No. 34. Extract from the Minutes of Consultation, dated 23rd December 1857, No. 1664.

Read again letter from the Register to the Court of Sudder Udalut, dated 11th February 1857.

1. With their Register's letter of 11th February 1857, the Court of Sudder Udalut submitted a correspondence regarding the dilapidated and highly dangerous state of the portion of Termal Naick's Palace in which the Sub-Court was held, with a plan and estimate, amounting to Rupees 550, for converting another part of that Palace into a Court House for the Sub-Judge. The Government deferred passing orders on this letter until the receipt of the general report on the present condition of this building called for in Extract Minutes Cousultation 28th April 1856, Public Department, No. 472.

2. In this report, since received, the portion of the Palace formerly occupied as the Sub-Court and which, in the above communication it was proposed to abandon, is described by the District Engineer as being in a very dangerous and ruinous condition, which might perhaps be rendered safe by a vast expenditure of money.

Extract Minutes Consultation, 8th September 1857, Public Department, No. 1267.

3. Under these circumstances, the Right Honorable the Governor in Council sees no objection to the proposal for adapting the portion of the Palace on the north side of the Civil Court to the purposes of the Sub-Court in the manner recommended by the District Engineer, but before passing final orders he would desire to be distinctly informed whether the work for which the estimates have been furnished will be so executed as not to interfere with the architectural character of the Palace, and if it would, in what manner the two might be made to harmonize, and, if at any, at what additional cost.
