Rs: 649 realized in 1883:84. The increase is due to the adoption of the new Scale of fees sanctioned in G.O. dated 10th July 1884, No. 384.

12.

12. Bungalow fees. The receipts under this head amounted to Rs 759-5-9 against an estimate of Rs 400 and Rs 556 the actuals of the preceding year. The increase is chiefly due to the Collection of fees from Messrs T.E. Thomas, and J.H. Broughton who occupied the bungalows at Anantapur and Gooty during the year, and from the Local Fund Engineer for whom the District Board have built a house.

13. Sale of other property. The amount of Rs. 515-8-8 realized under this head is the sale proceeds of the sweepings of the streets, markets and Cart stands in the Taluk.

Contributions. The sum of Rs 2431 in Contribution by private individuals towards Village Sanitation.

of two items of Rs. free 1033-2-9 and Rs 1397-13-7. The former is the Contribution paid towards private Scavengering Sanitation and is about half the amount Contributed last year as many of those who paid last year now decline to pay and the latter that paid on account of Dispensaries as particularized in the margin.

The other items of receipts do not call for any remarks.

15. Expenditure. The expenditure of the year amounted to Rs: 105878-2-10 against an estimate of Rs: 101400 or Rs 4478 in excess of the budget allotment as detailed below.

17. New Works. Civil Buildings. The amount of Rs 447 shown under New Works Civil Buildings is the expenditure incurred

in the Construction of a Store House for the Munro Dispensary at Gooty. As provision was made for it in the Budget Estimate when it was submitted the Munro Dispensary and Chattrum had not been transferred to the Local Fund Board. An allotment was therefore sanctioned from General Fund Reserve by the Board of Revenue in their Proceedings dated 5th June 1884, No. 2609.

18. Repairs Communications. The outlay on repairs amounted Rs. 44 548. 14. 9 or 99 per Cent of the allotment viz. Rs. 45.000.

19. The allotments ranged from Rs. 10 to Rs 150 per mile for the maintenance of roads. In Consequence of the maintenance grants being so small no repairs of any Consequence such as remetalling worn out portions of roads could be Carried out nothing but petty repairs such as filling up holes and ruts, improving the approaches to streams and keeping the side Channels clear, could be done. The total length of roads in the Circle to which attention was paid during the year under report is 847 miles of which 828 miles were maintained in the manner described at an average Cost of Rs 61 per mile. Some of the roads are in fair order but many of them which I have gone over cannot be said to be in good order. The difference between the above length 847 and that given in the last years report 911 arises from 72½ miles of road having been abandoned and eight miles of a new road included this year.

20. Civil Buildings. The sum of Rs. 383 shown as expenditure under this head is the Cost of repairs done to the following works during the year under report.

		Rs. A. P.
1.	Repairing the gate pillars of the School House at Penukonda	111 . .

21. Engineering Establishment. The Cost of the Engineering Establishment exclusive of the Contingencies amounted to Rs 9876-7-11 or 21.07 per Cent of the total outlay on works.

works.

22. Tools and Plants. Out of the Budget allotment Rs: 600, Rs 49 only were spent in the purchase of tools.

23. Miscellaneous Public Improvements. The maintenance of the existing avenues was the only item on which the amount entered under this head was spent. The following statement shews the present condition of the avenue trees in the Circle. The figures given this year differ from those given last and it is said that those now given are correct as the Overseers who prepared the account this year were strictly ordered to see that the numbers entered in the statements submitted by them were correct.

The Inspecting School master joined his appointment on the 8th July 1884 and visited all the Schools of the Taluk. The Cost of inspection amounted to Rs. 268. 10 a against an Estimate of Rs. 350.

27. Training School. The vernacular Normal School at Anantapur was maintained from Local re[illegible] during the year at a Cost of Rs: 1589. On the 31st March 1884 there were 14 students who continued till the end of the Calendar year 1884. when 7 passed the Special Upper Primary Examination against 5 in the previous year and the rest left the School. In January 1885 fifteen new students and one of the preceding year were admitted, so that on the last day of the official year under report the number was 16 against 14 on the Corresponding date of the previous year. Of these 16 Students eleven were teachers and the others relatives of teachers. The total Expenditure includes the sum of Rs. 195 paid as stipends to students at the rate of Rs 6 each per mensem. The average daily attendance during the year being 14 against 9 in the previous year, the average Cost of training each student, came to Rs: 99 5. 0 against Rs: 143 in the preceding year. In the practising branch of the Normal School the attendance on the 31st March 1885 was 65 against 73 in the preceding year

year showing a decrease of 8 pupils, which is due to some boys having gone to work for their livelihood.

28. Local Inam Schools. There were two Middle Schools and two Anglo vernacular Schools on the Combined System at Penukonda and Tadpatri.

29. Penukonda Middle School. This School had on its Rs the 64 pupils on the 31st March 1885. against 39 on the same date of the previous year, showing an increase of 25 pupils. The results of the Examination of the School were Satisfactory. Out of 16 pupils that went up for the Upper Primary Examination 13 passed and out of 10 pupils that went up for the Lower Primary Examination 9 passed against 9 and 12, respectively in the year 1883: 84.

30. Combined System School Penukonda. This School had an attendance of 40 pupils against 33 in the preceding year showing an increase of 7 pupils.

31. Hindoostanee Combined System School Tadpatri. This School was started at Tadpatri in October 1884 under G. O No. 566, dated 8th September 1884. The Deputy Inspector who inspected the School in March 1885 reports that the School had an attendance of 38 pupils and was making satisfactory progress.

32. Tadpatry Middle School. The Strength of this School was 111 against 63 in the

preceding

preceding year showing a decrease of 19 pupils which is due to the exceptional State of the season and to the adoption of the new scale of fees. In the Upper and Lower Primary examinations held in December last the School showed good results 9 out of 11 passing in the former and 11 out of 16 in the latter against 6 and 14, respectively in the year 1882:83.

The following Statement exhibits in our view the attendance at each of the Schools mentioned above; the cost incurred by the Local Fund Board for their maintenance and the cost of educating each pupil during the year under report.

36. Midwives. There were three Midwives attached to the Dispensaries at Gooty, Penukonda and Tadpatri. During the year under report they attended 113 Cases, as shown in the statement given below.

A Copy of the Gillah Surgeons report regarding the working of the Dispensaries during the year is herewith forwarded.

37. Vaccination. The total expenditure on vaccination was Rs. 4376. 6. 8 against an estimate of Rs: 4240. The actuals of 1883:84 were Rs 4716. The total number vaccinated during the year was 13,543 against 14,470 in the preceding year. 12714 of them were successful and the average Cost of each successful Case was annas 5 and pies 6 as in the preceding year. The decrease of 927 cases is said to be due to the absence on sick and privilege leave of the Vaccinators noted in the margin.

Subramania Pillay 1 month Sick leave.
T. Arumugam Pillay 1 month leave without pay.
P. Coodiah one month privilege leave.
Subapathy do do.
P. Narrainsawmy 20 days privilege leave.
Rasool Saib 10 days do.

Vaccinators by qualified for the work having had the employed during their absence. Shortly after joining the District I found that the number of those being vaccinated during the year under report was less than that of those vaccinated in the Corresponding month of last year whereupon I ordered every Vaccinator who failed

6

to vaccinate the number required according this class to be paid proportionately for the work done by him. This has had a good effect and I think at the end of the current year there will be found considerable im-provement.

38. Sanitation. The expenditure incurred under this head amounted to Rs. 6293 out of an allotment of Rs. 7100 as detailed below.

64 Grant IV. The Expenditure incurred under Grant IV amounted to Rs 4914 . 5 . 4 against Rs 4300. The actuals of 1883-84 were Rs 4594. The increase over the estimate is due to the debit of Rs 199 . 1 . 1 which had to be paid in the year under report for printing work done for the late Gooty and Penukonda Circles in 1881-82 and to a larger sum having had to be paid to the members of the Board on account of travelling allowance than was anticipated. Administration Report of the Local Fund Dispensaries in the Anantapore District for the year 1884-85

The general health of the public has been satisfactory during the year-

Cholera made its appearance in Tadpatry, Dharmavaram & Gooty in October November 1884 and January 1885 in an epidemic form and from a few other parts of the District reports have been received of the prevalence of Cholera- These three Taluks have suffered far more than any other part of the District- In Tadpatry 190 cases with 88 deaths, Dharmavaram 198 cases with 86 deaths and Gooty 138 cases with 65 deaths are recorded- All precautionary measures were adopted to prevent the spread of the disease-

Small-pox was prevalent in Hindupur and Kalliandroog during the year under report- Immediate steps were taken to prevent its spread by sending vaccinators to the infected localities to conduct vaccination operations- At the latter station 147 cases were reported out of which 10 proved fatal, but in the

the former neither attacks nor deaths are known -

The principal diseases prevalent were Fevers, Ulcers, Itch, Opthalmia, Rheumatic & Syphilitic affections, Diarrhoea, Dysentery, Worms and various injuries -

The Sanitary condition of the District has improved during the past year -

The water is obtained from tanks, wells and the Pumain rivers, several wells and tanks are set a part for drinking purposes - Measures are adopted as far as possible to prevent pollution of drinking water - Owing to the almost total failure of rain fall in some of the talaks during the year, the water supply is now scanty -

There are seven dispensaries two of which viz at Hindupur and Dharmavaram were opened in the year under report of these seven dispensaries only five provide for in-patients viz at Hindupur, Gooty, Tadpatry, Penkondah and Kalliandroog -

There were 263 in and 23576 out-patients treated against 247 in and 1867 out-patients in the previous year showing an increase among in and out-

patients by 16 and 1849 respectively which was due to the opening of the two new Dispensaries, and to a better appreciation of European treatment by the Natives -

The number of deaths was 131, the large number of death was chiefly due to Cholera and other Complaints of a serious nature - A Comparative Statement of persons treated at each dispensary with the number of deaths is given below -

Comparative Statement

2. Opening balance. The year opened with a balance of Rs 17,648 against Rs 7,250 anticipated in the budget, the excess being due to the short expenditure on public Works in 1883-84, when the season for road work was unfavorable in consequence of the failure of the Monsoons.

3. Receipts - The actual receipts amounted to Rs 72,583 against an Estimate of Rs 1,07,670 and Rs 1,05,102, the actuals of the preceding year, the decrease being mainly due to the falling off in the collections under Land Cess and Tolls. The cess on land yielded Rs 53,718 against an Estimate of Rs 85,000 and Rs 88,463 realized in 1883-84 and the decrease is ascribed to

to the unfavorable character
of the season and the sus-
pension of the collection
of Tolls in December 1884
in accordance with the
instructions of Government.
The collections under this
head were only 52 per Cent
of the demand against 79
per Cent in 1883-84. The
income from Tolls amounted
to Rs 4,295 against an
estimate of Rs 8,350 and
Rs 3,537 realized in the
preceding year. The decrease
in the former case was
due to the receipts having
been overestimated in
the budget, while the in-
crease in the latter case being
~~was~~ due to the fact that
the tolls were leased out
for only 5 Months in the
preceding year instead

of 12 Months as in the
year under report. The
sum of Rs 4,295 shown
under this head is made
up of Rs 3,370 derived
from the lease of the three
Local Fund toll gates at
Gooty, Tenukondah and
Kallyandrug and of Rs 925
the one-fourth share of
the toll collections contri-
buted by the Anantapur
Municipality. Rs 2,433
against Rs 4,172
in the previous year
were contributed by
private individuals towards
private Scavengering and
Sanitation and dispensaries
as detailed in para 31 of
the report, the decrease
being due to many of
those who contributed
for the first two mentioned
objects

The contributions by private individuals during the year amounted to

objects in 1883-84 having declined to do so the year under report. The sum of Rs 7,594 shewn under Receipts from Endowments &c" is made up of Market rents amounting to Rs 5,544 against Rs 2,535 in the preceding year and of Rs 2,050 contributed by Government for the maintenance of the Munro Chattrum at Gooty. The increase in the receipts from Markets was due to the extension of the fee system to 6 Markets; while in the case of the Munro Chattrum there were no receipts in 1883-84 as it was transferred to the Local Fund Board only in the beginning of the year under report. The other items of receipt call for no remarks.

Para 4 of BO's Rec: dt 16th January 1884, No 92 page 9.

Para 3 of GO dt 21st April 1884, No 845

and there were therefore no receipts on this act in 1883-84.

4. Expenditure. The total expenditure amounted to Rs 1,05,878 against an Estimate of Rs 106872 and Rs 99,380 incurred in 1883-84. It is observed that the year's outlay exceeded the assets by Rs 15,647 owing to the falling off in the collections under Land fees & tolls.

In.

5

In para 15 of the report it is stated that the total expenditure exceeded the allotment by Rs 4478, but this statement is incorrect as the President has omitted to include the subsequent allotments in the Column headed "Estimate of 1884-85." in Statement I-B.

153

5. Public works. No expenditure was incurred on New works. Communications, though Rs 914 were allotted subsequent to the issue of the budget. The outlay on repairs ~~of Communications~~, was Rs 44,541 against an allotment of Rs 45,000, ~~but as this sum was not adequate,~~ only petty repairs were executed. Out of 911 miles of road

in the District in the previous year, 72 miles were abandoned and 8 miles of new road were added in the year under report. The total length of roads to be maintained was thus 847 miles, of which only 828 miles were provided with maintenance grants. The General Condition of the roads was not satisfactory. The sum of Rs 1500 shown under Repairs Miscellaneous Public Improvements was spent on the maintenance of avenues against an estimate of Rs 2,900, the decrease being apparently due to the paucity of funds. The total

Para 17

These maintenances Grants spread over such a length of road are so small that almost nothing can be done with them. It is a matter for consideration whether it would not be better to confine the grants in one year to a small length of road & make the repairs more satisfactory, leaving the rest of the roads to be repaired in the next year. Probably Rs 300 spent on a mile of road once in two years is better than Rs 150 spent every year.

Note I know all the roads in this Circle well, and remember how much trouble it was to do any thing with the miserable maintenance grants provided. The rain fall is so small, that a road does not suffer much in the year & repairs well done would do for a space of two years.

Para 23

total number of trees in the avenues at the end of the year is stated to be 22,854. The Local Fund Engineering Establishment including contingencies cost Rs 10,474 or 22 per cent of the outlay on works, the limit fixed by Government being 20 per cent. Rs 2,500 were paid to Provincial Funds in part liquidation of the Famine debt of Rs 5,395

6. Endowments. The endowed institutions in charge of the District Board are the Gumma dispensary and Chuttram at Gooty and the market. It was a balance of Rs 1952 in favor of the Dispensary and Chuttram at the beginning of the year, which added to the receipts

amounting to Rs 2050 contributed by Government, made the assets Rs 4002. The charges being Rs 4452 the excess of Rs 450 was met by an appropriation from the General Funds. Three pupils were admitted in 1883-84 and their number in the year under report, which is not given, was probably the same. Their receipts including from municipalities a balance of Rs 1478, amounted to Rs 7022 and the charges to Rs 4501, leaving a balance of Rs 2521 at the close of the year.

7. Education The total expenditure on education was Rs 11895 against an estimate of Rs 9296. The inspecting staff consisted of three Dy Inspectors and one Inspecting school master; and the work turned out by the latter contrasts favorably with that of the previous year, 54 villages having been visited & 51 schools prepared for examination against 42 and 33 respectively in 1883-84.

The

Para 27

1577

The Normal school at Anantapur sent up 14 pupils for the Special Upper Primary Examination, of whom 7 passed against 5 in the previous year; there were 16 pupils on the rolls on the 31st March 1885. The total cost of the school being Rs 1589 against Rs 1293 in 1883-84, the cost of training each passed student was Rs 113-8 against Rs 258-9. The Practising branch of the school was attended by 65 pupils against 73 in the preceding year, but no information is given regarding the progress of this class. There

were 2 middle class schools at Penukonda and Tadpatri which were attended by 64 and 44 pupils against 39 and 63 respectively in the previous year and the progress made by both these schools was satisfactory. There were also two Hindustani Combined System schools of the lower class at these places, the one at Tadpatri having been opened in October 1884 under the sanction accorded in G.O dated 8th September

159. 8P.

September 1884 No. 566. These schools were attended by 40 and 38 pupils respectively. The Deputy Inspectors report on the school at Tadpatri is favorable, but no information has been given regarding the progress of the school at Penukonda. Out of 277 result grant schools registered for examination 223 schools with 3302 pupils were examined. Of these 1954 pupils passed and earned a grant of Rs 6262 against an estimate of Rs 3438. The cause of this large increase should have been explained.

Para 33

8. Hospitals and Dispensaries.

There were 7 dispensaries, including the 2 newly opened at Dharmavaram and Hindupur and the Munro dispensary at Gooty transferred to the Local Fund Board during the year under report, and 5 of these were provided with accommodations for inpatients. The total cost of these institutions was Rs 9,230 against an estimate of Rs 8795 and the total number of persons treated was 263 in and 23516 out patients against 195 and 16529 respectively in the previous year. The increase

Para 34

in the number of persons treated is ascribed to the increase in the number of these institutions and to the appreciation of the European method of treatment by the natives.

The 3 Midwives attached to the dispensaries at Gooty, Penukonda and Tadpatri attended 113 cases compared with against 41 in the preceding year.

9. Vaccination. The vaccine staff consisted of 2 Deputy Inspectors 5 First and 8 second class vaccinators and 3 probationers and

performed 13,543 operations against 14,470 in the preceding year, the number of successful cases in ~~the two~~ the year under report being ~~respectively~~ 12,714 ~~and~~ compared with 13,084 the number in the previous year. The decrease is stated to be due to the absence of some of the vaccinators on leave & to men not properly qualified having been employed in their stead.

Assuming ~~that~~ the birth rate ~~to be~~ 42 per mille of the population the number of births during the year must have been about 24,989, of which only 12,714 or 51 per cent were protected from small-pox.

Every

The results were very unsatisfactory but it is noted that the President has reason to think that the results of the current year will show an improvement.

Every effort should be made to provide better results in future. The total cost of the Vaccine operations amounted to Rs 4377 against Rs 4717 in the previous year, but the cost of each successful case was the same in the two years viz as 5-6.

10. Sanitation. The expenditure under this head was Rs 6,318 as shown below against compared with an allotment of Rs 6850 and Rs 7063 incurred in 1883-84.

	Rs
Improvement of water supply	49
Conservancy Establishment	5,504
Sanitary arrangements at Fairs & Festivals	196
Other Sanitary outlay including cholera charges	269
	6,318

The outlay on sanitation was 18·6 per cent of the General Fund assets against the minimum of 12·5 per cent fixed by Government. The public health was not altogether satisfactory as cholera appeared in 3 of the Talugs and caused 474 deaths Para 46 511 persons died from while small-pox which was prevalent in 2 other Talugs carried off 511 victims.

Chowlteries.

11. Chaultries &c.— In-
-cluding the Munro Chat-
-trums at Gooty, there
were 14 Chuttrums in
charge of the Local Fund
Board, the cost of their
Establishment, Contin-
-gencies & repairs amounted
to Rs 1490. There were 16
Bungalows maintained by
the Board in which
on the previous year
140 travellers halted as
those against 185 in 1883-84.
The receipts amounted
to Rs 759 against an
estimate of Rs 400, while
the charges including
Rs 118 spent on repairs
were

were Rs 417 the increase
in the receipts notwith-
standing the decrease in
the number of travellers
was due chiefly to the
collection of fixed monthly
rents from Messrs T. E.
Thomas and J. H. Broughan
and the Local Fund
Engineer who occupied
the bungalows at Gooty
and Anantapur.

12. General Taxation

The incidence of taxa-
tion per head of the
population including
and excluding tolls was
As 1-6 + As 1-5 against
As.

As 2-6 & As 2-5 respec-
-tively in the preceding
year. The decrease in
the incidence is due
to the falling off in
the collections under
Land Cess.

13. <u>Local Fund Board</u>-
The District Board
which consisted of 40
