PUBLIC WORKS DEPARTMENT.
Judicial.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read again letter from the Chief Engineer dated 18th and recorded in Proceedings of Government 21st October 1859 No. 2470.

Read also the Proceedings of the Madras Government in the Judicial Department.

Ordering that such sum as Mr. Rhode may require for the Uttakamund jail within the balance of the estimate be placed at his disposal. } (Here enter 28th October 1859, No. 1457.)

ORDER THEREON, 23rd November 1859, No. 2736.

The order of May 6th 1859 No. 1069 directed that the funds to be obtained by the sale of the timber purchased for the Kistna annicut bridge should be devoted to the completion of the canal communication between Bézwáda and Douleswarum, left in an unfinished state on the stoppage of works in 1857; and this order received the sanction of the Government of India.* But in his distribution of the amount allowed by the Government of India for public works in this Presidency during the current year, the Chief Engineer made a separate provision for that canal; for the reason, as he explains in this letter, (paragraph 6,) that he did not then know whether any and how much of it was realized.

* From Govt. of India June 3rd 1859 communicated to Chief Engineer in an order of July 3rd 1859, No. 1799.

2. He has now reported in another letter* that it may certainly be assumed that 80,000 Rupees will be received for the timber during the current official year, and this sum therefore is available for the canal. But the Government have ascertained that the amount assigned to that work by the Chief Engineer out of the 67 lacks of Rupees allowed for Public Works in this Presidency during the current year, is only 67,000 Rupees. The Governor in Council now resolves to direct that 67,000 Rupees out of the 80,000 Rupees to be received for the bridge timber be made available for the canal, thus setting free the same amount out of the funds sanctioned by the Government of India for the works included in the budget. The Chief Engineer will then submit a supplemental distribution list of this sum of 67,000 Rupees, distributing it to those districts and those works, where, on the whole, he may be of opinion that such additional funds are most urgently required.

* Nov. 8th 1859 No. 7013 paragraph 6.

3. In this distribution he will include the following provisions.

	Rs.
1.—For the Uttakamund jail referred to in the letter now under notice	20,000
2.—For the works in Ganjam specified in his letter of the 8th November No. 7013, above noticed.....	12,000
3.—For an upper story to certain buildings at the Mint, as described in the Chief Engineer's letter of the 24th October 1859 No. 6480	8,130
Total.....	40,130

Orders for the commencement of these works should be given immediately.

4. For the remaining 26,870 Rupees, the Chief Engineer will submit a distribution list, after due enquiry and consideration.

5. It will be understood that no part of the 67,000 Rupees thus assigned to the canal out of the timber money can be taken for any other work; but on the other hand, if the local officers find it practicable to spend more than that sum on the canal work in the current official year, the whole of the money received for the timber may be made use of for the purpose.
