No. 16281.

Colonial Secretary's Office,
Colombo, 27th August, 1917.

Sir,

I am directed to inform you that it has been brought to the notice of this Government that the water supply to the new Quarantine and Immigration Camp at Mandapam, which was opened for occupation on May 1st, is both insufficient in quantity and in quality unfit for human consumption owing to the percolation of sea-water by suction into the main well, resulting in the presence of chlorine in excessive quantities.

2. To remedy this defect it is proposed, inter alia, to increase the flow of fresh water into the main well by extending the system of subsidiary wells and adits; and for this purpose a small extent of land outside the present camp boundaries, approximately 7.76 acres in area, is required.

3. I am accordingly to state that His Excellency the Governor would be glad if you would cause the necessary steps to be taken to acquire the land in question on behalf of this Government, the Ceylon Government Engineer, Mandapam, being meanwhile put in possession of the land pending the completion of formal acquisition proceedings.

The Secretary

to the Government of Madras
Local & Municipal Department,
Fort Saint George.

~~Please see pages 1 and 4 C.F.~~ The owners of the land proposed to be taken up are willing to part with their rights ^{in their land} and do not seem to have demanded a higher rate of Compensation than that awarded by the Collector. The cost of the land being small, (Rs 224. 4. 0) it does not seem necessary to obtain the previous approval of the Colonial Govt.
