Proceedings of the Madras Government, Judicial Department, for the month of November 1859.

No. 23. Read the following letter from Lieutenant Colonel J. H. BELL, Chief Engineer; to the Secretary to Government, Public Works Department, dated 13th October 1859, No. 6088.

Enclosures 3.
1 Letter from Acting District Engineer, Canara, dated 31st August 1859, No. 470.
1 Report.
1 Abstract Supplemental Estimate.

With reference to Extract Minutes Consultation, No. 116, dated 25th January 1856, I have the honor to forward herewith a revised estimate of the cost of constructing the proposed Police Tannahs at Eckumbi and Munchekerri in the Canara District, entered as item No. 57 in the Budget of 1859-60.

2. The District Engineer brings to notice that the rates allowed in the original estimate for the work, are inapplicable to the present time. The original estimate amounted to Rupees 132 at Rupees 66 for each Tannah. The revised estimate amounts to Rupees 200 at Rupees 100 for each Tannah. The additional sum, therefore, which requires the sanction of Government is Rupees (68) sixty-eight.

3. I request that the Government will be pleased to sanction the revised estimate now submitted, leaving it to the District Engineer to decide whether, under the present restrictions on expenditure, the proposed Tannahs are of that urgency which requires their immediate erection out of the allotment of Rupees (10,000) ten thousand granted for Canara District, for the current official year.

4. The rates allowed in the revised estimate have been duly examined and found to be those prevailing at present in the District.

Transferred to the Judicial Department.

(Signed) L. FORBES,
Deputy Secretary to Government.

15th October 1859.

No. 24. ORDER THEREON, 3rd November 1859, No. 1484.

The enclosures (in original to be returned) received with this letter, will be forwarded to the Inspector General of Police for his report.

2. The Chief Engineer is requested to obtain and forward to Government the plans of the Tannahs, on which the estimates have been framed.

3. It is observed, that Mr. Robinson has still to recommend models for "Station Houses," as required of him in Extract Minutes Consultation 8th April last, No. 481.

(Signed) T. PYCROFT,
Chief Secretary.

Exd. F. Cartledge.

Memo:

After careful search it has been found that no copies of the original Plans sanctioned for Tunnahs in Canara were kept in the Central Office. It will therefore be necessary to call for the originals from the District Engineer to whom they were sent in 1855. but as this will cause much delay the undersigned begs to be informed whether in reference of the Chief Engineers letter of the 13th Ultimo a fresh Plan is still considered necessary or from which no deviation is intended to be made having already been sanctioned by Government.-
