14TH NOVEMBER 1885, No. 803 M., FINANCIAL.

GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following paper :—

From M. W. ELLIOT, Esq., Chairman, Municipal Council, Cuddapah, to the Chief Secretary to Government (through the Collector of Cuddapah), dated Cuddapah, 12th October 1885, No. 335.

I have the honor to submit my report upon the working of the Towns Improvement Act for the year 1884-85 with the prescribed statements enclosed. The delay in its submission was due to the books and accounts having been filed as exhibits in the recent defalcation case. They were only returned on the 22nd ultimo, and as the Acting Manager is new to the work it was impossible to get it ready earlier. The receipts were Rs. 38,226-9-8 against Rs. 32,910 estimated.

2. *Rates and Taxes.*—The receipts were Rs. 24,890-8-9, or Rs. 1,580-8-9 more than the estimate.

3. *House-rates* were estimated at Rs. 8,000, but the actual demand assessed was only Rs. 7,894-14-0, and the collections were Rs. 6,450, including an arrear collection of Rs. 290.

4. *Rates on lands* were estimated at Rs. 600, but the actual collection was Rs. 250 including an arrear of Rs. 35, or Rs. 383 less than the estimate.

5. *Taxes on Arts and Professions.*—Estimate Rs. 3,800, assessment Rs. 3,651-8-0, but reduced to Rs. 3,483 after the hearing of appeals. Rs. 2,634-8-0 were collected during the year including an arrear of Rs. 177.

6. *Taxes on Vehicles and Animals and Registration of Carts.*—The receipts amounted to Rs. 2,064, or Rs. 164 over the estimate.

7. *Tolls.*—The collection of tolls was farmed for Rs. 14,000. Rs. 11,490, including an arrear of Rs. 150 were collected during the year. Rs. 1,800 were granted as remission to the contractor owing to the very heavy loss sustained by him during the prevalence of cholera—*vide* G.O., dated 5th September 1885, No. 482 M. Rs. 600 were collected during the current year, and Rs. 612 remain to be collected.

8. *Licenses* (Under sections 106, 123, 125, 130, 131, and 136 of the Act). A sum of Rs. 7 was collected.

9. *Imperial License-tax.*—Estimate Rs. 2,000, settled demand was Rs. 1,710. The collections amounted to Rs. 1,985 including an arrear of Rs. 555. A sum of Rs. 216 was collected during the year.

10. *Penalties on account of Imperial License-tax.*—Rupees 18-8-0 were collected under this head.

11. *Surplus Pound Fund.*—Estimate Rs. 5 , receipts Rs. 40-4-3 being the net amount remitted by the Treasury officer after deducting the moiety due to Government.

12. *Contributions from Local Funds.*—

	RS.
Civil Dispensary	2,000
Poor-house	250

13. *Municipal Fines.*—Estimate Rs. 300, collection Rs. 163-14-0.

14. *Fees from Schools and Training Institutions.*—The estimate under this head was Rs. 920, collections amounted to Rs. 980-4-0.

15. *Income from Markets.*—The contract for collecting fees from market was leased out for Rs. 3,900. A sum of Rs. 2,504-12-9 was collected, including an arrear of Rs. 310. Steps are being taken to recover the balance due, viz., Rs. 1,085-3-3.

16. *Rents of other Buildings.*—The estimate under this head was Rs. 1,180, and the collections amounted to Rs. 996-1-5, as shown under—

	RS.	A.	P.
(1) Sheep slaughter-house	391	10	6
(2) Beef slaughter-house	79	0	0
(3) Cart-stands	256	14	11
(4) Traveller's bungalow	268	8	0
Total ..	996	1	5

17. *Endowments, Private Contributions, and Donations.*—Rs. 5,000 were drawn from the funded capital for the purpose of providing a compound wall for the civil dispensary :—

	RS.	A.	P.
Subscriptions	185	0	0
Sale of medicines	146	13	4
Interest on Government Promissory Notes	540	0	0

18. *Sale of Sweepings, &c.*—The estimate under this head was Rs. 250 and the collections amounted to Rs. 409-8-0, including an arrear collection of Rs. 250.

19. *Miscellaneous Receipts.*—Rs. 109-7-2 were realised by sale of old materials.

20. *Expenditure—Grant I, New Works—Communications.*—Nothing was spent under this head.

21. *Buildings.*—The budget grant under this head was Rs. 1,480 and the expenditure was Rs. 1,254-6-0.

22. *Boogga Water-supply Project.*—A sum of Rs. 372-6-7 was spent under this head in the investigation of the Boogga water-supply project. It gives me great pleasure to be able to report that there is every reason to believe that this project will soon be an accomplished fact—a result that could hardly have been expected were it not for Government aid. The Municipal Council experienced great difficulty in endeavoring to obtain the services of a skilled Engineer, and even if they had secured a competent one, the cost of paying him would have been a heavy drain on the Municipal fund. But no sooner was Government made aware of the difficulty than they sent one of their most experienced Engineer officers to draw up a scheme and submit his report. This has been done. Colonel Drake-Brockman's scheme has been approved of by Government, and it now only remains for the council to find the funds requisite for carrying out the scheme. And here too Government have come forward with their generous help. The scheme has been estimated to cost Rs. 87,300, and towards this sum Government have promised to contribute Rs. 37,300, nearly one-half of the required amount. The council are sanguine of procuring the remainder by a debenture loan and have appointed a sub-committee consisting of the gentlemen named in the margin for the purpose. There is one other matter in connection with this project that has to be settled, viz., who is to have the supervision of this most important work. The council in order to mark in a small way their appreciation of the generous aid afforded by Government have requested that Government will select an officer to supervise the work. No answer to the request has been as yet received, but the council are satisfied that should Government accede to it, the best officer available will be selected.

1. Dr. Iyasawmy Pillai, District Medical Officer.
2. M.R.Ry. P. Paupiah Gáru.
3. „ J. Perumal Naidu Gáru.
4. „ K. Venkata Subbiah Gáru.
5. „ Raza Miyán Sáhib Gáru.
6. „ B. Ramiah Gáru.

23. *Repairs—Communications.*—The expenditure under this head was Rupees 3,673-4-0 against Rs. 3,230 allotted in the budget.

24. *Buildings.*—A sum of Rs. 454-5-2 was spent under this head against Rs. 570 allotted in the budget.

25. *Drainage.*—A sum of Rs. 400 was allotted in the budget, but the expenditure under this head was Rs. 143-13-2.

26. *Miscellaneous.*—Rs. 166-12-7 were spent under this head.

27. *Tools and Plant and Contingencies.*—Rs. 295-8-0 were spent under this head. A levelling instrument was purchased at a cost of Rs. 257-14-0, and the balance Rs. 37-10-0 was spent on contingencies.

28. *Grant II—Education.*—Rs. 2,280-4-6 were spent upon two schools, viz., the Anglo-Vernacular and the Vernacular schools. The schools were examined by the Inspector and the Deputy Inspector of Schools. Copy of the Deputy Inspector's report is herewith submitted.

Rs. 361-13-8 were spent under Results Grants against Rs. 500 allotted.

Rs. 1,183-4-0 were paid to Government on account of middle-school charges for 1883-84.

29. *Grant III—Sanitation and Medical Service.*—

30. *Hospitals and Dispensaries.*—Rs. 5,313-4-8 were spent under this head for the establishment, medicines, diet, and contingencies against Rs. 4,840 allotted in the budget. The increase is due to the extra expenses incurred in purchasing medicines and contingencies during the prevalence of cholera.

31. *Vaccination.*—Rs. 218-1-8 were spent under this head, the establishment, contingencies and contribution to Local Fund Board, against Rs. 250 allotted for the purpose. The number of cases vaccinated was 341, of which 336 were successful; the cost of a successful case was As. 10-5.

32. *Registration of Births and Deaths.*—Rs. 192 were spent under this head. The subjoined statement shows the particulars of births and deaths in the town during the year as compared with the previous year. Population according to census of 1881, 18,982 :—

	1883-84.	1884-85.
Cholera	76	281
Small-pox	2	10
Fever	158	107
Bowel-complaints	17	23
Injuries.		
Suicides	3	4
Wounds	2	1
Accidents	8	2
Snake-bites	1	..
All other causes	302	286
Total ..	569	714
Births ..	441	495

33. *Conservancy.*—The expenditure under this head was Rs. 4,439-4-9 against Rs. 4,525 allotted.

34. *Sanitary Service—Cost of Conservancy Carts*—amounts to Rs. 2,463-1-10 against Rs. 2,300 allotted. The increase is due to the rate of hire for bullocks having been increased from Rs. 12 to Rs. 14 per pair per mensem.

35. *Contingencies.*—Rs. 352-1-2 were spent under this head against Rs. 200 allotted in the budget. The increase is due to the purchase of disinfectants, &c.

A sum of Rs. 2,002-2-6 was spent in suppressing cholera which prevailed during the months of November, December 1884, and January 1885.

36. *Grant IV—Lighting.*—Rs. 1,235-3-6 were spent under this head against Rs. 1,140 allotted. The increase is under Contingencies. The establishment was the same as last year.

37. *Poor-house.*—There is a poor-house in this municipality supported partly by contribution from the Local Fund Board and partly by the municipality. The average number of inmates was 16, the expenditure was Rs. 556-1-4 against Rs. 620 allotted.

38. *Road-watering.*—Rupees 120-11-4 were spent for watering roads during the hot season.

39. *Avenues.*—Two men were employed to plant avenue trees, each on a salary of Rs. 6 per mensem as last year.

40. *Traveller's Bungalow.*—Rupees 219-14-6 were spent under this head against Rs. 210 provided in the budget.

41. *Other charges, Printing, Rewards, &c.*—Rupees 560-1-0 were spent on account of printing municipal proceedings and various forms; Rs. 98-11-0 were spent in granting rewards for killing dogs, beating tom-tom, and for making carriage and cart tin tickets.

42. *Grant V—Office establishment* including carriage allowance to the Vice-President amounts to Rs. 2,669-11-7 against Rs. 2,420 allotted in the budget. The increase is under Contingencies. The establishment for the collection of taxes cost Rs. 678 against Rs. 680 estimated.

43. Rupees 100 were paid to the auditor for auditing the accounts of 1883-84; Rs. 240 were paid to the late manager as pension.

44. A sum of Rs. 1,804-8-5 was left unrecovered under Advances.

45. The accounts for the current year were audited by a sub-committee consisting of the councillors named below:—

1. M.R.Ry. Murugasum Pillai Avargal, the Divisional officer.
2. " K. Venkata Subbiah Gáru.
3. " B. Ramiah Gáru.
4. " J. Perumal Naidu Gáru.

46. They were appointed at a general meeting convened on the discovery of defalcations in the office. The result of their audit was that a sum of Rs. 3,713-14-10 was found deficient.

47. The manager and cash-keeper were tried by the sessions court on a charge of criminal breach of trust by public servants.

48. The former was sentenced to five years and the latter seven years' rigorous imprisonment.

49. The report of the committee appointed to audit the accounts has been already submitted.

50. The following measures have been taken to prevent the occurrence of defalcations in the office.

51. An office committee consisting of five councillors has been appointed. It will be their special duty to make frequent examinations of the books and accounts. There will be a monthly audit conducted by two councillors and the chairman. I may here state that Mr. Stokes' system of accounts has been introduced. The council meets twice a month — the first and third Saturday. I have only to add that I make it a rule now to examine the books most minutely, and every Monday scrutinize the bill books and issue processes if necessary. An extract from the District Surgeon's report on the working of the Municipal dispensary is herewith submitted.

52. A statement showing the number of coercive processes issued in the year is herewith submitted, prepared in accordance with G.O., No. 1528, dated 22nd August 1881.

53. The license-tax account prescribed by Government is also submitted herewith.

Enclosures.

From M.R.Ry. V. KRISHNAIYA, Deputy Inspector of Schools, Cuddapah Range, to the Inspector of Schools, Second division, dated Cuddapah, 30th May 1885, No. 54.

* * * * * * *

Cuddapah Municipality.

General Statistics.

Area and population.—The Cuddapah municipality which extends over an area of 19 square miles contains a population of 18,982 according to the census report of 1881.

2. *Schools and pupils.*—The subjoined statement gives the number of schools of different grades and the number of pupils they contained for the last two years:—

Grade of Schools.	Schools.				Pupils.			
	No. on 31st March		Change in		No. on 31st March		Change in	
	1884.	1885.	Number.	Percentage.	1884.	1885.	Number.	Percentage.
Secondary	2	2	..	..	74	78	+ 4	+ 5·4
Primary	20	18	— 2	— 10	728	598	— 130	— 17·8
Total ..	22	20	— 2	— 9	802	676	— 126	— 15·7

Under Secondary schools, one Sanskrit Patasala was transferred to the Cuddapah High school on the appointment of a Sanskrit Pandit in that institution. The girls' mission school, having been raised during the year from the grade of primary to that of middle school, the number of secondary schools remains unaltered. Under Primary schools there is a decrease of 10 per cent. which is due to the prevalence of cholera in the town for nearly two months from the middle of November 1884. Among pupils reading in secondary schools, there is an increase of 5·4 per cent., and a decrease of 17·8 per cent. in the number of pupils of primary schools, which is due partly to the transferring of a school of this grade to middle schools and partly to the prevalence of cholera as mentioned above.

3. *Pupils' particulars.*—The following five tables give some particulars of the number of pupils at the end of last two years:—

I.

Race or creed.	Number on 31st March		Percentage.		Difference in	
	1884.	1885.	1884.	1885.	Number.	Percentage.
Europeans and Eurasians	4	..	·5	..	— 4	— 100
Native Christians	91	79	11·3	11·7	— 12	— 13
Muhammadans	197	174	24·6	25·8	— 23	— 12
Brahmins	115	81	14·3	12	— 34	— 29
Vaisyas	48	49	6	7·2	+ 1	+ 2
Sudras	333	244	41·5	36	— 89	— 36
Other Hindus	14	49	1·8	7·3	+ 35	+ 250
Total ..	802	676	100	100	—126	— 15

II.

Languages.	Number of pupils studying on 31st March		Difference in	
	1884.	1885.	Number.	Percentage.
English	138	138	..	..
Telugu	726	634	— 92	— 12
Hindustani	48	42	— 6	— 13
Sanskrit	28	..	— 28	— 100

III.

Occupation of parents.	Number on 31st March		Percentage.		Difference in	
	1884.	1885.	1884.	1885.	Number.	Percentage.
Officials	36	92	4·5	13·6	+ 56	+ 155
Petty officials and menial servants	249	112	31	16·5	—137	— 55
Traders	165	178	20·6	26·3	+ 13	+ 8
Land-holders	90	60	11·2	8·8	— 30	— 33
Artisans	24	56	3	8·2	+ 32	+ 133
Coolies	166	104	20·7	15·8	— 62	— 37
Mendicants	57	6	7·1	·8	— 51	— 89
Others	15	68	2	10	+ 53	+ 353
Total ..	802	676	100	100	—126	— 15

IV.

Condition of parents of pupils according to their estimated income.	Number on 31st March		Percentage.		Difference.	
	1884.	1885.	1884.	1885.	Number.	Percentage.
Richer classes (drawing an income of Rs. 5,000 and upwards).	10	9	1·3	1·3	— 1	— 10
Middle (drawing an annual income of Rs. 200 and upwards but less than Rs. 5,000).	214	179	26·7	26·5	— 35	— 16
Poorer (drawing an annual income of less than Rs. 200).	578	488	72	72·2	— 90	— 15
Total ..	802	676	100	100	—126	— 15

V.

Vaccination.	Number on 31st March		Percentage.		Difference.	
	1884.	1885.	1884.	1885.	Number.	Percentage.
Vaccinated, whether small-pox marked or not ..	351	379	43·7	56	+ 28	+ 8
Small-pox marked	363	279	45·3	41·3	— 84	— 23
Unprotected	88	18	11	2·7	— 70	— 79
Total ..	802	676	100	100	—126	— 15

As there was a decrease in the total number of pupils, at the close of the last year, over that of the previous year, the number in each class of pupils also underwent a corresponding decrease, with the exception of the number in the class designated "other Hindus," which more than trebled itself. In the languages studied, Sanscrit was not represented, as the school was transferred to the high school. The children of oficials, traders, artisans and others were more numerous than in the previous year, while the children of persons of other occupations were fewer. It is also evident from one of the above tables, that vaccination has been carried on more extensively during the last year.

II.—Inspecting Agency.

4. *Condition of Municipality in respect to inspecting officers.*—In the Cuddapah Municipality the supervision of the elementary schools was proposed to be entrusted to the head master of the normal school on the payment on honorarium of Rs. 60 per annum. The commissioners did not, however, adopt the proposal, but appointed a sub-committee to do the work.

III.—Middle Schools.

Second grade.

5. *Second-grade Middle Results School, Cuddapah.*—There is only one school of this grade aided under results system in the Cuddapah Municipality. This school was a first-grade middle school during 1883-84, but the seventh-standard class having been abolished during the year under report, it is now shown under this grade. The school was examined for results grants under the fifth and all standards below it, the sixth-standard class having been formed subsequent to the results examination in January 1885. The strength of the school on the 31st March 1885 was 50, against 46 of the previous year.

The results of the examination, both in the middle and primary departments, were good. Three and five pupils were presented for upper and lower primary examination during the last year; of whom all passed in the former examination and four in the latter, against ten and three in the previous year, of whom eight and three pupils were successful.

In the following table, the results in the different examinations are given for the last two years:—

Year.	Number on rolls on 31st Mar.	Middle School Examination.					Lower 4th or 6th Standard Examination.				Results of the latest examination of 3rd class.	Upper Primary Examination.			Lower Primary Examination.			Results of the latest examination of preparatory classes.
		Number presented.	Number passed.				Number presented.	1st class.	2nd class.	Total.		Number presented.	Number passed.	Percentage of number passed to number examined.	Number presented.	Number passed.	Percentage of number passed to number examined.	
			1st.	2nd.	3rd.	Total.												
1883-84..	46	1	..	..	..	..	..	..	..	..	Good ..	10	8	80	3	3	100	Very good.
1884-85..	50	..	..	..	..	..	..	..	..	..	Very good	3	3	100	5	4	80	Do.

Third grade.

6. *Third-grade Middle Results School, Cuddapah.*—The mission girls' school at Cuddapah was raised to the grade of a middle school in the latter part of the official year. The school is located in the same building with the boys' middle school under the same management, and has good accommodation. The strength of the school during the year was 28, against 34 of the previous year. The decrease is owing to the prevalence of cholera in the town for nearly two months in the latter part of the year. The school was examined for results grants in January 1885, under fourth and all standards below it, as at the time of examination the fifth-standard class was not in existence.

The results of the examination were very satisfactory.

In the following table, the results of the two schools shown under this grade are compared for the last two years:—

Year.	Number on rolls on 31st March.	Results of the latest examination of the 3rd class.	Upper Primary Examination.			Lower Primary Examination.			Results of the latest examination of the preparatory classes.
			Number examined.	Number passed.	Percentage of number passed to number examined.	Number examined.	Number passed.	Percentage of number passed to number examined.	
* * * *Mission girls' school.*									
1883-84 ..	34	..	3	2	67	6	3	50	Good.
1884-85 ..	28	..	2	2	100	9	8	89	Do.

Some further particulars of the middle schools aided on the results system are given in the following table:—

Range.	Number of pupils in results grant and unaided schools on the 31st March		Number of pupils in results grant schools on the 31st March		Number passed.		Amount of grant paid during the year.	
	1884.	1885.	1884.	1885.	1884.	1885.	1884.	1885.
							R	RS.

IV.—Primary Schools.

Salary Grant.

7. *Condition of salary grant schools.*—In the following table are given the attendance and general condition of each school as compared for the last two years :—

Description.	School.	Locality.	Number on rolls on 31st March		General condition.
			1884.	1885.	
Municipal	Anglo-vernacular school.	Cuddapah ..	117	107	Fair.
Do.	Vernacular school ..	Do. ..	138	145	Do.

The attendance in the Anglo-vernacular school has fallen off by 8 per cent., as some of the boys in the preparatory classes joined the Vernacular school where less rates of fees are levied. This also accounts for the increase in the strength of the vernacular school.

In the following table are given the numbers of pupils examined and passed in the upper and lower primary examination of the above-mentioned schools for the last two years :—

School.	Locality.	Upper Primary Examination.						Lower Primary Examination.					
		1883-84.			1884-85.			1883-84.			1884-85.		
		No. examined.	No. passed.	Percentage of No. passed to No. examined.	No. examined.	No. passed.	Percentage of No. passed to No. examined.	No. examined.	No. passed.	Percentage of No. passed to No. examined.	No. examined.	No. passed.	Percentage of No. passed to No. examined.
Municipal.													
Anglo-vernacular school ..	Cuddapah.	33	28	85	38	31	82	27	27	100	24	21	87.
Vernacular school ..	Do.	..	..	..	..	..	..	15	15	100	15	10	66

Results-grant and unaided Schools.

8. *Number and condition of aided and unaided schools.*—The following statement gives some particulars of these schools :—

Municipality.	Number of pupils in village school aided and unaided on 31st March		Number of pupils in results schools on 31st March		Number passed.		Amount of grant.					
							1884.			1885.		
	1884.	1885.	1884.	1885.	1884.	1885	Porvincial funds.	Municipal funds.	Total.	Provincial funds.	Municipal funds.	Total.
							RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.
Cuddapah.	473	346	266	221	58	88	31 2 0	122 10 0	153 12 0	74 9 5	185 13 0	260 6 5

The number of pupils in aided and unaided schools decreased by 27 per cent. and the number in results schools alone by 17 per cent., while the increase in the number passed and the amount of grant earned is 51 and 69 per cent., respectively. The average grant earned by each pupil this year is more than that earned in the previous year by 4 annas and 11 pies.

In the following table is given the number of pupils who passed under various standards (including middle school standards) in results schools in the Municipality :—

Municipality.	Number of schools who passed under standards									
	First.		Second.		Third.		Fourth.		Fifth.	
	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.

Municipality.	Amount of grant earned.					
	1883-84.			1884-85.		
	Provincial funds.	Municipal funds.	Total.	Provincial funds.	Municipal funds.	Total.
	12	13	14	15	16	17
	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.
Cuddapah	177 15 0	289 10 0	467 9 0	347 15 11	361 13 8	709 13 7

Except in the fourth standard, the number of passed pupils in each standard is greater than in the previous year. The total amount of grant earned during the year is also increased by 52 per cent. over that earned in the previous year.

9. *Schools registered for examination and those left unexamined.*—The number of schools registered for examination during the year was 15, of which two were Muhammadan schools. Twelve of these were examined for results grants, the remaining three having been left unexamined for the following reasons :—

Causes for not having examined.	No. of Schools.
Teacher left the village for making preparations for his marriage ..	1
Teacher left the village owing to the death of his nearest relative ..	1
Registers not kept	1
	3

10. *Examination of registered schools and payment of grants.*—The dates of examination were postponed in the case of three mission schools from December 1884 to January 1885, as there was cholera in the town. The examination of a Hindustani school was also held on a postponed date. The other schools were all examined on or within seven days of the dates fixed for examination. The grants sanctioned during the year were paid in the same year in the case of all schools except the Hindustani school examined by the Muhammadan deputy inspector.

11. *Results grants sanctioned and paid during the year.*—The amounts of grant sanctioned and paid during the year from different sources are given below :—

Funds from which payable.	Amount sanctioned in 1883-84, but paid during 1884-85.	Amount sanctioned in 1884-85, and paid in the same year.	Amount sanctioned in 1884-85, but not paid within the year.
	RS. A. P.	RS. A. P.	RS. A. P.
Provincial funds	..	347 15 11	..
Municipal funds	..	361 13 8	50 10 0
Total ..	..	709 13 7	50 10 0

VI.—FEMALE EDUCATION.

12. *State of female education.*—The number of girls in the two girls' schools in the Municipality, and the number of girls reading in boys' schools, are given in the subjoined statement for the last two years :—

School.	Number on rolls on 31st March		Difference in	
	1884.	1885.	Number.	Percentage.
Middle result school	34	28	—6	—17·6
Primary do.	54	51	—3	— 5·5
Girls in primary results boys' schools	10	5	—5	— 50

There is a decrease in the number of girls reading in different schools, which is chiefly owing to the prevalence of cholera.

VII.—GYMNASTICS.

13. *State of gymnastics.*—The Municipal schools are not furnished with gymnastic apparatus. The children of the Anglo-vernacular and Vernacular schools had been practising cricket for some time, but as some of the materials had been lost or spoiled, the practice is discontinued.

ADMINISTRATION Report of the Municipal dispensary, Cuddapah, for the official year 1884-85.

The public health of the town during the period under reference has been, on the whole, healthy. Cholera, however, prevailed in an epidemic form in the months of November and December 1884 in the town of Cuddapah and in surrounding villages. There were altogether 377 attacks and 158 deaths by it. On the outbreak of the disease, the Municipality have adopted every possible measure to check the further progress of the scourge, by employing special establishment to attend to the conservancy of the affected localities, and by burning wood fires, with coal-tar and sulphur, at several parts of the town, both day and night, till the epidemic disappeared. Medical aid was afforded freely to the affected people at their own quarters. Four medical subordinates were deputed specially on this duty.

During the prevalence of the epidemic, the people were prohibited from drinking the water in the Bugah channel, as the disease seemed to be more virulent and persistent in the places adjoining the river-bank. This had a marked effect in arresting the further progress of the disease, and stopping it eventually.

No.	Name of dispensary.	Station.	Officer in charge.
1	Municipal dispensary.	Cuddapah	District Surgeon.

It is maintained and governed by the Municipality. Visited occasionally by the Civil authorities. No meetings of the dispensary committee were held during the year. It is under the medical charge of the District Surgeon. In his absence, the Assistant Surgeon has charge of the institution.

During the period under review, 11,652 out and 366 in patients have been treated, showing a decrease of 2,329 out and 32 in patients over the preceding year; this decrease is owing, to some extent, to the less prevalence of fever and other zymotic diseases, and also to the panic caused by the prevalence of cholera, during which time very few out-patients have attended the dispensary.

The most prevailing diseases have been, as usual, ague, cholera, rheumatic and syphilitic affections, ophthalmia, inflammation of the external ear, coughs and ulcers.

During the year, 35 major and 243 minor operations have been performed.

A great number of important and interesting cases have been treated during the year, but none of them demand special notice except the following :—

Amputation (double) for compound comminuted fracture of leg and thigh—1, cured.
  Do. of foot for caries—1, cured.
  Do. of leg for fungus foot—1, cured.
Removal of tumours by knife—5, cured.
  Do. of cancer of breast by knife—1, relieved.
Reduction of dislocations—7, cured.
Tedious labour delivered by forceps—7, cured.
Laborious or instrumental labor—11, all cured.
Occlusion of vagina—1, cured.

Sanitation.—The conservancy of the town is carefully attended to by the Municipality. The present number of conservancy carts are, I think, insufficient. There are only 9 box and 2 dolla or basket bandies for street sweepings, and 5 closed box-carts for night-soil; besides these, there are 2 iron hand-carts for removing night-soil from sides of road and public places. The dolla or basket bandies are next to useless; they carry very little sweepings; they should be substituted by the regular box-carts.

The conservancy establishment consists of 1 inspector, 3 sanitary maistries, 1 peon, 27 male and 28 female scavengers. There are 27 latrines, all requiring repairs more or less; they are freely resorted to by the people.

Urinals, 5; in tolerably good order.

Dust-bins, 103; most of them requiring repairs and readjusting. I consider they are quite inadequate to a large and scattered town like Cuddapah.

I would, therefore, recommend about 50 more to be constructed. The sweepings are supposed to be buried in trenches dug up for the purpose outside the town, about a mile distance. The manure is given on contract to Sabhapathy Mudaliar, of Bellary, who resells the same to ryots. The situation of the depôt is not altogether unobjectionable, it being too close to the European cemetery and public road; and the rubbish is also often thrown on the ground in irregular heaps or scattered about the place, instead of being buried in deep pits or trenches. I have already brought this matter to the notice of the chairman of the Municipality, and suggested the expediency and advisability of selecting a less objectionable site for a depôt; also the propriety of constructing a cinerator at the place, and converting the sweepings into poudrette.

House drainage is carried on by cesspools, which are periodically cleaned out.

Water-supply.—Tolerably good; drinking water is obtained from percolation wells along the bank of the Bugah river.

Two watchmen are placed over three of the wells, largely used by the people, and another on the Bugah channel itself, the water of which is used principally for bathing and washing purposes.

Water project.—The long-contemplated scheme for supplying drinking-water to the people from the Bugah springs, which are situated about three miles from the town, has been, at last, by order of Government, drawn up by Major Brockman. The estimate and plan for this project have been recently submitted to Government by this officer. If this most useful and urgently-needed work is accomplished, it would be a great blessing to the people living in one of the unhealthiest and most dreaded stations in Southern India. I have not the least doubt, that by supplying the inhabitants with the pure water from the Bugah springs, which was pronounced by the Chemical Examiner as the best one in Southern India, would materially improve the health and comfort of the inhabitants.

General Remarks.—The general health of the people during the past official year has been comparatively good, notwithstanding the prevalence of cholera in the latter part of the year. Intermittent fever has prevailed only to a very limited extent. During the period under review, the admission under this head, being only 2,865, showing a decrease of 1,663 over the preceding year. This is owing most probably to the less fall of rain during the south-west monsoon and consequently wet cultivation not being carried on to the same extent as hitherto in the fields situated within the municipal limits.

(Signed) M. IYASAWMY,
District Surgeon.

Forwarded to the Chief Secretary to Government. The Collector has no remarks to make except to mention that the reply of Government with respect to lending to the Municipality the services of a competent officer to supervise the carrying out of the water project has since been received and has been communicated to the Chairman.

CUDDAPAH,
14*th October* 1885.

(Signed) C. A. BIRD,
Collector.

ORDER—dated 14th November 1885, No. 803 M., Financial.

The receipts and charges of the Cuddapah Municipality for 1884-85 are compared below with the estimates for the year and the actuals for the previous year.

RECEIPTS.

	Actuals, 1883-84.	Estimate, 1884-85.	Actuals, 1884-85.

Total	36,998	39,900	39,310

2. In statement VI-B the closing balances and the grand totals of the expenditure and balances are not given, and the corrections ordered in G.O., dated 29th August 1884, No. 1029, have not been adopted in the column showing the actuals of 1883-84.

Further, the instructions given in G.O., dated 12th February 1885, No. 304, regarding the exhibition of the license-tax transactions have not been attended to. The necessary corrections in the accounts have now been made, the license-tax remuneration being shown under Assignments by Government. Similar mistakes and omissions should be guarded against in future.

3. The receipts amounted to Rs. 36,379 against an estimate of Rs. 38,010 and Rs. 34,381, the actuals of 1883-84. The decrease, as compared with the estimate, is the net result chiefly of a falling off under the House and Land rates, Tax on Arts, &c., Tolls and Miscellaneous and of a large increase under Endowments. There was a decrease, as compared with the previous year, of about Rs. 1,800 in the current demand of the House and Land rates and of Rs. 1,200 in that of the Tax on Arts. The cause of this should be fully explained. The collections under these heads as well as under Market rents were not satisfactory as will be seen from the marginally-noted figures, and little or no use was made of the measures of coercion authorized by the Act. It is hoped that the current year's report will show an improvement in this matter. The authority under which Rs. 5,000 were drawn from the funded capital of the dispensary for erecting compound walls should be quoted, and the omission from the year's accounts of the deposit balance of Rs. 1,363, shown as carried forward in the previous year's accounts, should be explained. The tolls statement, prescribed by G.O., dated 22nd August 1879, No. 1614, should be submitted at an early date. The entries in columns 17—25 of the special license-tax statement are apparently [illegible]rect. A correct statement, approved by the Board of Revenue, should be submi[illegible] the information of Government.

		Demand.	Collection.	Percentage of collections on demand.
		RS.	RS.	
House and Land rates	Current	8,595	6,378	74·2
	Arrears	2,293	323	14·1
Tax on Arts	Current	3,117	2,458	78·9
	Arrears	884	177	20·0
Market rents	Current	3,900	2,195	56·3

4. The charges amounted to Rs. 37,523 against an estimate of Rs. 37,950 and Rs. 34,067, the actuals of the previous year, and were distributed as follows:—

Grant I.—Public Works	19·4
Do. II.—Education	10·7
Do. III.—Sanitation	40·6
Do. IV.—Lighting and Miscellaneous	9·6
Do. V.—Supervision, &c.	9·8
Advances, Refunds and Defalcations	9·9
	100·0

5. The expenditure under grant I amounted to only Rs. 7,271 against Rs. 14,140 estimated, owing to the provision for the investigation of the Boogga Water-supply Project having remained almost unutilized, as Government placed the services of an Engineer officer at the disposal of the Municipal Council. It is observed that the tolls were raised to the maximum rate specially to provide funds for experimenting on the Boogga Water-supply, and an appropriation of Rs. 5,000 was made from the funded capital of the dispensary for its improvement as stated above; but the amounts actually spent on these objects were only Rs. 372 and Rs. 824 respectively. The utilization of the balance for ordinary municipal purposes was highly irregular. Rupees 3,673 were spent on repairs to roads, but no information is furnished as to their condition. The Chairman will report whether the construction of the municipal market, which was in progress in 1883-84, has been completed.

6. Two schools were wholly maintained from Municipal funds, and aid was given to nine others on the results system; Rs. 1,183 were also paid to Government, being the net cost of the Middle department of the Government High school. The attendance at the schools appear to have fallen off owing to the prevalence of cholera, but the work done by them was, on the whole, fair. Statement V, however, shows that the state of education in the town is not satisfactory, only 41·2 per cent. of the boys and 6· per

cent. of the girls of school-going age being under instruction. The information called for in official memorandum, No. 2336, dated 18th October 1884, regarding middle school charges, should be submitted at an early date.

7. At the hospital and dispensary 366 in and 11,652 out patients were treated against 398 and 13,981, respectively, in 1883-84. It is stated that the public health had been better than in previous years. The contributions for the Medical College and Sanitary inspection were not paid. The omission is not explained nor is the amount shown as a liability in the note to statement II. The number of vaccine operations was nearly the same as in the previous year, but the cost of each case rose from Annas 7-6 to the very high figure of Annas 10-3. This should have been explained. The registration of vital statistics has been very imperfect. Sufficient attention does not appear to be paid to this most important subject in spite of the oft repeatedly expressed desire of Government. On conservancy Rs. 9,533 were spent against Rs. 7,900 estimated, the increase being due to an expenditure of Rs. 2,002 on cholera preventive measures. The sanction of Government should have been obtained for the excess allotment. There were, however, only 158 deaths from cholera. The conservancy of the town is reported to be carefully attended to, but the defects noticed by the District Surgeon should be remedied at an early date. As regards the new water-supply scheme the loan application called for in G.O., 3rd October 1885, No. 607 M., is awaited.

	No. of vaccine operations.	Cost of each case.		
		RS.	A.	P.
1883-84	370	0	7	6
1884-85	341	0	10	3

	Births.	Rate per mille.	Deaths.	Rate per mille.
1883-84 ..	441	23·2	569	30·0
1884-85 ..	495	26·1	714	37·7

8. The incidence of taxation was Rs. 1-3-3 including tolls and Annas 9-7 excluding tolls against Rs. 1-3-7 and Annas 14-5, respectively, in 1883-84, the large decrease in the latter case being due chiefly to slackness in collections, as observed in paragraph 3 above.

9. The note to statement II shows that on the 31st March las [illegible] as a cash balance of Rs. 1,787, besides the funded capital of the dispensary amounting to Rs. 11,000, premises of the value of Rs. 25,554, and recoverable advances to the extent of Rs. 1,804. The liabilities are shown as *nil*, but this is not quite correct as observed in paragraph 7 above.

10. The Chairman's report gives no information concerning the working of the Council. From appendix A, however, it appears that 16 meetings were held during the year, the average attendance at each meeting being 8 out of a total of 17 members. Owing to the facts that the accounts were not properly kept and the office was not properly supervised, extensive defalcations took place. This subject has been disposed of in a separate order, and the Government trust that the vigorous measures adopted by the Councillors to put a stop to irregularities in the method of keeping the accounts will prove efficacious.

Municipal Report.

Reviewing the report of the Cuddapah Municipality for 1884-85.

Municipal Councillors Office
No 335 Cuddapah 12th October 1885

From
M. W. Elliot Esquire
Chairman Municipal Council
Cuddapah

To
The Honorable C. G. Webster
Chief Secretary to Government
Financial Department
Fort Saint George

Through the Collector, Cuddapah

Sir,

I have the honor to submit my report upon the working of the Towns Improvement Act for the year 1884-85 with the prescribed Statements enclosed. The delay in its submission was due to the books and accounts having been filed as exhibits in the recent defalcation case. They were only returned on the 22nd ultimo and as the Act. Manager is new to the work it was impossible get it ready earlier. The Receipts were Rs 38226-9-8 against Rs 3910 Estimated.

2. Rates and Taxes. The receipts were Rs 24890-8-9 or Rs 20-8-9 more than the Estim

3. House Rates were es mated at Rs 8000 but the ac al demand assessed was only Rs 787 -14-. nd the collections we Rs 6450 ncluding an arrear llection of s 290.

4. Rates on Lands wer estimated at Rs 600 but the actu collection was Rs 250 includi n arrears of Rs 35 or Rs 383 less th the Estimate

5. Taxes on Arts and P fessions Estimate Rs 3800 assessm t Rs 3651-8- but reduced to Rs 3483 after the hearing of appeals. Rs 2634-8- were collected during the year including an arrear Rs 177

28

6. Tax hicles and Animals and tration of Carts. The receip amounted to Rs 2064 or Rs 164 r the estimate.

7. The collection of was d for Rs 16 Rs 1144-10- includ an arrears of Rs 150 were col ted during the year Rs 1800 ranted as remission to the actor owing to the very heavy s sustained by him during the prev nce of Cholera ~~during~~ ~~the year~~ G. O dated 5th September 1885 No. 4 M - Rs 600 were collected during current year, and Rs 612 remain be collected.

8. Licen s (Under Sections 106, 123, 125, 5, 131, 136 of the Act) A Sum of Rs 7 was collected.

9. Imper l License Tax. Estimate Rs 2000, ettled demand was Rs 1710. The co ctions amounted to

Rs 1985 including an arrear of Rs 555. A sum of Rs 21 was collected during the year.

10. Penalties on account of Imperial License [illegible] Rs 16 [illegible] was collec under this head.

11. Surplus Pound Fund. Estimate Rs 50. Recei 40-4-3, being the net amount remitted by the Treasury Officer after deducting the moiety due to Government

12. Contributions from Local Funds—

Civil Dispensary Rs 2000
Poor House Rs 50.

13. Municipal Fines. Estimate Rs 300. Collection Rs 163-14-—

14. Fees from Schools and Training Institution

The estimat nder this

this he as Rs 920 collections amou d to Rs 890-4-"

15. Inc e from Markets. The Contra for collecting fees from Marke was leased out for Rs 3900. A Sum Rs 2504-12-9 was collected cluding an arrear of Rs 310. ps are being taken to recover e balance due viz Rs 1085

16 Ren of Other Buildings. The estima under this head was Rs. 1180, nd the collections amounted to R 6-1-5 as shown under

(1) Sheep laughter House Rs 391-10-6
(2) Beef ughter House Rs 79-"-
(3) Cart nds ....Rs 256-14-11
(4) Travel s Bunglow...... Rs 268-8-

Total Rs 996-1-5

17. End ments, Private Contributions a Donations. Rs 5000 was drawn om the funded Capital

for the purpose of preparing a Compound wall for the Civil Dispensary

Subscriptions	Rs 185-„
Sale of Medicines	Rs 146-13-4
Interest on Government Promissory notes	Rs 540-„

18. Sale of Sweepings. The Estimate under this head was Rs 250 and the collections amounted to Rs 409-8-„ including an arrear collection of Rs 250

19. Miscellaneous Receipts Rs 109-7-2 were realized by sale of old materials.

20 Expenditure Grant I

New Works Communications

Nothing was spent under this head.

21 Buildings. The Budget Grant under this head was Rs 1480 and the expenditure was Rs 1254-6-„

22. Boogg Water Supply Project. A su of Rs 372 6-7 was spent under this head in the investigation of the Boogg Water Supply project. It gives me great pleasure to be able to report that there is every reason to believe that this project will now be an accomplished fact. A Result that could hardly have been expected were it not for Government aid. The Municipal Council experienced great difficulties in endeavouring to obtain the services of a skilled Engineer, and even if they had secured a Competent one, the cost of paying him would have been a heavy drain on the Municipal Fund. But no sooner was Government made aware of the difficulty than they sent one of their most experienced Engineer officers to draw up a scheme and submit his report. This has been done. Colonel Drake Brockman's Scheme has been approved by Government, and it now only remains for the Council to find

[illegible] the fun[illegible] required [illegible] carrying out the scheme. [illegible] here too Government have come [illegible]ward with their generous help. The [illegible]heme has been estimated to cost Rs [illegible] and towards this sum Government have promised to contribute [illegible] 37300— nearly one half of the re[illegible]uired amount the Council are sangui[illegible] of procuring the remainder b[illegible] debenture loan and have appoi[illegible]d a sub-committee consisting of [illegible] gentlemen named in the ma[illegible]in [illegible] the purpose. There is one o[illegible] matter in connection with the pr[illegible]ect that has to be settled viz who [illegible] to have the supervision of this most important work. The Council [illegible] order to mark in a small wa[illegible] [illegible]ir appreciation of the generous [illegible]d afforded by Government, have reques[illegible] that Government will sele[illegible]t an Officer to supervise the work. [illegible] answer to the request has been [illegible] yet received, but the Council are sa[illegible]ied that should Government ac[illegible] to it the best Offi[illegible] available will be selected

1. Dr [illegible]amy Pillay District Medical Officer.
2. M R Ry P. Paupiah Garoo
3. Do. J. Perumal Naidu Garoo
4. Do. K. Venkata Subbiah Garoo
5. Do Rajack Meah Saib Garoo
6. Do. B. Ramiah Garoo

23 Repairs Communications

The expenditure under this head was R[illegible] 373-4-" against Rs 3230 [illegible] the Budget.

24. [illegible] A sum of Rs 454-5-4 was spe[illegible]t under this head against Rs 570 allotted in the Budget.

25. Drainag[illegible] A sum of Rs 400 was allotted in the Budget, but the ex-pendit[illegible] under this head was Rs 143-13[illegible]

26. Miscella[illegible]ous Rs 166-12-7 were spent [illegible] the head.

27. Tools an[illegible] Plant and Contingencies Rs 295-[illegible] were spent under this head. A [illegible] instrument was purchased a[illegible] a cost of Rs 257-14-" and the [illegible]alance Rs 37-10-" was spent on Conti[illegible]encies.

28. Grant [illegible] Education Rs 2280-4-6 were s[illegible]t upon two schools viz The [illegible]

Anglo Vernacular and the Vernacular Schools. The schools were examined by the Inspector and the Deputy Inspector of Schools. Copy of the Deputy Inspector's Report is herewith submitted.

Rs 361-13-8 were spent on Results Grants against Rs 500 allotted.

Rs 1183-4-0 were paid to Government on account of Middle school charges for 1883-84

29 Grant III Sanitation and Medical Service

30 Hospitals and Dispensaries.

Rs 5313-4-8 were spent under this head for the establishment, medicines diet, and contingencies against Rs 4840 allotted in the Budget. The increase is due to the extra expenses incurred in purchasing medicines and contingencies during the prevalence of Cholera.

31 **Vaccination** Rs 218-1-8 were spent under this head, the establishment

Contingencies

Contingencies and Contribution to Local Fund Board against Rs 250 allotted for the purpose. The number of cases vaccinated was 341 of which 336 were successful, the cost of a successful case was Rs 0-10-5

32. Registration of Births and Deaths

Rs 192 were spent under this head. The subjoined Statement shows the particulars of births and deaths in the Town during the year as compared with the previous year.

Population according to Census of 1881 ... 18982.

	1883-84	1884-85
Cholera	76	281
Small pox	2	10
Fever	158	107
Bowel complaints	17	23
[illegible]		
Suicides	3	4
Wounds	2	1
Accidents	8	2
Snake-bite	1	
All other causes.	302	286
Total	569	714
Births	441	495

33 **Conservancy**. The expenditure under this head was Rs [illegible]39-4-9 against Rs 4525 allotte

34 **Sanitary Service Cost of Conservancy Carts**. Amounts to Rs 2463-1-0 against Rs 2300 allotted. The increase is due to the rate of hire for bullocks having been increased from Rs 12 to 14 per pair per mensem

35 **Contingencies** Rs 352-12 were spent under this head against Rs 200 allotted in the Budget. The increase is due to the purchase of infectants &c.

A sum of Rs 2002-2-6 was spent in suppressing Cholera which prevailed during the months of November December 1884 and January 1885.

36 **Grant IV Lighting** 1235-3-6 were spent under this he gainst Rs 1740 allotted. The increase is under Contingencies. The establishment was the same as last year.

37 **Poor House**. There is a Poor-House in this Municipality supported

partly

partly b contribution from the Local Fund Bo d and partly by the Municip lity. The average number of inm s was 16, the expenditure -1-4 against Rs 620 allot.

38 **tering** Rs 120-11-4 were spent for watering roads during the hot seas

39 **Avenues** Two men were employed to plant avenue trees each on a salary of Rs 6 per mensem as last year.

40 **Travell Bunglow** Rs 219-14-6 were sp t under this head against Rs 210 provided in the Budget.

41 **Other Charges, Printing, Rewards &c** Rs 560- were spent on account of printi Municipal Proceedings and v ious forms. Rs 98-11-0 were spent in granting rewards for killing dogs, beating tom-tom and for making carriage and cart tin tickets.

42 **Grant V Office Establishment** includin carriage allowance to the Vice Pres nt amounts to Rs 2669-11-7

against Rs 2420 allotted in the Budget. The increase is under contingencies. The establishment for the collection of taxes cost Rs 678 against Rs 680 estimated.

43. Rs 100 were paid to the [illegible] for auditing the accounts of 1883-84. Rs 240 were paid to the late Manager as pension.

44. A sum of Rs 1804-8-5 was left unrecovered under advances.

45. The accounts for the current year were audited by a Sub Committee consisting of the Councillors named in the margin.

1 M.R.Ry. Murugasami Pillay Avergal the Divisional Officer
2. Do. K. Venkata Subbiah Garu
3 Do. B. Ramiah Garu
4 Do J. Perumal Naidu Garu

46. They were appointed at a general Meeting convened on the discovery of defalcations in the Office. The result of their audit was that a sum of Rs 3713-14-10 was found deficient.

47. The Manager and cash-keeper were tried by the Sessions Court on a charge of Criminal breach of trust by public servant.

48. The former was sentenced

88 (828)

to 5 years and the latter 7 years rigorous imprisonment.

49. The report of the Committee appointed to audit the accounts ha [illegible] lready submitted.

[illegible] llowing measures have [illegible] to prevent the occurrence of defalcations in the Office.

51. An Office Committee consisting of 5 Councillors has been appointed. It will be their special duty to make frequent examinations of the books and accounts. There will be a monthly audit conducted by 2 Councillors and the Chairman. I may here state that Mr. Stokes's System of accounts has been introduced. - The Council meets twice a month — the first and third Saturday. I have only to add that I make it a rule now to examine the books minutely, and every Monday scrutinize the bill books and issue processes necessary

An extract from the District Surgeon's Report on the working of the Municipal Dispensary is herewith submitted.

52. A Statement [illegible] the number of licenses [illegible] issued in the year [illegible] submitted prepared in accordance with G. O. No. 1528 dated 22nd August 1881.

53 The License Fee account prescribed by Government is also submitted herewith

I have the honor to be
Sir,
Your most obedient Servant

Chairman

Forwarded to the Chief Secretary to Government. The Collector has no remarks to make except to mention that the reply of Government with respect to lending the

to the Municipality the services of a Competent Officer to supervise the carrying out of the Water Project has since been received and has been communicated to the Chairman.

Sir,

* * * * * *

dapah Municipality.

General Statistics.

area and population. — The Cuddapah Municipality which extends o an area of 19 Sq. miles contains a populat of 18982 according to the census Rept of 1881.

Schools and pupils. — 2. The subjoined statement gives the number of schools of different grades and the number of pupils they contain for the l ears.

Grade of Schools	Schools			
	Number on 31st March		Change in	
	1884	1885	number	Per centage
Secondary	2	2	-	-
Primary	20	18	-2	—
Total	22	20	-2	—

Inno Sec dary Schools, one Sanit Patasala was transferred to t Cuddapah High School on the ppointment of a Sanscrit Pant in that institution. The girls mission School, having been raid during the year, from the grae of Primary to that of Midle School, the number of Secdary Schools remains unalted. Under Primary Schools theris a decrease of 10 per cent, whi is due to the prevalence of C ra in the town for nearly two onths from the middle of Nuber 1884. Among pupils reaing in Secondary Schools, ther an increase of 5·4 per-cent, an a decrease of 17·8 per-cent in mber of pupils of Primary Schs, which is due partly to the trarerring of a School of this grs to middle Schools and pa to the prevalence of Cholera tioned above.

M[illegible] Ward [illegible]
Chairman
Municipal Council

Administration Report of the Municipal Dispensary Cuddapah for the official year 1884-85

The public health of the town durin[illegible] the period under reference has been, o[illegible] the whole, healthy. Cholera however, [illegible]vailed in an epidemic form, in [illegible] months of November and Dec[illegible]ber /84 in the town of Cuddapa[illegible] and in surrounding Villages. The[illegible] were altogether 3[illegible]7 attacks and [illegible] deaths from it. On the out-break [illegible] the disease, the Municipality have adopte[illegible] every possible measure to check the [illegible]ther progress of the Scourge, by [illegible]ploying Special establishment[illegible] [illegible] attend to the Conservancy of the affec[illegible] localities; and by burning wood fires, [illegible]th Coaltar and Sulphur at several [illegible]ts of the town, both day and night, [illegible]ll the epidemic disappeared. Medical ai[illegible] was afforded freely to the affected p[illegible] at their own quarters. Two med[illegible] Subordinates were deputed specially on [illegible] duty.

During

[illegible] Epidemic people were prohib[illegible] from drink[illegible]g the water in the Bug[illegible] Channel as the disease seemed [illegible]e more virulent and persistent [illegible] the places adjoining the river-b[illegible] this had a marked effect in ar[illegible]g the further progress of the disease [illegible] stopping it eventually.

No.	Name of Dispensary	Station	[illegible] in charge
1	Municipal Dispensary.	Sadd[illegible]	District Surgeon

It is maintaine[illegible] governed by the Municipality [illegible]

Visited occasional[illegible] the Civil authorities. No meet[illegible] the Dispensary Committee were held [illegible]ing the year

It is under [illegible] medical charge of the Distri[illegible]urgeon. In his absence, the Assist[illegible]t Surgeon has charge of the Insti[illegible]tion.

During the period un[illegible]eview [illegible] out and 366 Inpatients, [illegible] been treated, showing a decrease of 2,[illegible]t and 32 Inpatients

Inpatients [illegible] the previous [illegible] this decrea[illegible] owing, to some exte[illegible] to the less [illegible]valence of fever and ot[illegible] zymotic [illegible]; and also to the panic caused by [illegible]revalence of Cholera, — during wh[illegible] time very few out patients have atten[illegible] the Dispensary.

The m[illegible] prevailing diseases have been as usual, [illegible] ulcers Rheumatic and Syphilitic affections Ophthalmia, infl. of the ext. ear, Coughs and ulcers.

During the year 25 major and 343 minor [illegible]tions have been performed

A [illegible] number of important and interest[illegible] have been treated during the y[illegible] but none of these demands [illegible] notice except the following.

Amput[illegible] double [illegible] Comminuted fracture of leg and thigh.

[illegible]

Amput[illegible]

Amputa[illegible]

[illegible] knife; 5 Cured
moval of Cancer of bre t by knife; 1
[illegible] Relieved.

Reduction of Dislocations; cured.
Tedious labour delivered Forceps; 1
[illegible] labour; 1
[illegible] Cured
Occlution of Vagina 1 Cured

[illegible]. The Conservancy of the Town is carefully attended to, by the municipality.

The present number of Conservancy carts are, I think, insufficient. There are only 9 box and 2 Dla, or basket bandies for street swe pi s and 5 closed box carts for night soil; sides these, there are 2 iron hand carts for removing night soil from sides of road and public places. The Do , or basket bandies are next to useless; they carry very little sweepings; they should be substituted by the egular box carts.

The Conservan E blishment
nitary
and 28 Female
Scavengers.

There a
repairs mor less; they are fre-
resorted to people.
Urinals 5; lerably good order.
Dust-bins most of them requiring
repairs a adjusting. I consider
they are qu inadequate to a large
and scattere town like Cuddapah.
ould therefore recom-
mend abo 50 more to be con-
structed. T Sweepings are supp d
to be burie trenches dug up for
the purpos tside the Town, abou
a mile di e. The manure is given
on contra Sabhapathy Modaliar
of Bellary, o resells the same to
Ryots. The ation of the Depôt is
not altogethe unobjectionable; it
being too to the European
Cemetery a public road; and the
rubbish is a o often thrown on the
ground in egular heaps or scattered
about the lace, instead of being
buried in ep pits or trenches
I have a brought this matter
to the n the Chairman of the
Munici-

Municipality & sugg[illegible] the expediency and advisability of Selecting a less objectionable site for a depot; also the propriety of Constructing [illegible] cinerators at the place, and converting [illegible] Sweepings into poudrette.

House drainage is carried on by cesspools, which are periodically cleaned out.

Water Supply. Tolerably good, drinking water is obtained from percolation wells along the bank of the Beegah river. 2 Watchmen are placed over 3 of the wells, largely used by [illegible] people, and another on the Beegah channel itself the water of which is used principally for bathing and washing purposes.

Water project. The long contemplated Scheme for supplying drinking water to the people from the Boogah springs which are situated about 3 miles from the town, has been, at last, by order of Government, drawn up by Major Brockman. The estimate and plan for this project have been recently

recently se[illegible] by this Office. If this most useful and urgently needed work is accomplished, it would be a great blessing to the people living in one of the unhealth[illegible] and most dreaded Stations in [illegible]thern India. I have not the least doubt, that by supplying the inhabitants with the pure water from the [illegible]ah Springs, which was pronounced by the Chemical Examiner as the best [illegible] in Southern India, would materially improve the health and comfort of the inhabitants.

General Remarks: The general health of the people during the past Official year has been comparatively good, notwithstanding the prevalence of Cholera in the latter part of the year.

Intermittent fever has prevailed only to a [illegible] limited extent.

During the period under review, the admissions under this head, being only 2,865, [illegible]ving a decrease of 1663, over the [illegible] year. This is owing

ing most probably to the less fall of rain during the South-west monsoon and consequently wet cultivation not being carried on to the same extent as hithertofore in the fields situated within the Municipal limits.

2. In statement VI. B the closing balances and the grand totals of the expenditure and balances are not given and the corrections ordered in G.O. of 29th August 1884 No. 1029 have not been adopted in the column showing the actuals of 1883-84. Further, the instructions given in G.O. of 12th February 1885 No. 304 regarding the abilitio of the License tax transactions have not been attend to. The necessary corrections in the accounts have now been made, the License tax remuneration being shown under assignments by Govt. Similar mistakes and omissions should be guarded against in futur

3. The receipts amounted to Rs. 36379 against an estima

of Rs 38010 and Rs 84,881, the Actuals of 1883-84. The decrease as compared with the Estimate is the net result chiefly of a falling off under the House and land rates, Tax on Arts &c., Tolls and Miscellaneous and of a large increase under Endowments. There was a decrease as compared with the previous year of about Rs 1800 in the current demand of the House and land rates and of Rs 1200 in that of the Tax on arts. The cause of this should be fully explained. The collections under these heads as well as under market rents were not satisfactory as will be seen from the marginally noted figures and little or no use was made of the measures of

		Demand,	Collns,	Percentage of collns on demand
House & land rates	Current	8595,	6378	-74.2
	arrears	2293,	323	-14.1
Tax on Arts	Current	3117,	2458	-78.9
	arrears	884,	177	-20.0
Market rents	current	3900,	2195	-56.3

Statt II and para 6 of the Chairman's report.

Para 17 of the C's report

authorized by the Act. It is hoped that the current year's report will show an improvement in this matter. The authority under which Rs 5000 were drawn from the funded Capital of the Dispensary for erecting the compound walls should be quoted, and the omission from the year's accounts of deposit balance of Rs 1363 shown as carried forward in the previous years accounts, should be explained. The Tolls statement prescribed by G.O. of 22nd August 1879 No 1614 should be submitted at an early date. The entries in cols 17-25 of the Special License tax statt are apparently incorrect. A correct statement approved by the Board of Revenue should be submitted for the information of Govt.

4. The charges amounted to Rs. 37.523 against an estimate of Rs. 37.950 and Rs. 34.067, the actuals of the previous year and were distributed as follows:—

~~Grant~~ I	Public Works — —	19.4
" II	Education —	10.7
" III	Sanitation —	40.6
" IV	Lighting & Miscellaneous	9.6
" V	Supervision &ca	9.8
Advances, refunds & defalcation		9.9
	Total	100.0

5. The expenditure under Grant I amounted to only Rs. 7.27[illegible] [illegible]et Rs. 14.140 estimated, owing [illegible] provision for the investigation of the Boogga water supply project having remained almost unutilized. It is observed that the Tolls were raised to the maximum rate specially to provide funds for experimenting on the Boogga water supply and an appropriation of Rs. 5[illegible] was made from the fund capital of [illegible] Dispensary for

Rs: 372 only spent.

But what is the Explanation? This must appear W 9-11-85

As Govt. placed the services of an* Engineer officer at the disposal of the Munl. Committee

Para 22 of the report

* Major Drake Brockman see para 22 of the Chairman's report please

to

its improvement, as stated above; but the amounts actually spent on these objects were only Rs. 372 and Rs. 824 respectively. The utilization of the balance for ordinary municipal purposes was highly irregular. Rs. 3673 was spent on repairs to roads, but no information is furnished as to ~~about~~ their ~~general~~ condition. The Chairman will report whether the construction of the Municip market which was in progress in 1883-84 has been completed.

6. Two schools were wholly maintained from municipal Funds and aid was given to 9 others on the results system; Rs. 1183 were also paid to Government

being the net cost of the Middle Department of the Govt. High Schools. The schools appear to have ~~suffered in~~ fallen off ~~attendance~~ owing to the prevalence of cholera, but the work done by them was on the whole fair. Statement V however shows that the state of Education in the Town is not satisfactory, only 41·2 per cent of the boys and 6·[illegible] per cent of the girls of school going age being under instruction. The information called for in O.M. No. 2336 of 18th October 1884 regarding Middle school charges should b submitted at an early d

imperfect. Sufficient atten
does not appear to be paid
to this most important
subjects in spite of the of
repeated expressed desire ~~remarks~~ of Govt.
On conservancy Rs 9,533 were
spent against Rs 7,900 esti-
mated, the increase being
due to an Expenditure of
Rs 2,002 on cholera preven e
measures. The sanction
of Govt. should have been
obtained for the excess allotment. ~~incurring this~~
~~excess expenditure~~ Ther
were however only 158 de
from ~~this Epidemic~~ cholera. The
conservancy of the Town
is reported to be carefully
attended to, but the defects
noticed by the District
surgeon should be reme-
died at an early date.
As regards the new water
Supply scheme the loan
application called for i
G.O.

Para 35 of the Chairman's report.

Trifling liabilities

G.O. 3rd October 1885 No 607 M. is awaited.

8. The incidence of taxation
was R 1-2-3 including Tolls
and annas 9-7 excluding
~~them~~ tolls against Rs 1-3-7 and
annas 14-5 respectively
in 1883-84, the large decrease in the
latter case being due to chiefly slackness in collections
as observed in para 3 above.

9. The note to Statement
II shows that on the 31st
March last, there was a
cash balance of Rs 1,787
besides the funded Capital
of the Dispensary amounting
to Rs 11,000, premises of the
value of Rs 25,554, and
recoverable advances
to the Extent of Rs 1,804. The
liabilities are shown
as nil, but this is
not quite correct, as observed
in para 7 above.

10. The Chairman's re-
port ~~is meagre and~~
gives no

Concerning
~~no~~ information ~~is furnis~~
about the working of the
council. From Appendix
A however it appears tha
16 meetings were held dur
the year, the average at-
tendance at each meet
being 8 out of a total of
17 members. ~~The Govt. cannot congratulate the councillors on the results of the year's work. The municipal administration was very lax~~
owing to the fact that, the accounts
were not properly kept
and the office was not
properly supervised. ~~The result was that there was~~ Extensive defalcations took place. This subject has
been disposed of in a separate order and
~~The Govt. however have nothing further now to add to their remarks on this subject in G.O.~~ the Govt. trust
that the vigorous measures
adopted by the Councillors to
put a stop to irregularities
in the ~~accounts~~ method of
keeping the accounts will
prove efficacious.
~~21st September 1885 No 552 M. It is hoped~~
