Port St. George, Judicial Consultation, 29th April 1859.

No. 3. Read the following letter from C. W. READE, Esq., Agent to the Governor, Victoria, dated 17th March 1859, No. 128.

Dear Sir,

Para 1. I have the honor to acknowledge the Proceedings of Government dated 2nd May 1859 No. 237, Judicial Department, respecting my recommendation, Captain Owen to be an Assistant to the Agent in charge of his recent valuable services in connection with the distribution of the post paid to the town of Otago.

2. Government observe in para. 2 that it is not in their power to confer on Captain Owen any additional salary beyond the entire salary to which he will be entitled under the ordinary scale.

3. I am extremely glad to hear Government on the subject, but I think my doing so has produced in the minds of the public that prompt me, because Government are not aware that Captain Owen can serve really benefit by the entire salary under the ordinary scale. His position is peculiar. The duties make him almost a fixture at Napier, which is in the very heart of the business town and the very place where his presence is of such value and over which part of the business I propose he should exercise exclusive Executive supervision and control in all the transactions appertaining to his functions as my Assistant to the Agent, and I am sanguine that a consideration of the fact may induce the Government to relax the rule in regard to salary, and to grant Captain Owen's case as an exceptional one by granting him the privilege of drawing the entire allowance throughout the year wherever he may be employed.

4. The purpose of the additional allowance only when elsewhere than in Napier would necessarily make of the salary of Captain Owen to locate himself and his family in that place, which is not object that his services should be especially devoted to that part of the District which is most and with the people he is so familiar and over whom he has such influence. His services being also gradual, which they strictly are at present, suppose on his return to my office, and to about Captain Owen's case as an exceptional one by granting him the privilege of drawing the entire allowance throughout the year wherever he may be employed.

5. During the distribution Captain Owen was much exposed on the part of the Government of those who had dared to take up arms against Government and he was the more so because he was the Minister and Civil capacity to capture and bring to justice the offenders, and to his own efforts as I have already mentioned may be attributed the result which has ensued. For all the additional labor which was on a constant and exposed and rendered as cheerfully for service Captain Owen rendered nothing whatever as Government are aware and through to my entire knowledge of those penetrated with fear, he kept at his post at his own risk and ultimately meted out all our mutual plans and wishes for the entire suppression of the distribution, which but for his energy and zeal might have involved Government in a civil war and expense. This I am confident the Government will view Captain Owen's services as serving at least of the right mark of favor by permitting him to draw the entire allowance throughout the year. Many Civil Officers enjoy this privilege where not attached to a particular office of the public service, and Captain Owen's case is no far from being remarkable in himself has already provided and still provide the recommendation necessary for the recommendation of his case, I therefore earnestly trust the Government will receive with favor of it. I have now signed my own recommendation and pass the requisite orders to the Office of Agent to submit Captain Owen's monthly bill for entire salary as a permanent charge so long as he continues to hold the post of Assistant Agent.
