Judicial DEPARTMENT.

G.O. No.	532	Pres. Mis.
68-69		
Dated 18 th April 1957		

Not to be folded or roughly handled

Fort St. George, Judicial Consultation, 19th April 1839.

Read again letter from the Magistrate of Tanjore, dated 25th August 1838, No. 321.
No. 321. Read the following Petition.

To His Honouring the Right Honourable the Governor in Council, &c., &c., &c., Fort Saint George.

The humble petition of Innabekoon of Archa,
merchant, now at Nagore attached to the Dis-
trict of Amalut.

May it please Your Lordship.

That your Lordship's petitioner most respectfully begs leave to inform your Lordship, that he reported some goods containing Sulphur at Poonag on the Barque Naval by the permission of the Captain of the Barque, and these goods were manifested at the Sea Customs of Nagore and were cleared by the order of the Manager on the 25th June last. The Manager after clearing the duty of an other goods beside Sulphur, informed that he must do it upon the order of the Customs and the Collector issued an order that the Sulphur about 12 and odd caddies should be returned back to Poonag, upon which your Lordship's petitioner applied to the Board of Revenue, which endorsement is enclosed hereto.

That Your Lordship's petitioner begs leave to state, that if the Sea Customs of Poonag or the Customs of the River had told him not to ship the Sulphur, he would not dare to do it, and as the Sea Customs Manager of Nagore, had told about it at the time, when the goods were manifested, the Sulphur should not have been loaded, and will be returned on the same Barque. Now to ship this thing as customs will not to Poonag and it is unreasonable also to order for not to ship the Sulphur to Poonag. Your Lordship's petitioner is a stranger, and one that don't know the name of the port as a merchant of it not only he suffers great loss and also he is detained here more than 10 months without going to his place Archa.

Therefore Your Lordship's petitioner most humbly beseech your Lordship to be so kind as to grant him an order to dispose the Sulphur here as to be purchased in Government at the current rate.

For which act of charity your Lordship's petitioner as in duty bound shall ever pray.

Nagore 25th March 1838.

(17)

To the Right Honourable the Board of Revenue.

The humble petition of Innabekoon Kurno of Archa,
and who is now a resident at Nagore.

Most Humble Sheweth.

The humble petitioner most earnestly begs the Honourable Board to look over with attention the following two cases in which he begs to be heard as he requested.

The humble petitioner having loaded the British Barque Naval in Archa with the permission of the Captain of the above named Barque, loaded at Nagore, where according to the Captain's order, the petitioner having obtained a manifest, exported the goods (namely Sulphur) which contained of Sulphur, and some others. The Manager of that port received the duty of all the goods, but of Sulphur, which he informed the humble petitioner to be a thing which must be done after the receipt of the Collector's order. But when the Manager informed the petitioner, he said that his duty ought not to be received, but to be sent to its former place.

It being the Poonag Government from which the petitioner brought this, as the Captain would have informed me that the petitioner would not have done this. Also if the Manager had not before the petitioner exported it, he would have sent it again. And was not the case, and now when the petitioner had exported it, the Manager tells him to send back to the same place. To me then, there is not such a want of ship, but the merchants will not take only this, and the petitioner is not only a stranger to this place, but also one who is quite a merchant of Nagore. The petitioner has come here on merchandise and staying here for 10 months for his goods. He has a great expenditure here, and not only that he is under great anxiety to go to Archa.

1. The first step is to identify the problem. This involves understanding the situation and the goals that need to be achieved. It is important to gather all relevant information and to define the problem clearly.

See serial 10 of this case for further information on the above and on the subject of the same.

Report, 10 December 1944.
