Official Memorandum No. 2123-1, Home (Miscellaneous), dated 2nd August 1918.

Intimation has been received from the Government of India that they have decided to form a central organization known as the 'Charity Organization Board' for the co-ordination, so far as is possible, of the activities and efforts of both war and non-war charities. The objects of the Board have been defined in the following terms : —

I. To prepare a register for publication indicating the scope, objects, present financial position and needs of the various funds connected with the war, including branches of all the British and Allied Funds operating in India.

II. To co-ordinate the activities of the various organizations, with the object of ensuring that each concentrates its efforts on its own objects and of preventing overlapping and the diversion of charitable funds to objects which are the care of Government.

III. When the register, referred to in I, has been prepared and the information is fully available, to advise into what channel or channels the stream of public charity can from time to time be most profitably guided.

IV. To prepare and publish a register, similar to the one referred to in I, for other organized public charities in India and to take such steps as may be practicable, by advice or otherwise, to ensure that their activities are not crippled by the natural diversion of charitable contributions to funds connected with the war.

V. To keep the public informed from time to time of the objects of the various charitable funds coming within the scope of the Board's operations, the scale of their expenditure, the state of their finances, and their needs.

VI. To answer inquiries as to the directions in which further efforts to raise money for charitable purposes can most suitably be made.

The advisability of establishing a Provincial Board in this Presidency with objects similar to those described above has been suggested to His Excellency the Governor in Council. The primary object in view is the collection of the fullest possible information regarding all charitable movements in this Presidency.

The $\frac{\text{District Magistrate}}{\text{Commissioner of Police, Madras}}$ . . . . is therefore requested to forward as early as possible complete particulars of each charity in $\frac{\text{his district}}{\text{the City}}$ including details of its administration, the address of its working committee and Secretary, its sources of income, annual expenditure and any other distinctive or essential features.

R. RAMACHANDRA RAO,
Secretary to Government.

To the District Magistrates . . . .
,, Commissioner of Police, Madras.

Press Communiqué.

For some time it has been felt that there is need for a central organization to prevent the overlapping of war charities and to see so far as is possible that non-war charities do not suffer on account of the war. At the suggestion of His Excellency the Viceroy, who has consented to become Patron of the movement, it has been decided to form for this purpose at the headquarters of the Government of India, a 'Charity Organization Board.'

At the first meeting of the committee its objects were defined in the following terms :—

I. To prepare a register for publication indicating the scope, objects, present financial position and needs of the various funds connected with the war, including branches of all the British and Allied Funds operating in India.

II. To co-ordinate the activities of the various organizations, with the object of ensuring that each concentrates its efforts to its own objects and of preventing overlapping and the diversion of charitable funds to objects which are the care of Government.

III. When the register has been prepared and the information is fully available, to advise into what channel or channels the stream of public charity can from time to time be most profitably guided.

IV. To prepare and publish a similar register for other organized public charities in India and to take such steps as may be practicable, by advice or otherwise, to ensure that their activities are not crippled by the natural diversion of charitable contributions to funds connected with the war.

V. To keep the public informed from time to time of the objects of the various charitable funds coming within the scope of the Board's operations, the scale of expenditure, the state of their finances, and their needs.

VI. To answer inquiries as to the directions in which further efforts to raise money for charitable purposes can most suitably be made.

In a letter to heads of Provinces detailing the scheme the Chairman of the Committee, the Hon'ble Sir Claude Hill, says :—

"There is no intention whatever to interfere, in any way, either in the internal organization of any charitable movement or in the administration of any provincial or other charitable funds, whether connected with the war or otherwise. It has, however, been the experience here as no doubt in your province also, that from various causes there has been overlapping in connexion with war charities, and that non-war charities have suffered considerably owing to the war. Again it is our experience that the activities of some of the war charities have occasionally trenched upon spheres of action which properly belong to Government; while, finally, as has been noticed by the Joint War Committee in administering Red Cross Work, there have been cases in which two or more provinces or organizations have been supplying relief to the same object without knowing that others were also operating in the same field.

"It will be within your recollection that, in the case of the Joint War Committee reorganization, the object aimed at has been to increase rather than to diminish provincial autonomy, by introducing the largest possible measure of decentralization of authority and control. The Charity Organization Board desire to pursue the same policy and their functions will be advisory; but, since, in the case both of war and non-war charities, it is not always the province which is the unit of control, it appears to us that, if the work of co-ordination is to be effectively carried on, we, as well as all the provincial bodies, must be in possession of the fullest possible information regarding all charities throughout India. With these objects in view, I am to suggest for your consideration, the desirability of establishing in your province a Provincial Charity Organization Board with objects similar to those described in the proceedings of the meeting of the 6th of July. I am also to ask that, with your permission, the fullest possible information may be furnished to my Board regarding the charitable movements within your province. We feel that, by the publication of the results of this inquiry for all provinces we shall be affording your Provincial Board, when it comes into being, very valuable information, enabling it to co-ordinate within your province the activities of the various organizations."

It is hoped that "on the analogy of the Joint War Committee, the heads who may be appointed to administer the provincial organizations will kindly consent to be Vice-Patrons also of my Board, and His Excellency the Viceroy hopes that, by this measure, all risk will be avoided of misapprehension as to the scope of the operations of the Board established at the headquarters of the Government of India."

As a first step towards the carrying out of these suggestions District Magistrates (and in the City of Madras the Commissioner of Police) have been asked to collect the required information, to obtain a complete list of all charitable movements including details of administration, address of working committees and Secretaries, sources of income, annual expenditure and other distinctive and essential features. Managing bodies or others responsible are invited to offer their prompt and willing assistance in furnishing the above information to the District Magistrates.

Letter—from E. W. Legh, Esq., I.C.S., District Magistrate, Salem.
To—the Secretary to Government, Home (Miscellaneous) Department.
Dated—the 15th August 1918.
No.—765-D.M.D.

I have the honour to report that there are in this district no charitable movements of the kind referred to in Government memorandum No. 2123–1, Home (Miscellaneous), dated 2nd August 1918.

Letter—from J. M. Turing, Esq., I.C.S., District Magistrate, Bellary.
To—the Secretary to Government, Home (Miscellaneous) Department.
Dated—the 24th September 1918.
No.—M.D. Dis. 1063.

With reference to your reminder No. 2123-2, dated 18th September 1918, on your memorandum No. 2123–1, dated 2nd August 1918, I have the honour to state that there are two charities in Bellary town known as 'Srinivasamurti Annasatram' endowed by M.R.Ry. Raja Subba Bhatlu Setty of Bellary and 'Golkonda Krishnappa's charity' endowed by his widow Mrs. Subbalakshmammal of Bellary. The particulars called for by Government with regard to these charities are detailed in letter D. Dis. No. 1845, dated 13th September 1918, of the Deputy Magistrate of Bellary, copy of which is enclosed. It seems clear to me that these charities do not require action of any kind and are best let alone.

The Joint Magistrate, Hospet, has not reported as yet and a further report will be submitted as soon as it is received from him, if any charities exist requiring action. It is most improbable that there are any.

(2)

Letter—from M.R.Ry. K. Brahma Sastrulu, Pleader, Bellary.
To—the Revenue Divisional Officer, Bellary.
Dated—the 7th September 1918.

With reference to your Reference on S.C. No. 1053/18, asking me to furnish as regards the late Raja Subba Bhatlu's charities at Bellary, I have the honour to submit the same as follows.

The charity established and endowed by the late M.R.Ry. Raja Subba Bhatlu Setty of Bellary goes by the name of 'Srinivasamurthi Annasatram.'

2. The said donor has made a settlement deed, dated 11th May 1916, and registered on 15th May 1916 under which he has endowed Rs. 50,000 for the Annasatram and Rs. 5,000 for sadavart to be given to Gosayees (or Byragees or Bavajees). This amount he has credited into his accounts in the name of the trustees of the said charity. He has appointed himself and his heirs as the managers of the chatram. He has arranged to meet the costs of the chatram and sadavart from out of the interest at 6 per cent per annum to be paid out of his estate on the deposit with him of the above amount of Rs. 55,000. The trustees who are to look after the said charity are appointed by him as follows :—

(1) M.R.Ry. K. Brahmasastrulu, Pleader, Bellary.
(2) ,, Gudathur Thimmappa Garu, Merchant.
(3) ,, Sunku Balayya Chetti Garu, Merchant.

(4) M.R.Ry. A. Yegna Ramayya Garu, Inamdar.
(5) ,, Gadigi Virabhadrappa Garu (since deceased).

Of these the fifth member having died, his brother Gadigi Muddappa Garu, merchant, Bellary, has been nominated in his place by the remaining trustees.

3. The donor by his will dated 14th February 1917 and registered on 19th February 1917, has endowed Rs. 5,000 out of his estate towards establishing a Brahman Vedic school at Bellary, the pay of the teacher being met with from out of the interest on this amount as conditioned in the settlement deed above, which relates to the annasatram. This amount too has been credited in the name of the trustees in the accounts of the late Raja Subba Bhatlu Chetti, the donor.

4. So the whole amount of Rs. 60,000 is in the name of the trustees. The third trustee M.R.Ry. Sunkam Balayya Chetti Garu is the working trustee. The Vedic school has not yet been started. In the annasatram there are seventeen students who are being fed, the members of the establishment are four and the mufassal persons that are given meals will be six on an average per day. The annasatram feeds in all 27 persons a day. Besides this the donor has fixed certain days during the year on which a large number up to 50 have to be fed with sumptuous meals. The sadavart for Gosayees is given in the form of rice, dhal and salt.

5. Till now the chatram has been making a saving of Rs. 600 nearly every year. The building given for the use of the chatram being insufficient, the trustees have thought of improving it by spending the balance of about Rs. 3,000 they have now. But at the present high rate of foodstuffs it would be impossible to make any saving at all and even the expense has to be cut short if the present state of affairs should continue which we hope not.

2. The said donor has made a settlement deed dated 2nd March 1915 duly registered under which she has endowed Rs. 26,800 for free boarding and lodging to Vysyas and Brahman school-going students. This allotted amount has been given into the possession of the trustees appointed by her, requesting to utilize the costs of the said charities out of the interest derived at by mortgaging system. (5) ,, Gadigi Virabhadrappa Garu (since deceased).

Out of the above said trustees, No. 5 having died and his brother Gadigi Muddappa Garu, merchant, Bellary, has been nominated in his place by the other trustees.

3. In the year 1917 a building of its own was purchased for Rs. 5,800 out of the allotted amount and the only income derived from the remaining amount is to be utilized for the expenditure.

4. During the year 1917–18 there were eleven Vysya students and two Brahman students and this year there were only six Vysyas and three Brahman students. These Brahman students are fed in the hotel by paying hotel charges.

To—the Secretary to Government, Home (Miscellaneous) Department.
Dated—Tirvannāmalai, the 10th October 1918.
No.—D. 1286/D.M.

With reference to the Government Memorandum No. 2123-1, Home (Miscellaneous), dated the 2nd August 1918, and in continuation of my report Ref. No. 1501/Magl., dated the 30th September 1918, regarding the organized charities, I have the honour to state that there are no war charities in this district. As for non-war charities, there is an organized charity in Vellore known as V "Masilamani Mudaliyar's Thuluva Vellala Boys' Free Boarding House." The donor M.R.Ry. V. Masilamani Mudaliyar Avargal of Vellore endowed properties worth Rs. 30,500 by means of a trust-deed executed in favour of the institution which is said to be properly working under a well-constituted scheme The total receipts and expenditure from 1st July 1917 to 30th June 1918 were Rs. 1,442-3-8 and Rs. 1,154-7-5, respectively, as will be seen from the letter of M.R.Ry. Masilamani Mudaliyar (copy enclosed), the annual savings being Rs. 287-12-3. The sources of income are—

	Rs.	A.	P.
(i) Rent from buildings	1,190	10	6
(ii) Interest on Government securities received from the Treasurer of Charitable Endowments.	208	5	2
(iii) Miscellaneous receipts	43	4	0
	1,442	3	8

There is a school at Tiruvannāmalai known as "Victoria Elementary School" maintained by the town people by raising donations and monthly subscriptions. A building of its own has been constructed at a cost of Rs. 7,000. The annual expenditure of the school which comes to Rs. 3,000 is met by school fees collected, grants received from Government, monthly subscriptions and donations.

2. In Tiruvannāmalai, Polur and Vellore taluks there are charitable endowments such as chatrams and dharma topes. I presume that they do not come under the category of non-war charities as contemplated by Government in their memorandum quoted above, inasmuch as they do non constitute *charitable funds*.

In the current year, the number of boys has been increased to 12, and of them 6 are in forms 1 to 3 and the remaining 6 are in forms 4 to 6. As the number of boys has been increased and as the cost of foodstuffs has considerably risen, the expenditure during the current year will be greater. There is also a stipulation in the trust-deed that if boys of the Thuluva Vellala community be not available, Non-Brahman boys of other backward classes might be entertained.

Enclosure

Letter—from the President, Taluk Board, Nandyal.
To—the Joint Magistrate, Nandyal.
Dated—the 16th October 1918.
No.—D. Dis. 485/L.F.

Adverting to your letter R.C. No. 555/Magl., dated 24th September 1918, I have the honour to state as follows.

2. *The scope and object of Singamsetti Sundaramma's charity.*—At Nandyal there lived a dancing woman by name Singamsetti Sundaramma. She was the concubine of Chavva Nandi Reddi who gave her some movable and immovable properties. She died in the year 1897. Before her death, she executed a registered will by which she left half of her house together with certain utensils and a few articles of furniture for the use of travellers. She also left by the same will that the annual rent from the marginally-noted lands after meeting the Government revenue and the repairs of the rest-house should be devoted to the distribution of money doles every Monday at the rate of one anna per every head for the lame, the blind and the poor halting at the choultry called the Nandi Reddi mantapam at Nandyal. This charity is continued as per will executed by Sundaramma. The Taluk Board has taken the management of this charity in the year 1910 as per G.O. No. 615, dated 25th February 1910.

3. *The present financial position of the charity.*—The lands have been leased out for three faslis beginning from 1327 for Rs. 593 for each fasli. The endowment had at its disposal on the 1st April 1918 a sum of Rs. 890 besides the sum of Rs. 2,500 invested in the war loans. The closing balance of the endowment on the 31st August last, after meeting the current charges, was Rs. 3,324 which includes the Rs. 2,500 invested in the war loan.

4. *Needs of the charity fund.*—Mr. T. G. Rutherford, President of the Taluk Board, sold away the house left by the donor in the year 1915 for about Rs. 800 with a view to construct a pakka choultry for travellers. Negotiations for purchasing the Bheirmal choultry, in charge of the Victoria reading room, went on for some time, but on account of the high price of Rs. 3,751 which the Reading Room put upon it, the scheme was dropped and the amount of Rs. 2,500 was afterwards invested in the war loan. I think it is the duty of the Taluk Board to carry out the wishes of the donor by the construction as early as possible of a pakka rest-house for travellers. The cost of acquiring a site and building a rest-house may come to about Rs. 600. If the Government would give Rs. 3,000 the scheme would be taken on hand.

XXIX

Letter—from F. J. Richards, Esq., M.A., I.C.S., Collector of Coimbatore.
To—the Secretary to Government, Home (Miscellaneous) Department.
Dated—the 12th February 1919.
No.—D. Dis. 137-M.

In reply to Government Memorandum No. 2123–1, dated 2nd August 1918, I have the honour to report that the only charities which my Divisional officers have been able to discover are—

(1) a few choultries for travellers to halt in,
(2) still fewer chattrams for feeding Brahmans,
(3) a few water-pandals, and
(4) one or two aided schools.

2. Such institutions do not, I presume, come under the scope of the Government's reference, and I am not therefore submitting the lists which my Divisional officers have compiled.

3. The Divisional officers have not referred to any charitable organizations connected with the Christian missions which are working in this district, and I doubt whether details of missionary work are required by Government in this connexion. The principal missions working in the district are the Paris Mission and the London Mission.

4. No details are furnished regarding Muhammadan charitable organizations; but, so far as I am aware, there are no such organizations of importance in the district. There are a few hostels for students working under private committees, but they too, are hardly of sufficient importance to require the attention of an All India Charitable Organization Board.

5. The up-shot of the protracted inquiry lasting nearly half the year is that there are no organized public charities in this district of the kind contemplated by the Government of India.

A copy of the annexure is enclosed.

2. The Board while approving the list in its Proceedings, Mis. I shall submit a supplemental list later on if it is found necessary.

(3) Cases vested in the Treasurer of Charitable Endowments.
(4) Cases where the support given is purely voluntary.

NOTES CONNECTED WITH G.O. No. 1323, HOME (MISCELLANEOUS), DATED 22ND SEPTEMBER 1919.

[Subject.—*Charity Organization Board.*]

Demi-official—from T. E. Moir, Esq., C.I.E., I.C.S., Private Secretary to His Excellency the Governor.
To—the Hon'ble Mr. L. Davidson, C.S.I., I.C.S., Chief Secretary to Government
Dated—Ootacamund, the 20th July 1918.

I am to send you the accompanying letter addressed to His Excellency by Sir Claude Hill and to say that His Excellency would suggest that the first step to be taken is to obtain a complete list of the charitable movements in the Presidency on the lines referred to in this letter.

The Lawrence Asylum Almanac will provide particulars as to the most important of the permanent charities in the Presidency, but to obtain particulars of the remainder a press communique inviting the managing bodies or others responsible to supply the necessary information will be required. The communique should contain a statement as to the objects for which these particulars are required based on the information given in Sir Claude Hill's letter.

Will you kindly consider which department of the Secretariat should deal with the matter?

His Excellency would like to see the papers on the subject from time to time at any rate for the present.

Letter—from the Hon'ble Sir Claude Hill, K.C.S.I., C.I.E., I.C.S., Member of Governor-General's Council.
To—His Excellency the Right Hon'ble Lord Pentland, P.C., G.C.S.I., G.C.I.E.
Dated—Simla, the 10th July 1918.

At the suggestion of His Excellency the Viceroy, who has consented to become Patron of the movement, it has been decided to form, at the headquaters of the Government of India, a 'Charity Organization Board' with the object, so far as is possible, of co-ordinating the activities and efforts of both war charities and non-war charities, with a view to increasing the efficiency of their administration, to the prevention of overlapping, and, in the case of non-war charitable organizations, of seeing that their sphere of action is not unduly crippled by the natural diversion of charitable contributions to funds connected with the war.

2. I am to enclose, for Your Excellency's information, a copy of the proceedings of the first meeting of the Board held on the 6th instant, which will show you in greater detail what the scope and object of His Excellency the Viceroy's purpose are. You will see that there is no intention whatever to interfere, in any way, either in the internal organization of any charitable movement or in the administration of any provincial or other charitable funds, whether connected with the war or otherwise. It has, however, been the experience here, as no doubt in your province also, that from various causes there has been overlapping in connexion with war charities, and that non-war charities have suffered considerably owing to the war. Again, it is our experience that the activities of some of the war charities have occasionally trenched upon spheres of action which properly belong to Government; while, finally, as has been noticed by the Joint War Committee in administering Red Cross work, there have been cases in which two or more provinces or organizations have been supplying relief to the same object without knowing that others were also operating in the same field.

3. It is these considerations which have suggested to His Excellency the Viceroy the organization of the Charity Organization Board; and from the proceedings of the first meeting, you will notice that the first object of the Board will be to prepare for publication a register (which it is desired should be as complete as possible, indicating all the funds connected with the war in one category and, in another, non-war charities which appeal to the public for contributions) with the object of informing the charitable public of the state of those funds and their necessities.

4. It will be within Your Excellency's recollection that, in the case of the Joint War Committee reorganization, the object aimed at has been to increase rather than to diminish provincial autonomy, by introducing the largest possible measure of decentralization of authority and control. The Charity Organization Board desire to pursue the same policy and their functions will be advisory; but, since, in the case both of war and non-war charities, it is not always the province which is the unit of control, it appears to us that, if the work of co-ordination is to be effectively carried on, we, as well as all the provincial bodies, must be in possession of the fullest possible information regarding all charities throughout India. With

these objects in view, I am to suggest, for Your Excellency's consideration, the desirability of establishing in your province a Provincial Charity Organization Board with objects similar to those described in the proceedings of the meeting of the 6th of July. I am also to ask that, with Your Excellency's permission, the fullest possible information may be furnished to my Board regarding the charitable movements within your province. We feel that, by the publication of the results of this inquiry for all provinces, we shall be affording your Provincial Board, when it comes into being, very valuable information, enabling it to co-ordinate within your province the activities of the various organizations.

5. You will observe from paragraph 6 of the proceedings of my Board that we have indicated the hope that, on the analogy of the Joint War Committee, the heads who may be appointed to administer the provincial organizations will kindly consent to be Vice-Patrons also of my Board, and His Excellency the Viceroy hopes that, by this measure, all risk will be avoided of misapprehension as to the scope of the operations of the Board established at the headquarters of the Government of India.

6. If the register for All-India, which the Charity Organization Board propose to prepare and issue, is to be of the fullest possible value to all provinces and to the charitable public at large in India, it will be essential that the information collated for your province shall contain very complete particulars regarding each charity, including details of its organization, the address of its Working Committee and Secretary, and its sources of income, annual expenditure, etc. It will, I feel sure, be agreed by you that the co-operation of every one is necessary, and that, if the administration of the public charities of India is to be brought to the highest possible state of efficiency, the fullest possible information under the above heads should be made available.

7. Finally, it will be noticed from Resolution VI of the objects of the Charity Organization Board, as described in paragraph 2 of the proceedings, that, by the establishment of the organization at the headquarters of the Government of India, it is hoped that it will be possible to furnish full information to all inquiries from every part of India in regard to those charities which are organized irrespective of provincial boundaries; and His Excellency the Viceroy and the members of my Board feel that this will be an achievement of considerable value to provincial organizations in enabling them to administer their charities to the best possible advantage.

8. His Excellency the Viceroy feels assured that he may rely upon the whole-hearted co-operation of all provinces in the effort now being set on foot, and that no avoidable delay will occur in bringing into being the corresponding organizations throughout India. The Charity Organization Board hope to be placed at an early date in possession of the information necessary for the preparation of the registers referred to in items I and IV of the 'Objects'; and I need only add that we shall be very glad to furnish any further particulars that may be required in respect of what is needed, and that, in pursuance of item VI, we shall hope to be of considerable help both to the public and to the provincial organization as soon as the material for the registers has been received.

SUB-ENCLOSURE

Proceedings of the first meeting of the Committee to consider the establishment of a Charity Organization Board for India, held in Simla on the 6th July 1918.

PRESENT:

The Hon'ble Sir CLAUDE HILL, K.C.S.I., C.I.E. (*Chairman*).
The Hon'ble MR. G. B. H. FELL, C.S.I., C.I.E.
Sir STANLEY REED, *Kt.*
Brigadier-General H. BARSTOW.
Major J. C. COLDSTREAM.
MR. E. BURDON.
Mr. H. R. PHELPS.
Major J. MACKENZIE (*Honorary Secretary*).

It was noted that His Excellency the Viceroy had consented to be Patron.

2. In regard to the *personnel* of the Committee, it was agreed to invite His Excellency the Commander-in-Chief and also His Highness the Maharaja of Scindia to become Vice-Patrons and the Hon'ble Khan Zulfikar Ali Khan to join the Board as a member. It was further resolved, in reference to provincial authorities, to raise the question of the representation of provincial interests on the Central Board.

3. The Committee considered the definition of the objects of the Charity Organization Board, and the following were agreed upon:—

"OBJECTS OF THE CHARITY ORGANIZATION BOARD.

"I.—To prepare a register for publication indicating the scope, objects, present financial position and needs of the various funds connected with the war, including branches of all the British and Allied Funds operating in India.

"II.—To co-ordinate the activities of the various organizations, with the object of ensuring that each concentrates its efforts on its own objects and of preventing overlapping and the diversion of charitable funds to objects which are the care of Government.

"III.—When the register, referred to in I, has been prepared and the information is fully available, to advise into what channel or channels the stream of public charity can from time to time be most profitably guided.

"IV.—To prepare and publish a register, similar to the one referred to in I, for other organized public charities in India and to take such steps as may be practicable, by advice or otherwise, to ensure that their activities are not crippled by the natural diversion of charitable contributions to funds connected with the war.

"V.—To keep the public informed from time to time of the objects of the various charitable funds coming within the scope of the Board's operations, the scale of their expenditure, the state of their finances, and their needs.

"VI.—To answer inquiries as to the directions in which further efforts to raise money for charitable purposes can most suitably be made."

4. It was resolved to appoint a Working Committee, consisting of Sir Claude Hill as Chairman and the following as members:—

Sir Edward Maclagan,
Major J. C. Coldstream,
Mr. E. Burdon,
with Major J. Mackenzie as Honorary Secretary.

5. Sir Stanley Reed undertook to furnish Major Mackenzie with a copy of Burdett's 'Charities', and it was further resolved that Major Mackenzie should address Sir Edward Ward asking for full information regarding the operation of the Directorship of Voluntary Organizations in England.

6. It was resolved to address a letter to the heads of provinces stating the objects with which the Charity Organization Board has been brought into being, as stated in paragraph 3 of the proceedings, to ask that steps may be taken to bring into being corresponding organizations with objects similar to those specified in the proceedings of the meeting in the provinces concerned, and to indicate the hope that, on the analogy of the scheme of reorganization of the Joint War Committee, the heads of corresponding organizations who may be appointed in the provinces will consent to become Vice-Patrons of the Charitable Organization Board.

7. As regards establishment, it was resolved that Major Mackenzie should submit proposals as to requirements, and that, in the light of those proposals, Government should be asked to sanction a monthly grant-in-aid.

CLAUDE H. HILL.

The 6th July 1918.

PUBLIC DEPARTMENT.

In paragraph 4 of Sir Claude Hill's letter, dated 10th July 1918, it seems to be contemplated that the work of preparing registers containing full information regarding the scope, objects, etc., of the various organized public charities in this Presidency—both those connected with the war and those not connected with the war—should be undertaken by a Provincial Charity Organization Board. From the Private Secretary to His Excellency the Governor's demi-official it would seem that His Excellency has decided that the work above referred to should be done in one of the departments of the Secretariat for the present.

2. So far as information is available in Public (War), there are the following funds in this Presidency connected with the War:—

		Totals so far collected. RS.	A.	P.
The Madras War Fund ...	These are administered by Military Secretary to His Excellency the Governor.	69,58,037	6	5
Ladies Depot	Do. do.	9,34,909	3	8
The Imperial Indian Relief Fund.	Administered by the Private Secretary to His Excellency the Governor.	19,72,750	1	11
The South Indian Planters' War Fund.	Do. do	70,761	0	0
Belgian Relief Fund	These were organized by the Editor of the *Madras Mail* and all of them were closed more than a year ago.	1,13,602	5	9
Madras Aeroplane Fund ...	Do. do.	22,652	12	0
The Serbian Relief Fund ...	Do. do.	22,062	0	7
The Blinded Soldiers and Sailors Fund.	Do. do.	13,079	7	6
The Belgian Children's Fund ...	Do. do.	4,336	5	5

The Private Secretary to His Excellency the Governor and Military Secretary to His Excellency the Governor alone can furnish further detailed information regarding these funds, none being available in Public (War).

3. Questions connected with charitable institutions, Government grants thereto, etc., are dealt with in Home (Miscellaneous) Department (the old Public Department) e.g., please see G.Os. No. 1216, Public, dated 13th September 1913, and No. 1260, Public, dated 11th October 1912, etc. It would thus seem that Home (Miscellaneous) is the suitable department to deal with the matter referred to in this file. It may also be stated that all subjects, other than those which have been specially appropriated to some one department of the Secretariat in the list of distribution of work in the Secretariat, are dealt with in Home (Miscellaneous). Further, questions connected with Indian Constitutional Reforms have strictly, according to the present distribution of work, to be dealt with in Home (Miscellaneous), but as a matter of fact they are now dealt with in Public (War). It is therefore submitted that it is not likely that Home (Miscellaneous) will have any objection to taking over the papers connected with Charity Organization Board for disposal in that department.

C.P.K.—24-7-18.

HOME (MISCELLANEOUS) DEPARTMENT.

From paragraph 1 at page 1 ante it would seem that the work of this board will be closely co-ordinated with the general war effort, this being so, I should say the department for it would be Revenue (Special). If Home (Miscellaneous) take it on they will have to be consulting Revenue (Special) u.o. all along and so wasting time. Though Home (Miscellaneous) does deal with charitable institutions this was a pre-war arrangement and it would seem that in this case the war charities are greatly more important than the non-war charities. It is mainly a co-ordination of war effort question (Dehli conference) and so for Revenue (Special) I think.

Please examine this and let me have the file back in a quarter of an hour.

C. H. BROWN—25-7-18.

The Superintendent, Miscellaneous, is ill and the entire section seems to be in a similar state. I send this in therefore with the above note. I am sorry for the delay.

C.H.B.—25-7-18.

Home (Miscellaneous) will take charge. Discussed in Council.

L. DAVIDSON—25-7-18.

Please see the decision in Council above. The information in the Lawrence Asylum Almanac in regard to charitable societies relate only to the principal institutions in the city of Madras. To obtain the fullest possible information in regard to the charities in the whole of the presidency, it seems desirable to make the Collectors responsible for the completeness of the information relating to the charities in their several districts. All persons engaged in the management of the charitable institutions or others responsible for their administration may accordingly be requested to furnish the information to Government through the Collectors of districts.

Draft press communique is submitted, embodying a statement as to the objects of the organization. It is presumed that the proposal leaves out of account the charitable institutions in Native States.

M.D.R.—27-7-18.

(*a*) Is a press communique necessary at all? see attached cutting from *Times of India*, dated 24th July 1918, which looks as if the Government of India had already issued a communique. If they have, need we issue another.

(*b*) I don't think we can call upon persons to give us information by a press communique. Elaborate the last part of the draft communique into a memorandum to all District Magistrates.

C. H. BROWN—27-7-18.

As the Press seems already in possession of full information regarding the decision of the Government of India, it is hardly necessary to issue a press communique now. The Government of India have apparently placed the papers at the disposal of the Press.

A draft circular memorandum to all District Magistrates and the Commissioner of Police, Madras, is submitted as directed.

M.D.R.—28-7-18.

C.H.B.—28-7-18.

I should certainly say that in addition to the circular a press communiqué is necessary inviting managers to address the District Magistrate or the Government (Home) Department. The circular to the District Magistrates is inadequate as it does not specify the particulars on which information is desired.

To be recast.

R. RAMACHANDRA RAO—28-7-18.

The draft circular memorandum to all District Magistrates is submitted amplified, specifying the particulars on which information is required, with reference to paragraph 6 on page 2 ante.

A draft press communique inviting all managing bodies to supply information regarding each charity is also submitted. As the District Magistrates are being asked to forward complete particulars of each charity, the managing bodies may be requested to forward their information to the District Magistrates concerned.

M.D.R.—29-7-18.

Draft for approval.

But if we ask for information both from the District Magistrates by memorandum and from the charitable institutions themselves in the press communique won't their responses overlap and cause confusion? How would it be to close the communique by announcing that District Magistrates have been asked to collect the required information and urging all persons responsible for the administration of charitable institutions to offer them prompt and willing assistance?

C.H.B.—29-7-18.

Regarding the press communique I would reproduce the extract from the *Times of India* (in file) and add.

"As a first step towards the carrying out of these suggestions District Magistrates (and in the City of Madras the Commissioner of Police) have been asked to collect the required information to obtain a complete list of all charitable movements including details of administration, address of working committees and secretaries, sources of income, annual expenditure and other distinctive and essential features. Managing bodies or others responsible are invited to offer their prompt and willing assistance in furnishing the above information to the District Magistrates."

Demi-official—from T. E. MOIR, Esq., C.I.E., I.C.S., Private Secretary to His Excellency the Governor.
To—the Hon'ble Mr. L. DAVIDSON, C.S.I., I.C.S., Chief Secretary to Government.
Dated—Ootacamund, the 16th September 1918.

I am to forward to you the accompanying letter from Sir Claude Hill with its enclosures to be added to the file relating to the Charity Organization Scheme for consideration when the information now being gathered is complete.

Demi-official—from Sir CLAUDE HILL, K.C.S.I., C.I.E., Member of Governor-General's Council.
To—His Excellency the Right Hon'ble LORD PENTLAND, G.C.S.I., G.C.I.E., Governor of Madras.
Dated—Simla, the 9th September 1918.

I have recently received a letter from Lord Ronaldshay in reply to my communication of July 10th on the subject of the Charity Organization Scheme. As the Governor of Bengal's proposals are completely in accord with the views of myself and my Board, I venture, with Lord Ronaldshay's consent, to forward a copy of his letter for Your Excelleney's information.

2. In response to a telegram to Sir Edward Ward asking for details of the voluntary organizations in England and for information regarding the operation of the Directorship of the Board, we have now received a letter, with enclosures, giving particulars of what has been done in England with a view to co-ordinating charitable effort during the war.

The enclosures include a copy of a report of the Committee on War Charities, dated the 19th June 1916, and a copy of the War Charities Act which resulted from the Committee's report. The Committee placed on record that, after examining witnesses, many of whom had had experience in regard to the management of charitable funds, it was clear that, in the public interest, it was desirable that public appeals for funds on behalf of War Charities should be placed under some system of control. Most of the witnesses also suggested that any system of control which should be instituted in reference to War Charities should also be applied to all other charities during the war.

In the War Charities Act, however (6 and 7, George 5, Chapter 43, section 7), a copy of which is appended to this note,* it was only enacted that, where there was a reasonable ground for believing that any unregistered war charity was not complying with the Act, they might take certain action. Paragraph 4 of the Committee's report is quoted fully below. †

The form of application for registration of a war charity is also attached to this note.‡

Sir Edward Ward in his letter states that the Charity Commission issue periodically for sale to the public a printed list of charities entered in the combined register of charities registered in England and Wales under the War Charities Act. This corresponds to the Register which it was the main object of the Charity Organization Board in India to cause to be compiled and registered.

The information now circulated will, it is hoped, facilitate the work of provincial organizations when they come into being, and enable them to obtain and furnish the information necessary for the preparation of the proposed register of charities.

ENCLOSURES

(1)

Letter—from His Excellency the Right Hon'ble Earl of RONALDSHAY, G.C.I.E., Governor of Bengal.
To—Sir CLAUDE, HILL K.C.S.I., C.I.E.
Dated—Dacca, the 27th August 1918.

It has taken me a little time to consider the suggestions made in your letter of 10th July. There has been for some time in Calcutta a spontaneous movement in the direction of Charity Organization, and I thought it desirable to find out how this movement stands at present.

The Charity Organization Board which has been formed by you will deal both with War Funds and with Public Charities. So far as the War Funds are concerned, you propose to prepare a register of the organizations at present in existence: to co-ordinate the activities of these and to advise the public as to which, in the opinion of the Board, are most in need of assistance. For public charities you propose to carry out a similar policy—to prepare a register of such organizations (something I gather on the lines of the work of H. C. Burdett), to see that they are not crippled by demands on behalf of War Funds, to publish information regarding them, and to advise the Committees concerned in the matter of raising money. It is not suggested that the Board should make any appeal on its own behalf for funds for charities or that it should interfere in any way with internal management. The sole object is to publish information and give advice. You suggest that so far as Bengal is concerned the Board should work solely through a Provincial Body.

Besides the Bengal Branch of the Imperial Indian Relief Fund—the chief War Fund in Bengal (I intentionally avoid the word 'charity' in connexion with War Funds, as the term seems to many inappropriate in this connexion) is Lady Carmichael's Bengal Women's War Fund. This organization deals with (1) Red Cross needs and (2) 'Comforts' (now in a state of transition and including 'Huts'). There are branches of many other organizations, e.g., Lady Landsdowne's Fund, the Belgian Refugees' Fund, the French Red Cross, Lord Roberts' Workshops, King George's Sailors', etc., and there is also in Calcutta the Headquarters of the Young Men's Christian Association Organization for India and Ceylon. Information regarding these funds can be collected without much difficulty, and my Private Secretary is at present in correspondence with your Secretary, Major Mackenzie, on the subject. I am informed that the existence of the Information Bureau in Simla (of which also Major Mackenzie is Secretary) prevents any overlapping by Lady Carmichael's Fund, and that the Bureau is always ready to give the Committee information and advice. The Fund is raised in Bengal where the organization is well known. I doubt therefore whether a Provincial Charity Organization Board could help the Lady Carmichael's Fund further than the Information Bureau is helping at present. So far as other War Funds are concerned, nearly all are branches of greater organizations, and until information has been collected regarding the activities of the central organizations, it would, perhaps, be premature to create a Provincial Charity Organization Board to help and advise these branches. The position will be clearer when the information being collected by my Private Secretary is available.

The Young Men's Christian Association—though not a purely War Organization—has a very large department dealing with the Army throughout India, Burma and Ceylon, and also with Mesopotamia and the units of the Indian Army in France, Egypt, Palestine and East Africa. The headquarters of the Association are in Calcutta; but since their activities extend so far beyond the confines of Bengal, you will doubtless desire to consult the association yourself upon the whole matter.

So far as War Funds are concerned, therefore, I am inclined to think that the organization of a Provincial Board for Bengal is premature.

The organization of a Provincial Charity Organization Board for public charities in Bengal is a very large question. The charitable institutions, in Calcutta alone, are very numerous and important. There are in the first place educational charities, such as the Bruce Institution, Social Societies, such as the Prisoners' Aid Society, the Society for Prevention of Cruelty to Children in India, the Women's Friendly Society, the Rescue Home, the Mulvany Widows' Home—and 'Homes' of a more general character such as the St. Andrew's Colonial Homes, Kalimpong, St. Mary's, St. Vincent's, the Seamen's, the Little Sisters of the Poor, the Refuge, the Hindu, Muhammadan and European Orphanages. Besides these there are the great charitable institutions dealing with poverty, the District Charitable Society, the Salvation Army, the Ram Krishna Mission, the Catholic Associations, the De Souza Charities and a large number of small Indian Societies. I have not included in the above list the Medical Relief Societies and Hospitals, but no doubt these too, inasmuch as they appeal to the public for funds, are charitable institutions. Besides the great hospitals, there are a large number of dispensaries and there are the Hospitals Nurses' Fund, the Dufferin Fund, the Leper Asylum Fund. The preparation of a register of all these funds would be welcomed by the public, and if the register were kept up to date by the issue annually of addenda the value of the publication would be greatly enhanced.

One reason you give for the formation of a Provincial Board is that public charities have suffered owing to appeals on behalf of War Funds. From such inquiries as I have been able to make, I doubt whether this is true in Bengal. It is true that many societies have been forced to make greater efforts than in pre-war days, but I do not know of any case where such efforts have failed, and I could quote several where the finances, after such efforts, are in a more flourishing state now than they were before the war. I attribute this partly to the fact that the societies have been forced to make such efforts—an excellent thing in itself—but also because the war has taught people to give—and because many people who have made money owing to war conditions have given freely to charities—as well as to War Funds.

Another reason for action however—and one which has been receiving attention in Bengal for some time—is the overlapping of the work of these public charities among themselves. I am inclined to think that this is a matter which could be dealt with more efficiently by a Committee appointed independently of any Government action, and I am confirmed in this opinion by the fact that there is a spontaneous movement in this direction at the present time. If the Government were to form a Board at the present time to deal with charity organizations, it would have the appearance of taking the wind out of the sails of those who are already moving in the matter.

My general feeling therefore is—so far as War Funds are concerned—a Provincial Organization Board is hardly necessary in Bengal,—so far as public charities are concerned, it would be wise to leave the matter in the hands of the Calcutta public for the present.

At the same time I think it would be of great value to prepare for Bengal a register of War Funds and of charities; but I think this could be done without the appointment of a Provincial Board, and I am taking steps to collect for your Board such information as is available on the subject.

APPENDIX A

(1) Where the Commissioners are satisfied on the representation of the registration authority, or a chief officer of police, that there is reasonable ground for believing that any unregistered war charity is not being, or has not been, carried on in good faith for charitable purposes, or is not complying, or has not complied, with conditions substantially corresponding with the conditions imposed on registered charities under this Act, or is not being, or has not been, properly administered, the Commissioners may exercise as respects the charity any of the powers which are exercisable by them with respect to a charity, which having been registered under this Act, has been removed from the register, and for the purpose of an inquiry into any charity under this section the Charity Commissioners shall have such powers in relation to the charity as are conferred by this Act on the Commissioners for the purposes of appeals:

Provided that the Commissioners shall not exercise the power of establishing scheme for the regulation of any charity under this section without giving the charity a full opportunity of being heard.

(2) This section shall apply to unregistered war charities whether or not an application for registration has been made, and to war charities registration of which has been refused.

APPENDIX B

There can be no doubt that a large amount of money is at present wasted in consequence of the overlapping of funds which have the same or similar objects, and also by reason of the fact that some persons of undoubted integrity have not sufficient experience and knowledge to enable them to administer large sums of money to the best advantage.

We do not, however, think that it would be practicable to attempt to stop waste arising from these causes, though we hope that under the system which we recommend some amount of overlapping may be avoided. The object which we think should be aimed at is to prevent appeals being made by persons whose bona fides is not established and to secure that the control and distribution of charitable funds shall be in the hands of a responsible committee.

This object can be attained by the simple requirement that every such fund should be registered.

We have considered whether a permissive system of registration, such as the Local Government Board have instituted in regard to Belgian Relief funds, would sufficiently meet the needs of the case, but, after discussing the matter with the witnesses, we have come to the conclusion that any general system of registration, if it is to be effective, must be compulsory.

If approved, the information will be tabulated in the following form :—

Replies have been received from all District Magistrates and the Commissioner of Police. Two registers, one for war charities and the other (two volumes) for non-war charities have been prepared. It will be noticed therefrom that information has not been fully furnished under all the headings required. The District Magistrates have not perhaps been able to collect full information. Submitted that the lists may, in the first instance, be printed.

The District Magistrates of Salem, Anjengo and Tanjore have reported that there are no charitable institutions within their districts. The District Magistrate of Coimbatore presumes that choultries, chatrams, water-pandals, etc., do not come within the scope of the Government's reference and accordingly does not furnish any list. Submitted that the registers are intended to acquaint the public with the state of the funds and their necessities. It seems therefore desirable that all such institutions should be included in the non-war charities register. Further almost all other District Magistrates have included such institutions in the lists furnished by them. It seems however unnecessary to include tanks and topes of very little importance and entirely religious endowments which certain District Magistrates have included in their lists but which have been omitted from the register now prepared as being of minor interest and outside the scope of the Charity Organization Board. In the circumstances it seems desirable to call for a list of charitable institutions excluding topes and tanks from the

District Magistrate of Coimbatore. It is not unlikely that other District Magistrates also (Anjengo, Salem and especially Tanjore) have stated that there are no charitable institutions in their districts under a similar misapprehension as the District Magistrate of Coimbatore. For orders whether they may be asked to state again whether there are no such institutions as choultries, etc. The District Magistrate of Madura has not furnished a complete list. He simply states that there are no 'non-war charities except those such as the St. George's Homes at Kodaikānal'. It is not known whether there are any further institutions of the type in Madura. He may be asked to furnish a complete list. The District Magistrate of North Arcot has not furnished a complete list of non-war charities on the ground that those omitted are only chatrams and topes. Topes may be excluded but choultries and chatrams may properly find a place in the register. He may be asked to furnish a list of such charities. The District Magistrate of South Arcot has not furnished a list of non-war charities. Draft memoranda calling for lists are submitted for approval.

This is clearly the case.

For orders whether the registers of war charities after verification by the Military Secretary to His Excellency the Governor and the registers of non-war charities already compiled may be forwarded to Sir Claude Hill in print, supplemental lists being forwarded later on after replies have been received from District Magistrates to whom further references are proposed to be issued.

5. Attention is invited to paragraph 4 of Sir Claude Hill's demi-official letter at page 1 ante. The question of the desirability of establishing a Provincial Charity Organization Board will perhaps have to be considered now.

T.C.N.—5-5-19.
P.DER.—9-5-19.

Sir Claude Hill's letter was dated 10th July 1918 and the interval has been occupied with the collection of voluminous information. I would agree with the above note as to the interpretation to be put on the word 'charities' and the classes of charities with which we need interest ourselves meantime. Our information must be uniform and we must either (*a*) give up the inclusion of choultries and the like altogether or (*b*) get figures relating to these from all districts. In Madura and Tanjore the work of collating the information will be most laborious and Heaven knows when it may come in. However, in view of the concluding words of paragraph 3 of Sir Claude Hill's letter of 10th July 1918 it seems that it must be got.

2. I think, however, it is high time we got into touch with the central authorities again and so would adopt the action suggested in paragraphs 3 and 4 of the office note above.

3. As to paragraph 4 of Sir Claude Hill's letter, dated 10th July 1918, and the question of establishing a Provincial Charity Organization Board, we cannot well proceed without ascertaining the views of the central authorities. Circumstances have entirely changed since that letter was written. I do not know to what extent war charities in Madras have shut down but I expect it is considerable. One cannot help feeling that the scheme has been rendered largely infructuous or at least has been robbed of much of its practical effect by the insistence on the inclusion of non-war charities inasmuch as the best part of a year has gone in collecting information relating to these—which was unavoidably a slow and laborious task.

4. Perhaps the case may at this stage be submitted to His Excellency. His Excellency Lord Pentland desired to see the papers from time to time (page 1 ante). In the light of the cessation of hostilities it seems likely that the programme of the Board may have undergone some modification.

Secretary.—For 'Mr. C. B. Cotterell and successive Private Secretaries', *substitute* 'the Private Secretary to His Excellency the Governor'.

Remarks.—Substitute the following : Since the inception of the fund in August 1914 up to the 29th March 1919 when it was closed, the total collections amounted to Rs. 1,88,907-3-7. This amount was deposited in the Madras Bank and earned interest amounting to Rs. 44,498-7-9. The total expenditure during the period amounted to Rs. 4,393-6-2. I am afraid there is no getting away from the fact that there has been mismanagement as well as delay in dealing with this troublesome case. The onus of collecting the information desired was thrown upon District Magistrates though they should have been addressed in their capacity as Collectors. No action was taken to tap two obvious sources of information, namely, the Treasurer of Charitable Endowments who under section 9 of the Charitable Endowments Act, 1890, is bound to publish an annual list of properties vesting in him, or the Board of Revenue which ought to be in possession of full information regarding endowments coming within the scope of Madras Regulation VII of 1817. It is clearly necessary to consult Revenue in regard to the material at the disposal of the Board of Revenue, the more so as my recollection is that special efforts to compile a complete record of endowed charities under the superintendence of the Board have recently been made. Please follow up both these sources of inquiry at once.

2. The primary object of the Charity Organization Board, namely, the co-ordination of war charities and other charities no longer exists now that peace has been signed materially alters the position.

3. Apparently, however, it is still desired to compile a complete list of charities in accordance with objects 4, 5 and 6, but what this list should contain and under what divisions it should be arranged is by no means clear.

4. As regards the creation of a Provincial Charitable Organization Board which was pressed in Sir Claude Hill's first letter of the 10th July 1918, I observe that His Excellency Lord Ronaldshay writing on the 27th of August deprecated any idea of the formation of a Provincial Board in Bengal on the ground that so far as war funds were concerned, such a body was hardly necessary and that so far as public charities were concerned, it would be wiser to leave the matter in the hands of the Calcutta public for the present. Lord Ronaldshay therefore proposed in the first instance only to prepare a register of war funds and of charities. When Sir Claude Hill sent a copy of this letter to Mr. Moir with his own letter of the 9th of September 1918 he described the Government of Bengal's proposal as 'completely in accord' with his own views and those of his Board. We may take it therefore, I think, that there is no immediate need to follow up the idea of a Provincial Charity Organization Board and that we had better first concentrate on the compilation of an accurate list of charities.

5. Sir Claude Hill is, I believe, now absent on leave from India, otherwise I would have written to him. As it is, I do not know who has taken his place on the Charity Organization Board, but the following letter had better be despatched to the Honorary Secretary of that body :—

Letter—from the Hon'ble Mr. L. DAVIDSON, C.I.E., I.C.S., Member of Council.
To—Major J. MACKENZIE, C.I.E., Honorary Secretary, Charity Organization Board, Viceregal Lodge, Simla.
Dated—the 2nd July 1919.

My attention has during the past few days been drawn for the first time to a voluminous Secretariat file arising out of Sir Claude Hill's letters to His Excellency Lord Pentland, dated

10th July 1918 and 9th September 1918, on the subject of the formation of the Charity Organization Board. I find also in the file a telegram of the 29th of January 1919 addressed to His Excellency's Private Secretary requesting him to 'expedite reports regarding Provincial charities'.

When the first of these communications was received, official action was taken by the Madras Government requesting all District Magistrates and the Commissioner of Police, Madras, to furnish as early as possible complete particulars of each charity within their local jurisdiction including details of its administration, the address of its working Committee and Secretary, its sources of income, annual expenditure and any other distinctive or essential features; and a communique was published in the press at the same time specifying the objects of the proposed Charity Organization Board and inviting the managing bodies or others responsible for charities to give assistance to District Magistrates and the Commissioner of Police in regard to the compilation of the information desired. The local inquiries which followed on this official reference varied from district to district owing to the construction placed by different officers upon the word 'charity'. Some gave this the widest possible scope and gave details of all classes of charities including such items as travellers' choultries, tanks and topes, water-pandals and other endowments in origin of a charitable nature, but in no sense constituting a present demand upon the charitable public. On the other hand, other officers have apparently gone to the opposite extreme and report that in their districts there are no charities of the kind contemplated, the view taken being presumably based upon a rigid interpretation of the expression *organized public* charities' which is used in the definition of the fourth object of the Charity Organization Board.

This varied information has, however, been laboriously compiled and printed up in the Secretariat in the shape of two lists under the heads (i) war charities and (ii) other charities, of which I enclose proof copies. A reference to these lists will show that they include much information which is of no practical value for the purposes of the Charity Organisation Board; and it seems possible that there may also be serious omissions owing to the fact that the reference was addressed only to District Magistrates and the Commissioner of Police and no steps were taken to get directly into touch with the various missionary organizations, the Treasurer of Charitable Endowments, and the Board of Revenue which in this Presidency exercises a general superintendence over charitable institutions. There is, however, another consideration which must be taken into account before an endeavour is made to remedy these defects and compile a complete list of charities. I refer to the fact that the peace treaty has now been signed and most of the war charities have either come to an end or are in process of being closed down. Those which continue are not of such a nature that they are likely to divert the contributions from other charities to a material extent, and there would seem to be no longer any need for co-ordination as between different war charities, or to classify such charities distinctly from others. The scope of the Charity Organization Board has thus materially narrowed.

It would be of great assistance in the compilation of the information desired under the changed circumstances, if some indication could be given of the classes of funds or institutions which the Board regards as coming under the description of 'organized public charities'. Presumably such charities will be classified under different main heads, e g., poor relief, medical relief, educational, etc., and a list of such headings would be of material help, especially if accompanied by a statement of those classes of institutions or funds in regard to which no particulars are required. All illustrations of cases which may come under the letter category I may perhaps cite the numerous institutions in this Presidency for the feeding of Brahmans which depend upon ancient endowments usually in the shape of land, and hardly constitute any effective claim upon present day charity; also purely local charities, which do not seek assistance outside a very restricted sphere.

I have drafted the above as if it were a letter from myself, but the correspondence has hitherto been carried on between the President of the Charity Organization Board and His Excellency the Governor or the Private Secretary, and it is perhaps better that any communication on this subject should come from His Excellency or the Private Secretary. Please, therefore, circulate the case to His Excellency. As I have said above it seems to me that there has been a good deal of mismanagement in the past and I should like now, if possible, to put matters on a more satisfactory footing. But some reference to the Charity Organization Board appears a necessary preliminary, especially as by this time the Board has presumably received a good deal of information from other provinces which have not been so dilatory as Madras and is in a position to define much more precisely exactly what information is desired. If we can get further instructions it may save a great deal of trouble.

I remember this case coming up when I was in Bombay and that we wrote back in answer to Sir Claude Hill's letter saying that we would send them a list of our war charities, whether we did, but that we saw no good reason to go to the immense trouble of finding out all the local charities in the Presidency. I have the same feeling now. Why do the Government of India want this list from each province? I see no good reason for it unless they want to create some central control at Simla of all local charities which I strongly object to.

We can manage our own local charities in our own way, and I should be inclined, *if my Honourable Colleague thinks it can be done, now that the Madras Government have agreed to compile a list*, to take no further action on this matter until and unless we have a further communication from Government of India which I much doubt our getting.

This case was mentioned in Council and it was decided to take no further action for the present. The file may lie over until the Charity Organization Board moves again. His Excellency thinks it possible that the whole matter may drop.

HOME (MISCELLANEOUS) DEPARTMENT.

Please see the decision in Council. It was ordered that the case may lie over till the Charity Organization Board moves again. The Charity Organization Board now ask for the list of charities in Madras.

2. The first question for consideration is whether any further particulars should be called for from the Board as in the Honourable Member's draft demi-official at pages 13 to 14 ante. If this is considered not necessary, the next question is whether the District Magistrates of Salem, North Arcot, Tanjore, Madura and Coimbatore, who have not furnished the supplemental information called for in Memorandum No. 3344–1, dated 14th May 1919, should be asked to furnish immediately the required statistics or whether the statistics so far collected may be sent to the Charity Organization Board.

S.N.P.—3–9–19.

S.A.—4–9–19.

Please see my note on page 11 ante.

The case may be submitted to Honourable Member and His Excellency for orders.

C. H. BROWN—5–9–19.

R. RAMACHANDRA RAO—5–9–19.

I suppose this reminder is the outcome of Sir Claude Hill's impending return from leave! I suggest that Private Secretary to His Excellency the Governor should reply giving a history of the action taken and sending proof copies of our list, on the lines indicated in the opening paragraph of my draft at pages 13 to 17 supra, and then switching off on to His Excellency's position as stated on page 20.

L. D[AVIDSON]—5–9–19.

My prophecy on page 14 was alas! wrong. Sir Claude Hill's return has roused the sleeping monster and I agree with my Honourable Colleague's suggestion.

Demi-official—from A. C. DUFF, Esq., I.C.S., Private Secretary to His Excellency the Governor of Madras.
To—Major J. MACKENZIE, C.I.E., Honorary Secretary, Charity Organization Board, Viceregal Lodge, Simla.
Dated—the 12th September 1919.

With reference to your letter, dated 20th August 1919, I am directed to say that His Excellency has carefully considered the voluminous Secretariat file arising out of Sir Claude Hill's letters to His Excellency Lord Pentland, dated 10th July 1918 and 9th September 1918, on the subject of the formation of the Charity Organization Board. I find also in the file a telegram of the 29th of January 1919 addressed to His Excellency's Private Secretary requesting him to 'expedite reports regarding Provincial Charities.'

When the first of these communications was received official action was taken by the Madras Government requesting all District Magistrates and the Commisssioner of Police, Madras, to furnish as early as possible complete particulars of each charity within their local jurisdiction including details of its administration, the address of its working committee and Secretary, its sources of income, annual expenditure and any other distinctive or essential features; and a communiqué was published in the Press at the same time specifying the objects of the proposed Charity Organization Board and inviting the managing bodies or others responsible for charities to give assistance to District Magistrates and the Commissioner of Police in regard to the compilation of the information desired. The local inquiries which followed on this official reference varied from district to district owing to the construction placed by different officers upon the word 'charity.' Some gave this the widest possible scope and gave details of all classes of charities, including such items as travellers' choultries, tanks and topes, water-pandals and other endowments in origin of a charitable nature but in no sense constituting a present demand upon the charitable public. On the other hand, other officers have apparently gone to the opposite extreme and report that in their districts there are no charities of the kind contemplated, the view taken being presumably based upon a rigid interpretation of the expression '*organized public* charities' which is used in the definition of the fourth object of the Charity Organization Board.

This varied information has, however, been laboriously compiled and printed up in the Secretariat in the shape of two lists under the heads (i) war charities, and (ii) other charities, of which I enclose proof copies. A reference to these lists will show that they include much information which is of no practical value for the purposes of the Charity Organization Board; and it seems possible that there may also be serious omissions owing to the fact that the reference was addressed only to District Magistrates and the Commissioner of Police and no steps were taken to get directly into touch with the various missionary organizations, the Treasurer of Charitable Endowments, and the Board of Revenue which in this Presidency exercises a general superintendence over charitable institutions. There is, however, another consideration which must be taken into account before an endeavour is made to remedy these defects and compile a complete list of charities. I refer to the fact that the Peace Treaty has now been signed and most of the war charities have either come to an end or are in process of being closed down. Those which continue are not of such a nature that they are likely to divert the contributions from other charities to a material extent, and there would seem to be no longer any need for co-ordination as between different war charities, or to classify such charities distinctly from others. The scope of the Charity Organization Board has thus materially narrowed.

I am to add that according to His Excellency's recollection the Bombay Government sent Sir Claude Hill a list of war charities but considered that there was no adequate reason to go to the immense trouble of finding out all the local charities in the Presidency. Although the Madras Government have compiled a list of sorts, His Excellency is not in favour of the creation of a Central Board of Control at Simla of all local charities which he thinks can be more suitably supervised, if central supervision is necessary, within the Presidency.

P.S.—I regret that the proof sent is uncorrected and unchecked.

Official Memorandum No. 2128-1. Home (Miscellaneous), dated 2nd August 1918.

Intimation has been received from the Government of India that they have decided to form a central organization known as the 'Charity Organization Board' for the co-ordination, so far as is possible, of the activities and efforts of both war and non-war charities. The objects of the Board have been defined in the following terms :—

I. To prepare a register for publication indicating the scope, objects, present financial position and needs of the various funds connected with the war, including branches of all the British and Allied Funds operating in India.

II. To co-ordinate the activities of the various organizations, with the object of ensuring that each concentrates its efforts on its own objects and of preventing overlapping and the diversion of charitable funds to objects which are the care of Government.

III. When the register, referred to in I, has been prepared and the information is fully available, to advise into what channel or channels the stream of public charity can from time to time be most profitably guided.

IV. To prepare and publish a register, similar to the one referred to in I, for other organized public charities in India and to take such steps as may be practicable, by advice or otherwise, to ensure that their activities are not crippled by the natural diversion of charitable contributions to funds connected with the war.

V. To keep the public informed from time to time of the objects of the various charitable funds coming within the scope of the Board's operations, the scale of their expenditure, the state of their finances, and their needs.

VI. To answer inquiries as to the directions in which further efforts to raise money for charitable purposes can most suitably be made.

The advisability of establishing a Provincial Board in this Presidency with objects similar to those described above has been suggested to His Excellency the Governor in Council. The primary object in view is the collection of the fullest possible information regarding all charitable movements in this Presidency.

The District Magistrate / Commissioner of Police, Madras . . . . . is therefore requested to forward as early as possible complete particulars of each charity in his district / the City including details of its administration, the address of its working committee and Secretary, its sources of income, annual expenditure and any other distinctive or essential features.

R. RAMACHANDRA RAO,
Secretary to Government.

To the District Magistrates . . . .
,, Commissioner of Police, Madras.

ENCLOSURE

Press Communiqué.

For some time it has been felt that there is need for a central organization to prevent the overlapping of war charities and to see so far as is possible that non-war charities do not suffer

on account of the war. At the suggestion of His Excellency the Viceroy, who has consented to become Patron of the movement, it has been decided to form for this purpose at the headquarters of the Government of India, a 'Charity Organization Board.'

At the first meeting of the committee its objects were defined in the following terms :—

I. To prepare a register for publication indicating the scope, objects, present financial position and needs of the various funds connected with the war, including branches of all the British and Allied Funds operating in India.

II. To co-ordinate the activities of the various organizations, with the object of ensuring that each concentrates its efforts to its own objects and of preventing overlapping and the diversion of charitable funds to objects which are the care of Government.

III. When the register has been prepared and the information is fully available, to advise into what channel or channels the stream of public charity can from time to time be most profitably guided.

IV. To prepare and publish a similar register for other organized public charities in India and to take such steps as may be practicable, by advice or otherwise, to ensure that their activities are not crippled by the natural diversion of charitable contributions to funds connected with the war.

V. To keep the public informed from time to time of the objects of the various charitable funds coming within the scope of the Board's operations, the scale of expenditure, the state of their finances, and their needs.

VI. To answer inquiries as to the directions in which further efforts to raise money for charitable purposes can most suitably be made.

In a letter to heads of Provinces detailing the scheme the Chairman of the Committee, the Hon'ble Sir Claude Hill, says :—

"There is no intention whatever to interfere, in any way, either in the internal organization of any charitable movement or in the administration of any provincial or other charitable funds, whether connected with the war or otherwise. It has, however, been the experience here as no doubt in your province also, that from various causes there has been overlapping in connexion with war charities, and that non-war charities have suffered considerably owing to the war. Again it is our experience that the activities of some of the war charities have occasionally trenched upon spheres of action which properly belong to Government; while, finally, as has been noticed by the Joint War Committee in administering Red Cross Work, there have been cases in which two or more provinces or organizations have been supplying relief to the same object without knowing that others were also operating in the same field.

"It will be within your recollection that, in the case of the Joint War Committee reorganization, the object aimed at has been to increase rather than to diminish provincial autonomy, by introducing the largest possible measure of decentralization of authority and control. The Charity Organization Board desire to pursue the same policy and their functions will be advisory; but, since, in the case both of war and non-war charities, it is not always the province which is the unit of control, it appears to us that, if the work of co-ordination is to be effectively carried on, we, as well as all the provincial bodies, must be in possession of the fullest possible information regarding all charities throughout India. With these objects in view, I am to suggest for your consideration, the desirability of establishing in your province a Provincial Charity Organization Board with objects similar to those described in the proceedings of the meeting of the 6th of July. I am also to ask that, with your permission, the fullest possible information may be furnished to my Board regarding the charitable movements within your province. We feel that, by the publication of the results of this inquiry for all provinces we shall be affording your Provincial Board, when it comes into being, very valuable information, enabling it to co-ordinate within your province the activities of the various organizations."

It is hoped that "on the analogy of the Joint War Committee, the heads who may be appointed to administer the provincial organizations will kindly consent to be Vice-Patrons also of my Board, and His Excellency the Viceroy hopes that, by this measure, all risk will be avoided of misapprehension as to the scope of the operations of the Board established at the headquarters of the Government of India."

As a first step towards the carrying out of these suggestions District Magistrates (and in the City of Madras the Commissioner of Police) have been asked to collect the required information, to obtain a complete list of all charitable movements including details of administration, address of working committees and Secretaries, sources of income, annual expenditure and other distinctive and essential features. Managing bodies or others responsible are invited to offer their prompt and willing assistance in furnishing the above information to the District Magistrates.

To—the Secretary to Government, Home (Miscellaneous) Department.
Dated—the 15th August 1918.
No.—765-D.M.D.

I have the honour to report that there are in this district no charitable movements of the kind referred to in Government memorandum No. 2123-1, Home (Miscellaneous), dated 2nd August 1918.

Letter—from J. M. Turing, Esq., I.C.S., District Magistrate, Bellary.
To—the Secretary to Government, Home (Miscellaneous) Department.
Dated—the 24th September 1918.
No.—M.D. Dis. 1063.

With reference to your reminder No. 2123-2, dated 18th September 1918, on your memorandum No. 2123-1, dated 2nd August 1918, I have the honour to state that there are two charities in Bellary town known as 'Srinivasamurti Annasatram' endowed by M.R.Ry. Raja Subba Bhatlu Setty of Bellary and 'Golkonda Krishnappa's charity' endowed by his widow Mrs. Subbalakshmammal of Bellary. The particulars called for by Government with regard to these charities are detailed in letter D. Dis. No. 1845, dated 13th September 1918, of the Deputy Magistrate of Bellary, copy of which is enclosed. It seems clear to me that these charities do not require action of any kind and are best let alone.

The Joint Magistrate, Hospet, has not reported as yet and a further report will be submitted as soon as it is received from him, if any charities exist requiring action. It is most improbable that there are any.

(2)

Letter—from M.R Ry. K. Brahma Sastrulu, Pleader, Bellary.
To—the Revenue Divisional Officer, Bellary.
Dated—the 7th September 1918.

With reference to your Reference on S.C. No. 1053/18, asking me to furnish as regards the late Raja Subba Bhatlu's charities at Bellary, I have the honour to submit the same as follows.

The charity established and endowed by the late M.R.Ry. Raja Subba Bhatlu Setty of Bellary goes by the name of 'Srinivasamurthi Annasatram.'

2. The said donor has made a settlement deed, dated 11th May 1916, and registered on 15th May 1916 under which he has endowed Rs. 50,000 for the Annasatram and Rs. 5,000 for sadavart to be given to Gosayees (or Byragees or Bavajees). This amount he has credited into his accounts in the name of the trustees of the said charity. He has appointed himself and his heirs as the managers of the chatram. He has arranged to meet the costs of the chatram and sadavart from out of the interest at 6 per cent per annum to be paid out of his estate on the deposit with him of the above amount of Rs. 55,000. The trustees who are to look after the said charity as appointed by him as follows:—

(1) M.R.Ry. K. Brahmasastrulu, Pleader, Bellary.
(2) ,, Gudathur Thimmappa Garu, Merchant.
(3) ,, Sunku Balayya Chetti Garu, Merchant.
(4) ,, A. Yegna Ramayya Garu, Inamdar.
(5) ,, Gadigi Virabhadrappa Garu (since deceased).

Of these the fifth member having died, his brother Gadigi Muddappa Garu, merchant, Bellary, has been nominated in his place by the remaining trustees.

3. The donor by his will dated 14th February 1917 and registered on 19th February 1917, has endowed Rs. 5,000 out of his estate towards establishing a Brahman Vedic school at Bellary, the pay of the teacher being met with from out of the interest on this amount as conditioned in the settlement deed above, which relates to the annasatram. This amount too has been credited in the name of the trustees in the accounts of the late Raja Subba Bhatlu Chetti, the donor.

4. So the whole amount of Rs. 60,000 is in the name of the trustees. The third trustee M.R.Ry. Sunkam Balayya Chetti Garu is the working trustee. The Vedic school has not yet been started. In the annasatram there are seventeen students who are being fed, the members of the establishment are four and the mufassal persons that are given meals will be six on an average per day. The annasatram feeds in all 27 persons a day. Besides this the donor has fixed certain days during the year on which a large number up to 50 have to be fed with sumptuous meals. The sadavart for Gosayees is given in the form of rice, dhal and salt.

5. Till now the chatram has been making a saving of Rs. 600 nearly every year. The building given for the use of the chatram being insufficient, the trustees have thought of improving it by spending the balance of about Rs. 3,000 they have now. But at the present high rate of foodstuffs it would be impossible to make any saving at all and even the expense has to be cut short if the present state of affairs should continue which we hope not.

2. The said donor has made a settlement deed dated 2nd March 1915 duly registered under which she has endowed Rs. 26,800 for free boarding and lodging to Vysyas and Brahman school-going students. This allotted amount has been given into the possession of the trustees appointed by her, requesting to utilize the costs of the said charities out of the interest derived at by mortgaging system. The trustees who are to look after the said charity as appointed by her are as follows:—

(5) ,, Gadigi Virabhadrappa Garu (since deceased).

Out of the above said trustees, No. 5 having died and his brother Gadigi Muddappa Garu, merchant, Bellary, has been nominated in his place by the other trustees.

3. In the year 1917 a building of its own was purchased for Rs. 5,800 out of the allotted amount and the only income derived from the remaining amount is to be utilized for the expenditure.

4. During the year 1917–18 there were eleven Vysya students and two Brahman students and this year there were only six Vysyas and three Brahman students. These Brahman students are fed in the hotel by paying hotel charges.

3. As regards non-war charities in the district, a list of charitable endowments was already prepared and submitted to the Board of Revenue (Land Revenue), and it has been returned by the Board for further information. The matter is under correspondence. The working of these charities is not in any way crippled or interfered with by the working of the war-charities, and there is no danger whatsoever of overlapping or diversion of charitable funds from one object to another in this district.

Letter—from P. C. Dutt, Esq., B.A., I.C.S., District Magistrate of North Arcot.
To—the Secretary to Government, Home (Miscellaneous) Department.
Dated—Tirvannāmalai, the 10th October 1918.
No.—D. 1286/D.M.

With reference to the Government Memorandum No. 2123-1, Home (Miscellaneous), dated the 2nd August 1918, and in continuation of my report Ref. No. 1501/Magl., dated the 30th September 1918, regarding the organized charities, I have the honour to state that there are no war charities in this district. As for non-war charities, there is an organized charity in Vellore known as V "Masilamani Mudaliyar's Thuluva Vellala Boys' Free Boarding House." The donor M.R.Ry. V. Masilamani Mudaliyar Avargal of Vellore endowed properties worth Rs. 30,500 by means of a trust-deed executed in favour of the institution which is said to be properly working under a well-constituted scheme. The total receipts and expenditure from 1st July 1917 to 30th June 1918 were Rs. 1,442-3-8 and Rs. 1,154-7-5, respectively, as will be seen from the letter of M.R.Ry. Masilamani Mudaliyar (copy enclosed), the annual savings being Rs. 287-12-3. The sources of income are—

	Rs.	A.	P.
(i) Rent from buildings	1,190	10	6
(ii) Interest on Government securities received from the Treasurer of Charitable Endowments.	208	5	2
(iii) Miscellaneous receipts	43	4	0
	1,442	3	8

There is a school at Tiruvannāmalai known as "Victoria Elementary School" maintained by the town people by raising donations and monthly subscriptions. A building of its own has been constructed at a cost of Rs. 7,000. The annual expenditure of the school which comes to Rs. 3,000 is met by school fees collected, grants received from Government, monthly subscriptions and donations.

2. In Tiruvannāmalai, Polur and Vellore taluks there are charitable endowments such as chatrams and dharma topes. I presume that they do not come under the category of non-war charities as contemplated by Government in their memorandum quoted above, inasmuch as they do not constitute *charitable funds*.

With reference to your letter No. 2543, dated the 23rd instant, I have the honour to state as follows for the information of the District Magistrate.

2. I have, with the object of helping poor and deserving boys of one of the backward classes, namely, the Thuluva Vellala community to study in forms 1 to 6 in the local high schools constructed a free boarding house and made endowments by means of a registered trust deed embodied in G.O. No. 729 L., dated 14th May 1917.

4. The boarding house was first started on 9th July 1917 and ten boys were entertained (6 in forms 1 to 3 and 4 in forms 4 to 6). In the current year, the number of boys has been increased to 12, and of them 6 are in forms 1 to 3 and the remaining 6 are in forms 4 to 6. As the number of boys has been increased and as the cost of foodstuffs has considerably risen, the expenditure during the current year will be greater. There is also a stipulation in the trust-deed that if boys of the Thuluva Vellala community be not available, Non-Brahman boys of other backward classes might be entertained.

5. I shall be glad to furnish any further information that the District Magistrate may require.

Letter—from the President, Taluk Board, Nandyal.

Adverting to your letter R.C. No. 555/Magl., dated 24th September 1918, I have the honour to state as follows.

2. *The scope and object of Singamsetti Sundaramma's charity.*—At Nandyal there lived a dancing woman by name Singamsetti Sundaramma. She was the concubine of Chavva Nandi Reddi who gave her some movable and immovable properties. She died in the year 1897. Before her death, she executed a registered will by which she left half of her house together with certain utensils and a few articles of furniture for the use of travellers. She also left by the same will that the annual rent from the marginally-noted lands after meeting the Government revenue and the repairs of the rest-house should be devoted to the distribution of money doles every Monday at the rate of one anna per every head for the lame, the blind and the poor halting at the choultry called the Nandi Reddi mantapam at Nandyal. This charity is continued as per will executed by Sundaramma. The Taluk Board has taken the management of this charity in the year 1910 as per G.O. No. 615, dated 25th February 1910.

3. *The present financial position of the charity.*—The lands have been leased out for three faslis beginning from 1327 for Rs. 593 for each fasli. The endowment had at its disposal on the 1st April 1918 a sum of Rs. 890 besides the sum of Rs. 2,500 invested in the war loans. The closing balance of the endowment on the 31st August last, after meeting the current charges, was Rs. 3,324 which includes the Rs. 2,500 invested in the war loan.

4. *Needs of the charity fund.*—Mr. T. G. Rutherford, President of the Taluk Board, sold away the house left by the donor in the year 1915 for about Rs. 800 with a view to construct a pakka choultry for travellers. Negotiations for purchasing the Bheirmal choultry, in charge of the Victoria reading room, went on for some time, but on account of the high price of Rs. 3,751 which the Reading Room put upon it, the scheme was dropped and the amount of Rs. 2,500 was afterwards invested in the war loan. I think it is the duty of the Taluk Board to carry out the wishes of the donor by the construction as early as possible of a pakka rest-house for travellers. The cost of acquiring a site and building a rest-house may come to about Rs. 600. If the Government would give Rs. 3,000 the scheme would be taken on hand.

XXIX

Letter—from F. J. Richards, Esq., M.A., I.C.S., Collector of Coimbatore.
To—the Secretary to Government, Home (Miscellaneous) Department.
Dated—the 12th February 1919.
No.—D. Dis. 137-M.

In reply to Government Memorandum No. 2123-1, dated 2nd August 1918, I have the honour to report that the only charities which my Divisional officers have been able to discover are—

(1) a few choultries for travellers to halt in,
(2) still fewer chattrams for feeding Brahmans,
(3) a few water-pandals, and
(4) one or two aided schools.

2. Such institutions do not, I presume, come under the scope of the Government's reference, and I am not therefore submitting the lists which my Divisional officers have compiled.

3. The Divisional officers have not referred to any charitable organizations connected with the Christian missions which are working in this district, and I doubt whether details of missionary work are required by Government in this connexion. The principal missions working in the district are the Paris Mission and the London Mission.

4. No details are furnished regarding Muhammadan charitable organizations; but, so far as I am aware, there are no such organizations of importance in the district. There are a few hostels for students working under private committees, but they too, are hardly of sufficient importance to require the attention of an All India Charitable Organization Board.

5. The up-shot of the protracted inquiry lasting nearly half the year is that there are no organized public charities in this district of the kind contemplated by the Government of India.

This exchange land is quite useless for cultivation. The Tahsildar of Rajahmundry reports that the inam of Gadala is a dry land which fetched annually Rs. 5. The trustee in his enclosed statement agrees either to hand over the inam of Gadala after payment of the sale amount to the purchasers or to pay Rs. 200 to Ramanuja kutam. I recommend that the trustee may be ordered to pay the amount; Perikila Kondayya near relation of the original donor will be asked to execute a security bond for the amount and to manage the Ramanuja kutam with the interest on it.

HOME (MISCELLANEOUS) DEPARTMENT.

NOTES CONNECTED WITH G.O. No. 1323, HOME (MISCELLANEOUS), DATED 22ND SEPTEMBER 1919.

[SUBJECT.—*Charity Organization Board.*]

Demi-official—from T. E. MOIR, Esq., C.I.E., I.C.S., Private Secretary to His Excellency the Governor.
To—the Hon'ble Mr. L. DAVIDSON, C.S.I., I.C.S., Chief Secretary to Government.
Dated—Ootacamund, the 20th July 1918.

I am to send you the accompanying letter addressed to His Excellency by Sir Claude Hill and to say that His Excellency would suggest that the first step to be taken is to obtain a complete list of the charitable movements in the Presidency on the lines referred to in this letter.

The Lawrence Asylum Almanac will provide particulars as to the most important of the permanent charities in the Presidency, but to obtain particulars of the remainder a press communique inviting the managing bodies or others responsible to supply the necessary information will be required. The communique should contain a statement as to the objects for which these particulars are required based on the information given in Sir Claude Hill's letter.

Will you kindly consider which department of the Secretariat should deal with the matter?

His Excellency would like to see the papers on the subject from time to time at any rate for the present.

ENCLOSURE

Letter—from the Hon'ble Sir CLAUDE HILL, K.C.S.I., C.I.E., I.C.S., Member of Governor-General's Council.
To—His Excellency the Right Hon'ble Lord PENTLAND, P.C., G.C.S.I., G.C.I.E.
Dated—Simla, the 10th July 1918.

At the suggestion of His Excellency the Viceroy, who has consented to become Patron of the movement, it has been decided to form, at the headquaters of the Government of India, a "Charity Organization Board" with the object, so far as is possible, of co-ordinating the activities and efforts of both war charities and non-war charities, with a view to increasing the efficiency of their administration, to the prevention of overlapping, and, in the case of non-war charitable organizations, of seeing that their sphere of action is not unduly crippled by the natural diversion of charitable contributions to funds connected with the war.

2. I am to enclose, for Your Excellency's information, a copy of the proceedings of the first meeting of the Board held on the 6th instant, which will show you in greater detail what the scope and object of His Excellency the Viceroy's purpose are. You will see that there is no intention whatever to interfere, in any way, either in the internal organization of any charitable movement or in the administration of any provincial or other charitable funds, whether connected with the war or otherwise. It has, however, been the experience here, as no doubt in your province also, that from various causes there has been overlapping in connexion with war charities, and that non-war charities have suffered considerably owing to the war. Again, it is our experience that the activities of some of the war charities have occasionally trenched upon spheres of action which properly belong to Government; while, finally, as has been noticed by the Joint War Committee in administering Red Cross work, there have been cases in which two or more provinces or organizations have been supplying relief to the same object without knowing that others were also operating in the same field.

3. It is these considerations which have suggested to His Excellency the Viceroy the organization of the Charity Organization Board; and from the proceedings of the first meeting, you will notice that the first object of the Board will be to prepare for publication a register (which it is desired should be as complete as possible, indicating all the funds connected with the war in one category and, in another, non-war charities which appeal to the public for contributions) with the object of informing the charitable public of the state of those funds and their necessities.

4. It will be within Your Excellency's recollection that, in the case of the Joint War Committee reorganization, the object aimed at has been to increase rather than to diminish provincial autonomy, by introducing the largest possible measure of decentralization of authority and control. The Charity Organization Board desire to pursue the same policy and their functions will be advisory; but, since, in the case both of war and non-war charities, it is not always the province which is the unit of control, it appears to us that, if the work of co-ordination is to be effectively carried on, we, as well as all the provincial bodies, must be in possession of the fullest possible information regarding all charities throughout India. With these objects in view, I am to suggest, for Your Excellency's consideration, the desirability of establishing in your province a Provincial Charity Organization Board with objects similar to those described in the proceedings of the meeting of the 6th of July. I am also to ask that, with Your Excellency's permission, the fullest possible information may be furnished to my Board regarding the charitable movements within your province. We feel that, by the publication of the results of this inquiry for all provinces, we shall be affording your Provincial Board, when it comes into being, very valuable information, enabling it to co-ordinate within your province the activities of the various organizations.

5. You will observe from paragraph 6 of the proceedings of my Board that we have indicated the hope that, on the analogy of the Joint War Committee, the heads who may be appointed to administer the provincial organizations will kindly consent to be Vice-Patrons also of my Board, and His Excellency the Viceroy hopes that, by this measure, all risk will be avoided of misapprehension as to the scope of the operations of the Board established at the headquarters of the Government of India.

6. If the register for All-India, which the Charity Organization Board propose to prepare and issue, is to be of the fullest possible value to all provinces and to the charitable public at large in India, it will be essential that the information collated for your province shall contain very complete particulars regarding each charity, including details of its organization, the address of its Working Committee and Secretary, and its sources of income, annual expenditure, etc. It will, I feel sure, be agreed by you that the co-operation of every one is necessary, and that, if the administration of the public charities of India is to be brought to the highest possible state of efficiency, the fullest possible information under the above heads should be made available.

7. Finally, it will be noticed from Resolution VI of the objects of the Charity Organization Board, as described in paragraph 2 of the proceedings, that, by the establishment of the organization at the headquarters of the Government of India, it is hoped that it will be possible to furnish full information to all inquiries from every part of India in regard to those charities which are organized irrespective of provincial boundaries; and His Excellency the Viceroy and the members of my Board feel that this will be an achievement of considerable value to provincial organizations in enabling them to administer their charities to the best possible advantage.

8. His Excellency the Viceroy feels assured that he may rely upon the whole-hearted co-operation of all provinces in the effort now being set on foot, and that no avoidable delay will occur in bringing into being the corresponding organizations throughout India. The Charity Organization Board hope to be placed at an early date in possession of the information necessary for the preparation of the registers referred to in items I and IV of the 'Objects'; and I need only add that we shall be very glad to furnish any further particulars that may be required in respect of what is needed, and that, in pursuance of item VI, we shall hope to be of considerable help both to the public and to the provincial organization as soon as the material for the registers has been received.

SUB-ENCLOSURE

Proceedings of the first meeting of the Committee to consider the establishment of a Charity Organization Board for India, held in Simla on the 6th July 1918.

PRESENT:

The Hon'ble Sir CLAUDE HILL, K.C.S.I., C.I.E. (*Chairman*).
The Hon'ble MR. G. B. H. FELL, C.S.I., C.I.E.
Sir STANLEY REED, *Kt.*
Brigadier-General H. BARSTOW.
Major J. C. COLDSTREAM.
Mr. E. BURDON.
Mr. H. R. PHELPS.
Major J. MACKENZIE (*Honorary Secretary*).

It was noted that His Excellency the Viceroy had consented to be Patron.

2. In regard to the *personnel* of the Committee, it was agreed to invite His Excellency the Commander-in-Chief and also His Highness the Maharaja of Scindia to become Vice-Patrons and the Hon'ble Khan Zulfikar Ali Khan to join the Board as a member. It was further resolved, in reference to provincial authorities, to raise the question of the representation of provincial interests on the Central Board.

3. The Committee considered the definition of the objects of the Charity Organization Board, and the following were agreed upon :—

"OBJECTS OF THE CHARITY ORGANIZATION BOARD.

"I.—To prepare a register for publication indicating the scope, objects, present financial position and needs of the various funds connected with the war, including branches of all the British and Allied Funds operating in India.

"II.—To co-ordinate the activities of the various organizations, with the object of ensuring that each concentrates its efforts on its own objects and of preventing overlapping and the diversion of charitable funds to objects which are the care of Government.

"III.—When the register, referred to in I, has been prepared and the information is fully available, to advise into what channel or channels the stream of public charity can from time to time be most profitably guided.

"IV.—To prepare and publish a register, similar to the one referred to in I, for other organized public charities in India and to take such steps as may be practicable, by advice or otherwise, to ensure that their activities are not crippled by the natural diversion of charitable contributions to funds connected with the war.

"V.—To keep the public informed from time to time of the objects of the various charitable funds coming within the scope of the Board's operations, the scale of their expenditure, the state of their finances, and their needs.

"VI.—To answer inquiries as to the directions in which further efforts to raise money for charitable purposes can most suitably be made."

4. It was resolved to appoint a Working Committee, consisting of Sir Claude Hill as Chairman and the following as members :—

Sir Edward Maclagan,
Major J. C. Coldstream,
Mr. E. Burdon,
with Major J. Mackenzie as Honorary Secretary.

5. Sir Stanley Reed undertook to furnish Major Mackenzie with a copy of Burdett's 'Charities', and it was further resolved that Major Mackenzie should address Sir Edward Ward asking for full information regarding the operation of the Directorship of Voluntary Organizations in England.

6. It was resolved to address a letter to the heads of provinces stating the objects with which the Charity Organization Board has been brought into being, as stated in paragraph 3 of the proceedings, to ask that steps may be taken to bring into being corresponding organizations with objects similar to those specified in the proceedings of the meeting in the provinces concerned, and to indicate the hope that, on the analogy of the scheme of reorganization of the Joint War Committee, the heads of corresponding organizations who may be appointed in the provinces will consent to become Vice-Patrons of the Charitable Organization Board.

7. As regards establishment, it was resolved that Major Mackenzie should submit proposals as to requirements, and that, in the light of those proposals, Government should be asked to sanction a monthly grant-in-aid.

CLAUDE H. HILL.

The 6th July 1918.

PUBLIC DEPARTMENT.

In paragraph 4 of Sir Claude Hill's letter, dated 10th July 1918, it seems to be contemplated that the work of preparing registers containing full information regarding the scope, objects, etc., of the various organized public charities in this Presidency—both those connected with the war and those not connected with the war—should be undertaken by a Provincial Charity Organization Board. From the Private Secretary to His Excellency the Governor's demi-official it would seem that His Excellency has decided that the work above referred to should be done in one of the departments of the Secretariat for the present.

2. So far as information is available in Public (War), there are the following funds in this Presidency connected with the War :—

		Totals so far collected. RS.	A.	P.
The Madras War Fund... ...	These are administered by Military Secretary to His Excellency the Governor.	69,58,037	6	5
Ladies Depot	Do. do.	9,34,909	3	8
The Imperial Indian Relief Fund.	Administered by the Private Secretary to His Excellency the Governor.	19,72,750	1	11
The South Indian Planters' War Fund.	Do. do.	70,761	0	0
Belgian Relief Fund	These were organized by the Editor of the *Madras Mail* and all of them were closed more than a year ago.	1,13,602	5	9
Madras Aeroplane Fund ...	Do. do.	22,652	12	0
The Serbian Relief Fund. ...	Do. do.	22,062	0	7
The Blinded Soldiers and Sailors Fund.	Do. do.	13,079	7	6
The Belgian Children's Fund ...	Do. do.	4,336	5	5

The Private Secretary to His Excellency the Governor and Military Secretary to His Excellency the Governor alone can furnish further detailed information regarding these funds, none being available in Public (War).

3. Questions connected with charitable institutions, Government grants thereto, etc., are dealt with in Home (Miscellaneous) Department (the old Public Department) e.g., please see G.Os. No. 1216, Public, dated 13th September 1913, and No. 1260, Public, dated 11th October 1912, etc. It would thus seem that Home (Miscellaneous) is the suitable department to deal with the matter referred to in this file. It may also be stated that all subjects, other than those which have been specially appropriated to some one department of the Secretariat in the list of distribution of work in the Secretariat, are dealt with in Home (Miscellaneous). Further, questions connected with Indian Constitutional Reforms have strictly, according to the present distribution of work, to be dealt with in Home (Miscellaneous), but as a matter of fact they are now dealt with in Public (War). It is therefore submitted that it is not likely that Home (Miscellaneous) will have any objection to taking over the papers connected with Charity Organization Board for disposal in that department.

C.P.K.—24-7-18.

HOME (MISCELLANEOUS) DEPARTMENT.

From paragraph 1 at page 1 ante it would seem that the work of this board will be closely co-ordinated with the general war effort, this being so, I should say the department for it would be Revenue (Special). If Home (Miscellaneous) take it on they will have to be consulting Revenue (Special) u.o. all along and so wasting time. Though Home (Miscellaneous) does deal with charitable institutions this was a pre-war arrangement and it would seem that in this case the war charities are greatly more important than the non-war charities. It is mainly a coordination of war effort question (Dehli conference) and so for Revenue (Special) I think.

Please examine this and let me have the file back in a quarter of an hour.

C. H. BROWN—25-7-18.

The Superintendent, Miscellaneous is ill and the entire section seems to be in a similar state. I send this in therefore with the above note. I am sorry for the delay.

C.H.B.—25-7-18.

Home (Miscellaneous) will take charge. Discussed in Council.

L. DAVIDSON—25-7-18.

Please see the decision in Council above. The information in the Lawrence Asylum Almanac in regard to charitable societies relate only to the principal institutions in the city of Madras. To obtain the fullest possible information in regard to the charities in the whole of the presidency, it seems desirable to make the Collectors responsible for the completeness of the information relating to the charities in their several districts. All persons engaged in the management of the charitable institutions or others responsible for their administration may accordingly be requested to furnish the information to Government through the Collectors of districts.

Draft press communique is submitted, embodying a statement as to the objects of the organization. It is presumed that the proposal leaves out of account the charitable institutions in Native States.

M.D.R.—27-7-18.

(*a*) Is a press communique necessary at all? see attached cutting from *Times of India*, dated 24th July 1918 which looks as if the Government of India had already issued a communique. If they have, need we issue another.

(*b*) I don't think we can call upon persons to give us information by a press communique. Elaborate the last part of the draft communique into a memorandum to all District Magistrates.

C. H. BROWN—27-7-18.

As the Press seems already in possession of full information regarding the decision of the Government of India, it is hardly necessary to issue a press communiquè now. The Government of India have apparently placed the papers at the disposal of the Press.

A draft circular memorandum to all District Magistrates and the Commissioner of Police, Madras, is submitted as directed.

M.D.R.—28-7-18.

C.H.B.—28-7-18.

I should certainly say that in addition to the circular a press communiqué is necessary inviting managers to address the District Magistrate or the Government (Home) Department. The circular to the District Magistrates is inadequate as it does not specify the particulars on which information is desired.

To be recast.

R. RAMACHANDRA RAO—28-7-18.

The draft circular memorandum to all District Magistrates is submitted amplified, specifying the particulars on which information is required, with reference to paragraph 6 on page 2 ante.

A draft press communiqu inviting all managing bodies to supply information regarding each charity is also submitted. As the District Magistrates are being asked to forward complete particulars of each charity, the managing bodies may be requested to forward their information to the District Magistrates concerned.

M.D.R.—29-7-18.

Draft for approval.

But if we ask for information both from the District Magistrates by memorandum and from the charitable institutions themselves in the press communique won't their responses overlap and cause confusion? How would it be to close the communique by announcing that District Magistrates have been asked to collect the required information and urging all persons responsible for the administration of charitable institutions to offer them prompt and willing assistance?

C.H.B.—29-7-18.

Regarding the press communique I would reproduce the extract from the *Times of India* (in file) and add.

"As a first step towards the carrying out of these suggestions District Magistrates (and in the City of Madras the Commissioner of Police) have been asked to collect the required information to obtain a complete list of all charitable movements including details of administration, address of working committees and secretaries, sources of income, annual expenditure and other distinctive and essential features. Managing bodies or others responsible are invited to offer their prompt and willing assistance in furnishing the above information to the District Magistrates."

2. The memorandum to the District Magistrates appears to be all right.

Please type the memorandum and the communique.

Demi-official—from T. E. MOIR, Esq., C.I.E., I.C.S., Private Secretary to His Excellency the Governor.

To—the Hon'ble Mr. L. DAVIDSON, C.S.I., I.C.S., Chief Secretary to Government.

Dated— Ootacamund, the 16th September 1918.

I am to forward to you the accompanying letter from Sir Claude Hill with its enclosures to be added to the file relating to the Charity Organization Scheme for consideration when the information now being gathered is complete.

Demi-official—from Sir CLAUDE, HILL, K C.S.I., C.I.E., Member of Governor-General's Council.

To—His Excellency the Right Hon'ble LORD PENTLAND, G.C.S.I., G.C.I.E., Governor of Madras.

Dated—Simla, the 9th September 1918.

I have recently received a letter from Lord Ronaldshay in reply to my communication of July 10th on the subject of the Charity Organization Scheme. As the Governor of Bengal's proposals are completely in accord with the views of myself and my Board, I venture, with Lord Ronaldshay's consent, to forward a copy of his letter for Your Excellency's information.

2. In response to a telegram to Sir Edward Ward asking for details of the voluntary organizations in England and for information regarding the operation of the Directorship of the Board, we have now received a letter, with enclosures, giving particulars of what has been done in England with a view to co-ordinating charitable effort during the war.

The enclosures include a copy of a report of the Committee on War Charities, dated the 19th June 1916, and a copy of the War Charities Act which resulted from the Committee's report. The Committee placed on record that, after examining witnesses, many of whom had had experience in regard to the management of charitable funds, it was clear that, in the public interest, it was desirable that public appeals for funds on behalf of War Charities should be placed under some system of control. Most of the witnesses also suggested that any system of control which should be instituted in reference to War Charities should also be applied to all other charities during the war.

In the War Charities Act, however (6 and 7, George 5, Chapter 43, section 7), a copy of which is appended to this note,* it was only enacted that, where there was a reasonable ground for believing that any unregistered war charity was not complying with the Act, they might take certain action. Paragraph 4 of the Committee's report is quoted fully below. †

The form of application for registration of a war charity is also attached to this note.‡

Sir Edward Ward in his letter states that the Charity Commission issue periodically for sale to the public a printed list of charities entered in the combined register of charities registered in England and Wales under the War Charities Act. This corresponds to the Register which it was the main object of the Charity Organization Board in India to cause to be compiled and registered.

The information now circulated will, it is hoped, facilitate the work of provincial organizations when they come into being, and enable them to obtain and furnish the information necessary for the preparation of the proposed register of charities.

ENCLOSURES

(1)

Letter—from His Excellency Right Hon'ble the Earl of RONALDSHAY, G.C.I.E.,
Governor of Bengal.

To—Sir CLAUDE, HILKE C.S.I., C.I.E.,

Dated—Dacca, the 27th August 1918.

It has taken me a little time to consider the suggestions made in your letter of 10th July. There has been for some time in Calcutta a spontaneous movement in the direction of Charity Organization, and I thought it desirable to find out how this movement stands at present.

The Charity Organization Board which has been formed by you will deal both with War Funds and with Public Charities. So far as the War Funds are concerned, you propose to prepare a register of the organizations at present in existence: to co-ordinate the activities of these and to advise the public as to which, in the opinion of the Board, are most in need of assistance. For public charities you propose to carry out a similar policy—to prepare a register of such organizations (something I gather on the lines of the work of H. C. Burdett), to see that they are not crippled by demands on behalf of War Funds, to publish information regarding them, and to advise the Committees concerned in the matter of raising money. It is not suggested that the Board should make any appeal on its own behalf for funds for charities or that it should interfere in any way with internal management. The sole object is to publish information and give advice. You suggest that so far as Bengal is concerned the Board should work solely through a Provincial Body.

Besides the Bengal Branch of the Imperial Indian Relief Fund—the chief War Fund in Bengal (I intentionally avoid the word "charity" in connexion with War Funds, as the term seems to many inappropriate in this connexion) is Lady Carmichael's Benga l Women's War Fund. This organization deals with (1) Red Cross needs and (2) "Comforts" (now in a state of transition and including "Huts"). There are branches of many other organizations, e.g., Lady Landsdowne's Fund, the Belgian Refugees' Fund, the French Red Cross, Lord Roberts' Workshops, King George's Sailors', etc., and there is also in Calcutta the Headquarters of the Young Men's Christian Association Organization for India and Ceylon. Information regarding these funds can be collected without much difficulty, and my Private Secretary is at present in correspondence with your Secretary, Major Mackenzie, on the subject. I am informed that the existence of the Information Bureau in Simla (of which also Major Mackenzie is Secretary) prevents any overlapping by Lady Carmichael's Fund, and that the Bureau is always ready to give the Committee information and advice. The Fund is raised in Bengal where the organization is well known. I doubt therefore whether a Provincial Charity Organization Board could help the Lady Carmichael's Fund further than the Information Bureau is helping at present. So far as other War Funds are concerned, nearly all are branches of greater organizations, and until information has been collected regarding the activities of the central organizations, it would, perhaps, be premature to create a Provincial Charity Organization Board to help and advise these branches. The position will be clearer when the information being collected by my Private Secretary is available.

The Young Men's Christian Association—though not a purely War Organization—has a very large department dealing with the Army throughout India, Burma and Ceylon, and also with Mesopotamia and the units of the Indian Army in France, Egypt, Palestine and East Africa. The headquarters of the Association are in Calcutta; but since their activities extend so far beyond the confines of Bengal, you will doubtless desire to consult the association yourself upon the whole matter.

So far as War Funds are concerned, therefore, I am inclined to think that the organization of a Provincial Board for Bengal is premature.

The organization of a Provincial Charity Organization Board for public charities in Bengal is a very large question. The charitable institutions, in Calcutta alone, are very numerous and important. There are in the first place educational charities, such as the Bruce Institution, Social Societies, such as the Prisoners' Aid Society, the Society for Prevention of Cruelty to Children in India, the Women's Friendly Society, the Rescue Home, the Mulvany Widows' Home—and "Homes" of a more general charater such as the St. Andrew's Colonial Homes, Kalimpong, St. Mary's, St. Vincent's, the Seamen's, the Little Sisters of the Poor, the Refuge, the Hindu, Muhammadan and European Orphanages. Besides these there are the great charitable institutions dealing with poverty, the District Charitab e Society, the Salvation Army, the Ram Krishna Mission, the Catholic Associations, the De Souza Charities and a large number of small Indian Societies. I have not included in the above list the Medical Relief Societies and Hospitals, but no doubt these too, inasmuch as they appeal to the public for funds, are charitable institutions. Besides the great hospitals, there are a large number of dispensaries and there are the Hospitals Nurses' Fund, the Dufferin Fund, the Leper Asylum Fund. The preparation of a register of all these funds would be welcomed by the public, and if the register were kept up to date by the issue annually of addenda the value of the publication would be great ly enhanced.

One reason you give for the formation of a Provincial Board is that public charities have suffered owing to appeals on behalf of War Funds. From such inquiries as I have been able to make, I doubt whether this is true in Bengal. It is true that many societies have been forced to make greater efforts than in pre-war days, but I do not know of any case where such efforts have failed, and I could quote several where the finances, after such efforts, are in a more flourishing state now than they were before the war. I attribute this partly to the fact that the societies have been forced to make such efforts—an excellent thing in itself—but also because the war has taught people to give—and because many people who have made money owing to war conditions have given freely to charities—as well as to War Funds.

Another reason for action however—and one which has been receiving attention in Bengal for some time—is the overlapping of the work of these public charities among themselves. I am inclined to think that this is a matter which could be dealt with more efficiently by a Committee appointed independently of any Government action, and I am confirmed in this opinion by the fact that there is a spontaneous movement in this direction at the present time. If the Government were to form a Board at the present time to deal with charity organizations, it would have the appearance of taking the wind out of the sails of those who are already moving in the matter.

My general feeling therefore is—so far as War Funds are concerned—a Provincial Organization Board is hardly necessary in Bengal,—so far as public charities are concerned, it would be wise to leave the matter in the hands of the Calcutta public for the present.

At the same time I think it would be of great value to prepare for Bengal a register of War Funds and of charities; but I think this could be done without the appointment of a Provincial Board, and I am taking steps to collect for your Board such information as is available on the subject.

APPENDIX A

(1) Where the Commissioners are satisfied on the representation of the registration authority, or a chief officer of police, that there is reasonable ground for believing that any unregistered war charity is not being, or has not been, carried on in good faith for charitable purposes, or is not complying, or has not complied, with conditions substantially corresponding with the conditions imposed on registered charities under this Act, or is not being, or has not been, properly administered, the Commissioners may exercise as respects the charity any of the powers which are exercisable by them with respect to a charity, which having been registered under this Act, has been removed from the register, and for the purpose of an inquiry into any charity under this section the Charity Commissioners shall have such powers in relation to the charity as are conferred by this Act on the Commissioners for the purposes of appeals:

Provided that the Commissioners shall not exercise the power of establishing scheme for the regulation of any charity under this section without giving the charity a full opportunity of being heard.

(2) This section shall apply to unregistered war charities whether or not an application for registration has been made, and to war charities registration of which has been refused.

APPENDIX B

4. There can be no doubt that a large amount of money is at present wasted in consequence of the overlapping of funds which have the same or similar objects, and also by reason of the fact that some persons of undoubted integrity have not sufficient experience and knowledge to enable them to administer large sums of money to the best advantage.

We do not, however, think that it would be practicable to attempt to stop waste arising from these causes, though we hope that under the system which we recommend some amount of overlapping may be avoided. The object which we think should be aimed at is to prevent appeals being made by persons whose bona fides is not established and to secure that the control and distribution of charitable funds shall be in the hands of a responsible committee.

This object can be attained by the simple requirement that every such fund should be registered.

We have considered whether a permissive system of registration, such as the Local Government Board have instituted in regard to Belgian Relief funds, would sufficiently meet the needs of the case, but, after discussing the matter with the witnesses, we have come to the conclusion that any general system of registration, if it is to be effective, must be compulsory.

In continuation of my demi-official to Davidson, dated the 16th September 1918, I am to send you for disposal the accompanying telegram received from Delhi on the subject of the Charity Organization scheme.

ENCLOSURE

Telegram—from the Charity Organization Board, Delhi.
To—the Private Secretary to His Excellency the Governor of Madras.
Dated—the 29th January 1919.

Kindly expedite reports regarding provincial charities.

Please see the telegram from the Charity Organization Board above.

Replies to the reference on pages 1–3, current file, are still due from the following District Magistrates :—

(1) District Magistrate, Coimbatore.
(2) Do. Gōdāvari.
(3) Do. Ramnad.
(4) Do. Trichinopoly.

Issue.
C.H.B.—8–2–19.

Submitted that a telegraphic reminder may be issued to them. Draft submitted.

The replies in the current file will in the meanwhile be consolidated. It is presumed that the only information which has now to be supplied to the Central Board is the one called for from the District Magistrates in the last paragraph of the memorandum on pages 1–3, current file. If approved, the information will be tabulated in the following form :—

Replies have been received from all District Magistrates and the Commissioner of Police. Two registers, one for war charities and the other (two volumes) for non-war charities have been prepared. It will be noticed therefrom that information has not been fully furnished under all the headings required. The District Magistrates have not perhaps been able to collect full information. Submitted that the lists may, in the first instance, be printed.

The District Magistrates of Salem, Anjengo and Tanjore have reported that there are no charitable institutions within their districts. The District Magistrate of Coimbatore presumes that choultries, chatrams, water-pandals, etc., do not come within the scope of the Government's reference and accordingly does not furnish any list. Submitted that the registers are intended to acquaint the public with the state of the funds and their necessities. It seems therefore desirable that all such institutions should be included in the non-war charities register. Further almost all other District Magistrates have included such institutions in the lists furnished by them. It seems however unnecessary to include tanks and topes of very little importance and entirely religious endowments which certain District Magistrates have included in their lists but which have been omitted from the register now prepared as being of minor interest and outside the scope of the Charity Organization Board. In the circumstances it seems desirable to call for a list of charitable institutions excluding topes and tanks from the District Magistrate of Coimbatore. It is not unlikely that other District Magistrates also (Anjengo, Salem and especially Tanjore) have stated that there are no charitable institutions in their districts under a similar misapprehension as the District Magistrate of Coimbatore. For orders whether they may be asked to state again whether there are no such institutions

(When the office first saw that this confusion was being made, it should certainly have put the case up for orders on the point. Much time has been lost by its failure to do so.)

This is clearly the case.
C.H.B.—10–5–19.

as choultries, etc. The District Magistrate of Madura has not furnished a complete list. He simply states that there are no 'non-war charities except those such as the St. George's Homes [at Kodaikānal'. It is not known whether there are any further institutions of the type in Madura. He may be asked to furnish a complete list. The District Magistrate of North Arcot has not furnished a complete list of non-war charities on the ground that those omitted are only chatrams and topes. Topes may be excluded but choultries and chatrams may properly find a place in the register. He may be asked to furnish a list of such charities. The District Magistrate of South Arcot has not furnished a list of non-war charities. Draft memoranda calling for lists are submitted for approval.

Must be scores.
C.H.B.—10-5-19.

3. The register of war charities compiled from information furnished by the District Magistrates may be sent un-officially to the Military Secretary to His Excellency the Governor for verification and correction up to date, if necessary.

4. For orders whether the registers of war charities after verification by the Military Secretary to His Excellency the Governor and the registers of non-war charities already compiled may be forwarded to Sir Claude Hill in print, supplemental lists being forwarded later on after replies have been received from District Magistrates to whom further references are proposed to be issued.

5. Attention is invited to paragraph 4 of Sir Claude Hill's demi-official letter at page 2 ante. The question of the desirability of establishing a Provincial Charity Organization Board will perhaps have to be considered now.

T.C.N.—5-5-19.

P.DER.—9-5-19.

Sir Claude Hill's letter was dated 10th July 1918 and the interval has been occupied with the collection of voluminous information. I would agree with the above note as to the interpretation to be put on the word 'charities' and the classes of charities with which we need interest ourselves meantime. Our information must be uniform and we must either (*a*) give up the inclusion of choultries and the like altogether or (*b*) get figures relating to these from all districts. In Madura and Tanjore the work of collating the information will be most laborious and Heaven knows when it may come in. However, in view of the concluding words of paragraph 3 of Sir Claude Hill's letter of 10th July 1918 it seems that it must be got.

2. I think, however, it is high time we got into touch with the central authorities again and so would adopt the action suggested in paragraphs 3 and 4 of the office note above.

3. As to paragraph 4 of Sir Claude Hill's letter, dated 10th July 1918, and the question of establishing a Provincial Charity Organization Board, we cannot well proceed without ascertaining the views of the central authorities. Circumstances have entirely changed since that letter was written. I do not know to what extent war charities in Madras have shut down but I expect it is considerable. One cannot help feeling that the scheme has been rendered largely infructuous or at least has been robbed of much of its practical effect by the insistence on the inclusion of non-war charities inasmuch as the best part of a year has gone in collecting information relating to these—which was unavoidably a slow and laborious task.

4. Perhaps the case may at this stage be submitted to His Excellency. His Excellency Lord Pentland desired to see the papers from time to time (page 1 ante). In the light of the cessation of hostilities it seems likely that the programme of the Board may have undergone some modification.

OFFICE OF THE PRIVATE SECRETARY TO HIS EXCELLENCY THE GOVERNOR.

With reference to item 3 in the list of war charities regarding the Madras Branch of the Imperial Indian Relief Fund, I suggest the following additions and alterations under the respective heads :—

Secretary.—For ' Mr. C. B. Cotterell and successive Private Secretaries ', *substitute* ' the Private Secretary to His Excellency the Governor '.

Remarks.—Substitute the following : Since the inception of the fund in August 1914 up to the 29th March 1919 when it was closed, the total collections amounted to Rs. 1,88,907-3-7. This amount was deposited in the Madras Bank and earned interest amounting to Rs. 44,498-7-9. The total expenditure during the period amounted to Rs. 4,393-6-2. Though the Madras Provincial Committee was closed and the balance at its disposal transferred to the Central Committee, the latter have agreed to meet any future claims which would properly be met by the Provincial Committee if that branch continued in existence.

I am afraid there is no getting away from the fact that there has been mismanagement as well as delay in dealing with this troublesome case. The onus of collecting the information desired was throw upon District Magistrates though they should have been addressed in their capacity as Collectors. No action was taken to tap two obvious sources of information, namely, the Treasurer of Charitable Endowments who under section 9 of the Charitable Endowments Act, 1890, is bound to publish an annual list of properties vesting in him, or the Board of Revenue which ought to be in possession of full information regarding endowments coming within the scope of Madras Regulation VII of 1817. It is clearly necessary to consult Revenue in regard to the material at the disposal of the Board of Revenue, the more so as my recollection is that special efforts to compile a complete record of endowed charities under the superintendence of the Board have recently been made. Please follow up both these sources of inquiry at once.

2. The primary object of the Charity Organization Board, namely, the co-ordination of war charities and other charities no longer exists now that peace has been signed materially alters the position.

3. Apparently, however, it is still desired to compile a complete list of charities in accordance with objects 4, 5 and 6, but what this list should contain and under what divisions it should be arranged is by no means clear.

4. As regards the creation of a Provincial Charitable Organization Board which was pressed in Sir Claude Hill's first letter of the 10th July 1918, I observe that His Excellency Lord Ronaldshay writing on the 27th of August deprecated any idea of the formation of a Provincial Board in Bengal on the ground that so far as war funds were concerned, such a body was hardly necessary and that so far as public charities were concerned, it would be wiser to leave the matter in the hands of the Calcutta public for the present. Lord Ronaldshay therefore proposed in the first instance only to prepare a register of war funds and of charities. When Sir Claude Hill sent a copy of this letter to Mr. Moir with his own letter of the 9th of September 1918 he described the Government of Bengal's proposal as 'completely in accord' with his own views and those of his Board. We may take it therefore, I think, that there is no immediate need to follow up the idea of a Provincial Charity Organization Board and that we had better first concentrate on the compilation of an accurate list of charities.

5. Sir Claude Hill is, I believe, now absent on leave from India, otherwise I would have written to him. As it is, I do not know who has taken his place on the Charity Organization Board, but the following letter had better be despatched to the Honorary Secretary of that body :—

Letter——from the Hon'ble Mr. L. DAVIDSON, C.I.E., I.C.S., Member of Council.
To—Major J. MACKENZIE, C.I.E., Honorary Secretary, Charity Organization Board, Viceregal Lodge, Simla.
Dated—the 2nd July 1919.

My attention has during the past few days been drawn for the first time to a voluminous Secretariat file arising out of Sir Claude Hill's letters to His Excellency Lord Pentland, dated 10th July 1918 and 9th September 1918, on the subject of the formation of the Charity Organization Board. I find also in the file a telegram of the 29th of January 1919 addressed to His Excellency's Private Secretary requesting him to 'expedite reports regarding Provincial charities'.

When the first of these communications was received, official action was taken by the Madras Government requesting all District Magistrates and the Commissioner of Police, Madras, to furnish as early as possible complete particulars of each charity within their local jurisdiction including details of its administration, the address of its working Committee and Secretary, its sources of income, annual expenditure and any other distinctive or essential features; and a communique was published in the press at the same time specifying the objects of the proposed Charity Organization Board and inviting the managing bodies or others responsible for charities to give assistance to District Magistrates and the Commissioner of Police in regard to the compilation of the information desired. The local inquiries which followed on this official reference

varied from district to district owing to the construction placed by different officers upon the word 'charity'. Some gave this the widest possible scope and gave details of all classes of charities including such items as travellers' choultries, tanks and topes, water-pandals and other endowments in origin of a charitable nature, but in no sense constituting a present demand upon the charitable public. On the other hand, other officers have apparently gone to the opposite extreme and report that in their districts there are no charities of the kind contemplated, the view taken being presumably based upon a rigid interpretation of the expression *organized public* charities' which is used in the definition of the fourth object of the Charity Organization Board.

This varied information has, however, been laboriously compiled and printed up in the Secretariat in the shape of two lists under the heads (i) war charities and (ii) other charities, of which I enclose proof copies. A reference to these lists will show that they include much information which is of no practical value for the purposes of the Charity Organisation Board; and it seems possible that there may also be serious omissions owing to the fact that the reference was addressed only to District Magistrates and the Commissioner of Police and no steps were taken to get directly into touch with the various missionary organizations, the Treasurer of Charitable Endowments, and the Board of Revenue which in this Presidency exercises a general superintendence over charitable institutions. There is, however, another consideration which must be taken into account before an endeavour is made to remedy these defects and compile a complete list of charities. I refer to the fact that the peace Treaty has now been signed and most of the war charities have either come to an end or are in process of being closed down. Those which continue are not of such a nature that they are likely to divert the contributions from other charities to a material extent, and there would seem to be no longer any need for co-ordination as between different war charities, or to classify such charities distinctly from others. The scope of the Charity Organization Board has thus materially narrowed.

It would be of great assistance in the compilation of the information desired under the changed circumstances, if some indication could be given of the classes of funds or institutions which the Board regards as coming under the description of 'organized public charities'. Presumably such charities will be classified under different main heads, e g., poor relief, medical relief, educational, etc., and a list of such headings would be of material help, especially if accompanied by a statement of those classes of institutions or funds in regard to which no particulars are required. All illustrations of cases which may come under the letter category I may perhaps cite the numerous institutions in this Presidency for the feeding of Brahmans which depend upon ancient endowments usually in the shape of land, and hardly constitute any effective claim upon present day charity; also purely local charities, which do not seek assistance outside a very restricted sphere.

I have drafted the above as if it were a letter from myself, but the correspondence has hither to been carried on between the President of the Charity Organization Board and His Excellency the Governor or the Private Secretary, and it is perhaps better that any communication on this subject should come from His Excellency or the Private Secretary. Please, therefore, circulate the case to His Excellency. As I have said above it seems to me that there has been a good deal of mismanagement in the past and I should like now, if possible, to put matters on a more satisfactory footing. But some reference to the Charity Organization Board appears a necessary preliminary, especially as by this time the Board has presumably received a good deal of information from other provinces which have not been so dilatory as Madras and is in a position to define much more precisely exactly what information is desired. If we can get further instructions it may save a great deal of trouble.

R. RAMACHANDRA RAO—3-7-19.

I remember this case coming up when I was in Bombay and that we wrote back in answer to Sir Clande Hill's letter saying that we would send them a list of our war charities, whether we did, but that we saw no good reason to go to the immense trouble of finding out all the local charities in the Presidency. I have the same feeling now. Why do the Government of India want this list from each province? I see no good reason for it unless they want to create some central control at Simla of all local charities whether I strongly object to.

We can manage our own local charities in our own way, and I should be inclined, *if my Honourable Colleague thinks it can be done, now that the Madras Government have agreed to compile a list*, to take no further action on this matter until and unless we have a further communication from Government of India whether I much doubt our getting.

2. The first question for consideration is whether any further particulars should be called for from the Board as in the Honourable Member's draft demi-official at pages ~~16 to 19~~ ante. If this is considered not necessary, the next question is whether the District Magistrates of Salem, North Arcot, Tanjore, Madura and Coimbatore, who have not furnished the supplemental information called for in Memorandum No. 3344–1, dated 14th May 1919, should be asked to furnish immediately the required statistics or whether the statistics so far collected may be sent to the Charity Organization Board.

Demi-official—from A. C. DUFF, Esq., I.C.S., Private Secretary to His Excellency the Governor of Madras.
To—Major J. MACKENZIE, C.I.E., Honorary Secretary, Charity Organization Board, Viceregal Lodge, Simla.
Dated—the 12th September 1919.

With reference to your letter, dated 20th August 1919, I am directed to say that His Excellency has carefully considered the voluminous Secretariat file arising out of Sir Claude Hill's letters to His Excellency Lord Pentland, dated 10th July 1918 and 9th September 1918, on the subject of the formation of the Charity Organization Board. I find also in the file a telegram of the 29th of January 1919 addressed to His Excellency's Private Secretary requesting him to 'expedite reports regarding Provincial Charities.'

When the first of these communications was received official action was taken by the Madras Government requesting all District Magistrates and the Commissioner of Police, Madras, to furnish as early as possible complete particulars of each charity within their local

jurisdiction including details of its administration, the address of its working committee and Secretary, its sources of income, annual expenditure and any other distinctive or essential features; and a communiqué was published in the Press at the same time specifying the objects of the proposed Charity Organization Board and inviting the managing bodies or others responsible for charities to give assistance to District Magistrates and the Commissioner of Police in regard to the compilation of the information desired. The local inquiries which followed on this official reference varied from district to district owing to the construction placed by different officers upon the word 'charity.' Some gave this the widest possible scope and gave details of all classes of charities, including such items as travellers' choultries, tanks and topes, water-pandals and other endowments in origin of a charitable nature but in no sense constituting a present demand upon the charitable public. On the other hand, other officers have apparently gone to the opposite extreme and report that in their districts there are no charities of the kind contemplated, the view taken being presumably based upon a rigid interpretation of the expression '*organized public* charities' which is used in the definition of the fourth object of the Charity Organization Board.

This varied information has, however, been laboriously compiled and printed up in the Secretariat in the shape of two lists under the heads (i) war charities, and (ii) other charities, of which I enclose proof copies. A reference to these lists will show that they include much information which is of no practical value for the purposes of the Charity Organization Board; and it seems possible that there may also be serious omissions owing to the fact that the reference was addressed only to District Magistrates and the Commiseioner of Police and no steps were taken to get directly into touch with the various missionary organizations, the Treasurer of Charitable Endowments, and the Board of Revenue which in this Presidency exercises a general superintendence over charitable institutions. There is, however, another consideration which must be taken into account before an endeavour is made to remedy these defects and compile a complete list of charities. I refer to the fact that the Peace Treaty has now been signed and most of the war charities have either come to an end or are in process of being closed down. The scope of the Charity Organization Board has thus materially narrowed.

I am to add that according to His Excellency's recollection the Bombay Government sent Sir Claude Hill a list of war charities but considered that there was no adequate reason to go to the immense trouble of finding out all the local charities in the Presidency. Although the Madras Government have compiled a list of sorts, His Excellency is not in favour of the creation of a Central Board of Control at Simla of all local charities which he thinks can be more suitably supervised, if central supervision is necessary, within the Presidency.

P.S.—I regret that the proof sent is uncorrected and unchecked.
