22-JUN-1918
GOVT. OF MADRAS

To,

The Chief Secretary to Government of Madras

Sir,

In submitting herewith a copy of the resolutions passed at the XII Godavari District Conference held at Rajole on 26, 27 and 28th ultimo, I have the honour to solicit your attention to resolutions no. I, III, IV, VIII and XXII thereof in particulars.

Res. III

Rub XVII

I have the honour to be,
Sir,
Your most obedient Servant
D V [illegible]
Joint Secretary

Resolutions passed at the 12th Godavari District Conference held at Razole on 26th, 27th, and 28th May 1918, under the presidency of the Honourable B. Venkatapathi Raju garu, B. A. B. L. High Court Vakil, Vizagapatam.

LOYALTY.

I (*a*) This Conference prays to God for the complete victory of the British Government and their Allies in the terrible war which they were forced to enter into, with the noble object of protecting the weaker kingdoms, of destroying the German militarism, and of restoring lasting peace in this world.

(*b*) This Conference exhorts the people of this district to co-operate with the Government and give practical proof of their grateful loyalty by enthusiastically subscribing to the best of their means to the Second War Loan, recently notified by the Government.

CONDOLENCES.

II. This Conference resolves to place on record its deep sense of regret for the irreparable loss sustained by this country in the death of Dr. Dadabhoy Naoroji and Sir William Wedderburn.

BOARD OF REVENUE.

III. This Conference resolves to request that the Madras Board of Revenue be abolished and that its duties be got performed by increasing the number of Secretaries under Government.

ARMY.

IV (*a*) This Conference exhorts the Andhras to join the army with eagerness and enthusiasm, since the Government have afforded facilities for the enlistiment of duly qualified educated Indians also in the Indian Army.

(*b*) While feeling satisfied with the recognition which the Andhras have received for their heroic services in Mesopotamia and particularly in East Africa, this Conference exhorts the people of this district to willingly co-operate in all possible ways with the district authorities in their efforts to recruit labour for Mesopotamia.

Rules

PERMANENT SETTLEMENT.

V. As the present re-settlement operations carried on once in 30 years, have become oppressive in their character, this Conference resolves to request that the land revenue settlement of this presidency be made permanent limited by statutory provisions.

ABKARI.

VI (*a*) This Conference regrets to note that, while the number of liquor shops is being gradually reduced, there has been no corresponding reduction in consumption and therefore resolves to request local boards and municipalities to take further steps for the reduction of shops and removal of facilities for drinking, by obtaining orders to close in towns toddy and arrack shops during market and festival days and to see that no liquor shops are sanctioned close to high ways of communication.

(*b*) This conference is of opinion that it is not proper to credit to Government penalty levied from tappers for overtapping palmyrah trees of private land owners.

HIGH PRICES.

VII. This Conference resolves to request that, as the poor are subjected to great hardship by the high prices demanded for kerosine oil and cloths, Government be pleased to take steps for the regulation of the sale of cloths, and that local boards, municipalities, co-operative societies, and libraries, in the district do undertake to sell through their agencies kerosine oil cheaply and thereby relieve the distress of the poor.

DISTRICT ADMINISTRATION.

VIII (*a*) This Conference resolves to request that, as Collectors, during their tours, are not generally accessible to persons who can acquaint them with the real wishes and needs of the people in regard to agricultural and other topics, and as the officers of the revenue department do not attend district and other conferences to understand the nature of the discussions therein made, thereby rendering it impossible to establish that mutual understanding which should exist between the people and the district revenue authorities, the Collector should hold durbars at least twice a year, in order to ascertain the true opinion of the people in regard to district administration.

Home (Misc)

(*b*) As it is understood that it is under contemplation to transfer the Polavaram division to the new district to be formed by a re-distribution of the present Kistna district, this Conference resolves to suggest for due consideration, that the revenue divisions of the Godavari district be re-constituted as hereunder:—

(1) (i) Amalapur divisional officer—Amalapur and Razole taluks. (ii) Rajahmundry divisional officer—Rajahmundry and Ramachendrapur taluks and the Chodavaram division. (iii) Peddapuram divisional officer—Peddapuram taluk, Yellavaram and Tuni divisions. (iv) Cocanada divisional officer—Cocanada taluk and the Pithapur division. (v) Bhadrachelam divisional officer—Bhadrachelam and Nugur taluks.

(2) that the Rajahmundry division be no longer a revenue division to be in the charge of a civilian.

IX

(*c*) this conference resolves to request. (1) that, as many an important order which should be known to ryots and land-owners does not appear to have been of late published in the district gazette as was done formerly, the Collector and the D. P. W. officers may be pleased to issue orders for the timely publication in the gazette of all such orders hereafter.

(2) that the remarks of inspecting officers on village accounts be written in the vernacular of the district; and that important correspondence in taluk offices be carried on in Telugu.

(*d*) (1) that, as the administration has not been receiving the expected amount of benefit from the highly paid district superintendents of police, that office be abolished and that the district magistrate should get the police work done with the aid of the Indian deputy superintendents of police to secure greater efficiency.

Pub

(2) that with a view to curtail the gradually expanding cost of administration and to devote the savings for public works of utility, the posts of the Collector, and the district judge, should hereafter carry a salary of Rs. 1,200/- per mensem.

INDUSTRIES.

IX. This Conference resolves (i) that Government be pleased to afford facilities for the establishment of factories for extraction of oil from oil seeds, manufacture of paper, cement, best sort of tiles and bricks, pencils, candles, etc., for which the required materials are mostly available in the district. (ii) that, Messers. Tata and Co., Bombay be requested to establish a branch in the Razole Taluk for the extraction of cocoanut-oil and for development of coir industry as on the Malabar coast,

(iii) that it is essential that Government should advance funds for development of silk weaving in the Bhadrachelam division as a home industry.

VILLAGE OFFICERS.

X. While expressing its satisfaction for raising the salaries of taluk shroffs and peons, this Conference resolves to request that the salaries of village officers and village servants be also increased, that they should be paid travelling allowance, and halting batta whenever they leave their villages on duty; and that karnams should not be compelled to often undergo survey training when they have once been declared to have passed the examination.

Re

BILLS.

XI This Conference resolves to request Government to grant necessary permission for the introduction of (i) the Bill to amend the Act of 1863, relating to Hindu religious and charitable endowments, by the Honourable Mr. Justice Seshagiri Ayer, and Mr. L. A. Govindaraghava Iyer, (ii) the Bill for the creation of the irrigation panchayats by the Honourable Rao Bahadur Mr, M. Ramachendra Rao Pantulu B. A. B. L.

RAILWAY.

XII (*a*) This Conference resolves to request the Local Government and the Godavari district board: (1) that, as owing to the conditions of war now prevailing, there seems to be no prospect of the construction of the proposed district board railway being undertaken for some years to come, the levy of the railway cess in the district be kept in abeyance for the present. (2) that Government be pleased to get the rules so amended as to enable the district board to invest in the district co-operative bank, the balance of railway cess, hitherto collected and to be collected hereafter.

(*b*) (1) This Conference resolves to request the Madras and Southern Maharatta Railway Company, (i) to make suitable arrangements for the removal of over-crowding in third class carriages, to have covered platforms in the railway stations and to have sufficient lighting in the carriages and on station platforms. (2) that no rent or charge be levied by the railway administration for providing Indian refreshment rooms in station premises.

(c) as Amalapur and Rajole Taluks are at a great distance from the railway line, and as it takes a long time for passengers from the villages of those taluks to reach the nearest railway station, this Conference resolves to request that due encouragement be given to those that are prepared to run motar launches in the canals by permitting a speed rate of 8 miles per hour.

LOCAL FUNDS.

XIII. This Conference resolves to request, (a) that separate taluk boards be sanctioned for the delta taluks of Cocanada, Ramachendrapur, Amalapur, and Razole.

(b) that, till this is done the taluk boards of Cocanada, Peddapur and Rajahmundry be empowered to elect a non-official president from among their own members.

(c) that, the Godavari district board bo abolished and till this is done, its non-official members be empowered to elect from among them a non-official president and a vice-president.

(d) that, official members of taluk boards be prohibited from offering as candidates for election to membership on the district board.

(e) that, the Local Boards Act, be withdrawn from the Chodavaram and Yellavaram agency divisions of the district.

(f) that, local boards and municipal councils do contribute funds in aid of public libraries in towns and villages of this district.

(g) that, the district board should not have power to raise the local cess beyond one anna in the rupee.

(h) that a qualified temporary assistant engineer be appointed by the district board, for preparing estimates, for bridges urgently required over navigable canals and drains so as to facilitate early submission to Government of applications for provincial grants therefor.

(i) that, as the rest houses maintained by the district board are not the least useful to the public, they be taken over by Government.

(j) that, the post of the sanitary assistant to the District Medical and Sanitary Officer, from which the district has not been deriving the anticipated benefit, be abolished and that duly qualified sanitary inspectors, who passed the minor sanitary engineering test also, be appointed for each taluk.

(k) that, a contribution of not less than one lakh of rupees be given annually to the district board, from the major irrigation revenue of the district, for improvement of communications and construction of bridges and culverts over irrigation channels in the delta.

(l) that, for efficient local fund administration, each taluk board should have its own assistant engineer.

(m) that, owing to inadequate medical aid in the delta taluks at least one hospital be established for each revenue firka of a taluk.

(n) that, the boards do render financial help for the study and development of Ayurvedic and Unani systems of medicine.

(o) that a veterinary hospital be established for each of the delta taluks in the district. and (p) that in municipal and taluk board elections, duly qualified females should also be given the right of voting.

HOME RULE.

XIV (a) This Conference while according its unqualified approval for the Home Rule movement, exhorts the people, to establish

War

more Home Rule League Branches in different parts of the district, in order to make it more popular. (b) This Conference resolves to request that, without awaiting the termination of the war, a law should be passed granting complete Home Rule within a prescribed period on the lines cut-lined in the Congress Moslem league scheme with adequate provision for communal representation.

ANDHRA MOVEMENT.

XV (a) This Conference resolves to re-iterate its opinion that a separate province is necessary for the advancement of the Andhras and enters its emphatic protest against the action of the Madras provincial congress committee in attempting to affiliate the district congress committees of Chittor, Anantapur, and Bellary, to that committee instead of their being affiliated to the newly created Andhra congress committee, sanctioned by the last Indian National Congress. (b) This Conference resolves to request Government to take steps for the early establishment of a separate university for the Andhras.

LANKAS.

XVI. This Conference resolves to request (a) that, as B. S. O. 35, which directs the payment of revenue due on ryotwari and minor inam lands in the village in which the lands are situated, is found in practice to be highly inconvenient to many a ryot, it may be so amended as to enable them to pay their dues whenever they can, just as Messrs. T. H. Barry and Co., do with regard to payment of their lanka kists. (b) that Government be pleased to grant, on favourable terms, lankas to ryots for experimental cultivation on the condition of their raising similar economic crops, as those hitherto raised by Messrs. T. H. Barry and Co., and that if Government have found it, on experience, to be unprofitable to them, to sell all lankas including those in the enjoyment of Mr. Barry in public auction. [c] that the collection of lanka kists be made in March and April instead of February and March as at present. [d] that lanka deposits be adjusted in full towards the last instalment,

[e] that only block rate be demanded on excess area found to have been cultivated in lankas when the boundaries have disappeared by the action of the river.

LANDS AND LAND REGISTERS.

XVII. This conference resolves to request [a] that it is essential to issue pattahs to inamdars at the jamabandi showing individual war demand as in the case of the jeroyatidars, as in the absence of the same much injustice of an avoidable nature is caused to inamdars. [b] that village officers be instructed to permit owners of lands to copy from the block sheets the survey numbers, since the measurements, and sub-divisional marks of A, B, C, D, etc. noted in the diglott register, are not to be found in the village plans. [c] that the power of imposing penal assessment for encroachments be kept in abeyance till the re-survey is completed as no sketch is supplied to the offending party before imposing the penalty and that the re-survey be speedily completed. (d) that arrangements be made for the exhibition in diglott registers of the names of all owners and occupants of inam lands as before and that water-tax on inferior classes of inams should not exceed that demanded on jeroyaties of the same class. (e) that the sub division of inam lands be made as in the case of jeroyaties at the request of any joint pattadar.

EDUCATION.

XVIII. This conference resolves to request, (i) that steps be taken for introduction of free compulsory primary education in the district. (ii) that university examinations be held hereafter in December and January, instead of in summer months in consideration of the health of the students of this country. (iii) that the study of one of the vernaculars or sanscrit be made compulsory in all schools and colleges except for the B. A. Honours Course. [iv] that the pay of the teachers of the elementary schools should not be less than 15 Rs. per mensem. [v] that the already sanctioned mechanical engineering school, be established at Cocanada as early as practicable. [vi] that educational authorities and teachers do take active steps for the establishment of boy-scout societies and that students be encouraged to join them in large numbers. [vii] this conference considers it necessary [*a*] that as the education now imparted in the colleges under state control is not of much advantage to the country at large, a national college should be established either at Rajahmundry or Cocanada, and that as many national schools as possible be established in villages. [*b*] that schools be established at least one for each taluk for teaching industrial and fine arts.

IRRIGATION.

XIX (*a*) In view of the hardship caused to the ryots by the method of rejecting water applications by the D. P. W. and of dissatisfaction caused owing to the indifference of the revenue department to set matters right, this conference resolves to appoint a committee consisting of the following five non-officials who are reputed to be acquainted with the delta irrigation system to make a report on the subject to the Godavari District Association, for eventual submission to Government on behalf of the people Messrs. [1] Chilukuri Seshagiri Rao (Kotipalli) [2] P. V. S. Gopalam (Amalapur) [3] P. Suryanarayanaraju B. A. (Rajahmundry) [4] B. Veeraswamy L. Ag. (Tatipaka) with [5] D. V. Prakasa Rao, as secretary of the committee. (*b*) This conference resolves to request: [1] that Government be pleased to publish before hand in the district gazette, the draft rules for the supply and distribution of water for the 2nd crop, which the Superintending Engineer, has been asked to submit, so as to enable the public to submit their objections thereto if any in proper time. (ii) that the temporary pipes hitherto sanctioned for the irrigation of dry crops during 2nd crop season, be continued as their removal had retarted and would retard the raising of such crops. (iii) that a statement of water readings in several channels, similar to the one published for June 1916, be published hereafter every month in the district gazette. (iv) that the draft list of the four year programme for the opening and closure of channels for 2nd crop be published in advance in the district gazette for public criticism and that the final list be issued thereafter, as otherwise great hardship is caused to ryots who raise

economic crops like sugar cane etc. [v] that Tahsildars be again empowered to directly dispose of applications for water for 1st crop when a wet crop is raised on a field classified, at the last joint inspection, as irrigable dry and shown as commandable by a certain pipe of a certain channel. [vi] that it should be ascertained how far lands left out at the last joint inspection have since become fit for wet cultivation and that such areas be included under some particular channel ordering another joint inspection therefor. [vii] that the D. P. W. should undertake to construct small bridges or culverts over irrigation channels where necessary.

XX. This conference resolves to request (*a*) that the orders recently issued for supply of water for sugar-cane under closed channels be extended to plantain gardens also. (*b*) that, as the ryots have not been receiving the amount of assistance to which they are entitled from the revenue department in the matter of water supply for irrigation, the duty of water distribution should be removed from the engineering department and transfered to the Agricultural Department, which should be assisted by a Canal Board established for the purpose. (*c*) that orders be issued permitting ryots to send telephone messages, even on payment, to D. P. W. officers complaining against water supply during tranplantation season. (*d*) that no entries be allowed to be made in the Village Account No. 6 for the alleged unauthorized irrigation by breaches etc., unless the tahsildar of the taluk ascertained before hand as to the necessity or otherwise of the breach and ordered the entry therein. (*e*) that no water-tax be charged on gardens or garden crops raised on mounds amidst consolidated wet lands. (*f*) that, water applications be invariably sanctioned for lands hitherto under wet cultivation and on which no other dry crop except a wet crop can be raised. (*g*) that the high rates of penalties levied during this fasli on lands cultviated as usual in anticipation of the sanction of water applications by the D. P. W, be remitted as a special case (*h*) that the jamabandi officer should not ordinarily have power to enhance the penal assessment once imposed by a competent revenue officer after personal inspection. (*i*) This conference urges that it is not proper to demand a water tax of more than Rs. 5/- per acre per fasli on plantains, cocoanut, arecanut, and mango etc., gardens and on yam etc., garden crops, which require only occassional flooding.

ROADS AND COMMUNICATIONS.

XXI. This conference resolves to request, (1) that, in order to establish through communication between Razole, the headquarters of the taluk and Goganamattam, a village at one extrimity, a road of one mile distance be made to connect Bethamallipudi Savaram and Murimolli. (2) that a protective bund be constructed to shut out flood-water from the fields of Peravaram, Rajavaram and Velcheru. (3) that the Bobbarlanka Palivela Road, already sanctioned and on which some progress was made, be completed and opened for traffic. [4] that the construction of the following new roads be sanctioned. [*a*] from Kothapeta to Gannavaram *via.*, Narendrapuram. [*b*] from Sivakodu to Antervedi [*c*] from Razole to Sakhinetipalli [*d*] from Mukteswaram to Chitallanka. [*e*] from Amalapur to Challapalli. [*f*] from Janupalli to Nedunur and [*g*] from Gollapalem to Kajulur.

REPRESSIVE LAWS.

XXII. (*a*) In view of the hardship caused to the public at large, in the working of the Press Act and the Seditious Meetings Act, this conference resolves to request that they be repealed and confidence restored among the people ; [*b*] this conference further requests that all those who have been interned under the Defence of India Act be tried before a regular court of justice and that the said Act be not used for purposes other than those relating to the prosecution of war.

XXIII. This conference resolves to request the Godavari District Association to communicate as usual the above resolutions to the officers concerned and take all other necessary action in the matter.

N. B.—Next conference has been invited to Tuni.

RAJOLE, } B. VENKATAPATIRAJU,
28th May, 1918 } *President.*
