Commissioner of Police.

No. 35.

ORDER THEREON, No. 1234, dated 25th September 1857.

In Extract Minutes Consultation, No. 361, dated 25th March last, the Government, with reference to a recommendation from Colonel Boulderson, that certain Police peons, incapacitated for further employment, might be admitted to the benefits of the "Police Superannuation Fund," constituted under Section XVII, Act No. XLII of 1856, observed that (the Act being a very recent one) the "Fund" can scarcely be considered to have been fully established. They resolved, however, on the special recommendation of the Commissioner, to extend its provisions to the men alluded to, to which end Colonel Boulderson was requested to submit a Roll of their names, particulars of service, &c. This Roll has now been furnished.

2. The Government observe that in many of the cases, the amount of pension applied for has not been calculated in the manner prescribed by the Act. The basis of which is the average salary of five years preceding the application, and not the salary of the applicant's present post. The Garrison Surgeon, it is also remarked, has not been able to certify to the incapacitation of two of the peons. These men's names should therefore be struck out. During the period they are absent from duty for the change of air recommended, the question as to their salary must be decided by the rules in force in the department. The Government see no reason to make their case a special one.

3. The Roll is returned in order that Colonel Boulderson may make the above alterations. It also becomes necessary to enquire of the Accountant General what is the exact sum at present to the credit of "the Police Superannuation Fund" in the Books of his office. The pensions assigned under the Act are to be met wholly out of the "Fund," the sources of which are clearly defined in Section XVII. No part of the expense is to fall upon the general revenue of the State; the object being to provide by other means pensionary allowances or gratuities to those members of the Police force, who are of a "class not entitled to the benefit of the Unconvenanted Service Pension Rules."

4. The Commissioner will further revise the Roll with especial reference to the remark last made. If any of the officers in the list now returned are of a grade entitled to pension under the general rules for the Unconvenanted Service, any sums deducted from their pay under an erroneous application to their cases of the provisions of Section XVII of the Act must be refunded; their names must be struck out from the Roll, and applications on their behalf submitted separately to Government in the Civil Pension Department.
