Fort St. George, Judicial Consultation, 12th April 1859.

Read the following letters.

No. 55 From P. GRANT, Esq., Acting Magistrate of Malabar, to T. PYCROFT, Esq.,
Chief Secretary to Government, Judicial Department, Fort Saint George, dated Cal-
cutta, 12th March 1859, No. 14.

Sir,

* Since 25th March 1859. Mr. Ouchterlony, has written me a letter,* copy of which is herewith enclosed, and which he intimates he proposes to send to the Right Honorable the Governor in Council.

2. The explanation of the matter in a few words is simply, that the Talook authorities have been penetrated with fever.

3. I beg to enclose for the information of His Lordship a copy of dated 25th March 1859 of my letter to Mr. Ouchterlony. A. that has taken place is much to be regretted, but when the climate proves so prejudicial to health, I do not see what more could have been done under the circumstances. I have just (last night) returned from Wynnad, where of the Government officers have had night attacks of fever, but by timely recourse to medical aid I trust these occurrences may be avoided.

4. I shall address the Government in a day or two in reply to Extract Minutes of Consultation, dated 25th February last, my hands have been so full with the annual assessment, that I have been unable to give the matter due attention as yet; and latterly I was obliged to press on the work to enable me to let the people get away quickly, as small pox was raging with deadly effect in several localities around and at a distance from me.

From P. GRANT, Esq., Acting Magistrate, to J. OUCHTERLONY, Esq., Ootacamund,
dated Calcutta, 12th March 1859, No. 571.

Sir,

I beg to acknowledge receipt of your letter of the 30th Instant, and to express my regret at the expense and trouble required to be incurred in reference to your complaints, but adverse circumstances have had a most serious thing to do with it.

When I received your letter about the complaints, I did every thing I believe that could be done in the way of sending medical aid. But it was not until I reached Wynnad lately that I discovered the true cause of the sickness which had been displayed. I then discovered that the illness of Talook and Pindars had been penetrated with fever, the latter was very much reduced, and I have got off his bed to come and see me at Sultan's Battery, the former came to meet me at Calicut, but he was so weak that he was unequal to any work, and the night afterwards he was suffering from Malaria, he has brought his fever a second time. I trust he will be able to contribute his only share to the cause. His wife also I may mention is now suffering with fever. The Pindar has been obliged to come down to the low country, and will have to return to Wynnad.

I have been but once down to Wynnad, the Police Assistant Pindar, who is Acting Talook, and I am trying at a loss to get people to send into the talook. So great is the dread of the disease.

Wynnad is 1,000 square miles in extent, so you may imagine my position with only one subordinate officer to be responsible for, however, he has been directed to proceed to Chundaband and see how far he can be in discovering the perpetrators of the theft committed in your office.

I am in correspondence with Government as to the best means to be adopted for the prevention of the prevalence of the disease, and the repression of crime at Chundaband, and I trust that they will prove much more satisfactory than the existing state of affairs.

Acting Magistrate.

I had the honor to receive on the 13th of June, your letter of the 8th Instant. It appears that you had given instructions to the Hon. of John at Lancaster, and to the Justice of the Peace in reference to the selling of Coffee for my store. I concluded that was better of course. Their functions were not to be met at the regular on the spot, but I waited in vain for their appearance. I was told that the Justice, being out yesterday in the first instance had been sent for yesterday, the object of which I could not understand. I did not know I left the Estate two days ago, then was, together with others and

as to things appeared at the time
some one was to be taken at home
but he stated that they had all
been discharged at the moment and
one had to return to the Court
for the case. I had been in
different meetings, and they
were all not opposed to me but
as the new offering before me
the idea of a future meeting at
place before to be put off
at the convenience of the
meeting, a meeting to be making
a new kind of a meeting that had
been before and then at the time
large in numbers of my friends
in the spot, but the meeting was
delayed in the absence of the
person in that the meeting
at the convenience of my friends
they could not obtain as the the
meeting was expected to be long
delayed in the case of the

before I could tell
anything of the case to my

my report to Government for some
apparent Public Authority being
delivered in any part of my
and as in furtherance of the purpose
I thought to forward a copy of the
letter to the Bishop in Council,
I must be allowed here to recapitulate
the facts connected with
my recent application to the
Bishop in Council, in order that
they may notice the case intelligibly.
At the latter part of
last year, being at a sea sickness,
a bad state of things at home
of amongst the labourers in one
of my estates. In December I
took leave of myself, and paid
on East Indian of great value
Hutchinson spent the Third and
valuable among the labourers and
a kind of papered resistance to
doing a great deal, with the
the day pay, In the latter
part of December I had occasion
to go to Cotacumana, I was
watched by the company, away for

to the fact that he was getting the
and upon it himself, and that
all the papers of the last thirteen
years of the case are there.
I have been nothing more, and
exactly that in the papers
has been sent to the President,
and so that all have been as-
signed, as stated on the other
the circumstances. The last in-
vestigation of the case.

Spent the week
at the hotel near the river, in the
large village. But to the place
for my coffee, in the same
small village. I found
the best coffee in the place
especially in the same village
of the village. There is a small
hotel in the village, coffee,
and a small hotel in the
heart of the people about the river.
I stayed at the hotel at the same
time to report the committee &
the state of the river at the same time.

William B. Ewing, This letter
 is not a ^{real} protest of opinion
 by thought of words, and that it
 was not his duty, a prejudicial
 delay, the reason for it the
 only opinion, to the place of
 in the subject. As to the
 matter of my letter to the
 place, nothing of 12 years ago
 I had any reply whatever. I have
 considered that of the receipt of
 the instructions addressed to me
 your letter of the 8th of June I
 shall speedily, have all my
 employees subjected to that
 rigid investigation on the spot,
 but will also direct who had
 really been concerned in the robbery
 and how it has been carried on.
 The exact of the parties, who,
 the same little means to that,
 must have been the principal
 in it, and to make others who
 found to make connections, and
 it was ascertained that there were

and amongst them (Captains, Capt
calls and clerks, about the time
which was to have ended your
days may have been killed,
certainly the being ordered to
shoot in a field where the
man was away from the place
directly in front of that the
Colonel was coming, and pro-
ceeding to the discovery, of the
robbery, a large number of men
were left to leave from the village
before they assembled at the next
day day pair of men allowed to
go. But the same day of next
day was a day of suspicion and
doubt, all until the Police
investigation should have taken
place. It seems very evident that
the only way to light upon
guilty persons, both the
father of the robbery and the
master of the place, but also the
law protected by the presence
of the Police of a "Honor Guard"

The (presumably) suspected parties
have been sent for and even sent
for to that remote spot, and
after a search have questioned
in the, have been dismissed from
custody, and sent back to the
scene of the probable injury
in a sort of triumph, to teach
by the Colonies by the example
of this prisoner, that robbery,
can be perpetrated with impunity,
and that it is a small offence to
robustion & to disregard an officer
of the law his duty, and all
endeavour to show that with the officer
is considered worthy, of the most
indign, character of Police
investigation.

It is desirable to have
the witnesses I am obliged to set
for examination, I am obliged to
pay up the cost of the people
to meet here, but a more in-
teresting, than to pay up that
the people are not here then
left

Letting for this is before I debate
the real offender, in this, as
a public man than a private,
injuring, as there, a human a crime
is committed with impunity, as
the public interest is not as
any and must appear in the
present case, that the most
extraordinary, except of the
Mauritius, etc.
